Subject: Amendments to the 1996-97 Budget
Date: Wednesday, May 29, 1996 2:35PM

As most of you are aware, the Board will be adopting the 1996-97 Budget on June 13. At that time it is important to include in the budget any carryover items or other additional, unbudgeted revenues. Once the budget has been adopted, adding these things becomes more expensive and time consuming.

If you have contracts that have not been completed this year that will continue next year, if you have budgeted equipment that has been ordered this year but will not be received until next year, please prepare an amendment to carry the 1995-96 unspent appropriation forward to 1996-97. Keep in mind that for a service or commodity to be charged to the 1995-96 budget, it must be complete or delivered prior to June 30, 1996. When it was ordered or begun is irrelevant. If you do not have the appropriation in next year's budget, you run the risk of having to eat the cost anyway.

Attached are Excel spreadsheet and Lotus spreadsheet versions of the Amendment form. They are blank. Please fill them in with your requested changes and get them to your budget analyst no later than 5:00 PM June 6. If you have any questions, my phone number is 248-3822.

DRAFT

TO : Board of County Commissioners
FROM : Beverly Stein
DATE : June 4, 1996
RE : \$10,000,000 to Schools Proposal

I have been working in cooperation with the Budget and Quality and Finance offices to develop a draft proposal for your consideration. I have been guided by the following goals:

- minimize long term damage to the County's financial integrity
- minimize long term program impact on our clients
- stabilize our assistance to functions related to supporting children and families involved with the schools

As the following listing shows, we have been able to come up with the resources to address the goal of providing schools \$10 million on a one-time-only basis.

SUMMARY OF PROPOSAL

Schools Contribution		10,000,000
Steps toward target:		
	Reduce Reserves	(3,400,000)
	Additional Revenue	(3,450,000)
	Delay Hiring and Program Start Up	(970,000)
	Strategic Investment Program/Community Service Fee - Year 1 (First Year Transer from Facilities, CIP, IS Funds)	(1,500,000)
	Eliminate Levy/Share Reserve	(500,000)
	Lower COLA	(180,000)
Subtotal		<u>(10,000,000)</u>

I. COUNTY RESERVE FUND

\$3,400,000

In the Chair's proposed budget, we were able to allocate one time only resources to fully fund the Board policy goal of a 5% General Fund reserve - \$9.5 million in 1966-97. By reducing that amount to \$6,100,000 the Board will remain consistent with the practice of the past three years of adding \$1,500,000 to the reserve each year. This is in line with the current financial policy and should not negatively impact the County's bond rating. In fact, there is a chance that this continuing commitment to building the reserves would result in a slightly improved bond rating when we issue new debt associated with the public safety and library bonds. This is your Auditor's recommendation.

II. NEW REVENUES

\$3,450,000

Our review of YTD revenue collections indicates that we will end FY95-96 with about \$1.9 million more than we forecast in the Chair's budget proposal. This will add to the 1996-97 Beginning Balance and be available for appropriation next year. We anticipate that these same revenue sources will also generate an additional \$1.550 million next year and that revenue will also be available for spending.

The original revenue forecast assumed that Business Income Tax (BIT) revenue in FY95-96 would grow by 10% over the previous year. Similarly, Motor Vehicle Rental Tax was forecast to grow in FY95-96 by about 11% over FY94-95 actual revenue. Our experience through the end of April indicates that these two revenue sources are growing at much faster rates than we anticipated.

The collection cycle for these two revenue sources dictates a conservative forecasting approach. About 55% of their receipts come in April, May, and June. We typically adjust the forecast throughout the year to reflect our actual experience. The quarterly BIT payment that was due on April 15 was more than 15% higher than the previous year. Likewise, Motor Vehicle Rental Tax receipts in April were nearly 20% higher than in the previous year.

III. LATE HIRING AND PROGRAM START UP

\$ 970,000

HIRING DELAY

\$ 415,000

This will delay the hire of all new full year general fund supported positions in add packages by three months.

PROGRAM DELAY**\$ 555,000**

Some of the programs reviewed by the Wellness group were scheduled for a delayed start up in the submitted budget. Others cannot be delayed because they are a continuation of current programs.

