

BEFORE THE BOARD OF COMMISSIONERS

FOR THE COUNTY OF MULTNOMAH

ORDINANCE NO. 540

An Ordinance, to be administered by the City of Gresham, relating to the regulation of solid waste haulers in portions of unincorporated Multnomah County in order to provide for the opportunity to recycle and declaring an emergency.

Multnomah County ordains as follows:

SECTION I. FINDINGS.

- A. Local jurisdictions, including the City of Gresham (hereinafter "the City") and the County, must ensure the provision of an opportunity for recycling collection, as stipulated by ORS 459, for all areas inside the metropolitan urban growth boundary.
- B. The City and the County have entered into an intergovernmental agreement whereby the County has agreed to prepare a County ordinance extending the City's solid waste hauler regulations into a portion of unincorporated Multnomah County and the City has agreed to administer those regulations within the specified unincorporated area.

SECTION II. ADOPTION OF REGULATIONS.

Exhibit A, attached hereto and incorporated herein by reference, is hereby adopted as an ordinance of Multnomah County, subject to the following modifications:

- A. References to "City" or "City of Gresham" shall be construed as references to Multnomah County.
- B. The regulations contained in Exhibit A shall apply only to solid waste and recycling collection in the area described in Exhibit B, an intergovernmental agreement between Multnomah County and the City of Gresham.
- C. Pursuant to the terms of the intergovernmental agreement attached as Exhibit B, the City shall administer the

regulations in the specified portion of unincorporated Multnomah County.

SECTION III. EMERGENCY CLAUSE.

This Ordinance, being necessary for the health, safety, and general welfare of the people of Multnomah County, an emergency is declared to exist. Therefore this Ordinance shall take effect immediately upon its adoption by the Board of County Commissioners and by the County Executive.

ADOPTED this 30th day of October, 1986, being the date of its first reading before the Board of County Commissioners of Multnomah County.

BOARD OF COUNTY COMMISSIONERS

City of Gresham

SOLID WASTE CONTROL

5.600 Short Title. Sections 5.600 to 5.690 shall be known and may be cited as the "Solid Waste Control Ordinance" and may also be referred to herein as "this ordinance."

5.605 Definitions. As used in sections 5.600 to 5.690, the following shall mean:

Collect. Store, transport or dispose of.

Hazardous solid waste. Solid waste that may, by itself or in combination with other solid waste, be infectious, explosive, poisonous, caustic, toxic, or otherwise dangerous or injurious to human, plant, or animal life; also waste defined by ORS 459.410.

Recyclable materials. Any material discarded by the owner of the material, including, but not limited to paper, cardboard, metal, rubber, glass or plastics, which material can be utilized by another person. For purposes of this paragraph, "utilized" means the use of materials through recycling, reuse, salvage or resource recovery.

Solid waste. All discarded putrescible and nonputrescible wastes, whether solid, liquid or otherwise, including but not limited to, garbage, rubbish, ashes, and recyclable materials, but excluding environmentally hazardous wastes as defined by ORS 459.410 and radioactive wastes.

5.610 Rules and Regulations. After appropriate notice to the public and interested parties, the city manager may promulgate rules and regulations pertaining to the administration of this ordinance and to the collection of solid waste. Copies of any such rules and regulations will be filed with the city recorder.

5.615 Collection of Solid Waste. All residences, businesses and establishments shall provide for collection of solid waste in a manner acceptable to the council.

5.620 License or Permit Required.

(1) Except as otherwise provided in this ordinance, it is unlawful for any person to collect solid waste in the city without first obtaining a solid waste collection license issued by the city.

EXHIBIT A

(2) Except for licensees, any person wishing to collect recyclable material in the city must obtain a permit issued by the city manager. A permit may be issued under the following circumstances:

(a) If the person is a civic, community, benevolent, charitable or similar non-profit organization, the permit may be issued for a period of not longer than one year. No fee shall be charged for the permit. A request for a permit may be denied if the city manager determines granting a permit at that time and for that material would be detrimental to the recycling program.

