

**Testimony in Support of the Multnomah County, Oregon Resolution Calling Upon
US Immigration and Customs Enforcement to Exercise Prosecutorial Discretion
Regarding Implementation of the “Secure Communities Program”**

Herman M. Frankel, M.D.*

Chair Cogen, Commissioner Kafoury, Commissioner Smith, Commissioner Shiprack,
and Commissioner McKeel:

Thank you for the opportunity to testify in support of your efforts to protect members of
our community from improper, inappropriate, and unlawful detention and deportation.

Thank you for reminding us that enforcement of federal civil immigration law is the
responsibility of the federal government and not of State, County, and/or City
governments, and that routine adherence to protocols developed to facilitate detention
and deportation of our neighbors – without thoughtful case-by case attention to context
and details – constitutes assaults on the lives of people and their children, on community
safety, on civil rights, on access to due process, and on our democracy itself.

As a pediatrician who has lived and worked in Multnomah County since 1965, I care
especially about the well-being of our children. You who have worked so devotedly, year
after year, to protect families in distress know full well that immigrant and refugee
victims and survivors of domestic violence who are terrified of the prospect of
deportation of the abuser on whom they are economically dependent, or of themselves,
are likely to be reluctant to seek help no matter how desperately needed. Further, there is
abundant evidence that parental separation due to incarceration is itself an adverse
childhood experience that, especially when combined with such other family problems as
abuse or neglect, creates or increases the risk of severe developmental problems in the
childhood years; psychological, social, and behavioral problems in the teenage years; and
serious chronic medical problems in the adult years. (Please see documentation below.)

Let’s keep working together to protect our children from harm, and to make life better for
everyone who lives, works, studies, worships, or travels in Multnomah County.
