## MULTNOMAH COUNTY AGENDA PLACEMENT REQUEST (short form)

### Board Clerk Use Only

Meeting Date: 10/20/09  
Agenda Item #: WS-1  
Est. Start Time: 10:00 AM  
Date Submitted: 09/28/09

**Agenda Title:** Work Session to Consider the Countywide Impacts to our Public Safety System of State Funding Adjustments in the 2009-2011 Biennium and Additional Revenue Issues in Fiscal Year 2010 [Continued from September 28, 2009]

*Note: If Ordinance, Resolution, Order or Proclamation, provide exact title. For all other submissions, provide a clearly written title.*

Requested Meeting Date: November 3, 2009 Amount of Time Needed: 1 hour  
Department: Non-Departmental Division: Chair's Office  
Contact(s): Peter Ozanne  
Phone: 503-988-5777 Ext. 85777 I/O Address: 503/600  
Presenter(s): Peter Ozanne, Doug Bray, Mike Schrunk, Sheriff Skipper/Larry Aab, Scott Taylor

### General Information

#### 1. What action are you requesting from the Board?

Participate in a worksession to discuss the policy choices and the impacts to County programs as a result of adjustments in funding from the State and other changes in the County's general fund revenue streams that will be reflected in the current fiscal year. This will include a discussion of rebalancing the County's budget with changed state resources and how those changes will be implemented.

#### 2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

The State faced many funding challenges due to the current economic situation. The State concluded its budget process in June. In July and August, the County was still learning about the adjustments to balance the budget for the 2009-2011 biennium and the subsequent impact to Multnomah County's budget. On September 1, 2009, the Board heard presentation from DCHS, Health, CCFC, MCSO, DCJ, and others regarding the potential changes. The Board heard about expenditure and revenue adjustments, client impacts, FTE impacts and reduction strategies. The Health and Human Service departments were given the go ahead to take the next steps to balance their budgets and return with the necessary budget modifications.

At the same time the Board of County Commissioners indicated they wanted to have a second work session focusing specifically on the impacts to the public safety system. The worksession, facilitated by Peter Ozanne, will include a discussion of the state impacts and other revenue issues extending beyond the State cuts. The information and discussion at this worksession will center on issues involving the collective operational impacts from a variety of reduced revenues to the public safety system including the US Marshal, Project 57, State Department of Corrections (DOC), State Measure 57.

Proposed Agenda

- Overview of Today's Session and Framing the Issue – Peter Ozanne
- FY 2010 Financial Context Reminder – Karyne Kieta
- Revenue Impacts (State and General Fund) by Department & Reduction Strategies
- Round Table Discussion
- Next Steps

**3. Explain the fiscal impact (current year and ongoing).**

Departments will present a fiscal summary including any potential reductions, reduction strategies and service and client impacts.

**4. Explain any legal and/or policy issues involved.**

Oregon Budget Law does not require the Board to formally decrease appropriations to implement reductions; however, depending on the policy direction indicated by the Board, departments will return with budget modifications to formally change their appropriations. No vote is needed at this time.

**5. Explain any citizen and/or other government participation that has or will take place.**

<b>County Human Services</b>									
	25010	Developmental	1,160,480	17,804,057	(1,613,190)	0	(1,613,190)	(11.00)	Local Administrative base funding was reduced by approximately \$650,741. Case Management base funding and the estimated match funding were reduced by a combined total of \$962,449. The reductions are due to a change in Oregon Department of Human Services' allocation methodology. Information regarding this change was not available during the FY 2010 budget process. The Division is currently working on reducing FTE, estimating a total loss of 11 FTE's with 7 FTE from Local Administrative funding and 4 FTE from Case Management. A majority positions are vacant. The Division expects to use one time only budgeted Beginning Working Capital funds to supplement the loss of the Case Management funding and to transition to FY 2011. It is believed that the reduction in funding will not have any lasting adverse impacts on clients or their families. In previous years the ratio of case managers to clients was 1 to 80. The State's standard is 1 to 45, but without funding this ratio cannot be reached. The Division estimates that realigning case loads and using BWC, the ratio will settle at roughly 1 to 60 for FY 2010.