(b) If a person other than described in subsection (a) desires to collect recyclable materials, a permit may be issued if the city manager determines that the material being collected is not one of the materials collected as part of the home or business recycling program, or such collection will not be detrimental to the recycling program. The fee for the permit charged shall be set by council resolution and shall not be refundable. The term of the permit shall not exceed one year. The council may establish the rates for collection of solid waste by resolution. All provisions of this ordinance except section 5.655 shall pertain to permits granted under this subsection.

5.625 Exemptions. Licenses and permits shall not be required of the following:

(1) Federal or state agencies that collect, store, transport or dispose of solid waste or those who contract with such agencies to perform the service, but only insofar as the service is performed by or for such agencies. The city manager must be notified of all such activities;

(2) Transportation of solid waste through the city that is neither collected nor disposed of within the city;

(3) Sewage sludge, septic tank and cesspool pumpings or other sludge;

(4) Dead livestock, vegetable and animal solid and semi-solid fats and oils;

(5) Hazardous solid waste;

(6) Reusable beverage containers as defined by state statute;

(7) Demolition and construction waste;

(8) Waste materials resulting from the work of a landscaper, gardener or tree service contractor.

5.630 Service Areas; Licensing.

(1) General. A license to provide collection of solid waste in a portion of the city shall be granted only after a determination of need for the service. Ordinarily, if one person has been licensed to provide such collection, another person will not be licensed to provide the same service in the same area. The determination of need is the responsibility of the council which will seek the best balance of the following objectives:

(a) to provide the most effective service at the least cost;

(b) to avoid duplication of service that will cause inefficiency or excessive use of fuel;

(c) to provide service in areas of marginal return;

(d) to promote and encourage recycling and resource recovery;

(e) to improve the likelihood of the license holder making a reasonable profit and thereby encourage investment in modern equipment;

(f) to cooperate with other governmental bodies by recognizing their service arrangements; and

(g) to otherwise provide for the service in a manner appropriate to the public interest.

(2) Allocation of Areas; Map. The solid waste collection service areas shall be determined by council resolution. The service areas and the persons serving such areas shall be indicated on a map entitled "Solid Waste Collection Service Areas of the City of Gresham ("the map"). A copy of the map shall be dated with the effective date of the

resolution and maintained in the office of the city recorder. Amendments to the map may be made by council resolution, and copies of such amendments shall be kept on file in the office of the city recorder.

(3) Annexation. The boundaries of service areas may be altered or a new service area created as a result of annexation of territory to the city within 30 days after the effective date of the annexation. The council shall allocate such service area as the council deems appropriate based on the factors described in subsection (4) of this section, and subject to the provisions of ORS 459.085(3). Until such allocation has been made the person providing collection service to the annexed area shall continue to do so.

(4) Licenses.

(a) Licenses for each service shall be granted by the council on the basis of:

- 1) good service record;
- 2) good financial status;
- 3) adequate equipment and personnel capabilities to meet current and future needs; and
- 4) good moral character related to collection.

(b) Haulers previously holding a franchise under city ordinance shall present information on the four criteria stated in subsection (4)(a) in writing to the council. The council may consider information presented by staff and the public. Upon a determination that all four criteria stated in subsection (4)(a) are met, the council may grant each such hauler a license for the hauler's previously franchised area or amended area.

(c) If the council determines that a hauler who held a franchise should not receive a license, a hauler's license shall not be renewed, or if a license is terminated, the council shall consider applications for a license to serve the affected area from any interested hauler and award a license for that area based on a determination of which applicant best meets the criteria stated in subsection (4)(a).

SEE ATTACHED AMENDMENT

5.635 Duration of License. Licenses granted under the provisions of this ordinance shall be for a term of five years. Upon the written application by the licensee at any time after the first 36 months of the license term of that licensee, the council will determine whether to extend the license term for an additional five-year term from the date of expiration. The council will make such determination within 120 days from the date of written application by the licensee.

5.640 License Subject to Police Power. Licensees are subject to the exercise of the police power of the city and to such reasonable regulations as the city may from time to time provide by resolution, ordinance or regulation. The issuance of a license will not be construed as a waiver of any local, state or federal law, as now or hereafter enacted.

