## General Information

### 1. What action are you requesting from the Board?

The department is requesting Board approval of a Resolution electing the method of Oregon & California Railroad Land Service (O&C Lands) Safety Net Payments to Multnomah County for Federal Fiscal Year 2013.

### 2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

In 2008, Congress and the President approved a modified extension of the Secure Rural Schools and Community Self-Determination Act of 2000 (PL106-393) that provides payments to forest counties for land held by the federal government. Originally, payments to counties represented shares of forest yields on those public lands, but as sale of timber has diminished the federal government has provided safety-net payments in lieu of actual timber sale proceeds. Within Multnomah County, the Bureau of Land Management owns acreage that formerly belonged to the Oregon & California Railroad for which this legislation applies.

The Secure Rural Schools 2008 or "SRS 2008" legislation provided for a decreasing payment schedule of these safety-net payments over a four-year period beginning in 2008 and ending in 2011. SRS 2008 included a tightening of funds available to Counties under Title III of the act that provides funding for a limited number of eligible projects: search, rescue and emergency services on public lands; fire prevention and planning under the Firewise Communities program; and development of community wildfire protection plans.

In 2012, the Secure Rural Schools and Community Self-Determination Act (SRS) legislation was

extended for one additional year, meaning that Oregon counties were eligible to receive SRS payments after the end of Federal Fiscal Year 2012. These payments equaled 95% of SRS FFY 2011 payment amounts. In the summer of 2013, Congress extended SRS funding for an additional year. Oregon counties will receive funding approximately equal to SRS FFY 2012 payment amounts, less the effects of Federal sequestration and changes in eligible Federal forest acreage per county.

**3. Explain the fiscal impact (current year and ongoing).**

For federal fiscal year 2013, Multnomah County is estimated to receive approximately \$249,161 in O&C Counties safety-net payments. The largest share of this total will be in Title I payment (up to 85% of total, or about \$211,787) that can be deposited within general county revenues (General Fund). This revenue has no restrictions as to its use by the County.

The remaining safety-net payments will be split between Multnomah County Title III projects (no more than 7% of total, about \$17,441) and the remainder (8% or \$19,933) must go to a Resource Advisory Committee managed by the US Bureau of Land Management for projects BLM-managed lands.

**4. Explain any legal and/or policy issues involved.**

The annual resolutions are required by the Federal government for counties to participate in the Safety-Net program. There are no controversial issues regarding the two elections that these resolutions address. A decision will have to be made annually on how to expend the Title III funds.

**5. Explain any citizen and/or other government participation that has or will take place.**

Citizens will have the opportunity to provide written comments on the Multnomah County projects that will qualify under Title III. A 45-day comment period is required by the legislation and will begin when the list is published prior to the County's approval of Title III projects later this year. Each County with National Forest and/or O&C lands is required to make these elections prior to sending their decision on to the Federal government. Multnomah County has participated with Association of Oregon Counties (AOC) in developing the processes and resolutions.
