Other Professional Activities

Cayuse, Inc. I coordinated all phases of growing the business, wearing many hats, including fiscal management. In early stages, I was responsible for all aspects of program design, layout, integration and technical writing of manual. More recently, I function as the top-level director, providing domain knowledge, vision and communicating with federal agencies and universities. I interact with company management and have final approval on many aspects of the company's direction.

Previously, I was the Director of the Core Lab at the OHSU General Clinical Research Center. Ran clinical lab; co-ordinated staff ; was responsible for all communication with physicians/nurses. Helped to develop a Protocol/Patient/Sample Management database to handle all aspects of protocol management from patient enrollment and scheduling to reporting of results from lab analyses.