5.645 Contracts for Service and Transfer of Licenses.

(1) A licensee may contract with another person to provide service within the licensee's service area with the written approval of the city manager, provided that the contract does not amount to a transfer of the license and the contracting party is:

(a) licensed to collect and dispose of solid waste by the city;

(b) licensed to collect and dispose of solid waste by another jurisdiction; and

(c) holds a permit from the city pursuant to section 5.620.

The contract hauler must agree in writing to abide by the provisions of this ordinance.

(2) A licensee shall not sell or exchange service accounts or alter service area boundaries except by transfer approved under subsection (3) below.

(3) A licensee must not transfer its license without consent of the council. Council may consent to the transfer if it determines the transferee is qualified for a license pursuant to section 5.630(4)(a), and the transferee pay the transfer fee established by council resolution. The transferee shall submit information on the criteria set out in 5.630(f)(a) to the council in writing. Upon transfer the transferee shall be bound by all the provisions of this ordinance which refer to "licensee."

5.650 Indemnification, Bond and Insurance.

(1) Indemnification. A licensee shall pay, hold harmless and indemnify the city from any loss, damage, penalty or claim against the city on account of or in connection with any activity of the licensee in the operation of the licensee's solid waste collection business including activity by any contract hauler under section 5.645. If legal action is filed against the city to recover for any claim or damages, the licensee, upon notice by the city, shall defend the city against the action, and, in the event of a judgment against the city, the licensee will pay such judgment and all costs.

(2) Bond. Concurrently with the licensee's acceptance of the license, each licensee shall file with the city recorder and maintain for the term of this license and any renewal, a corporate surety bond with a responsible company licensed to do business in Oregon in an amount established by the council guaranteeing performance by the licensee of the duties and obligations of a licensee under this ordinance. The bond shall be subject to the review and approval of the city attorney. The licensee shall furnish proof annually to the city recorder that the bond remains in effect.

(3) Insurance. A licensee shall maintain insurance approved by the city attorney, which will cover the licensee's business operation, including each vehicle operated by it. The insurance coverage shall include not less than \$200,000 for one person, nor less than \$500,000 for bodily injury due to each occurrence, and not less than \$200,000 for damage to property due to each occurrence. All such insurance coverage shall provide a 30-day notice to the city recorder in the event of material alteration or cancellation of any coverage afforded in the policies prior to the date the material alteration or cancellation shall become effective. Copies of all policies must be filed with the city recorder prior to the commencement of operations or the expiration of prior policies. The licensee shall furnish proof annually that the insurance remains in effect to the city recorder.

(4) Nonwaiver. The provisions of this section, any bonds accepted by the city pursuant thereto, and any damage recovered by the city hereunder shall not be construed to excuse unfaithful performance by the licensee or limit the liability of the licensee under this ordinance or the licensee for damages, either to the full amount of the bond, or otherwise.

5.655 License Fee.

(1) For the privilege of using the city's streets and other facilities and for the purpose of defraying the city's regulatory expenses, each licensee shall pay an annual fee to the city equal to four percent of the gross receipts received by the licensee from business conducted within the city.

(2) The annual fee shall be computed and collected on a quarterly basis, the quarterly periods to consist of the period ending March 31, June 30, September 30 and December 31. The fee shall be paid by the licensee not later than the last day of the month immediately following the end of the quarter.

The council may by resolution establish late fee and interest rates to be charged the licensee who does not pay the annual fee in a timely manner.

(3) At the time of payment of the quarterly fee, the licensee must file with the finance director a sworn and verified statement of quarterly gross receipts for the period covered by the tendered fee. The licensee shall maintain adequate books and records disclosing the gross receipts derived from business conducted within the city, which books and records shall be open at reasonable times and places for audit by authorized city personnel. The city may require a uniform system of bookkeeping and record keeping be used by all licensees.

(4) Misrepresentation of gross receipts by a licensee shall constitute cause for revocation of the license.

(5) The fee imposed by this section shall be in addition to and not in lieu of any other fee, charge or tax now or hereafter imposed by the city.

5.660 General License Responsibilities and Restrictions.

(1) A licensee shall provide sufficient equipment and personnel to adequately collect solid waste in the licensee's assigned service area and to otherwise meet the standards of equipment and service established by this ordinance and applicable state laws and regulations.

