Continuous Quality Improvement: Referral Response Time**

Team Members

Patricia Navin, lead CHN	Julie Goodrich, FHW	Ruth Kolker FHW	Sandra Litt CHN
Barbara Moore CHN	Karen Slimp CHN	Mary White OAI	Jan Wallinder HSA

Problem Statement

Not all families referred after birth receive personal contact within six weeks of birth.

Baseline data indicates only 45% referrals within six week desired response time(for July-Dec 95).

Financial Implications

Lost revenue from Maternity Case Management Medicaid reimbursable postpartum home visits.

Partial funding of team is through Great Start program which requires first postpartum visit to be within six weeks of birth.

Customer Service Implications

Fewer families accept field services when contact is delayed several weeks after birth.

Breastfeeding is most successful when early support is provided.

Factors leading to the Problem

- ↔ Chaotic work environment with many interruptions of office assistant
- ↔ "Multi-parking" during referral processing process causing delays
- ↔ Many steps in process dependent upon one part-time staff person

Solutions to the Problem

PHASE ONE: Prioritize newborn/postpartum referrals ***90.9% referrals met six week standard***
Streamline referral processing to be done by one person early in each week
 ♪ Train all team staff in computer steps of referral processing ***100% met standard***

Future Actions to be Considered

PHASE TWO: Continued monitoring of response time; decrease to spot-checking after consistently maintaining standard
Expand personnel taking postpartum referrals to include Family Health Workers
Run referral list 2x/week

FOR DISCUSSION: Return all steps of referral processing to office assistant ?
How to access neighborhood families whose babies are born in Clackamas County?

TODAY'S DATE: April 17, 1996

REQUESTED PLACEMENT DATE: April 25, 1996

SUBJECT: Adoption of 1995-96 Supplemental Budget 1

I. Recommendation / Action Requested:

Adopt the Supplemental Budget originally approved by the Board in November 1995

II. Background / Analysis:

The Board approved this Supplemental Budget on November 21, 1995. Tax Supervising held a hearing on the Supplemental Budget on January 11, 1996 and certified it without objection or recommendation. This action should have returned to the Board in late January or early February but it was overlooked.

The action ratifies and finalizes the original supplemental budget. There has been only one change in the actions proposed then. At the time the Supplemental Budget was originally proposed, it incorrectly assumed that staffing for the SIP program would be paid for with revenue derived from LSI and Fujitsu. After the Supplemental Budget was put together, staffing for the program was appropriated from General Fund Contingency as a contribution to be repaid in future years.

The appropriation schedule attached to the resolution adopting the Supplemental Budget transfers the staffing and support appropriations from the General Fund to the SIP Fund and appropriates all the LSI and Fujitsu revenue into Professional Services and Pass Through to cover job readiness contractual services as the agreement with the companies requires. This action could have been accomplished with a regular Budget Modification, but my preference is to have a single document recording all the appropriations for the SIP fund.

Note also that the April 25 agenda includes a Community and Family Services contract with Mount Hood Community College. The funding for that contract is part of the Pass Through appropriations included in this Supplemental Budget

III. Financial Impact:

The supplemental budget is to authorize the financing of a mainframe computer system for the County Library (\$330,500), appropriation of energy conservation proceeds (\$687,000), creation of the SIP fund to record revenues from the strategic investment program (\$270,000), creation of a fund to account for revenue bonds associated with the Edgefield Children's Center (\$2,148,000), and creation of a sinking fund to retire those bonds (\$552,000).

IV. Legal Issues:

The Board must adopt the Supplemental Budget, even though it was previously approved. This statutorily required step is to give the Board the opportunity to respond to any recommendations or objections from the Tax Supervising Commission. TSCC made no recommendations or objections. Their January letter of certification is attached.

SUBJECT: Contract with Mt. Hood Community College for Strategic Investment Program Services

I. Recommendation/Action Requested: The Department of Community and Family Services recommends Board of County Commissioner approval of a contract with Mt. Hood Community College for Strategic Investment Program services for the period upon execution through June 30, 1997.

II. Background/Analysis: The Department of Community and Family Services is beginning to implement the Strategic Investment Program (SIP) community resources program by contracting with Mt. Hood Community College for pre-employment services. These services include outreach, assessment, and information and referral assistance to people who have contacted the Portland Development Commission for access into the SIP-related jobs and have been initially determined ineligible. The intent of the contract is to assist with the identification of people who may be eligible for the SIP entry-level jobs. These initial services are needed in order to have a pool of eligible, trained applicants when the SIP jobs become available.

