

Sonya Fischer

For House District 38

sonya@sonyafischerlaw.com
(503) 635-3548

Dear Multnomah and Clackamas County Commissioners,

I am seeking appointment to HD 38 because I think I can help. **Of the candidates, I have the most legislative experience. I've been an intern, a legislative aide, a parent advocate, a lobbyist, and an agency staffer. I'm confident I can bring people together to get things done.**

As a young mother of a child with significant developmental disabilities, it was difficult to gain access to services and education. Because I had been an intern and a legislative aide and I knew how to pass legislation, I began advocating for families like mine. In the 1990's, Oregon was one of three states that did not have support services for families struggling to keep their children at home. It took nearly a decade, but we did succeed.

I also advocated to pass legislation ensuring that children with disabilities could remain in their home school district, and served as Early Childhood Program Development Specialist for Multnomah County. I worked with Senator Frank Shields to promote early childhood legislation that successfully integrated brain research into training for child care providers.

Opening my family law practice in 2005 has not slowed my advocacy efforts. I worked on behalf of Family and Community Together to pass anti-bullying legislation and, as Department of Human Services Legislative Director, I have a deep knowledge and understanding of the DHS budget which is one of the largest pieces of the General Fund. **I could be an asset to ensuring our limited dollars get to where they are most needed.**

As a small business owner in Lake Oswego, I know first-hand what it means to do business here. I've been a member of the Lake Oswego Chamber of Commerce, serving on the Governmental Affairs Committee. As a human services advocate, I know it's critical that we have a vibrant economy that provides family wage jobs. **We must do everything possible for job development and small business growth.** It is only with a strong economy that we are able to provide for strong schools, foster the public's safety, and sustain a strong safety net for our most vulnerable citizens.

I know that being a legislator with constituents in both Clackamas and Multnomah county won't always be easy. Sometimes, there will even seem to be competing interests. But as someone who has lived and worked in both counties, I can represent both well. As a negotiator who has advocated for children and families in the most difficult situations, **I know I have the skills to listen, learn, keep my cool, and work with coalitions of unlikely allies to find solutions that work for House District 38.**

Thank you for considering me as our State Representative for HD 38!