I have mixed feelings about this recommendation because of the direct client impact of these delays. However, a delay has the advantage of providing additional planning time and offer the Board more of an opportunity to review individual program goals and objectives. Below please find a list of new programs, the Board review date, the projected program start up date, and the anticipated savings from a delayed start up (because many of the programs will be contracted the savings are not a duplication of the hiring delays described above) .

Delay of STARS/WYN**\$28,000****November Board Review / January start**

Expansion of Mental health services to headstarts	\$ 54,000
Friends of Children	\$105,000
Expansion of Parent Child Development services	\$138,000
Community Leadership Institute	\$ 25,000
Expansion of Brentwood/Darlington Community Health Model	\$ 50,000

February Board Review / April start

Girls Empowerment	\$ 70,000
Family Advocates I	\$ 35,000
Transitional Housing (Richmond Place)	\$ 50,000

**IV. STRATEGIC INVESTMENT PROGRAM/COMMUNITY SERVICE FEE
\$1,500,000 (FIRST YEAR) - LOAN FROM COUNTY FUNDS**

Gresham has agreed to a process for considering options for the first year's community service fee. The process should be complete this summer.

Because these funds will not come to the County until 1996-7, the transactions will show as a \$1,500,000 transfer from the Capital Improvement Fund (\$500,000), the Facilities Fund, (\$800,000) and from Information Services (\$200,000). These funds will have to be restored next year.

V. REDUCING SET-ASIDE FOR FUTURE LEVY SHARE \$500,000

In addition to setting aside the policy-directed 5% reserve, the Chair's Proposed Budget also included \$500,000 held in reserve to support the public safety levy in the event that we cannot levy our full authorized rate in future years. If we stay within our share of the \$10 cap, and if property values grow 9%, 7.2%, and 6.8% in the next three years, our public safety levy revenue will fall \$5.9 million short of the costs (\$1.9 million in 97-98, \$4 million short in 98-9). Using this set-aside in 1996-97 for schools will require us to find \$1.9 million in 1997-98 rather than \$1.4 million (if property values grow no more than the current estimate) or will require negotiation with Portland and the other property taxing jurisdictions for a larger share of the \$10 cap.

VI. SAVINGS FROM LOWER COLA \$180,000

Our labor agreements tie the cost of living increase to the consumer price index. The amount set aside in budget planning was greater than the amount that will be needed to meet our contractual obligations.

Re : Budget Amendments

DRAFT

In addition to resolving the \$10 million to schools issue, we need to finalize the 1996-7 County budget. In the course of developing the proposal for the schools, I identified two funding sources that I believe are appropriate for funding priority add packages of the Board.

The funding sources are \$500,000 from additional contingency and \$200,000 from eliminating the need for a juvenile justice COP payment. I will explain the sources and provide recommendations for add packages.

REDUCING CONTINGENCY

\$500,000

In building the 1996-97 budget, we tried to prudently anticipate areas or programs that might need additional assistance during the next year. These areas include the Mental Health Triage Center, Children's Mental Health Capitation, and additional infrastructure support for getting prospective job applicants in line for SIP jobs. We held aside \$1 million additional in contingency pending resolution of these issues. Possibly none of the problems will require us to allocate additional funding. If we decide to address them during the year, we could still rely on the normal \$1.25 million contingency account.

I recommend reducing the \$1 million set aside to \$500,000. In the last two weeks we have all become aware of the potential impact of program cuts at the State level to the Youth Investment Level 7 program. I recommend leaving \$500,000 in contingency to give us some capacity to address this issue. (see the amendments for more detail)

JUVENILE C.O.P. PAYMENT FOR NEW BEDS

\$200,000

Prior to Board decisions about what would be included in the Public Safety bond measure, Juvenile included \$200,000 in their budget to cover the cost

of amortizing COP's paying for the new beds at JDH. Passage of the bond measure will allow us to recapture that appropriation.

Based on conversations with you, I recommend the Board approve the following:

ADD PACKAGES

SO1 Gresham Booking Facility \$108,691

The Sheriff's top additional priority. Will guarantee full funding for 1996-7 and an opportunity to fully evaluate the facility's use by Gresham, the NE Cities, and by Portland, who has not fully utilized its potential to date.