	25013	Developmental Disabilities Services for Children	209,929	4,298,479		(253,411)	(253,411)	0.00	Funding for Family Support Services (150 & 151), which provides respite services for Developmental Disabilities Families, was reduced by \$253,411. Based on an estimated average of \$1,200 per plan, per family, this loss of funding could potentially result in approximately 200 families either not receiving respite services or receiving substantially reduced services for the FY10 budget year.
	25015	Developmental Disabilities Coordinating, Monitoring & Business Unit	0	3,219,130	0	(453,813)	(453,813)	0.00	Crisis Services (44) funding was reduced by \$453,813. Transitional housing for a client, whose family may no longer be able to effectively or safely care the them, is one of example of Crisis Services. Crisis Services expenditures are approximately \$66,000 per month and estimated plans are about \$4,000 per client. This totals about 16 clients per month who require Crisis Services funding. Conservative estimates reveal that approximately 110 clients may not receive Crisis Services for the FY10 budget year. It should be noted that once Crisis Service Funding is exhausted at the County level, that then Crisis Services funding at the Regional Level will be used until it is exhausted. The Division plans on applying for additional Crisis Services funding in October 2009, as allowed by the State.
	25020A	Aging Disability Services- Access & Early Intervention	2,703,914	5,115,969	61,034	0	61,034	0.70	Oregon Department of Veterans' Affairs increase based on application of the approved distribution methodology and recognizing the full veteran population in Multnomah County. A 0.2 FTE increase in Veteran Services Officer and 0.5 FTE increase in support staff will result in a 15% increase in direct service hours and # of veterans served.

	40010	Communicable Disease Prevention & Control	2,284,058	1,871,552	(49,548)	0	(49,548)	(0.20)	Reduction of a 0.20 Community Health Nurse results in the reduction of clinic hours by 1 day per week. The TB Clinic will move to a Monday, Wednesday, Friday schedule coordinating testing and follow-up appointments for patients. Reduction in clinic hours will cause patients to have longer waiting times and will impact the ability to evaluate new TB suspects/cases within the timeframes mandated by the State. Delays in treatment could cause delays in isolating a patient and protecting the public.

This will reduce costs without adversely affecting the number of families screened; 2) Eliminate the 1.0 Program Development Technician position (Local 88). Won't adversely affect numbers of families screened or referred; but, remaining administrative staff will have increased workload in areas in managing multiple data bases, and communicating with our contractors/partners about Healthy Start referrals; and 3) Contract reduction of \$93,635 to our contractors will result in a loss of ~2.5 FTE Family Support Workers, each of whom is expected to serve an average of 28 families in intensive home visiting during the course of a year. A total of 70 families will not be served as a result of this reduction. Because caseloads are nearly full, these families would transferred to non Healthy Start Services, if available.

The Governor's Tobacco Reduction Advisory Council will meet in August to consider options for how the cuts will be absorbed. There are many components to the state TPEP program - e.g. local counties, the statewide Quit Line, statewide media advocacy, funding to voluntary agencies, and we don't yet know the proportionate reductions to the various components.

New legislation (HB 3508) will impact workload in three areas for adult community supervision: 1) the change in prisoner good-time credits will increase the number of felons under our parole supervision for several months, as those offenders who were retroactively eligible move through the system; 2) the new ceiling set for technical violations will reduce the length of time for violations that DCJ offenders can serve in jail; 3) a change in the inactive status for a set of offenders will mean more of the people currently supervised will shift to inactive status. At this time, the full fiscal impact of these three changes is not known.

