M E M O R A N D U M

---

TO: Multnomah Cable Regulatory Commission Jurisdictions  
FROM: Julie Omelchuck, MCRC Cable Officer  
DATE: April 8, 1988  
SUBJECT: FY 1988-89 Budgets for Multnomah Cable Access, Program in  
Community Television and the Cable Regulatory Office

---

Each year the Multnomah County Board of County Commissioners is required to review and approve the Multnomah Cable Access, the Program in Community Television and the Multnomah Cable Regulatory Office budgets pursuant to an intergovernmental agreement among Multnomah County, Wood Village, Troutdale, Fairview and Gresham which created the Multnomah Cable Regulatory Commission.

Attached are copies of all three budgets as approved by the MCRC. I would like to take this opportunity to highlight some areas of interest in each budget.

**Multnomah Cable Regulatory Office (MCRC)**

The bulk of the decrease in the Cable Office budget reflects eliminating an OA 2 staff position and reclassifying of the two remaining positions to lower level job classes which has resulted in "Personnel Services" savings of \$15,113 in FY 88-89. Additionally, we will also see savings this year (FY 87-88) because the staff changes occurred in September 1987. The reduction of various "Materials and Services" line items, such as supplies, travel and dues, also reflects the above mentioned staff reductions.

The MCRC has three new commission members this year - Wood Village - Multnomah County and Troutdale - and the commission feels it is important to educate its members in the cable television, community programming and regulation fields. To this end, the MCRC has increased its "Education and Training" line item to help send members to various educational seminars enabling them to best represent their jurisdictions.

MCRC Cable Office Memo  
April 8, 1988  
Page 2

Program in Community Television (PCTV)

There is an opportunity to establish a cooperative work experience program between Mt. Hood Community College and Rogers Cablesystems which would provide paid internships in "real" cable company jobs and would enhance the PCTV curriculum. Students would gain experience in the marketing, customer service and technical areas of cable industry, where there are numerous job opportunities but few training possibilities. Thus, the MCRC has approved funds (under "Salaries - Students") to begin this innovative program.

Multnomah Cable Access Corporation (MCAC)

In 1988-89, MCAC plans to expand its municipal and educational programming as well as provide increased staff support to community groups producing programs. The goal is to increase the diversity of programming and community participation while maintaining a standard of high quality. To facilitate this goal, MCAC will add four part-time production assistant positions: one for municipal programming; one for educational programming; and two for community groups. Thus, the increase in "Personal Services."

"Materials & Services, Food" line item was underbudgeted in FY 1987-88. MCAC will place approximately 80 volunteers per calendar quarter on community television productions such as city council coverage and other MCAC-supervised programs. As a part of our volunteer program, MCAC provides a low-cost meal for the volunteer crews working on these productions.

"Capital, Building" line item has decreased due to the projected completion of a building expansion taking place during FY 1987-88.

"Capital, Production & Maintenance Equipment" line item has decreased due to projected capital equipment acquisition for FY 1987-88. Please note that items not purchased in 1987-88 may need to be carried over into FY 1988-89.

Please let me know if I can provide you with any additional information.
