Brian,

I have reviewed the attached IGA. My understanding is that you are ok with the indemnity language which does not incorporate the more recent approach by ODOT to provide for a more cooperative indemnity obligation between the parties as set forth in my revised draft last summer. In addition the added tasks to the Project at Section 1 in the Terms of Agreement portion seem a little vague with respect to what exactly we are to do with Trimet. As this task is not with a private contractor but another government entity and again I understand you accept these additional obligations, the risk of problems related to this aspect of the work seem remote. All that said the attached November 2012 version of **this IGA has been reviewed and is approved for submission to the BCC for its consideration.** Thanks.