# Multnomah County Sheriff's Office

FY 2010 Mid-year Revenue Briefing

During the FY 10 budget adoption, MCSO identified potential risks in the approach to deal with the significant budget reductions the County faced. We want to brief the Board on what is working and what needs additional attention. There are three areas we would like to cover:

- Current Budget Spending
- The State Revenue Shortfall
- US Marshal Actual Bed Use vs. Expectations

# Budget Context

- For FY 10 MCSO reduced our budget through staff reductions (48.76 FTE) and the closure of 172 beds over FY 2009 Adopted budgeted levels.
- The reduction numbers would have been significantly larger for bed closures and personnel if the Sheriff did not propose innovative solutions which included:
  - Working with the US Marshal to increase revenue by housing additional federal inmates in what would otherwise be empty beds.
  - Return to single bunking at MCDC
  - Reduce court services staffing
  - Eliminate East County Temporary Hold
  - Managed sick leave to a 31% reduction

# Budget Context

- Eliminate the Corrections Emergency Response Team (CERT)
- Sought grant funding for replacement of cut positions in Enforcement.
- Gained ongoing budget savings through retirement incentive, military leave and leave of absence programs.
- Gained budget savings by suspending COLA and Merit increases for Exempt and Local 88 employees and COLA for DSA.
- Returned \$4.8 million year end savings to the General Fund. This was \$1.4 million more than \$3.4 million goal.

# What Didn't Work?

- Reductions in Court Services were based on information that the courts would be reducing the number of court rooms and referees for the upcoming Fiscal Year.
- CERT was restored at a lesser level after negotiations with the Corrections Deputy Association.
- East County Temporary Hold was restored as a part of the critical need for east county cities to retain law enforcement resources at an optimal level within their jurisdictions. The collaborative delivery of services in East Multnomah County is an important aspect of overall service delivery.

## Budget Status – We are currently spending at 98.7% of Budget

FY 2010 Current Year Estimate by Division\*:

	Budget	YTD Actual	Forecast	Year End
Corrections	76.8	19.1	77.3	(0.5)
Enforcement	14.7	3.6	14.0	0.7
Business Services	11.4	2.5	10.5	0.9
Executive	3.3	0.8	3.1	0.2
Total	\$106.2	\$26.0	\$104.9	\$1.3

\* Includes general fund and SB 1145 state funding

# Expenditure Challenges

Corrections	
Court Services Overtime – Unable to meet the needs of the courts resulting in significant backlogs in delivering inmates into the court system	\$452,000
CERT – Worked with County Labor Relations after demand to bargain with MCCDA over safety and change in work conditions.	\$140,000
MCCDA Contract Payouts - Sick leave and comp time pay-out from new contract agreement.	\$144,000
Gresham Temp Hold	\$121,000
Subtotal	\$857,000
Law Enforcement	
DSA Retro Settlement – Contract settlement did not get included in FY 2010 budget estimates	\$366,734
ORPAT Funding	\$132,000
Subtotal	\$498,734
Corrections & Enforcement Total	\$1,355,734

# Revenue Challenges

Corrections		
State SB 1145 Shortfall*		\$1,258,341
US Marshal Revenue Shortfall:		
If 155 bed average for the year (1 <sup>st</sup> quarter Avg.)	\$2,053,125	
If 170 beds for the year	\$1,368,750	
If 185 beds for the year (current month avg.)	\$684,375	
P57 Program Revenue End (post budget submission)		\$228,125

\*Does not include potential State Measure 57 revenue of \$377,395

## Total Monthly Forced Releases

# Operational Impacts of Known Revenue Shortfall

- Projected jail bed closures would be five house areas (293 beds) for the remainder of the fiscal year.
- Layoffs would be approximately 50 staff.
- System beds would be at 1,074 which would trigger daily emergency population releases.