CFS 3 (new) Youth Investment System (Level 7) \$160,000

Recent notification of federal reductions to the state and state decision on how to reallocate resources has resulted in the potential of over \$800,000 in cuts to the Youth Investment System. This system was designed through an extensive community planning process to serve youth 13 to 17 who are chronically acting out and running away from home. Services include emergency and transitional shelter, longer term housing, 24 hour crisis calls, family mediation, support groups, HIV prevention, counseling and intensive case management.

This would restore 20% of that funding. The Commission on Children and Families is expected to approach the E Board on June 19/20 for another partial request. The exact additional need will not be known until the end of the month, but the money will not all be restored by state government.

DCC 3a Expansion of Alternative Community Service crews \$266,651(October start)

The additional of three Community works leaders, one community placement specialist and one office assistant will expand program capacity by adding 572 work crews, allowing 8000 more offenders to perform community service. This will assist Community Corrections in addressing the backlog of 3000 offenders wanting to perform this service.

DES 2 Animal Control Officer and Van \$55,000 (October start)

An additional officer will give Animal Control capacity to expand community enforcement of current laws. Some additional enforcement will be directed at violations of the leash law in selected parks. Any long term solution to the leash law violations will also have to involve the City of Portland assuming greater responsibility for enforcement.

Oregon Institute for the Blind \$38,000 OTO

This one time only contribution will allow the Oregon Institute for the Blind to work with Facilities Management and the Health Department to design and operate a snack shop within the McCoy Building. Details of the operation and lease arrangement will be negotiated with Facilities.

DCC 1 Relapse Training for Contracted Alcohol and Drug Providers \$29,000

This will provide training in dealing with client relapse for providers working with alcohol and drug clients in the criminal justice system.

**AMENDMENTS TO DISCUSS LATER
POTENTIALLY FUNDED FROM CONTINGENCY**

SO2; SO3; SO9 Alcohol and Drug Improvements and Spanish Language Training. (requests to be considered at later date from existing contingency)

These four amendments represent relatively recent requests to address the ability of the justice system to evaluate and treat alcohol and drug problems, and the capacity of law enforcement and corrections officers to communicate with Hispanic clients. They raise implementation issues and labor relations issues that would best be dealt with outside of the context of the budget process. However, to insure that the Board has the financial capacity to address these issues, the contingency will be earmarked with additional funds. The Board will consider more specific proposals for each of these items during 1996-7.

Health 1 (new) Community Health Clinics Coalition (request to be considered from existing contingency)

Outside-In has requested funds they believe are necessary to maintain their homeless youth clinic. The Health Department will return to the Board with their proposal to establish a challenge grant fund available for all Community Health Clinics to deal with needs arising in part from the implementation of the Oregon health plan on their agencies

SO 8 Recruitment (\$100,000 potentially funded from levy)

The Budget office advises that the Sheriff can fund recruitment from the public safety levy. The Sheriff will return to the Board with a recruitment plan emphasizing the enhancement of recruitment efforts from local communities of color.

SO6 Fleet Study

With the final realignment of law enforcement functions within the Sheriff's office, now is an excellent time to do the often mentioned fleet study. Tom Guiney of FREDs can assist the Sheriff's office in defining their needs and expected costs.

ADDITIONAL AMENDMENTS

Gresham Booking Facility	\$	108,000
Youth Investment System	\$	160,000
Alternative Community Service Crews	\$	266,000
Animal Control Officer	\$	55,000
Oregon Institute for the Blind	\$	38,000
Training for Alcohol and Drug Providers	\$	29,000
Alcohol and Drug/ Spanish language/ Community Health Clinics (considered from contingency)	\$	45,000 (added to current contingency)
Total	\$	701,000

Domestic Violence Initiative 1996-97

Overview of Domestic Violence in Multnomah County

Domestic violence has been designated an urgent benchmark by Multnomah County and the State of Oregon. In Multnomah County, the Bureau of Emergency Communications receives over 19,000 calls to 911 reporting domestic violence incidents. In Portland, approximately one-third of all homicides were related to domestic violence. Shelters and crisis lines receive over 23,000 calls requesting information, referrals, advocacy and safe shelter. Unfortunately, reported incidents of domestic violence represent from 10-20% of all such incidents.

