Division: System Access & Information Services

Contact(s): Daniel Flanigan

Phone: 503-988-5431

Ext. _____

I/O Address 317/LAL

Presenter Name(s) & Title(s): Jon Worona, Library Director of Digital Strategies

General Information

1. What action are you requesting from the Board?

Convene as the Multnomah County Library District Board and authorize an appropriation of \$56,250 to the Library District Fund (1520) for the Digital Inclusion Fellowship Grant from the Nonprofit Technology Network (NTEN).

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

Library District Budget Modification MCLD-01 to Fund 1520 is presented in conjunction with Budget Modification LIB-03-17 to Library Fund 1510. Revenue from the NTEN grant is received in Library District Fund 1520 and transferred to Library Fund 1510, where the grant related expenditures occur.

The grant period is July 1, 2016-June 30, 2017. The one-year grant includes a cash contribution of \$56,250 from the Nonprofit Technology Network (NTEN) and an expenditure match of \$45,064 by Multnomah County Library.

Multnomah County Library was selected as a City Host for a Digital Inclusion Fellowship through

the Nonprofit Technology Network (NTEN) in partnership with Google Fiber. This is the second year of a national program designed to help bridge the digital divide in Google Fiber cities. A City Host is a community-based organization that has the expertise, skill and commitment to tackle the digital divide and libraries are one of the four core missions that were called out for this round of applications.

The program provides a full time paid Fellow for one year. The Fellow will serve as the library's Digital Equity program coordinator and bring a sustained focus to the library's efforts to help adults in Multnomah County have the digital skills necessary to fully participate online.

Digital inclusion is the core of Multnomah County Library's mission of empowering our community to learn and create, as well as a strategic priority: "We build digital literacy." The library is the largest provider of free broadband access, equipment and training in Multnomah County and will host approximately 2 million free Wi-Fi and public access computing sessions this year.

This grant directly supports the library's work as a founding member of the Digital Inclusion Network (DIN), a community coalition focused on creating digital equity in Multnomah County. The DIN was formed in partnership with the City of Portland Office of Community Technology and the Multnomah County Department of County Assets. The Fellow will provide leadership for implementation of the Digital Equity Action Plan for Portland and Multnomah County that the Board of County Commissioners adopted in April, 2016.

The focus of this work is to expand digital literacy to other local partners and goals include: 750 people trained; a 10% increase in number of participants who have a desire to have Internet in their home; 2,700 training hours; 60 computer hours in labs or workstations; and 50 trained/skilled volunteers supporting digital literacy.

3. Explain the fiscal impact (current year and ongoing).

In the current year revenue from Non Government Grants (50210) is increased \$56,250; expenditure in Pass Thru & Program Support (60160) is also increased \$56,250 as a transfer to Library Fund 1510.

4. Explain any legal and/or policy issues involved.

None

5. Explain any citizen or other government participation.

Potential partners include those already providing programs, events and training for adults including Goodwill Industries, Human Solutions, Worksource Oregon and Portland Community College. Additional partners include the many institutions and community organizations that participated in drafting the Digital Equity Action Plan and are committed to implementation of the plan, including Free Geek, IRCO, Latino Network, Rosewood Initiative, Portland Community College, City of Gresham, Technology Association of Oregon, Portland Community Media, Reynolds School District and many others throughout the county.

Budget Modification

6. What revenue is being changed and why? If the revenue is from a federal source, please list the Catalog of Federal Assistance Number (CFDA).

50210 – Non Government Grants is increased \$56,250.

7. What budgets are increased/decreased?

Revenue : 50210 – non Government Grants is increased \$56,250;
Expenditure: 60160 – Pass Thru & Program Support is increased \$56,250.

8. What do the changes accomplish?

Allow for creation of Digital Inclusion Fellow position and funding for digital inclusion project.

9. Do any personnel actions result from this budget modification?

No.

10. If a grant, is 100% of the central and department indirect recovered? If not, please explain why.

The grant does not allow for indirect cost reimbursement; central indirect is a part of the Library’s match, and is accounted for in the Library Fund.

11. Is the revenue one-time-only in nature? Will the function be ongoing? What plans are in place to identify a sufficient ongoing funding stream?

This is a one-time, one-year grant. It may be possible to renew the fellowship for one more year. Ongoing activities will be folded into Library and partner operations.

12. If a grant, what period does the grant cover? When the grant expires, what are funding plans? Are there any particular stipulations required by the grant (e.g. cash match, in kind match, reporting requirements, etc)?

The grant period is July 1, 2016-June 30, 2017. When the grant expires, costs for any ongoing activities will be folded into Library and partner operations as feasible. The grant requires a cash match for the Fellow salary and for the project budget. The fellow is required to make monthly reports to NTEN; the library, as a city host, is required to make quarterly reports as well as an end of year report.