(2) A licensee shall not discontinue service to the service area or any substantial portion thereof without giving at least 90 days written notice of the proposed discontinuance of service to the city manager and to the customers affected and receiving the approval of the council prior to discontinuing the service.

(3) A licensee may refuse collection service to any customer if the customer refuses to pay for the service in accordance with the rates established by the council. The licensee must not terminate service without first notifying the customer and the city attorney in writing of the licensee's intention to terminate service not less than seven days prior to the date of termination of service.

5.665 Service Standards.

(1) Licensees must service residences at least once every seven days. Service shall be made available on a regular basis to commercial, industrial, institutional and similar establishments, with the establishments having the option of receiving daily service. The council may at its discretion require such additional servicing schedules as it from time to time considers necessary for the public interest.

(2) Collection activities must not be conducted in predominantly residential areas before 7:00 a.m. or after 5:00 p.m.

(3) Licensees must maintain a bill-paying station within the city and provide telephone service so that the licensee may be reached by the public during the period from 8:00 a.m. to 5:00 p.m. (weekends and holidays excepted).

(4) Licensees must maintain a written log and respond to questions or complaints within three working days (weekends and holidays excepted).

(5) Solid waste collection vehicles must be constructed, loaded and operated so as to prevent dropping, leaking, blowing, sifting or escaping of wastes or solid wastes from the vehicle on the public highway.

(6) All open-body collection vehicles must have a cover which shall be either an integral part of the vehicle or which shall be a separate cover to the vehicle and shall be so used while in transit, except during the transportation of bulky items, brush and recyclables, including but not limited to, stoves, refrigerators and similar appliances.

(7) Licensees must collect bulky items, such as stoves and refrigerators within one week of customer request. Reasonable rates for this service may be set by the hauler.

(8) The week beginning the first Monday in May shall be the yearly cleanup week. During this week, licensees shall collect and dispose of items and materials set out by customers for collection. This service shall be at no additional charge to regular customers. Loose materials shall be placed in bags, garbage cans or containers. Brush or limbs placed out for collection must be bundled and cut in lengths not to exceed three feet. Licensees are not required to collect bulky and heavy items, such as refrigerators and stoves, free of charge during cleanup week.

5.670 Recycling.

(1) Licensees must provide all customers with the opportunity to recycle and comply with the requirements of SB 405 (1983), Oregon's Law ch. 729, and all rules and guidelines adopted by the Environmental Quality Commission.

(2) Commercial Recycling.

(a) All businesses operating within the city limits are encouraged to separate their corrugated cardboard waste from their other solid waste for collection.

(b) Each licensee must provide for collection of corrugated cardboard waste on a regular basis, at least once a month, and dispose of it in a manner which promotes its reuse.

(3) Residential Recycling.

(a) Each licensee must provide collection for the following recyclable materials from residential customers: newspaper, clear and colored glass, tin cans and aluminum. Licensees may collect other recyclable materials.

(b) Collection must be on a regular basis, not less than once a month. The material must be disposed of in a manner which promotes its reuse.

(4) Customers must separate each recyclable material to be collected. A licensee may refuse to collect materials not properly separated.

(5) Each licensee must collect brush and garden waste, and dispose of such waste in compliance with requirements established by the Metropolitan Service District, Oregon Environmental Quality Commission, and any state law, rule or regulation.

(6) Publicity. The haulers must cooperate with the city in an ongoing publicity campaign promoting recycling and the recycling program.

(7) Review. The collection of recyclables will be reviewed annually by the council. Haulers must keep records and submit written reports which may be required by the council.

5.675 Responsibility of Customers.

(1) Solid waste disposal will be performed by the licensee for each service area. Solid waste may also be disposed of by the owner in a manner which does not violate any provision of this ordinance and is acceptable to the council. Recyclable material may be disposed of by the owner in a manner which promotes its reuse.

(2) The owner, contract purchaser or person in control of any residential structure offered to others for rent, lease or occupation within the city must provide through the licensee for the collection and disposal of solid waste from any such structure.

(3) Containers must be made of sturdy material and located on a solid, level base. Containers must be round and tapered so they are larger at the top, hold no more than 32 gallons of material nor weigh more than 60 pounds, including contents.