III. Financial Impact: The contract is funded on a requirements basis, to provide flexibility for adding funds should additional potential applicants be located. The current contract, with a requirements estimate of \$25,000, allows for a maximum of \$125 to be spent on each individual; an estimated 200 people could be served with the \$25,000.

The funds for the contract come from the SIP Community Resource Fund. These funds are banked in the County, but a budget modification will be needed to transfer them to the Department of Community and Family Services budget. The contract is being processed now in order to begin these preparation services.

IV. Legal Issues: none

V. Controversial Issues: The Strategic Investment Program community resources program is new, and as it becomes operational, questions and issues may arise. No specific issues are known at this present time.

INTERGOVERNMENTAL AGREEMENT

#105126

THIS CONTRACT is between MULTNOMAH COUNTY, acting by and through its Department of Community and Family Services, hereafter called COUNTY, and

Mt. Hood Community College
26000 SE Stark
Gresham, OR 97030, hereafter called CONTRACTOR

Fed. ID#: 93-0546890

THE PARTIES AGREE:

1. **DESCRIPTION OF SERVICES.** Services under this requirements contract are being purchased to assist with the identification of persons who may be eligible for Strategic Investment Program (SIP) entry-level jobs. The scope of services is designed to identify those persons who have contacted the Portland Development Commission (PDC) Semiconductor Hotline, and who appear from an initial screening by PDC, as ineligible for hiring. From the list provided by PDC the CONTRACTOR will contact applicants, and perform the required assessment for academic skill levels, job readiness, work experience and supportive services needs, utilizing standard assessment instruments and procedures. Following assessment the CONTRACTOR will refer applicants to agencies that provide the needed services, and will conduct follow-up assessments within 30 to 45 days to determine outcomes of the referrals.

These services are intended to assure that people who need additional services to become qualified applicants are brought into the service delivery pipeline. By increasing the pool of qualified applicants, this contract will assist the COUNTY to fulfill the SIP goal of providing jobs with good career-potential to the target population, and will help meet the SIP companies' commitments to hire entry-level employees from the target population, especially during this initial start-up period. A longer-term system to address these services, linked to the capacity of the service delivery agencies in Outer Southeast and East County, will be proposed in conjunction with the SIP Social Services Infrastructure Planning Process. This contract may or may not be extended under that longer term process, depending on what is in the COUNTY'S best interest.

Services under this contract will consist of the following:

- a. **Initial Contact/Outreach.** CONTRACTOR will contact interested, pre-screened applicants from a list provided by PDC. This list will consist, at a minimum, of the date of contact, names and telephone numbers of persons who have contacted PDC concerning recruitment for SIP-related jobs and have been determined unqualified through a preliminary screening process.
- b. **Assessment for Job Readiness and Support Services.** CONTRACTOR will assess the applicants for their academic skill levels, job readiness, work experience, and supportive services needs, using standard assessment instruments and procedures. Current barriers to employment will be noted and used as the basis for Information and Referral activities.
- c. **Information and Referral Services.** CONTRACTOR will refer clients to appropriate needed services as determined in the assessment phase. Referrals will be made to the community colleges, the Private Industry Council, Adult and Family Services, the COUNTY'S Community Service Centers, Family Resource Centers, and Family Service Centers, the Child Care Resource and Referral Agency (CCR&R), and other agencies that may provide specific needed services. CONTRACTOR will make referrals for the client, obtain releases, and provide client information to the agencies receiving the referrals when contacted, to eliminate duplicative intake processes and to facilitate timely service. Client is to schedule own appointments, and will be given copies of any documents that will facilitate the referral, such as test scores.
- d. **Follow Up Services.** CONTRACTOR will conduct at least one follow-up contact with each client assessed and referred for services, to determine what occurred. Items to be tracked include: 1) whether the client made the appointment; 2) whether services were provided or the client is on a waiting list, and 3) what services were provided. CONTRACTOR will also provide information about re-applying to PDC's JobNet for SIP jobs during the follow-up contact.
- e. **Client Tracking Services.** CONTRACTOR will use a modified Community Action Client Tracking Information System (CACTIS) format to collect and maintain demographic, service, and SIP-specific information on each client.

