

MULTNOMAH COUNTY BOARD OF COMMISSIONERS' MEETING
PUBLIC COMMENT SIGN-UP SHEET

Please complete this form and return to the Board Clerk

This form is a public record

MEETING DATE: 10/25/18

AGENDA ITEM # _____ OR NON-AGENDA SUBJECT: _____

FOR: _____ AGAINST: _____

NAME: BARBARA SPEARS

CONTACT INFORMATION (optional):

ADDRESS: 3762 SE MARKET

CITY/STATE/ZIP: PORT OR 97214

PHONE: 503.2342115 E-MAIL: barbaraspearsmail@gmail.com

IF YOU WISH TO ADDRESS THE BOARD IN PERSON:

- Fill out this form and submit to the Board Clerk before meeting begins.
- Comment for Non-Agenda items will be called immediately after the vote on the Consent Agenda.
- Comment for Agenda items will be called during that item's presentation, before the vote is taken.
- Commenters are called to testify in the order forms are received, unless otherwise recognized by the Chair.
- When your name is called, come forward and be seated at the presenter's table. State your name for the record and speak into the microphone.
- Public comment is limited to **3 minutes or less** per person unless otherwise directed by the Chair.
- A buzzer will signify the end of your allotted time.
- If submitting handouts to the Board, 7 copies are required. If only one copy is provided, it will be received for the file and shared with the Board and County Attorney after the meeting.
- Recordings of meetings are online: http://multnomah.granicus.com/ViewPublisher.php?view_id=3
- The Chair has authority to keep order and may impose reasonable restrictions necessary for the efficient and orderly conduct of a meeting. Any person who fails to comply with the Rules of Conduct or creates a disturbance, may be required to leave. The Rules of Conduct are posted in the back of the room.

IF YOU WISH TO SUBMIT WRITTEN COMMENTS TO THE BOARD IN LIEU OF GIVING ORAL COMMENTS:

1. Complete this form and submit it along with your written testimony to the Board Clerk at the meeting, or by e-mail at: boardclerk@multco.us
2. Written testimony will be entered into the official permanent record.

**NUMBERS
DON'T LIE**

**...BUT
POLITICIANS
DO!**

Multnomah County Commissioners want taxpayers to believe that chronic failures to protect people and pets at Multnomah County Animal Services (MCAS) are due to their worn out mantra, "lack of staff and funding."

THE FACT IS THAT MCAS IS BY FAR THE BEST PUBLICLY FUNDED ANIMAL SERVICES AGENCY IN THE NATION

Consider MCAS numbers from 2008 to 2018:

Intake down 59% *

Budget up 70%

FT employees up 93%

**Per-animal cost up from
\$671 to \$1,815 ****

**Multco Commissioners:
Stop throwing good money after
bad, hoping to solve MCAS's chronic
failures. Have the courage
to reform MCAS from the ground
up, beginning with the replacement
of the MCAS Director and her boss,
the Director of Community Services.**

**Commissioners have blindly approved
hundreds of thousands of taxpayer dollars
to fund failure at MCAS including:**

- Taskforces, facilitators and consultants hired to solve ongoing problems
- A 2013 program which cost taxpayers \$349 to spay/neuter each feral/community cat costing taxpayers over \$500,000 dollars until it was cancelled in 2018
- An offsite adoption center, opened in the summer of 2015 at an indeterminable cost, closed in six months due to poor management and planning
- A homeless services specialist hired in 2017 to manage a program that did not exist, costing taxpayers \$30,821
- A 2015 program costing taxpayers \$700,000 to plan and design building modifications which disappeared with little to show for it
- \$250,000 approved in 2018 to begin a Facility Master Plan to research building a new shelter insuring that millions more will be spent, not to improve MCAS's chronic failures, but to hide them.

* MCAS states that Intake is "the measure that most impacts staffing and expenditures".

TESTIMONY OF BARBARA SPEARS - barbaraspearsmail@gmail.com

I have given each of you a copy of the ad we're running next week.

Thinking that you may not see it, I'd like to read you the following with numbers taken from MCAS's own reports:

Multnomah County Commissioners count on their constituents to trust that the chronic failures affecting the health and well-being of animals and people at Multnomah County Animal Services (MCAS) are due their worn-out mantra, "lack of staff and funding."

The fact is that MCAS is by far the best publicly funded animal services agency in the nation.

From 2008 to 2018:

Intake, which MCAS itself states is "the measure that most impacts staffing and expenditures" decreased 59%,

Budget increased 70%

Number of employees increased 93%.

This represents a 10 year per-animal cost increase from \$671 to \$1,815.

