General Information

1. What action are you requesting from the Board?

Board briefing on the history and results of the collaborative planning effort between the City of Portland and the Port of Portland on the PDX Airport Futures Project.

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

The PDX Airport Futures project was a collaborative effort between the City of Portland and the Port of Portland to create an integrated, long-range development plan for the Portland International Airport (PDX). This three year planning process considered airport capacity in light of updated aviation forecasts for passenger volumes that may increase from today's 13 million annual passengers to just under 27 million in 2035, a significantly slower rate of growth than the 2000 Master Plan projected. Two significant findings reported are that (1) a third parallel runway will not be required during the planning period, and (2) the existing airport terminal and roads can meet the demand forecasted in the next 25 years with modest improvements.

3. Explain the fiscal impact (current year and ongoing).

No fiscal impact

**Agenda Placement Request
Submit to Board Clerk**

4. Explain any legal and/or policy issues involved.

None

5. Explain any citizen and/or other government participation that has or will take place.

City of Portland and Port of Portland jointly managed all public participation. A 30-member Planning Advisory Group (PAG) was formed to serve as an advisory body. The PAG was comprised of community, government, and business interests and met 24 times and held 63 subcommittee meetings over a three-year period.