Data from the system will be submitted to the COUNTY'S Community Action Program monthly. The Community Action Program will aggregate and report on all CACTIS information quarterly to the CONTRACTOR, SIP Coordinator, and the Department of Community and Family Services' Contracts and Evaluation Unit. In addition to the routine CACTIS demographic and service information, this report will track data elements specific to SIP, which include: age categories; additional characteristics of the SIP target population as they apply to School-to-Work participants and graduates of Oregon schools; barriers to employment; and referral system information, to include numbers of initial referrals and outcomes of the follow-up contacts.

f. **Invoices/Units of Service Tracking.** CONTRACTOR will send in monthly invoices for payment to the Department's Contracts and Evaluation Unit, on forms approved by COUNTY. COUNTY will distribute copies of the billing information monthly to the Community Action Program and SIP Coordinator.

2. **COMPENSATION.** COUNTY will pay CONTRACTOR on a requirements basis based on fee-for-service rates identified below, upon receipt of invoice. The CONTRACTOR is expected to provide services for up to 200 individuals, maximum \$125 per individual. Additional clients may be authorized by the Community Action Program without a contract amendment; other activities may be authorized and incorporated into this contract through amendment signed by both parties to the contract.

• Assessment for Job Readiness and Support Services	\$50 per Individual
• Information and Referral Services	\$25 per Individual

Multnomah Commission on Children and Families

Workplan 1996-97

The Multnomah Commission on Children and Families worked intensively from June, 1995 through February, 1996, to describe the major system changes required to implement "A Chosen Future for Children and Families in Multnomah County", the County's comprehensive plan.

The Commission previously identified eight system elements to examine for change: changing norms, community involvement, funding, information systems, close proximity centers, early assessment, planning and becoming a learning system. During its six months of internal planning, the Commission convened task groups on three of those system elements: changing norms, funding and planning. The workplan which follows evolved in a February retreat based on the work of those three task groups.

Planning

Build an effective, dynamic comprehensive plan by implementing a system of research- and evaluation-based community-wide planning for children and families. The planning system will blend many perspectives and will include both professional expertise and review through the Wellness Team and community-based planning through caring communities and other naturally existing groups.

The Commission will assume several roles in planning.

- Facilitate and produce the county's comprehensive plan for children and families.
- Design the infrastructure to support children and families: what are the directions, mechanisms and inter-relationships among major systems elements such as funding,

- Review completed plans in conjunction with the Wellness Team; extract policy recommendations from the plans and act on them ; incorporate approved plans into the comprehensive plan.
- Assume the role of providing access to information about planning and funding through an on-line planning service and a newsletter.
- Develop a mechanism to assure that evaluation informs planning and review progress towards benchmark achievement.

Advocacy

Advocacy is a key responsibility of the Commission. The citizens and the professionals who sit on the Commission become the active and tenacious community voice on behalf of children and their families. Their constituencies are many: parents, funders, providers, citizens, school boards, teachers, customers, county departments, elected officials including the legislature, state government, animal clubs, chambers of commerce, local school advisory committees and many more.

The Commission has outlined several tasks supporting its advocacy role.

- Create and deliver a "road show" describing the County's compelling vision for children and families and the values that circumscribe that vision. Include visuals such as a computer-generated presentation, brochures, and charts.
- Develop policy recommendations to the Board of County Commissioners supporting children and families; work with County Commissioners to develop congruence with their policies; advocate for those policies at every level.
- Develop a quick response system to address the media on critical issues.
- Educate the community about the value of funding following planning.
- Advocate for the implementation of the comprehensive plan at every level.
- Meet with neighborhood based groups to share with them the county's priorities and plans for children and families and to hear their interests and concerns.

Public Education

The Commission has a role in developing awareness among the citizenry of Multnomah County of the complexity of issues facing children and families in our community. Commissioners also have a role in articulating effective strategies to build wellness. Some current community norms do not support wellness and the Commission will undertake changing some of those norms.

- Use a public education campaign and other strategies to change one or more identified norms which are barriers to a healthy community.
- Work with businesses to build family-friendly policies. With neighboring counties, sponsor an awards event for businesses which have made significant progress in that direction.

Research and Data Analysis

The Commission wants to build a common understanding of and value for the need for change. In order to do that, Commissioners must be able to describe the current status of children and families.