Outrageous numbers like these are unheard of in the national animal sheltering community.

Consider the private sector:

TESTIMONY OF BARBARA SPEARS - barbaraspearsmail@gmail.com

When shareholders (think taxpayers) review the annual report and see that the CEO is failing to perform on such a massive scale, that CEO is replaced.

The fact that you are not only allowing, but enabling MCAS to continue under leadership which produces such numbers while applying for grants which compete with struggling non-profits and **BEGGING THE PUBLIC FOR DONATIONS OF CAT AND DOG FOOD AND KITTY LITTER IS SHAMEFUL.**

Remember, there are animal lovers and there are taxpayers and more often than not, they are the same people.

As much as each of you is fearful of taking action, this is the job you signed up for.

FINAL BILL REPORT

ESHB 1427

C 297 L 17

Synopsis as Enacted

Brief Description: Concerning opioid treatment programs.

Sponsors: House Committee on Health Care & Wellness (originally sponsored by Representatives Cody, Jinkins, Peterson and Pollet).

House Committee on Health Care & Wellness
Senate Committee on Health Care
Senate Committee on Ways & Means

Background:

Prescriptive Authority.

It is unlawful to possess, deliver, or dispense a legend drug except pursuant to a prescription issued by a health care provider who has prescriptive authority under Washington law. Providers with prescriptive authority include allopathic and osteopathic physicians and physician assistants, advanced registered nurse practitioners, dentists, naturopaths, optometrists, podiatric physicians, and veterinarians. Prescriptions must be for a legitimate medical purpose and within the provider's scope of practice.

In 2011 several disciplining authorities were required to adopt rules on chronic, noncancer pain management. Separately, the Agency Medical Directors' Group has adopted guidelines on prescribing opioids for pain.

Prescription Monitoring Program.

The Department of Health (DOH) maintains a Prescription Monitoring Program (PMP) to monitor the prescribing and dispensing of controlled substances and other drugs that demonstrate a potential for abuse. When one of these drugs is dispensed, the dispenser must electronically submit to the PMP a patient identifier, the drug dispensed, the dispensing date, the quantity dispensed, the prescriber, and the dispenser.

Data in the PMP may be accessed by:

- a person authorized to prescribe or dispense a controlled substance or legend drug for the purpose of providing medical or pharmaceutical care for his or her patients;
- a person requesting his or her own PMP information;

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

- personnel of the DOH for administration of the PMP or the Uniform Controlled Substances Act, the Department of Social and Health Services (DSHS) or the Health Care Authority (HCA) regarding Medicaid recipients, the Department of Labor and Industries regarding workers' compensation claimants, and the Department of Corrections regarding offenders in the agency's custody;
- a health professional licensing, certification, or regulatory agency;
- an appropriate law enforcement or prosecutorial official;
- an entity under grand jury subpoena or court order;
- certain medical test sites licensed by the DOH; and
- a health care facility, entity, or provider group of five or more providers for the purpose of providing medical or pharmaceutical care to patients if: (1) the facility or entity is licensed by the DOH, or all the providers in the group are licensed; and (2) the facility, entity, or group is a trading partner with the Health Information Exchange.

A dispenser or practitioner acting in good faith is immune from civil, criminal, or administrative liability for requesting, receiving, or using information from the PMP.

Seven Best Practices in Emergency Medicine.

The 2012 Supplemental Operating Budget required the HCA to designate best practices and performance measures to reduce medically unnecessary emergency room visits for Medicaid clients. The practices are referred to as the Seven Best Practices in Emergency Medicine.

Opioid Treatment Programs.

The Community Mental Health Services Act makes several declarations related to opioid treatment including: the state declares the following:

- Opiate substitution treatment should be used only for participants who are deemed appropriate for this level of intervention and should not be the first treatment intervention.
- The state has the authority to control and carefully regulate the clinical uses of opiate substitution drugs in consultation with counties and cities.
- The primary goal of opiate substitution treatment is total abstinence from substance use.

The DSHS certifies opiate substitution treatment programs and is required to establish treatment and operating standards in consultation with treatment providers, counties, and cities. In making a decision on a program's application for certification, the DSHS must, among other things:

- certify only programs that will be sited in accordance with county or city land use ordinances. Counties and cities may require conditional or special use permits for siting programs;
- demonstrate a need in the community for opiate substitution treatment and not certify more program slots than justified by the need, up to a maximum of 350 participants unless authorized by the county;
- prioritize applicants that have the capability to provide services to assist participants in meeting statutory goals, including abstinence, obtaining mental health treatment, improving economic independence, and reducing adverse consequences associated with the illegal use of controlled substances; and

- hold at least one public hearing in the county and the area where the facility is proposed to be located.

