Outraged

Dear Ms. Grow,

It is unbelievable to me that Jeff Cogen may be dismissed from the good work he is doing because he had an affair and there are possible conflicts of interest.

Really? Really? Well that's a first for the city! And then of course Ms. Manhas is forced to resign! Boy, there's some parity! As a professional business woman I want to pose this question: WTF?

I am furious. A vote of no confidence. Where was that for Mayor Adams? What a waste of time and pr.

Not only do I believe Mr. Cogen should stay in his job, but Ms. Manhas should be reinstated AND give everyone training on how to do their job and stop screwing around, literally and figuratively.

And if we're going to make Mr. Cogen and Ms. Manhas the focus, let's out every single person in City Hall that's having an inappropriate relationship with a co-worker. They're more numerous than you know and trying to get rid of the issue with a hearing today isn't going to change that.

Clean it up. And please get back to work.

If you ask yourself this question:

"Does my work fuel my fire?"*
