503-988-8800;
Phone: 503-988-8648 **Ext.** N/A **I/O Address:** 160/6; 160/4; 160/9
Presenter Name(s) & Title(s): Kim Toevs, Adolescent Health Promotion and STD/HIV/HCV Program Manager; Margy Robinson, HIV Care Services Manager

General Information

1. What action are you requesting from the Board?

Authorization for the Director of the Health Department to submit an application for \$4,325,118 to the Health Resources & Services Administration, HIV/AIDS Bureau's Ryan White Part A HIV Emergency Relief Grant Program.

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

Part A funds provide direct financial assistance to metropolitan areas that have been severely affected by the HIV epidemic. Grants assist eligible program areas in developing or enhancing access to a comprehensive continuum of high quality, community-based care for low-income individuals and families with HIV. HIV Care Services, part of the Health Department's STD/HIV/HCV Program, has received Part A funds for 21 years as the

grantee for the Portland Transitional Grant Area (TGA), which includes Multnomah, Clackamas, Washington, Columbia, and Yamhill Counties in Oregon, and Clark County, Washington.

The number of persons living with HIV and AIDS (PLWHA) in the Portland TGA has continued to grow. There were a total of 5,250 HIV/AIDS cases in the Portland TGA as of 12/31/2014. This prevalence represents a 10.7% increase since 2013, and a 14.6% increase since 2012. The majority of HIV and AIDS cases are among adults ages 45-64 years-old (45.0% of HIV cases and 64.1% of AIDS cases), while this age group makes up only 26.2% of the TGA's general population. Blacks/African Americans are dramatically overrepresented among HIV/AIDS cases: 8.6% of HIV cases and 7.9% of AIDS cases but 2.8% of the general population. This disparity has been long-standing in the Portland TGA. Men make up 88.7% of HIV cases and 90.0% of AIDS cases despite comprising roughly half the population. The majority of both HIV and AIDS cases are amongst men who have sex with men (72.2% and 65.6%, respectively). Injection drug use is the transmission mode associated with 4.7% of HIV cases and 7.3% of AIDS cases, while it is estimated that around 1.0% of the general population in the Portland metropolitan area inject drugs.¹

HIV Care Services intends to apply for another year of Part A funding in order to continue to provide PLWHA in the Portland TGA with high quality, culturally competent core medical and support services. Eighty-five percent of funds are put out in contracts to community based organizations and local health departments for direct service provision based on service categories identified by the HIV Services Planning Council (e.g. outpatient medical care, oral health, housing). Funds are awarded in a competitive bidding in five-year cycles (with condition of annual Part A renewal). The MCHD STD/HIV/HCV Program, MCHD HIV Clinic, and Corrections Health receive funding for outpatient medical care, medical case management, and early intervention services. The remaining 15% supports administrative and quality management activities.

3. Explain the fiscal impact (current year and ongoing).

This grant will provide the Health Department with \$4,325,118 for Ryan White Part A services, 85% of which is used to provide direct client services in the six-county metropolitan area through contracts or agreements with HIV providers.

4. Explain any legal and/or policy issues involved.

None

5. Explain any citizen and/or other government participation that has or will take place.

Grant activities and fund allocation are informed by a Planning Council that maintains a high percentage of consumer participation.

Estimating numbers of injecting drug users in metropolitan areas for structural analyses of community vulnerability and for assessing relative degrees of service provision for injecting drug users. *Journal of Urban Health: Bulletin of the New York Academy of Medicine*. 2004; 81(3):377-400.

Grant Application/Notice of Intent

If the request is a Grant Application or Notice of Intent, please answer all of the following in detail:

- **Who is the granting agency?**
The granting agency is the Health Resources & Services Administration HIV/AIDS Bureau.
- **Specify grant (matching, reporting and other) requirements and goals.**
The goal of this grant is to assist eligible program areas in developing or enhancing access to a comprehensive continuum of high quality, community-based care for low-income individuals and families with HIV. No matching is required. The grant requires annual progress reporting.
- **Explain grant funding detail – is this a one time only or long term commitment?**
This is a one time grant with the expectation for another competitive round for the next fiscal year.
- **What are the estimated filing timelines?**
The application is due November 2, 2015.
- **If a grant, what period does the grant cover?**
The grant covers the period of March 1, 2016 through February 28, 2017.
- **When the grant expires, what are funding plans?**
When the grant expires, the Health Department will apply for the next year's competitive round of funding.
- **Is 100% of the central and departmental indirect recovered? If not, please explain why.**
The Part A grant program considers indirect costs as an administrative cost, which is capped at 10% of the total request. Multnomah County does not charge indirect costs on pass through funds to community based organizations.

Required Signatures

**Elected Official
or Department/
Agency Director:**

Wendy Lear on behalf of Joanne Fuller/s/ **Date:** 10/2/2015

Budget Analyst: Jeff Renfro /s/

Date: 10/2/2015

Note: Please submit electronically. We are no longer using actual signatures. Insert names of your approvers followed by /s/. Please insert date approved