Opiate substitution treatment programs must provide health education information to pregnant clients, including referral options for the addicted baby. To maintain certification, programs must submit an annual report to the DSHS and county legislative authority, including data necessary for outcome analysis. The DSHS must evaluate the data and take corrective action where necessary.

"Opiate substitution treatment" is defined as: (1) dispensing an opiate substitution drug approved by the Food and Drug Administration for the treatment of opiate addiction; and (2) providing a comprehensive range of medical and rehabilitative services.

Summary:

Opioid Prescribing.

By January 1, 2019, the following disciplining authorities must adopt rules establishing requirements for prescribing opioid drugs: the Medical Quality Assurance Commission, the Board of Osteopathic Medicine and Surgery, the Nursing Care Quality Assurance Commission, the Dental Quality Assurance Commission, and the Podiatric Medical Board. The rules may contain exemptions based on education, training, amount of opioids prescribed, patient panel, and practice environment. In developing the rules, the disciplining authorities must consider the Agency Medical Directors' Group and Centers for Disease Control guidelines and may consult with the Department of Health (DOH), the University of Washington, and professional associations.

Prescription Monitoring Program.

The DOH may provide data from the Prescription Monitoring Program (PMP) to:

- the Health Care Authority (HCA) regarding Medicaid clients for purposes of quality improvement, patient safety, and care coordination (but not contracting or value-based purchasing decisions);
- DOH personnel for the purpose of assessing prescribing practices and providing quality improvement feedback to providers;
- a provider group, health care facility, or health care entity (including those operated by the federal government or a federally recognized Indian tribe) for quality improvement purposes;
- a local health officer for patient follow-up and care coordination after a controlled substance overdose event; and
- the coordinated care electronic tracking program referred to as the Seven Best Practices in Emergency Medicine for purposes of providing: (1) PMP data to emergency department personnel when a patient registers in the emergency department; and (2) notice to providers, care coordination staff, and prescribers that the patient has experienced a controlled substance overdose event.

The DOH must determine the content and format of the notice to the coordinated care electronic tracking program in consultation with the Washington State Hospital Association (WSHA), the Washington State Medical Association (WSMA), and the HCA. The notice may be modified as necessary to reflect current needs and best practices.

At least quarterly and pursuant to a schedule determined by the DOH, the DOH must provide a facility, entity, or provider group with prescriber information if the facility, entity, or group: (1) uses the information only for internal quality improvement and prescriber quality improvement feedback purposes and not as the sole basis for a medical staff sanction or adverse employment action; and (2) provides the DOH with a standardized list of current prescribers. The specific information requirements must be determined by the DOH in consultation with the WSHA, the WSMA, and the HCA and may be modified as necessary to reflect current needs and best practices.

After entering into a data use agreement, the DOH may provide dispenser and prescriber data and data that include indirect patient identifiers to the WSHA for use solely in connection with its coordinated quality improvement program.

Persons authorized to receive PMP data who act in good faith are immune from civil, criminal, disciplinary, or administrative liability for acting under the PMP law.

Beginning November 15, 2017, the DOH must annually report to the Governor and the Legislature on the number of facilities, entities, and provider groups that have integrated their electronic health records with the PMP using the state Health Information Exchange.

Opioid Treatment Programs.

In making a decision on an application for certification of an opioid treatment program, the DSHS is not required to: demonstrate a need in the community for treatment; certify only the number of program slots justified by community need; or hold public meetings in the county and area where the facility is to be located. In addition, the requirements for the DSHS to establish evaluation criteria and for programs to submit an annual report are also removed.

Instead, the DSHS must: hold one public hearing in the community where the facility is to be located; consider whether an applicant has demonstrated the capability to provide appropriate services to assist participants in meeting the statutory goals of treatment for opioid use disorder; and prioritize certification of applicants who are able to measure their success in meeting such outcomes. Opioid treatment programs are subject to the same oversight as other substance use disorder treatment programs.

The 350-participant limit and authority for counties and cities to require special use permits for the siting of opioid treatment programs are removed. A county may impose a maximum capacity for an opioid treatment program of not less than 350 participants if necessary to address specific local conditions cited by the county.

Declarations in the Community Mental Health Services Act include the following:

- The state recognizes as evidence-based the medications approved by the Food and Drug Administration for the treatment of opioid use disorder.
- Providers must inform patients of all treatment options available. The provider and patient must consider alternative treatment options, like abstinence, when developing a treatment plan. If medications are prescribed, follow-up must be included to work toward the goal of abstinence.