- The Commission will seek to add value to the community's knowledge of its children and families by continuing to develop increasingly sophisticated research and data analysis.
- The Commission will continually refine a "children's budget" which describes all funding that comes into Multnomah County for children and families along age and risk continuums.
- The Commission will support research on best and emerging practices for planning.
- The Commission will seek evaluation data to inform its work.

Funding

The Commission plays several roles in funding. While having responsibility for allocation of several million dollars in state and federal funds, it also will play a role in building relationships among funders.

- Review Commission funding practices to assure that they are leveraging systems change and are supporting the implementation of the comprehensive plan; focus commission resources on Family Centers.
- Convene a Funders Council and work with funders to build collective ownership for and implementation of the comprehensive plan.
- Ask funders to consider system wide issues such as livable wages for contracted services to improve quality and retention rates for provider agencies.
- Develop opportunities for collaborative and leveraged funding.
- Explore the impact and opportunities of block grants. Advocate for, consider funding and track one or more pilot block grants in the community.
- Assure that MCCF funds impact and provide incentive for systems change.

- Build business investment in children and families.
- Fund facilitation and research to support planning.
- Fund and/or provide technical assistance and training to providers based on county priorities.

Advisory Boards

The County has a number of Advisory Boards with different and sometimes overlapping charges and statutory responsibilities. The Commission's task will be to involve all of those advisory bodies in the compelling vision for children and families.

- The Commission will build effective relationships with key advisory boards including the Local Public Safety Council, Community Action Commission, Leaders' Roundtable, Portland Multnomah Progress Board, Schools Systems and neighboring counties' Commissions on Children and Families.
- The Commission will convene and staff a Youth Advisory Council, which may become advisory to several organizations.

Evaluation

The Commission is committed to evaluating programs and systems that serve children and families in order to direct systems change more effectively.

Convene, in partnership with institutions of higher education, an Evaluation Research Advisory Council with professional evaluators to design and implement common program and system evaluations across the community.

Consumer Consultation

Basic to the Commission's work is the involvement and constant feedback from customers. They are at the center of the county's mission. The Commission will

- develop mechanisms to assure continuous consumer consultation and involvement.

Technical Assistance and Training

The Commission will assume the role of a clearinghouse for technical assistance and training.

- Provide technical assistance to county departments and non-profit service providers who are seeking grant funds consistent with the comprehensive plan.
- Coordinate training opportunities around services to children and families throughout the community; broadcast information about trainings.
- Support technical assistance which propels providers toward systems change and capacity building.

The undersigned members of the Eugene City Council endorse the campaign to support increasing Oregon's minimum wage. Raising the minimum wage would provide more working Oregonians the opportunity to raise their families in dignity.

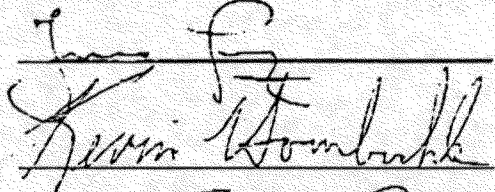

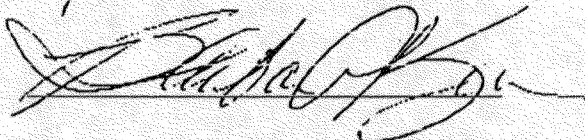

The minimum wage in Oregon has not been increased since 1991. As a result, the purchasing power--adjusted for inflation--has fallen by 70 cents per hour. Minimum wage workers and their families are living below the poverty level. Working people and families can no longer live on the existing minimum wage of \$4.75 per hour or \$800 per month.

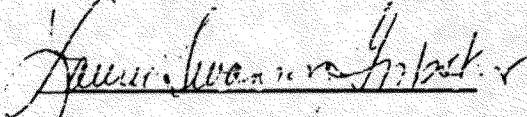

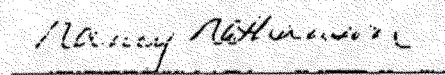

We agree that raising Oregon's minimum wage compensates for increases in the cost of living. The U. S. economy was at its most robust in the 1960s, when the purchasing power of the minimum wage was at its highest. Therefore, the proposal to gradually increase the minimum wage to \$5.50 per hour for 1997, \$6.00 for 1998, and \$6.50 for 1999 makes good economic sense for Oregon.

