Accrual Basis of Accounting - The system of accounting under which revenues are recorded when earned and expenditures are recorded as soon as they result in liabilities for benefits received.

Ad Valorem Taxes - Taxes levied in amounts proportional to the value of the objects of the tax. In Oregon this is largely a tax upon the true cash value of real property.

Appropriation - An authorization from the Board of County Commissioners to spend money for specific purposes - limited to a single fiscal year.

Assessed Valuation - A valuation set upon real estate or other property as a basis for levying taxes.

Beginning Working Capital - The net cash or assets available to a fund at the beginning of a fiscal year.

Cash Transfer - Any transfer of resources from one fund to another.

C.C.A. - Community Corrections Act (State of Oregon).

Contingency - An appropriation set aside to provide for unforeseen expenditures or for anticipated expenditures of uncertain amount.

Enterprise Fund - Is established to finance and account for services and commodities furnished by a governmental unit to other governmental units and the general public. Amounts expended from the fund are restored to it by billing the users for the services provided. Enterprise funds differ from working capital funds largely in that the latter provide services only to subdivisions of the County. Examples are the Data Processing Fund and the Inverness Fund.

Federal Sources - A contribution from the federal government to Multnomah County. The contribution is usually made to support a specific function or program, but it may also be provided for general purposes.

Fines and Forfeitures - A sum of money imposed as a penalty for an offense.

Fiscal Year - ORS 294.311 prescribes for any municipal corporation with the power to levy taxes a fiscal year commencing on July 1 and closing on June 30.

General Fund - Is used to account for resources not allocated to specific purposes by law or contractual agreement; that is, any activity not financed from other funds is automatically financed from the General Fund.

General Revenues - Revenues not pegged to the operation of specific agency, although they may be derived from the operation of several organizations composing a system. These are taxes, fines, interest, and miscellaneous revenues not attached to the operation of a specific organization.

History Only Fund - A fund which is no longer used; carried for reference purposes only.

Levy Outside 6% Limitation/Not Subject to Limitation - As provided in Article XI, Section 11, subsection (3) of the Oregon Constitution, "that portion of any tax levied which is specifically voted outside the tax base and the portion of any tax levied which is for the payment of bonded indebtedness and interest thereon is not subject to the 6% tax limitation".

Levy Within the 6% Limitation - Article XI, Section 11, subsection (1) of the Oregon Constitution lays down the basic rule that no taxing district shall levy a tax in excess of its tax base. (See definition of Tax Base). Note: This means that no district can levy a tax amounting to more than 106% of the revenue received the previous year without a vote of the people to either increase the tax base or authorize a levy outside the 6% limitation.

Licensing Permits - Charges made in return for legal permission to carry out specific activities; primarily business licenses and building permits.

Local Government Sources - Revenues received from other local governments in Multnomah County; consists primarily of local cost-sharing contributions.

Materials and Services - A major budget category which contains contractual and other services, materials and supplies, travel, building management, etc.

MCCAA - Multnomah County Community Action Agency.

Modified Accrual Basis of Accounting - The system of accounting under which revenues and expenditures are generally on an accrual basis; but under which modifications are made such as: revenues are recorded when received in cash except for those readily available and susceptible to accrual, encumbrances are an admissible accrual, and vacation pay is recorded as an expense when paid.

Modified Cash Basis of Accounting - The system of accounting under which revenues and expenditures are generally on a cash basis; but under which limited modifications are made such as: the accrual of federal and state program receivables or payroll payables. (The Audit Guide for State and Local Government Units lists admissable modifications.)

Nondepartmental Expenditures - Appropriations for organizations and expenditures that do not fall logically under control of one of the four departments of Multnomah County Government.

Operational Resources - Resources which are dependent on the quantity of service provided by the organization, i.e., fees, sales, recoveries, rentals, reimbursements, etc.

O.R.S. - Oregon Revised Statutes.