Effective intervention in domestic violence requires a coordinated response that does not tolerate perpetrators' violence, and supports victims in their attempts to be safe. In Multnomah County, there is a coordinated, community-wide system that responds to and intervenes in domestic violence. This system includes crisis lines, shelters, police and sheriff departments, criminal justice system, medical providers and other organizations. Unfortunately, all of these responders are overwhelmed by the need for assistance. Shelters turn away 90% of those women and children seeking shelter, or a tragic 20,000 people annually. Low income women seeking civil remedies do not have accessible, affordable attorneys to assist them. The District Attorney can prosecute only 10-20% of those cases reported by police jurisdictions.

The Family Violence Intervention Steering Committee has been meeting since 1987 to assure an effective, coordinated response to domestic violence. The Committee serves as an important locus for conversation, problem-solving, education, and networking for those involved in responding to domestic violence. Members of the Committee include law enforcement, criminal justice agencies, victim advocacy programs and funders. It has published three reports, which include an analysis of the existing services and recommendations for new services and for policies and procedures.

Domestic Violence Initiative Recommendations

In Fall, 1995, the Chair of the Board of County Commissioners asked the Family Violence Intervention Steering Committee to make recommendations to the Board during the Benchmark Forum on Domestic Violence. The recommendations were developed from previous Steering Committee's documents, including *From Harassment to Homicide: Update*, with additional information from meetings held with battered women's advocates in the summer of 1995. The committee which finalized the recommendations included Portland Police Bureau, Department of Community Corrections, District Attorney's Office, United Way, City Commissioner Gretchen Kafoury's, Portland Women's Crisis Line, Raphael House, and Multnomah County Legal Aid Services.

In developing these recommendations, the committee recognized three primary goals:

- To stabilize and increase victim resources
- To improve the response of the justice system to incidents of domestic violence
- To develop a community-wide attitude that domestic violence will not be tolerated.

To stabilize and increase victim resources

1. Seek stable, committed funding for on-going victim services.

- During the 1995 fiscal year, Multnomah County Legal Aid Services (MCLAS) laid off one paralegal and one attorney in their Family Law Section due to Federal budget cuts. Because of this they are currently accepting almost no new cases. In addition, in July 1996, MCLAS is expecting to lose another 40% of their remaining Federal funding through Legal Services Corporation. The \$36,000 requested for FY 96-97 will partially replace those positions already cut, and the \$36,000 requested in FY 97-98 (non-Byrne) will replace the expected cuts due to a 40% decrease in funding. These funds will provide at least one full-time attorney, and the necessary support staff to work with battered women on civil suits, such as divorce, custody, child support and visitation.
 - In July 1997, local programs will lose \$214,000 in Federal funds from a Byrne grant. Services provided by these funds include emergency shelter, intensive case management services for women who have alcohol or drug issues or are gang-affiliated, legal representation in divorce, custody or other civil matters through MCLAS, and advocacy at the courthouse for people seeking restraining orders through Portland Women's Crisis Line. The Byrne grant funds are administered by the City of Portland Bureau of Housing and Community Development.
 - Three of the community-based domestic violence programs will lose substantial (\$200,000) HUD/McKinney funds in 1997. These funds are designated to support transitional housing and services at Salvation Army's West Women and Children's Shelter, Raphael House and Bradley-Angle House. Loss of these funds could have a significant impact on the general financial stability and well-being of other programs at these agencies. For example, West Women's emergency shelter is in the same building as their transitional program, so that loss of funding for the transitional program threatens stability of the emergency shelter funding.
- Total replacement funds required is \$450,000.

2. Design, secure funding and develop an out-of-shelter service program for women and children who cannot access shelters or do not need shelter.

Domestic violence shelter programs are currently unable to provide shelter for a significant number of women and children. Police, courts and other service providers frequently work with survivors who do not need or cannot access to emergency shelter. Because of these factors, out-of-shelter services have been designated a priority.

The center would provide women and children a safe site, and short term crisis intervention, including safety planning, information about restraining orders, referrals and advocacy for housing, and information about domestic violence. Other services available at the center could include support groups, outreach program, on-going support or case management, connection with other agencies and organizations, a training facility, phones available for women to make calls, paralegal to assist with legal questions, safety, rent and deposit assistance (direct client assistance), on-site child care, and children's program. It is expected that approximately 2,000 women and children would receive services each year through this center.

