District Attorney

Vision

The Vision of the Multnomah County District Attorney's Office is to be *the best public prosecutors office in the country*. There are five key areas of achievement required: advocacy, intervention, innovation, education, and fairness.

ADVOCACY – Effective trial advocacy is the cornerstone of a public prosecutors office. In the pursuit of justice, the District Attorney's (DA's) Office will advocate on behalf of all crime victims in Multnomah County. Victims of crime in Multnomah County will be effectively and empathetically guided through the criminal case by our skilled Victim Advocates, Prosecutors, Investigators, and Support Staff. The Office will recruit, hire and train its employees to be effective advocates.

INTERVENTION – The DA's Office will intervene in a timely manner to protect abused and neglected children through our Juvenile Justice Division. In cooperation with the courts, law enforcement and protective services, children will be freed for adoption in a timely and appropriate manner. The Office will work to break the cycle of violence in the lives of victims. Through the Neighborhood Prosecution Unit, prosecutors in cooperation with police and community groups will intervene in chronic community problems to create long term resolutions, making communities more livable and safer.

INNOVATION – The DA's Office will continue to be a national leader in innovative criminal justice initiatives. In 2000, the United States Department of Justice named the Multnomah County District Attorney's Office a National Leadership Site for its innovative work in community prosecution. Multnomah County is the only county in this nation that has community policing, community prosecution, and community courts in place. The DA's Office will continue to be a leader in these efforts, pursuing diverse funding sources and new partners to create new ways to solve old problems, and creative initiatives to face changing times.

EDUCATION – The DA's Office will promote greater understanding of the rule of law and how it can work for citizens in their daily lives for a healthier, safer, and more productive community. The application of law to solve livability problems through the Neighborhood Prosecution Unit will help people understand that the law is both a tool and a protection.

FAIRNESS – The DA's Office will fairly and consistently apply the law. Every victim and case will be individualized and be while treated fairly and consistently in the application of our policies and in the eyes of the law. Policies of the DA's Office will be easily understood and will provide a basis for equally situated people to be treated similarly.

District Attorney

Department Services

The District Attorney's Office is required by Oregon State Statute to prosecute crimes that occur within Multnomah County. There are various laws and local ordinances that define what constitutes a crime and the sentences attached to those crimes. In 2000, the Office reviewed 12,684 felony cases and 21,313 misdemeanor cases which includes 3,636 DUI cases.

The District Attorney's Office works in partnership with many other organizations to try cases, intervene in the cycle of violence, and eliminate chronic sources of crime. Many of these organizations such as the courts, police agencies, and public defenders are key partners in prosecution. Other partners that are stakeholders in what we do are: the Sheriff's Office, Community Justice, social service providers, community organizations, businesses, state and federal agencies, and national organizations such as the Center for Court Innovation and departments within the United States Department of Justice.

District Attorney

Budget Issues and Highlights

The District Attorney's Office investigates and prosecutes a wide variety of crimes and infractions. Resources are directed as emerging criminal trends are identified by the various local law enforcement agencies and communities in Multnomah County. This year, the following issues have been identified for further analysis and action.

Budget Cuts

The District Attorney Budget is 75% personnel. As a result, positions within the organization have been eliminated to meet the budget shortfall.

Historically, the District Attorney's Office has absorbed increasing demand, especially in the areas of support staff and administrative services. The cut in positions now cannot be absorbed without an impact on services. The areas of services that may be affected are: drug enforcement, misdemeanor trials, juvenile court, and neighborhood prosecution programs. The administrative structure is also being examined for further efficiencies.

As the DA's Office serves as a gatekeeper for the County's criminal justice system, changes in policy may impact who enters the system and for what. They hope that eliminating staff will not greatly impact their overall ability to prosecute violent crimes and family violence. Through reorganization efforts, which will include policy changes, the manner in which they handle some cases will change. Potential policy changes that will impact other County, local, and state entities will be discussed in advance of changes with those agencies.

The DA's Office will be examining core functions, case load statistics, and community programs, and assessing what can be eliminated with minimal negative impact on the citizens served and the employees who provide the services.

Forfeitures

In November 2000, the voters passed Measure 3 which changed forfeiture laws within the State of Oregon. Prior to this measure, some drug enforcement functions and forfeiture activities were supported by the funds generated through the forfeiture of drug money and property used in the facilitation of a crime. Due to the passage of the measure, proceeds gained through forfeitures cannot be used to fund the act of forfeiture itself. The laws guiding the act of forfeiture are also changing.

The changes in the law and funding stream have caused drastic changes in the Office's Forfeiture Unit, eliminating it as a program.

Currently Measure 3 is in the courts, there are numerous bills in the legislature concerning new forfeiture laws, and there are local efforts to create new

District Attorney

ordinances. All of these factors have the potential to redirect how the County performs forfeitures.

Grants

The Multnomah County District Attorney's Office actively pursues grants and agency partnerships to carry out innovative new programs. This has enabled the Office to diversify programs to meet community needs and to find efficiencies in case and court processing. The DA's Office is dedicated to bringing in outside funding sources, creating partnerships that support innovative programs, and institutionalizing innovative strategies that work.

In FY 00-01, the DA's Office brought in over \$1.5 million of outside grant funding to Multnomah County. As these grants expire, there will be a need to find new funding. A portion of the potential layoffs in FY 02 are the result of grant expiration.

The District Attorney's Office has carried out innovative programs with grants, and will continue to pursue grants to continue the programs that are effective. If funding is no longer available, and these programs are deemed successful and more effective than other options, then these programs should continue.
