Department: Community Services **Division:** Transportation-Roads

Contact(s): Riad Alharithi, Capital Improvement Program Manager

Phone: 503-988-0181 **Ext.** 80181 **I/O Address:** 425/2

Presenter

Name(s) &

Title(s): Riad Alharithi, Capital Improvement Program Manager

General Information

1. What action are you requesting from the Board?

We are requesting approval of an Intergovernmental Agreement (IGA) #30898 with the Oregon Department of Transportation (ODOT).

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

The original IGA with ODOT (ODOT Contract #29856) for this Sandy Boulevard Project (Project) states that ODOT will award the contract under the ODOT procurement program. This new IGA#30898 changes the delivery method of the Project to have Multnomah County award the contract under the County procurement rules and the Certification program. The Transportation Division anticipates this change in method will save time, and the goal is to have the Project underway by the Summer of 2016. IGA #30898 completely supersedes and replaces IGA #29856, and IGA #29856 is terminated upon the execution of this new IGA.

3. Explain the fiscal impact (current year and ongoing).

The total cost of the Project is estimated at \$1,375,775. STP urban funds will provide \$659,000 of this amount. The balance will be provided from the County road fund and are available in the Transportation budget.

4. Explain any legal and/or policy issues involved.

This project is included in the approved Transportation Capital Improvement Plan. The Certification Program is an ODOT program that allows Multnomah County instead of ODOT to deliver federally funded projects. The Program requires implementation of project management practices approved by ODOT and Federal Highway Administration (FHWA) that the County is already implementing.

5. Explain any citizen and/or other government participation that has or will take place.

The Project is in the 2015-2018 Statewide Transportation Improvement Program (Key #18020) that was adopted by the Oregon Transportation Commission on December 18, 2014. Transportation Division engineering staff have been in contact with community stakeholders throughout the design development period and hosted a public meeting on June 23, 2015 at the Fairview Community Center.

Required Signature

**Elected
Official or
Department
Director:**

Kim Peoples

Date:

12/29/15

Note: Please submit electronically. Insert names of your approvers followed by /s/ - we no longer use actual signatures. Please insert date approved.
