### 2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

Elder abuse is a serious public health problem affecting millions of older Americans each year. Elder abuse is defined as intentional actions that cause harm or create a serious risk of harm to an older person (whether or not harm is intended). Elder abuse encompasses physical abuse, neglect, financial exploitation, sexual abuse, as well as emotional and psychological abuse.

World Elder Abuse Awareness Day (WEAAD) was launched in 2006 by the International Network for the Prevention of Elder Abuse and the World Health Organization. The purpose of WEAAD is to provide an opportunity for communities around the world to promote a better understanding of abuse and neglect of older persons by raising awareness of the cultural, social, economic and demographic processes affecting elder abuse and neglect. In addition, WEAAD is in support of the United Nations International Plan of Action acknowledging the significance of elder abuse as a public health and human rights issue. WEAAD serves as a call-to-action for individuals, organizations, and communities to raise awareness about elder abuse, neglect, and exploitation.

Multnomah County has a number of programs and initiatives designed to investigate and prevent elder abuse. WEAAD is an opportunity to highlight those projects, and highlight work that still needs to be done.