Personal Services - A major budget category which contains wages, salaries, fringe benefits, part time, overtime, and special premium pay.

Property Taxes - Ad valorem taxes levied primarily on the true cash value of real property; the major source of local government tax revenue.

Service Charges and Fees - Payments for professional or special services, includes public utility charges, health care charges, judicial fees, etc.

Service Reimbursements - Payments made by an organization to a fund for services and/or commodities received therefrom; e.g., payments from most organizations to Fleet Management Fund or Data Processing Fund.

Short-term Debt - Indebtedness incurred by sale of notes. County uses tax anticipation notes which, by State Law, must be repaid within the fiscal year.

Source of Funds - The origin of monies appropriated to each Operating Unit.

Special Revenue Fund - A fund used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government (e.g., Federal/State Program Fund, Road Fund).

State Sources - A contribution from the State of Oregon to Multnomah County. The contribution comes in either the form of shared revenue (e.g., cigarette tax revenues) or partial support cost sharing of a specific program.

Tax Base - 1) Article XI, Section 11, subsection (2) of the Oregon Constitution defines the tax base as either (a) the amount of tax levied in any one of the last three years plus 6% thereof or (b) the amount approved as a new tax base by a majority of the legal voters of the taxing district. (Both of these definitions refer to the dollar amount of tax revenue which can be lawfully levied).

2) The tax base is also defined, for purposes of the tax levy computation, as the total assessed valuation of all the taxable property within the tax levying jurisdictions.

Tax Levy - The total amount of taxes imposed by a governmental unit.

Tax Rate - The amount of tax stated in terms of a unit of the tax base; e.g.,  
25 dollars per thousand dollars of assessed valuation of taxable property.

Total Cash, Revenue - The dollar amount of actual revenues received from any source for any given fund.

Total Requirements - Total cash expenditures plus service reimbursements, contingencies, and cash transfers.

Trust Fund - Is used to account for assets held by a governmental unit as trustee or agent, acting in a fiduciary capacity for other individuals, private organizations or governmental units, having no equity of ownership over such funds.

Vector Control - A program to keep down the population of disease-carrying organisms, especially rats and mosquitoes.

Working Capital Fund - Is established to finance and account for services and commodities furnished by one department to another within a single governmental unit. Amounts expended from the fund are restored to it by service reimbursements from organizations in other funds. Working capital funds differ from enterprise funds in that the latter provide services to the general public and outside organizations as well as to subdivisions of the government.

## REVENUE CLASSIFICATIONS

An attempt has been made to roughly classify resources, especially in the General Fund, in order to distinguish between revenue tied to a particular agency, and that available for general purposes. The classifications are as follows:

a) Dedicated Resources

Resources which are pre-designated for the operation of an organization or program. They include Federal and State revenues designated to the operation of specific services, Federal and State grant matches, and transfers from funds dedicated to certain purposes.

b) Operational Resources

Fees and revenues deriving from the operation of county services. These are the "charges and recoveries" assigned to each department in the General Fund.

c) General Resources

Resources which are independent of the operation of particular agencies or which derive from the operation of several agencies which comprise a system. General resources include tax receipts, interest on investments, fines, and interfund transfers of a general nature. In the Federal-State Fund, general revenues include all local matches to grants and other organizations in the fund.

MULTNOMAH COUNTY  
BOARD OF  
COUNTY COMMISSIONERS

Board of Commissioners  
Multnomah County  
606 County Courthouse  
Portland, Oregon 97204

Dear Board Members:

The Tax Supervising and Conservation Commission has reviewed, given careful consideration to and on June 14, 1984 conducted a meeting and public hearing on the 1984-85 budget for Multnomah County. The budget is certified with the following objections and recommendations.

1. Fund totals reported on the Financial Summary and Estimate Sheets for the Federal/State, Assessment District, Data Processing and Fleet Management Funds are at variance and need adjustment. Also on the Financial Summary the Total Budget all funds combined for the prior years, pages B-0 and B-3, show conflicting numbers.
2. The Federal/State resource schedule omits a \$12,500 revenue related to a General Services match.
3. The following fund service reimbursements and fund transfers appear to be unbalanced and we recommend the transactions be verified before adopting the budget.