5.680 Service Charges.

(1) The charges which may be exacted by licensees shall conform to the latest schedule on file with the city recorder which will be established by resolution of the council. Licensees must furnish such financial and other information as the council considers necessary to determine the schedule of charges. The council may require that information and bookkeeping records be kept on uniform forms by all licensees.

(2) Rates will be based on the following:

(a) need for a reasonable rate of return on revenues;

(b) local wage scales;

(c) cost of management, facilities and equipment;

(d) cost of future service demands;

(e) model of most efficient size and organization of collection services; and

(f) encouraging recycling, but allow the recovery of any additional costs of providing the opportunity to recycle.

(3) Landfill fees and similar fees charged to haulers by the Metropolitan Service District will be passed through to the customer on a proportional basis automatically by resolution of the council.

(4) The council will establish special rates for collection of brush and garden waste.

(5) The council may establish special rates for senior citizens, low volume users and other special rates designed to promote recycling or otherwise serve the public interest.

5.685 Ownership of Solid Waste. All solid waste located, placed or deposited in a can, container, drop box or receptacle provided by the licensee or permittee to a customer or placed out by the customer for collection by the licensee or permittee is the property of the licensee or permittee. It is unlawful for any person other than the appropriate licensee or permittee to remove any solid waste from such receptacles. Any person removing such materials in violation of this section shall be subject to the penalties defined in section 5.990.

5.690 Suspension, Modification or Revocation of License.

(1) The council may suspend, modify or revoke a license or permit in accordance with the appeal procedures provided in Gresham Code Section 1.025. A licensee may be suspended, modified or revoked if the licensee:

(a) willfully violates this ordinance or ORS Chapter 459 or the rules and regulations promulgated thereunder; or

(b) willfully refuses to provide adequate service in its defined service area after written notice and a reasonable opportunity to do so.

(2) In lieu of immediate suspension, modification or revocation of a license, the council may order compliance and make suspension, modification or revocation contingent upon compliance with the order within a time stated in the order.

(3) If a licensee is terminated and no suitable applicant applies for a license or if a license is suspended, the city may require any licensee of the city to provide service, or the city may provide service.

5.695 Restraining Orders. In addition to all other council authority, the council may issue temporary restraining orders enjoining the alleged violation of any of the provisions of the license, the permit, this ordinance, or rules and regulations issued pursuant thereto, and directing the alleged violator to immediately cease and desist from an act or acts described in the order until the council determines whether or not a violation has occurred. Before issuing a temporary restraining order, the council must have reasonable grounds to believe that a violation has occurred. The council will not issue such an order without first receiving a sworn affidavit containing allegations of the violation. The affidavit must specify the alleged violation in short and concise language sufficient to apprise the alleged violator of the act or acts to be enjoined. The order will direct the alleged violator to appear at a time and place stated in the order and show cause, if any there be, why the alleged violator should not be immediately enjoined from doing the act or acts specified in the order. If the council determines that the alleged violator has committed a violation of this ordinance, the council may make and enter an order permanently enjoining further violation.

(Sections 5.600-5.695 added by Ord. 979, passed 11/15/83 and effective 1/1/84)

ORDINANCE NO. 1052

AN ORDINANCE AMENDING GRESHAM CODE CHAPTER 5, ENVIRONMENT
AND HEALTH, RELATING TO THE DURATION OF SOLID WASTE HAULING
LICENSES

THE GRESHAM CITY COUNCIL DOES ORDAIN AS FOLLOWS:

Section 5.635 of the Gresham City Code shall be amended to
read:

5.635 Duration of License. Licenses granted under the
provisions of this ordinance shall be for a term of not
more than five years. Upon the written application by a
[the] licensee [at any time after the first 36 months of
the license term of that license] at least six months prior
to the expiration of a license, the council will determine
whether to extend the license for an additional [five-year]
term. The council will make such determination within 120
days from the date of written application by the licensee.

Mayor

INTERGOVERNMENTAL AGREEMENT

TRANSFER OF SOLID WASTE AND RECYCLING

COLLECTION SERVICE RESPONSIBILITIES

This Agreement is entered into under the authority of Chapters 190 and 459 of Oregon Revised Statutes by the City of Gresham (City), a municipal corporation and the County of Multnomah (County). The purpose of this Agreement is to provide an integrated solid waste management system and to ensure residential recycling collection for the unincorporated areas awaiting future annexations.