Total cost is estimated to be \$225,000.

3. Expand emergency shelter bedspace capacity.

For the last four years, the need for additional emergency shelter capacity has emerged as a critical issue. It is estimated that 90% of the women and children requesting shelter are turned away because a lack of appropriate space. In particular, women with with cultural/language barriers, with large families, or with current drug and alcohol use problems have a difficult time finding appropriate shelter facilities. During a series of planning meeting with domestic violence program representatives, expanding emergency shelter capacity that focused on communities of color or on women with language barriers was designated as the highest priority for expansion of shelter capacity. Such a shelter would provide 15-20 beds, with supportive services, including case management, domestic violence education, support groups, children's programming, parenting skills groups, referrals and advocacy, life-skills training, and other support services. Approximately, 450 women and children could be sheltered each year.

The estimated cost of operating an emergency shelter is \$200,000 annually. There is an additional cost for purchase, building or remodeling a building (\$800,000).

4. Provide on-going restraining order advocacy at the Courthouse and in contested restraining order hearings.

Currently, the Portland Women's Crisis Line provides assistance in filling out restraining order forms and referrals for other services at the Courthouse through the use of volunteers. Last year, they provided assistance two to three days per week to more than 800 women and men requesting restraining orders. In addition, the Oregon Coalition against Domestic and Sexual Violence provided similar services and the services of a lawyer at the Courthouse on the other two days per week. The Coalition's program is no longer in existence and the Crisis Line is attempting to provide assistance five days per week, but cannot provide the legal expertise the Coalition provided. The Volunteer Lawyer's Project through the Multnomah County Bar Association has provided pro bono lawyers' services for low-income people whose request for a restraining order is being contested by the respondent. The Volunteer Lawyer's Project may lose its funding in the next year because of cuts in Legal Aid Services.

This initiative would provide a part-time attorney, working with PWCL, to assist in training and supervising volunteers working at the Courthouse and to provide the Volunteer Lawyers' Project with additional assistance in recruiting and supervising pro bono attorneys at contested restraining order hearings. Estimated funds required are \$25,000.

5. Provide more legal representation for low-income domestic violence victims in an array of family law matters (including divorce, custody, and support cases).

Multnomah County Legal Aid Services has provided legal representation and referrals for low-income domestic violence victims for many years. Throughout the state, more than 10,000 women eligible for services are turned away each year from Legal Aid offices; a large percentage is from Multnomah County. MCLAS has also provided a much-needed legal advice hotline on issues related to domestic violence. In the last two years, due to budget cut backs, MCLAS has lost one attorney and one para-legal who worked primarily with domestic violence victims, and the need for legal representation in civil cases has

increased. This recommendation would replace this attorney and para-legal and increase services, either through addition attorney time or through support staff. These additional funds would allow MCLAS to provide representation for 55 women, and assure coverage of their hotline.

Estimated funds required \$80,000.

6. Develop additional transitional housing for victims and children, with supportive services.

The most frequent reason women returned to the batterer from a domestic violence shelter is that they had no affordable, safe housing. In addition, the longer women and children receive supportive services, the less likely they are to return to or get into a new domestic violence situation. However, in Multnomah County, most often, there are no available transitional housing or supportive services, despite the addition of 18 beds of transitional housing last year. This recommendation would provide an additional \$100,000 in long-term, supportive services and additional housing capacity.

Estimated cost for operations is \$100,000 annually, plus \$800,000 for building.

To improve the response of the justice system to incidents of domestic violence

7. Increase prosecutions, through continued District Attorney's staff training, increased and effective victim advocacy and increased staffing in the DA's Domestic Violence Unit.

Law enforcement intervention in domestic violence requires a coordinated, consistent response. As Police jurisdictions make more arrests, it is important that other parts of the criminal justice system respond. The District Attorney's Domestic Violence Unit reviews almost 5,000 cases annually, and is able to issue only about 2,000 of those cases. To improve this ratio and to provide better victim advocacy, they are requesting funds to hire a Deputy DA, Investigator, and support staff. Approximate cost is \$150,000.