# Next Steps

## Action for System-Level Change

- Develop a comprehensive state plan for mental health/criminal justice collaboration
- Legislate task forces/commissions comprising mental health, substance abuse, criminal justice, and other stakeholders to legitimize addressing the issues
- Encourage and support collaboration among stakeholders through joint projects, blended funding, information sharing, and cross-training
- Institute statewide crisis intervention services, bringing together stakeholders from mental health, substance abuse, and criminal justice to prevent inappropriate involvement of persons with mental illness in the criminal justice system
- Take legislative action establishing jail diversion programs for people with mental illness
- Improve access to benefits through state-level change; allow retention of Medicaid/SSI by suspending rather than terminating benefits during incarceration; help people who lack benefits apply for same prior to release
- Make housing for persons with mental illness and criminal justice involvement a priority; remove constraints that exclude persons formerly incarcerated from housing or services
- Expand access to treatment; provide comprehensive and evidence-based services; integrate treatment of mental illness and substance use disorders
- Expand supportive services to sustain recovery efforts, such as supported housing, education and training, supportive employment, and peer advocacy
- Ensure constitutionally adequate services in jails and prisons for physical and mental health; individualize transition plans to support individuals in the community
- Ensure all systems and services are culturally competent, gender specific, and trauma informed – with specific interventions for women, men, and veterans

## Action Steps for Service-Level Change at Each Intercept

- **911:** Train dispatchers to identify calls involving persons with mental illness and refer to designated, trained respondents
- **Police:** Train officers to respond to calls where mental illness may be a factor
- **Documentation:** Document police contacts with persons with mental illness
- **Emergency/Crisis Response:** Provide police-friendly drop off at local hospital, crisis unit, or triage center
- **Follow Up:** Provide service linkages and follow-up services to individuals who are not hospitalized and those leaving the hospital
- **Evaluation:** Monitor and evaluate services through regular stakeholder meetings for continuous quality improvement

- **Screening:** Screen for mental illness at earliest opportunity; initiate process that identifies those eligible for diversion or needing treatment in jail; use validated, simple instrument or matching management information systems; screen at jail or at court by prosecution, defense, judge/court staff or service providers
- **Pre-trial Diversion:** Maximize opportunities for pretrial release and assist defendants with mental illness in complying with conditions of pretrial diversion
- **Service Linkage:** Link to comprehensive services, including care coordination, access to medication, integrated dual disorder treatment (IDDT) as appropriate, prompt access to benefits, health care, and housing; IDDT is an essential evidence-based practice (EBP)

- **Screening:** Inform diversion opportunities and need for treatment in jail with screening information from Intercept 2
- **Court Coordination:** Maximize potential for diversion in a mental health court or non-specialty court
- **Service Linkage:** Link to comprehensive services, including care coordination, access to medication, IDDT as appropriate, prompt access to benefits, health care, and housing
- **Court Feedback:** Monitor progress with scheduled appearances (typically directly by court); promote communication and information sharing between non-specialty courts and service providers by establishing clear policies and procedures
- **Jail-Based Services:** Provide services consistent with community and public health standards, including appropriate psychiatric medications; coordinate care with community providers

- **Assess** clinical and social needs and public safety risks; boundary spanner position (e.g., discharge coordinator, transition planner) can coordinate institutional with community mental health and community supervision agencies
- **Plan** for treatment and services that address needs; GAINS Reentry Checklist (available from <http://www.gainscenter.samhsa.gov/html/resources/reentry.asp>) documents treatment plan and communicates it to community providers and supervision agencies – domains include: prompt access to medication, mental health and health services, benefits, and housing
- **Identify** required community and correctional programs responsible for post-release services; best practices include reach-in engagement and specialized case management teams
- **Coordinate** transition plans to avoid gaps in care with community-based services

- **Screening:** Screen all individuals under community supervision for mental illness and co-occurring substance use disorders; link to necessary services
- **Maintain a Community of Care:** Connect individuals to employment, including supportive employment; facilitate engagement in IDDT and supportive health services; link to housing; facilitate collaboration between community corrections and service providers; establish policies and procedures that promote communication and information sharing
- **Implement a Supervision Strategy:** Concentrate supervision immediately after release; adjust strategies as needs change; implement specialized caseloads and cross-systems training
- **Graduated Responses & Modification of Conditions of Supervision:** Ensure a range of options for community corrections officers to reinforce positive behavior and effectively address violations or noncompliance with conditions of release
