## General Information

### 1. What action are you requesting from the Board?

The department is requesting Board approval of a Resolution electing the method of US Forest Service Safety Net Payments to Multnomah County for Federal Fiscal Year 2010.

### 2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

In 2008, Congress and the President approved a modified extension of the Secure Rural Schools and Community Self-Determination Act of 2000 (PL106-393) that provides payments to forest counties for land held by the federal government. Originally, payments to counties represented shares of forest yields on those public lands, but as sale of timber has diminished the federal government has provided safety-net payments in lieu of actual timber sale proceeds.

The new legislation, Secure Rural Schools 2008 or "SRS 2008," provides for a decreasing payment schedule of these safety-net payments over a four-year period beginning in 2008 and ending in 2011. New to SRS 2008 is a tightening of funds available to Counties under Title III of the act, that now provides funding for a limited number of eligible projects: Search, rescue and emergency services on public lands; Fire prevention and planning under the Firewise Communities program; and Development of community wildfire protection plans.

**3. Explain the fiscal impact (current year and ongoing).**

For federal fiscal year 2010, to be received approximately December 2010, Multnomah County is estimated to receive approximately \$780,155 in overall safety-net payments. The largest share of this total will be in Title I payments (up to 85% of total, or about \$663,132) that must be split 75% to the County Road Fund (about \$497,349) and 25% to the County School Fund (about \$165,783). County School Fund revenues are transferred to the Multnomah County Educational Service District (MESD).

The remaining safety-net payments will be split between Multnomah County Title III projects (no more than 7% of total, about \$54,611) and the remainder of 8% (about \$64,412) must go to a Resource Advisory Committee managed by the US Forest Service for projects on national forests. As a point of reference, the MCSO has averaged about \$180,000 in eligible Title III search and rescue costs annually. Title III payments will help supplement these costs for the County General Fund.

Overall payments to the County decrease over the four-year funding period: to a 81% level for Federal Fiscal Year 2009, then 73% for FFY 2010; and finally an estimate of 22-40% for FFY 2011.

**4. Explain any legal and/or policy issues involved.**

The annual resolutions are required by the Federal government for counties to participate in the Safety-Net program. There are no controversial issues regarding the two elections that these resolutions address. A decision will have to be made annually on how to expend the Title III funds.

**5. Explain any citizen and/or other government participation that has or will take place.**

Citizens will have the opportunity to provide written comments on the Multnomah County projects that will qualify under Title III. A 45-day comment period is required by the legislation and will began when the list is published prior to the County's approval of Title III projects next summer.

Each County with National Forest and/or O&C lands is required to make these elections prior to sending their decision on to the Federal government. Multnomah County has participated with Association of Oregon Counties (AOC) in developing the processes and resolutions.
