What I enjoyed best
about SummerWorks
is.....

“.....that I was given the opportunity to explore and discover for myself what having a job feels like. “

“..... meeting professionals and learning from them. In an office setting I was able to pay close attention to business professionals and how they operate.”

*“..... working outside, and
not being in the same place
for too long.”*

What I best liked about working in the library was that I got to work with a group of diverse people, not just coworkers but also patrons.

..... *Intern at Rockwood Library*

Working for Matt Dishman was such a great experience. Our summer project clearly made an affect on the community and allowed me to make a lot of new friends.

..... Intern at Matt Dishman STRYVE Project

What I loved best about my internship was the opportunity I was given to reach into other lives and make an impact in their day.

..... Intern at Hollywood Senior Center

I am grateful for the opportunity that I was given by SummerWorks it helped me kick-start my future. Also the experience and knowledge of having a job. This was my first ever job and I couldn't have done it without the help from the people from SummerWorks. Thank you.

..... Intern at Multnomah County Facilities

This was a win/win for the student and our company and we will definitely consider doing this again in the future.

..... Supervisor, Boeing

Our intern Ike was well prepared to start work, he participated as a member of the work group and we enjoyed having his fresh perspective.

.....Supervisor, Hillsdale Library
