Written Testimony Regarding the Proposal to Support Placement of the Question of a County Library  
Board on the November General Election Ballot

There is, in these difficult economic times, only one PERFECT time to support an ongoing, long range financial structure for the Multnomah County Libraries.

That perfect time is the present. We cannot afford everything. However, we can LEAST afford a public who has no access to knowledge.

Therefore, I urge the Commissioners to vote, unanimously, in favor of placing the issue on the ballot.

Thank you for this opportunity.
