

## Final Recommendations at a Glance

### ***Transit:***

- Provide a phased light rail loop in Clark County in the vicinity of the I-5, SR500/4<sup>th</sup> Plain and I-205 Corridors.
- Provide peak-hour, premium express bus service in the I-5 and I-205 Corridors to markets not well served by light rail.
- Increase transit service in the Corridor over the next 20 years called for in regional transportation plans.

### ***Interstate 5:***

- The I-5 freeway between the Fremont Bridge in Portland and the I-205 interchange in Vancouver will be a maximum of 3 through lanes in each direction. This includes widening I-5 to 3 lanes between Delta Park and Lombard, and 99th St. to I-205 in Vancouver.
- Designate one of the 3 through lanes for use as a high occupancy vehicle (HOV) lane during the peak period, in the peak direction.
- Add a new supplemental or replacement bridge across the Columbia River with up to 2 auxiliary and/or arterial lanes in each direction, and 2 light rail tracks.
- Improve interchanges between SR 500 and Columbia Blvd to address safety and capacity problems -- including making Columbia Blvd into a full interchange.
- In adding river crossing capacity and making interchange improvements every effort should be made to: 1) avoid displacements and encroachments, 2) minimize the highway footprint and 3) minimize the use of the freeway for local trips.

### ***Additional Rail Capacity:***

- Pursue the rail infrastructure improvements required to accommodate anticipated 20 year freight rail growth in the I-5 Corridor and frequent, efficient intercity passenger rail service.
- Establish a public/private Bi-State rail forum to advise regional decision makers about prioritizing, scheduling and funding of needed rail improvements.
- The rail forum and regional decision-makers should encourage funding for:
  - Additional inter-city passenger rail service in the Pacific Northwest High Speed Rail Corridor
  - High Speed Rail service in the Corridor; and
  - The replacement of the existing "swing span" with a "lift span" located closer to the center of the river channel

### ***Land Use:***

- Adopt and implement a Bi-State Coordination Accord to protect existing and new capacity and support economic development.
- Jurisdictions in the Corridor will develop and agree on a plan to manage land development to avoid adversely impacting I-5 or the Region's growth management plans.

## ***Transportation Demand and System Management:***

- Commit to a comprehensive use of TDM/TSM strategies -- alternative modes, work-based strategies, policies and regulatory strategies, pricing and TSM strategies -- and pursue additional funding for transit and TDM/TSM strategies.
- Prepare an "I-5 TDM/TSM Corridor Plan" with guidance from the proposed "Bi-State Coordination Committee"
- Fund and implement additional TDM/TSM strategies now to encourage more efficient use of the transportation system.

## ***Environmental Justice***

- Establish a Community Enhancement Fund for use in the impacted areas in the I-5 Corridor in Oregon and Washington
- Map low-income and minority communities in the corridor.
- Take list of potential impacts identified by representatives of environmental justice communities into the EIS for the Bridge and Bridge Influence Area as a starting point for more analysis.
- Work with affected communities to explore ways to offset impacts and/or bring benefits to the community.
- Develop a public outreach plan for EIS process that includes special outreach to low-income and minority communities.
- Form and coordinate two working groups for the EIS -- one for public involvement and one for environmental justice.

## ***Finance***

- OR, WA and the Portland/Vancouver region should develop a financing plan for transit and highway capital projects
- Tri-Met and C-Tran need to increase revenues for a significant expansion of transit service, starting within the next five years.
- Establish regional transit financing commitments that will allow for:
  - an aggressive bi-state TDM program and
  - an expansion of transit service to support the light rail loop.
- Seek funding to widen I-5 to 3 lanes: Delta Park to Lombard after environmental and design work is completed.

## ***Next Steps/Implementation***

- Fall 2002: SW Washington Regional Transportation Council and Metro review and amend the Regional Transportation Plans to incorporate recommended I-5 corridor improvements.
- Delta Park to Lombard: widen I-5 to 3 lanes
  - Summer 2002-2004: Conduct environmental assessment and design work
  - Post 2004: Construction of Delta Park to Lombard
- 2003 – 2009: Environmental Impact Study on Bridge Influence Area (new supplemental or replacement bridge, interchange improvements between SR 500 and Columbia Blvd., including light rail between Expo Center and downtown Vancouver)
- 2010+: Construct improvements in Bridge Influence Area.
