1. Brief overview of grant's purpose and/or impact.

This announcement solicits new and competing continuation applications for fiscal year (FY) 2018, Ryan White HIV/AIDS Program Part C Early Intervention Services (EIS) for designated jurisdictions. Funds support outpatient HIV primary care services targeted to low-income, vulnerable, medically underserved people living with HIV (PLWH). Multnomah County HIV Health Services Center (HHSC) was established with Part C grant funds in 1990.

The HHSC serves the Portland Transitional Grant Area (TGA), a six-county area that includes Multnomah, Washington, Clackamas, Columbia, and Yamhill counties in Oregon and Clark County in Washington. MCHD is the only agency in Oregon that receives Ryan White Part C funds. The HHSC is the largest single provider of HIV-specific care in the Portland Metropolitan Area (serving one out of three PLWH in the TGA) and is recognized locally and nationally as a center of excellence.

Since its opening, HHSC has been committed to ensuring services are accessible to marginalized and hard-to-reach populations. HHSC's primary focus is on serving PLWH who are uninsured, underinsured, and low income, and as a result, slightly over one-fifth of these clients are homeless or unstably housed. MCHD conducts outreach and provides enabling services, such as transportation assistance, to facilitate engagement in care. Case managers spend time locating unstably housed clients for appointment reminders and follow-up to ensure client retention, especially for patients dually or multiply diagnosed with mental illness and/or substance abuse disorders.

Over the past several years, the number of low-income PLWH with complex medical and psychosocial needs has continued to increase, accompanied by an increase in the cost of care for these individuals and a decrease in insurance reimbursement. This has put an increased burden on the HHSC to provide more services with less funding. EIS funds are essential to ensure that low-income PLWH, especially those who are uninsured and underinsured, have access to comprehensive, quality medical care. These funds have been instrumental in helping the HHSC create a unique primary care medical home focused on the needs of PLWH. This model of care helps HHSC achieve high rates of retention in care that help improve health outcomes for PLWH and help them to achieve viral load suppression, thus preventing new infections. In 2016, HHSC served over 1,400 patients.

2. Brief overview of how proposal is aligned with Department's strategic direction.

The proposed project fits squarely within the Health Department's mission: *In partnership with the communities we serve, the Health Department assures, promotes and protects the health of the people of Multnomah County.*

3. Describe any community and/or government input considered in planning for this grant.

Planning for this funding opportunity with other health department programs, community partners and the client advisory board is ongoing.

4. What partners may be included in program activities?

MCHD has partnerships with multiple community-based organizations to in the provision of a comprehensive continuum of HIV care to its patients. Examples include Cascade AIDS Project, OHSU Russell Street Dental Clinic, and Quest Center for Integrative Health.

5. Generally, what are the grant's reporting requirements?

The awardee must submit reports annually

Please complete for NOlson the Regular Board Agenda ONLY:

6. When the grant expires, will your Department continue to fund the program? If so, how?

When the grant expires, the Health Department will apply for the next round of competitive funding.

7. Are 100% of the central and departmental indirect costs recovered? If not, please explain.

No. Ryan White limits indirect costs at 10% of total award.

8. If the proposal is not aligned with your Department's strategic direction, explain why you are pursuing it at this time.

N/A

9. If the grant requires a cash match, how will you meet that requirement?