4. We recommend a reconsideration of beginning fund balance estimates for the following funds because of significant differences between actual balances on May 31st and budget estimates. These funds are: Animal Control, Data Processing, Emergency Communication, Fleet Management, Inverness, Capital Reserve and County School. In this connection it is important to note that unpaid inter-fund loans at the end of a fiscal year must be budgeted for repayment in the ensuing year.

Last year it was recommended that the Estimate Sheets be brought into compliance with ORS 294.376 and 294.635 with regard to display of current budget and prior year information. This was not done for 1984-85. We understand that redesign of the Financial Management System is proceeding and accordingly we believe that the 1985-86 budget should demonstrate full compliance with the Local Budget Law.

This certification, made pursuant to ORS 294.645, is based on the following budget estimates and tax levy.

BEFORE THE BOARD OF COUNTY COMMISSIONERS FOR  
MULTNOMAH COUNTY, OREGON

---

In the Matter of the Adoption of the 1984-85  
Budget for Multnomah County, Oregon, for the  
Fiscal Year July 1, 1984, to June 30, 1985,  
and Making the Appropriations thereunder,  
Pursuant to ORS 294.435.

---

The above-entitled matter is before the Board to  
consider the adoption of the budget for Multnomah  
County for the fiscal year July 1, 1984, to June 30,  
1985; and,

It appearing to the Board that the Multnomah County  
budget as prepared by the duly appointed Budget Officer  
has been duly considered and approved by the Board;  
that a public hearing was held before the Multnomah  
County Tax Supervising and Conservation Commission on  
the 14th day of June, 1984, and that said budget was  
duly certified by the said Tax Supervising and Conser-  
vation Commission with certain recommendations; and,

It further appearing to the Board that said budget  
as certified is on file in the Department of General  
Services of Multnomah County; and that the Board being  
fully advised in the premises; therefore,

The budget, a copy of which is appended hereto,  
and which is on file in the Department of General  
Services, and as amended herein, is hereby adopted as  
the budget of Multnomah County, Oregon, for the fiscal  
year July 1, 1984, to June 30, 1985, and the Board  
makes the following responses to the points of the  
Multnomah County Tax Supervising and Conservation  
Commission:

1. The Tax Supervising and Conservation Commission has pointed out that "a \$12,500 revenue related to a General Services match" is missing from the Federal/State resource schedule; that match is included in the Adopted Budget.
2. Verification of the cash transfers and service reimbursements included by the Tax Supervising and Conservation Commission has been completed and the results communicated to the Commission. The net effect of these verifications is included in the Adopted Budget as follows:

General Fund \$10,472

Road Fund        \$60,304

No other funds appear to be affected by the items in question.

3. The beginning fund balances noted for reconsideration by the Tax Supervising and Conservation Commission appear to the Board of Commissioners to be conservative but acceptable as included in the Approved Budget with the exception of the beginning balance of the County School Fund which is increased in the Adopted Budget from \$0 to \$70,000 and the Emergency Communications Fund which is increased from \$0 to \$44,000.
4. ORS 294.376 and ORS 294.635 cited by the Commission relate to display of four years of information on the detailed estimate sheets in the budget document. It is the Board's understanding that the Tax Supervising and Conservation Commission recommends that four years of expenditure information be included on the personnel detail pages of the document. The Board further understands that redesign of the Financial Management System as it is now contemplated will not provide for inclusion in the document the information recommended by the Tax Supervising and Conservation Commission, and that compiling this information may strain County resources. During 1984-85 the County will attempt to arrive at a format for presenting information that will satisfy the Commission but not require significant reallocation of budgeted County staff or significant additional funding to gather.

The funds are hereby appropriated as follows.
