a) Dedicated Resources

Resources which are pre-designated for the operation of an organization or program. They include federal and state revenues designated to the operation of specific services, federal and state grant matches, and transfers from funds dedicated to certain purposes.

b) Operational Resources

Fees and revenues deriving from the operation of county services. These are the "charges and recoveries" assigned to each department in the General Fund.

c) General Resources

Resources which are independent of the operation of particular agencies or which derive from the operation of several agencies which comprise a system.