8. Implement vigilant supervision of all domestic violence offenders.

In 1993, the Department of Community Corrections implemented a domestic violence unit, which supervised all offenders in the Deferred Sentencing Program. The unit at that time consisted of two Probation Officers, and some part-time/temporary staff. In 1995, they increased the unit to three Probations Officers, a Probation Technician, a Probation Counselor and Office Assistant. With the additional staff, the Unit will now supervise all offenders in the Deferred Sentencing Program, those terminated from this Program, and those convicted of violations of restraining orders. The development of this unit at this point has primarily been through re-organization. Intensive supervision of domestic violence offenders is important to assure victim safety and to give a consistent message through the criminal justice system that domestic violence is not tolerated in our community.

In 1996-97, the Department plan to increase the staffing of this Unit to a total of 14. The estimated cost of the additional staff is \$250,000.

9. Increased Law Enforcement response through additional staffing in the Portland Police Bureau's (PPB) Domestic Violence Reduction Unit (DVRU).

In 1993, the PPB instituted the Family Services Division, DVRU, whose role was to implement a more effective response to misdemeanor domestic violence incidents. This included extensive victim contact, assistance in obtaining restraining orders and other assistance, additional investigation as requested by Police or District Attorney, serving restraining orders and follow-up on case. In addition, members of the Unit train other Portland Police Officers and officers from other jurisdictions. The Unit consists of six officers, one sergeant, support staff and one Captain. The Unit currently reviews approximately 5,000 police reports each year, attempts to call the victim in each case, and can only assign about 10% of them for other follow-up activities.

This initiative requests funding for two additional officers to respond to misdemeanor domestic violence reports, and one detective to investigate felony cases. Estimated funding required is \$325,000.

To develop a community-wide attitude that domestic violence will not be tolerated

10. Promote community-wide value that domestic violence will no longer be tolerated, including an annual public awareness campaign, and additional support for existing elementary, middle and high school prevention programs.

In order to end domestic violence, we must develop a community ethos that this form of violence is not acceptable. Not only does this require a strong response from law enforcement and the judicial system, but it also requires community leaders, service providers, friends, neighbors, teachers, the media and others to make strong and consistent statements against domestic violence.

This initiative will provide support for existing efforts, including:

- An annual domestic violence awareness campaign, co-sponsored and endorsed by a large variety of community organizations and businesses. Required funding \$5,000.
- School-based programs, such as No Punchin' Judy and Chance for Change. These programs are currently partially funded with County General Funds through the Community Action Program Office. Requested funding is \$10,000.

Budget Notes
Assumptions/Priorities

Replacing Federal funding that is projected to be lost in either 1996-97 or 1997-98 is the highest priority. In addition to the \$487,000 indicated in the attached budgets, the Community Action Program Office has committed to replacing \$180,000 in funding for follow-up case management for women leaving domestic violence shelters.

On-going funding which might be obtained from other sources has been deleted from the Reduced Budget of \$1,065,000 for 96-97. The additional \$75,000 for increased prosecution and \$75,000 for increased supervision of offenders may be available from Public Safety funding. The \$1,500,000 needed to purchase, build or renovate buildings for an emergency shelter and transitional housing may be available from a combination of State, Federal, foundation, other City funding sources and private donations. One hundred and fifteen thousand dollars (\$115,000) in City funding for buildings have been included. These funds could be applied to the expansion of either the emergency shelter or transitional housing, or for pre-development work for these two projects.

One hundred percent funding for expanded services for victims is recommended. Because on-going funding sources for community-based services are limited and the cost of developing new services extends into the organization, it is recommended that these expanded services be funded at 100% of expected costs, at least for the first 3-5 years.

Decreasing size of expansion of services could be an option. The \$325,000 recommended to fund two officers and one detective in the Portland Police Bureau Domestic Violence Reduction Unit has been reduced to \$150,000 to fund one new officer. The \$80,000 recommended to fund expanded legal representation (one attorney, a para-legal, and support staff) through Multnomah County Legal Aid Services has been reduced to \$40,000 to fund one attorney. In addition, the increased prosecution and supervision could also be reduced.

The City and County would share equally in funding of this initiative. It is expected in the long-term, the City and County would share equally in funding these projects. However, due to the disproportionate amount of Federal funds that the City will be replacing in 1997-98, funding for some projects would change between the first and second year.
