Riad,

Someone could challenge the term "such authority" since the recitals have not been incorporated but I think that is a very low risk. I hope your tracking tools help in the future with these oversights.

Approved.

Hello Courtney;

You have reviewed this IGA on Feb 10th and had comments (please see attached). Road Engineering did not send your comments to ODOT. Since then The IGA went to signatures by the rest of the agencies without your comments (see attached) I reviewed your comments and your first comment is the one that concerns me. Do you see it as high risk, or would it be OK to move to signatures with out it? I do apologize for that. As for future IGAs, we are creating a tracking tools to track all IGAs iterations and reviews. so moving forward this will not happen.

i am including the APR for your review too.

As for timeline. would you be able to review this by July 25th?

Riad,

I have reviewed this and have a couple of questions in the attached document. I also fixed a couple of grammatical errors, hopefully ODOT won't mind.

No other IGA. I just spoke with ODOT and they said an IGA for the "flasher" (ARTS) project on Germantown Rd. is pending.

Here is the Signs, Rumble Strip, Striping (HSIP) IGA for your review and comments. I spoke with another ODOT person and she said another few days for our comments would be OK. Rick

Rick;

Thanks for your patience.

there were another IGA that you were trying to have us comment on related to the flashers. can you send me that IGA too?

Hi Rick,

Just checking in about this project... Have you had a chance to review the agreement (see attached email)? Do you have a community affairs person assigned to this project?

Hope you had a good Thanksgiving.

**Nicole Peirce** - Project Leader, ODOT Region 1 ☎ 503-731-3289

Hello everyone,

I'm the ODOT project leader for this project (the HSIP Transitions rural county road project) and we are getting started on the design process. We are requesting your participation in a kick off meeting. We would like **one technical staff member and one community affairs staff member from your agency to attend**. Please respond with who will be representing your agency in these areas.

Once I have your staff member information, I will be sending out a meeting invitation. We request you attend this meeting either in-person or over the phone; we will discuss your role in design review/development and leading public outreach within your county. We will also discuss our recent rumble strip installation project, including our lessons learned from public outreach.

If you have questions, please let me know.

Thank you,

**Nicole Peirce** - Project Leader, ODOT Region 1 ☎ 503-731-3289