A. The parties find:

1. In 1983 the City adopted Ordinance No. 983, which amends the Gresham Community Development Plan and establishes the Gresham Urban Services Boundary.
2. The specific geographic area subject to the provisions of this Agreement is within the designated Urban Service Area of the City (See Exhibit A).
3. The City's growth management policy within Section 10.410 of the Gresham Community Development Plan requires the City to provide urban services within the designated Urban Service Area "by means of annexation to Gresham or, on an interim basis, through alternative approaches that are demonstrated to be in the best long term interest of both the City and future service areas."
4. In 1983 the County adopted Resolution A, which holds that the County will phase out its delivery of urban services to unincorporated areas inside the metropolitan urban growth boundary. The delivery of urban services to these areas is best provided by incorporated municipalities.
5. Local governments must ensure the provision of recycling collection service, as stipulated by ORS 459, for all areas inside the metropolitan urban growth boundary. Recycling collection service is therefore within the definition of "urban service."
6. There are existing agreements in effect between the City and the County which transfer the responsibility to the City for the provision of other urban services within the Gresham Urban Service Area.

EXHIBIT B

7. In 1983, the City adopted Solid Waste Control Ordinance No. 979, which regulates the collection of solid waste and institutes recycling collection as required by ORS 459. Ordinance No. 979 requires the licensing of service providers and the allocation of exclusive service areas for the collection of solid waste and recyclable materials.
8. The City and the County anticipate the City will soon annex substantially all of the urban unincorporated areas of the County within the City's Urban Services Area.
9. Due to imminent annexation of the unincorporated area within the Gresham Urban Service Area, any program by the County to implement recycling collection service would only be an interim measure.
10. As set forth in Ordinance No. 979, upon annexation, the City may either alter the boundaries of existing service areas or create a new service area for the newly annexed territory.
11. Because annexations occur in an incremental manner, the most efficient and effective method for implementing recycling and the regulation of solid waste collection is for the City to assume responsibility for the entire targeted service area at one time, and to issue licenses and allocate service areas as stipulated by Ordinance No. 979.
12. It is in the best long term interest of both the City and the future service area that Gresham assume responsibility at this time for solid waste and recycling collection in the targeted service area (Exhibit A).

B. The parties agree as follows:

1. The County agrees to:

- a. Develop and submit to the Board of County Commissioners a Multnomah County version of Gresham's Solid Waste Control Ordinance specific to the targeted service area (Exhibit A).

- b. Upon adoption by the County of the City's Solid Waste Control Ordinance, transfer the function of its administration and enforcement to the City, including:

1. Issuance of licenses;

ii. Allocation of service areas;

iii. Computation and collection of all license fees, and the rights to the revenue thus generated.

- c. Retain responsibility for coordinating a program of recycling promotion and education in accordance with DEQ Rules pursuant to ORS 459, and continue in the role of recycling promotion and education representative for the wasteshed.

2. The City agrees to:

- a. Assume responsibility for the regulation of solid waste and recycling collection as outlined in B.1.(b.) above.

- b. Pay to the County a total of \$7,290 before June 30, 1987, for recycling promotion and education services as outlined in B.1.(c). above. Amount of subsequent fiscal year transfers shall be determined as necessary on an annual basis.

C. Effective Date.

Transfer from the County to the City of the responsibilities and obligations described above shall occur on the date of the County's adoption of the Solid Waste Control Ordinance.

D. Separability.

If any section, subsection, clause or phrase of this Agreement is determined by any court or arbitrator of competent jurisdiction, to be invalid or unenforceable for any reason, such determination shall not affect the validity of the remaining Agreement, which shall continue to be in effect.

E. Termination.

This Agreement shall continue indefinitely unless terminated by either party upon 90 days written notice, or upon annexation of entire targeted service area (Exhibit A).

F. Amendments.

This Agreement may be amended by mutual agreement of the parties.

IN WITNESS WHEREOF, the authorized representatives of the City and the County,
as parties hereto, acting pursuant to the authority granted to them, have

HEREBY AGREED:
