Child Receiving Center – Possible Components
September 9, 1999 BCC Discussion

	Child Receiving Center	Relief Nursery & Other Services	MDT
Site issues: Land Use; Zoning.	Residential component, classified short-term housing/Community Service use. May restrict where it can be located. With Conditional Use, allowed in single-family residential, multi-family and commercial zones.	Included as part of the services component of the Receiving Center.	Classified Office use. Not allowed in single-family and low-density multi-family zones. Allowed in high-density multi-family zones by Conditional Use; outright in commercial zones.
Special location needs: (Transportation, proximity to families, Courthouse, etc.)	Locate near the majority of children entering into protective services. Stats say eastside. Be accessible to children's families (proximity to public transportation).	Space for a Relief Nursery part of the Receiving Center campus plan. Need to look at where other Relief Nurseries are already located.	Locate centrally; close to downtown and to the Juvenile facility (NE 68 th and I-84)
Site research.	See evaluation matrix of preliminary sites that have been looked at. (Steffey group report includes discussion of Morrison Bldg for Receiving Center, Whitaker School for MDT)		
Funding issues Operating costs and funding option	\$685,000 Personnel (24 FTE) \$ 25,000 Consultants(psychiatric, pediatric, etc.) \$118,000 Facility/operations <u>\$ 82,800 Admin/General (10%)</u> \$910,000 per year \$800,000 DHR Funding – update from Kelley	Current Relief Nursery contract = \$301,000 year (funded by County Health, provider, State.) State dollars probable to continue existing program. Possible additional new dollars from state; not confirmed.	Operations funded by Police, DA and State SCF. If operations were to lease at market rates, there could be additional dollars to fund Receiving Center operations. But impacts MDT's operating costs.
Eligible use for bond funds & interest	Yes – Bond funds can be used.	Yes – Bond funds can be used.	Yes – Bond funds can be used.

Child Receiving Center – Possible Components

September 9, 1999 BCC Discussion

	Child Receiving Center	Relief Nursery & Other Services	MDT
Costs of Components Total cost est.; land & construction breakdown.	Land: \$500,000-\$700,000 Construction (hard & soft costs): <u>\$3 million.</u> Total \$3.5 to \$3.7 million	Relief Nursery: Cost for 2,100 sq. feet included with Receiving Center plan (out of a total 30,000 sq. feet)	Land: \$200,000-\$700,000 Construction (hard & soft costs): <u>\$3.7 million.</u> Total \$3.9 to \$4.4 million Less the land costs and some soft costs if it is co-located on same property as Receiving Center: \$3.5 to \$4.24 million Lease concept: debt on construction for the MDT part is paid for by market lease rates (competitive commercial rates)
New Construction vs. Renovation	<ul style="list-style-type: none"> • Remodeling existing buildings to fit the different specialized functions (residential, services, office) of the Receiving Center could be costly and difficult. • Remodeling existing buildings is efficient when it has been historically used for the same functions. • New construction gives opportunity to design to fit specialized functions, especially if different types of functions are going to be co-located. 		
Co-location issues	<ul style="list-style-type: none"> • Family/Day Relief Nursery has been included Receiving Center's service component. • Close proximity is essential. There are many service advantages to co-locating MDT and services but no overarching reason that Receiving Center and MDT must be on a single site. • Even if the MDT is not co-located with Receiving Center, they will still need to be relocated somewhere besides the Morrison Building. 		

Child Abuse Receiving Center: Siting Options

Scenario 1:

County Board decides to move forward with option to co-locate Child Abuse Receiving Center and related services at 102nd and Burnside.

Siting Process: *Notification, public hearings, Good Neighbor Agreement*

1. Ad Hoc Committee forms siting team and submits a siting plan to County Chair.
2. With the assistance of the Public Affairs Office, siting team conducts notification to surrounding neighbors.
3. County holds community meetings to facilitate feedback from neighborhood regarding facility design and neighborhood livability issues.
4. County Chair appoints group of stakeholders to craft a Good Neighbor Agreement.
5. Facility is sited.

Scenario 2:

County Board decides to consider various options including 102nd and Burnside for the co-location of Child Abuse Receiving Center and related services.

Siting Process: *Siting advisory committee, site selection, notification, public hearings, Good Neighbor Agreement*

1. Ad Hoc Committee submits a siting plan to County Chair.
2. County Chair appoints Siting Advisory Committee comprised of representatives from the Office of the District Attorney, the Portland Police Child Abuse Team, the State Office of Services to Children and Families, the Christie School, and interested members of the community. The SAC would:
 - a. Work with Ad Hoc committee to develop essential siting criteria
 - b. Identify potential sites based on the essential criteria. Site list could include the property at 102nd and Burnside.
 - c. Make recommendations to the BCC on the pros and cons of each site
3. BCC makes a decision to proceed with one of the various sites.
4. PAO assists with notification to surrounding neighborhood.
5. County holds community meetings to facilitate feedback from neighborhood regarding facility design and neighborhood livability issues.
6. County Chair appoints group of stakeholders to craft a Good Neighbor Agreement.
7. Facility is sited.