We agree with the State of Oregon's policy to establish minimum wage standards for workers consistent with their health, efficiency, and general well-being. Current standards no longer accomplish this worthwhile goal. As a result, many employers benefit by paying workers so little that those workers need public assistance just to survive. Oregon's minimum wage must be increased so that taxpayers are no longer forced to subsidize low-wage employers.

We urge voters to support this initiative to raise Oregon's minimum wage. Real work deserves real pay and working people should make enough for their families to live on. Increasing the minimum wage is a step toward that goal.

You may add us to your list of supporters.

Agenda Item No.: 10.2

TO: Mayor and City Councilors
FROM: Councilor Loren Collins
SUBJECT: Oregon Minimum Wage

Councilors, on Monday I will ask that we initiate the process for Council to endorse the initiative to increase the minimum wage in Oregon.

The proposed initiative -- The 1996 Oregon Minimum Wage and Economic Independence Act -- would gradually increase Oregon's minimum wage to \$5.50 in 1997, \$6.00 in 1998 and \$6.50 in 1999.

The present \$4.75 is not adequate. In fact, in 1995 dollars minimum wage workers today earn \$1.71 less than they did per hour in 1968. On the other hand, its interesting to note that the U.S. economy was at its most robust time in the late 1980's when the minimum wage carried a comparable level of purchasing power to this initiative.

68.8% of the workers who earn a minimum wage are adults. More than 38% of these workers are the sole earners in their families.

Councilors in Eugene endorsed the initiative a few weeks ago. I will ask that we do so as well.

-- AN EQUAL OPPORTUNITY EMPLOYER --

April 12, 1996

To the Editor:

The City of Salem has a policy restricting the City Council from taking an official position regarding Ballot Measures. A majority of the Council has voted to uphold that policy. However, that does not prevent individual Councilors from taking a stand on issues they feel are important to their constituents.

Consequently, We, the following members of the Salem City Council, personally and individually support efforts to increase the minimum wage in the state of Oregon.

Coalitions Advocate Minimum Wage Increase

SALEM—The Minimum Wage Coalition and Oregonians to Maintain Community Standards today filed with the Secretary of State a ballot measure initiative to increase Oregon's hourly minimum wage from its current \$4.75 to \$6.50 over a three-year period.

"We are circulating this initiative petition to restore the integrity of Oregon's minimum wage statute," said Ellen Lowe, a chief petitioner and associate director of Ecumenical Ministries of Oregon. "The law declares that the state establish minimum wage standards for workers at levels consistent with their health, efficiency and general well-being," said Lowe. "But this standard is not being met with the current level of \$4.75 an hour."

This alliance of grass-roots organizations and construction industry unions and employers is going to bat for the tens of thousands of low wage workers who toil for the minimum wage. The current hourly minimum of \$4.75 translates into an income of just over \$600 a month, or \$9,880 a year. The poverty level for a family of four is \$15,150. Because of this \$5,270 discrepancy, thousands of hard-working families are forced to supplement their wages with various forms of public assistance.

According to State Employment Department statistics, the purchasing power of the current minimum wage, when adjusted for inflation, has dropped by 70 cents an hour since its last increase in 1991.

"Those who oppose increases in the minimum wage ought to try living for a month on \$4.75 an hour to learn first-hand the problems of raising a family in abject poverty," said State Rep. Avel Gordly, of Portland, who is a chief petitioner of the effort to raise the minimum wage. Gordly introduced a bill to increase the minimum wage in 1995 Legislature, but it failed to get a committee hearing.

"This measure will not solve all of the problems that low wage workers face, but its passage will increase economic independence and help families to raise their children in dignity," said Gordly.

Due to the chaos in the timber industry, many workers who formerly held family-wage jobs, often find themselves forced to take minimum wage employment, said the third chief petitioner, Lonnie Burson, assistant business representative of Lumber & Sawmill Workers Local 2949. "These displaced workers and their families can't begin to exist on \$4.75 an hour," said Burson. "I'm committed to raising the minimum wage because its pro-work and pro-worker."

Wally Mehrens, of Oregonians to Maintain Community Standards, said his coalition of construction unions and employers has joined the effort boost the minimum wage as a sign of solidarity with low wage workers. "Many minimum wage breadwinners turned out in 1994 to help us defeat a repeal of our prevailing wage rate, and we want to do our best to return the favor," said Mehrens.
