Comments: It is 8/4/2016 and I just learned of the board considering the SEC-v expansion from a concerned neighbor who also was made aware from a realtor friend. It feels like the Multnomah County Board of Commissioners was surreptitious in their discussion of this expansion in their 4/11/2016 meeting. Without my, or my neighbor's ability and opportunity to discuss this issue openly with the Board prior to consideration, I am in complete opposition to this expansion.
