## General Information

### 1. What action are you requesting from the Board?

Approval for the Director of the Health Department to submit a grant application to the Oregon Health Authority's (OHA) Jail Mental Health Services Program for up to \$700,000.

### 2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

Oregon is investing in a coordinated system of care for children, youth, adults and families by strengthening partnerships, expanding services, and supporting innovation in health care. As the state continues to transform its health care system, OHA generally, and Addictions and Mental Health specifically, are working with community partners to enhance behavioral health services and support health for all Oregonians.

OHA is seeking Proposers to use new 2013-2015 Jail Diversion investment funds to expand services statewide by:

- Increasing the number of individuals served with Jail Diversion Services; and,
- Reducing the number of individuals enrolled in mental health services with law enforcement involvement.

Scope of services includes pre and post booking interventions including:

**Pre-Booking Diversion Outreach Services:** Services provided to individuals that are justice-involved and homeless. These services include street outreach, screening and diagnostic services, community mental health services, alcohol and drug treatment services, staff training, case management services, supportive and supervisory services in residential settings; referrals to primary health services, job training, educational services, and other relevant housing services.

**Forensic Peer Support Specialist – Criminal Justice Liaison Services:** Services provided by individuals that have completed an AMH Peer Support Specialist training and participate in selected jail diversion services.

**Jail In-Reach Services:** Services provided to individuals incarcerated in local jails in order to assist in the arrangement of community based services and facilitate the rapid release of a person to the community.

**Forensic Intensive Case Manager Services:** Services include linking persons with a serious mental illness who have been arrested, incarcerated or on probation to community mental health services and other community services.

Multnomah County Health Department Corrections Health, in partnership with the Department of County Human Services intends to submit an application to support 1) Forensic case manager services in jail booking, provided by Mental Health Consultants in Corrections Health and 2) Jail in-reach services provided by case managers in the DCHS Forensic Diversion program and 3) Community-based Diversion Outreach Services provided by Cascadia Behavioral HealthCare

### 3. Explain the fiscal impact (current year and ongoing).

Funding availability is not specified. Initial contracts are for an 18-month period.

### 4. Explain any legal and/or policy issues involved.

There are no legal or policy issues involved.

### 5. Explain any citizen and/or other government participation that has or will take place.

Multnomah County is in discussion with community partners, including community mental health and the Portland Police Bureau, to design the intervention/get buy-in.
