1. Brief overview of grant's purpose and/or impact.

The purpose of the Centers for Disease Control and Prevention (CDC) Building Resilience Against Climate Effects funding opportunity is to collaboratively implement interventions that build community resilience and reduce the health burden of climate change. The funding opportunity is non-competitive and only open to previously funded grantees. The Oregon Health Authority Public Health Division (OHA-PHD) is one of these grantees and has previously provided sub-contracts to Multnomah County Health Department (MCHD) and four other local health jurisdictions. MCHD has been asked to serve as the lead/fiscal agent for OHA. During the project period, grant funds will be distributed across six jurisdictions, with an additional sum allocated to MCHD for administrative costs associated with serving as the fiscal agent. Project activities are expected to reduce climate and health risks by building the capacity of the public health workforce and community partners to adapt systems and practices in response to new climate risks.

2. Brief overview of how proposal is aligned with Department's strategic direction.

Climate and health work directly supports public health goals by providing technical support and tools that draw from the latest climate and health science. Through strengthened partnerships across the state, the funding will allow for the implementation of collaborative strategies that help address increased climate-related hazards in Multnomah County. Program activities are aligned with the Health Department's mission *to assure, promote, and protect the health of the people of Multnomah County in partnership with the communities we serve*; and the strategic direction of *Relentlessly pursuing health equity*, as it seeks to mitigate the impacts of climate on health in the most vulnerable populations.

3. Describe any community and/or government input considered in planning for this grant.

The statewide collaborative includes OHA-PHD, Benton County, Jackson County, Crook County, North Central Health District, and Multnomah County. With the support of this collaborative, MCHD engaged with diverse stakeholders to develop the first Climate Change and Public Health Preparation Plan. Stakeholders have included the City of Portland, Organizing People, Activating Leaders (OPAL), Wisdom of the Elders, and Multnomah County's Health Equity Initiative. The collaborative has diverse partners including the Oregon

Environmental Justice Task Force, OHA's Office of Equity and Inclusion, and Coalition of Communities of Color.

4. What partners may be included in program activities?

Partnerships include the engagement of multiple public health programs within OHA-PHD, MCHD, and the other 4 participating local health jurisdictions. Program activities will also include engagement with cross-sector partners and community-based organizations within the various jurisdictions.

5. Generally, what are the grant's reporting requirements?

Grantees must submit Annual Performance Reports and Non-Competing Continuations.

Please complete for NOIs on the Regular Board Agenda ONLY:

6. When the grant expires, will your Department continue to fund the program? If so, how?

7. Are 100% of the central and departmental indirect costs recovered? If not, please explain.

8. If the proposal is not aligned with your Department's strategic direction, explain why you are pursuing it at this time.

9. If the grant requires a cash match, how will you meet that requirement?

10. Are there policy issues and/or legal implications related to this proposal that may warrant a public dialog? If so, please explain.
