GLOSSARY OF TERMS AND ABBREVIATIONS

Accrual Basis of Accounting - The system of accounting under which revenues are recorded when earned and expenditures are recorded as soon as they result in liabilities for benefits received.

Ad Valorem Taxes - Taxes levied in amounts proportional to the value of the objects of the tax. In Oregon this is largely a tax upon the true cash value of real property.

Beginning Working Capital - The net cash or assets available to a fund at the beginning of a fiscal year.

Cash Transfer - Any transfer of resources from one fund to another.

C.C.A. - Community Corrections Act (State of Oregon).

Contingency - An appropriation set aside to provide for unforeseen expenditures or for anticipated expenditures of uncertain amount.

Enterprise funds differ from working capital funds largely in that the latter provide services only to subdivisions of the County. Examples are the Data Processing Fund and the Inverness Fund.

Federal Sources - A contribution from the federal government to Multnomah County. The contribution is usually made to support a specific function or program, but it may also be provided for general purposes.

Fines and Forfeitures - A sum of money imposed as a penalty for an offense.

General Fund - Is used to account for resources not allocated to specific purposes by law or contractual agreement; that is, any activity not financed from other funds is automatically financed from the General Fund.

General Revenues - Revenues not pegged to the operation of specific agency, although they may be derived from the operation of several organizations composing a system. These are taxes, fines, interest, and miscellaneous revenues not attached to the operation of a specific organization.

History Only Fund - A fund which is no longer used; carried for reference purposes only.

Levy Outside 6% Limitation/Not Subject to Limitation - As provided in Article XI, Section 11, subsection (3) of the Oregon Constitution, "that portion of any tax levied which is specifically voted outside the tax base and the portion of any tax levied which is for the payment of bonded indebtedness and interest thereon is not subject to the 6% tax limitation".

Levy Within the 6% Limitation - Article XI, Section 11, subsection (1) of the Oregon Constitution lays down the basic rule that no taxing district shall levy a tax in excess of its tax base. (See definition of Tax Base). Note: This means that no district can levy a tax amounting to more than 106% of the revenue received the previous year without a vote of the people to either increase the tax base or authorize a levy outside the 6% limitation.

Modified Accrual Basis of Accounting - The system of accounting under which revenues and expenditures are generally on an accrual basis; but under which modifications are made such as; revenues are recorded when received in cash except for those readily available and susceptible to accrual, encumbrances are an admissible accrual, and vacation pay is recorded as an expense when paid.

Modified Cash Basis of Accounting - The system of accounting under which revenues and expenditures are generally on a cash basis; but under which limited modifications are made such as: the accrual of federal and state program receivables or payroll payables. (The Audit Guide for State and Local Government Units lists admissable modifications.)

Nondepartmental Expenditures - Appropriations for organizations and expenditures that do not fall logically under control of one of the four departments of Multnomah County Government.

Operational Resources - Resources which are dependent on the quantity of service provided by the organization, i.e., fees, sales, recoveries, rentals, reimbursements, etc.

O.R.S. - Oregon Revised Statutes.

Personal Services - Wages, salaries, fringe benefits, part time, overtime, and special premium.

Property Taxes - Ad valorem taxes levied primarily on the true cash value of real property; the major source of local government tax revenue.

Service charges and Fees - Payments for professional or special services, includes public utility charges, health care charges, judicial fees, etc.

Service Reimbursements - Payments made by an organization to a fund for services and/or commodities received therefrom; e.g., payments from most organizations to Fleet Management Fund or Data Processing Fund.

Source of Funds - The origin of monies appropriated to each Operating Unit.

Special Revenue Fund - A fund used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government (e.g., Federal/State Program Fund, Road Fund).

State Sources - A contribution from the State of Oregon to Multnomah County. The contribution comes in either the form of shared revenue (e.g., cigarette tax revenues) or partial support cost sharing of a specific program.

Tax Base - 1) Article XI, Section 11, subsection (2) of the Oregon Constitution defines the tax base as either (a) the amount of tax levied in any one of the last three years plus 6% thereof or (b) the amount approved as a new tax base by a majority of the legal voters of the taxing district. (Both of these definitions refer to the dollar amount of tax revenue which can be lawfully levied).

2) The tax base is also defined, for purposes of the tax levy computation, as the total assessed valuation of all the taxable property within the tax levying jurisdictions.

Tax Levy - The total amount of taxes imposed by a governmental unit.

Tax Rate - The amount of tax stated in terms of a unit of the tax base; e.g., 25 dollars per thousand dollars of assessed valuation of taxable property.

Working Capital Fund - Is established to finance and account for services and commodities furnished by one department to another within a single governmental unit. Amounts expended from the fund are restored to it by service reimbursements from organizations in other funds. Working capital funds differ from enterprise funds in that the latter provide services to the general public and outside organizations as well as to subdivisions of the government.

REVENUE CLASSIFICATIONS

An attempt has been made to roughly classify resources, especially in the General Fund, in order to distinguish between revenue tied to a particular agency, and that available for general purposes. The classifications are as follows:

a) Dedicated Resources

Resources which are pre-designated for the operation of an organization or program. They include Federal and State revenues designated to the operation of specific services, Federal and State grant matches, and transfers from funds dedicated to certain purposes.

b) Operational Resources

Fees and revenues deriving from the operation of county services. These are the "charges and recoveries" assigned to each department in the General Fund.

c) General Resources

Resources which are independent of the operation of particular agencies or which derive from the operation of several agencies which comprise a system. General resources include tax receipts, interest on investments, fines, and interfund transfers of a general nature. In the Federal-State Fund, general revenues include all local matches to grants and other organizations in the fund.

Ladies and Gentlemen:

The Tax Supervising and Conservation Commission has reviewed, given careful consideration to and on June 17th conducted a meeting and public hearing on the 1983-84 budget for Multnomah County. The budget is certified with the following objections and recommendations.

1. Certain adjustments, listed on the accompanying page, should be made to the adopted budget. Changes to 1983-84 estimates may result after reconciling Service District reimbursements with budgeted resource estimates.
2. County Auditor Report No. 1-83 recommended the establishment of a special revenue fund to account for institutional commissary functions. The 1983-84 budget does not report this activity either as a trust fund or as a special revenue fund. We recommend that the budget be amended, before adoption, to include the commissary fund. Estimates may have to be refined and amended at a later date, however, we believe it important that effective controls be applied to the commissary accounts beginning July 1st.
3. We recommend that the 1984-85 budget document include estimate sheets displaying information specified by ORS 294.376 and ORS 294.635 in a more complete format than appears in the 1983-84 budget document. In developing an alternate format we would appreciate the opportunity to consult with your staff.

4. This certification excludes amounts derived from the sale of Certificates of Participation as reported in the Capital Projects Fund. A similar exclusion was made in the 1982-83 budget. The Commission can find no basis for recognizing Certificate of Participation income or providing for its appropriation and disbursement. The Third Party contracts with Imperial Municipal Services provide specifically for an Escrow Agent to receive, hold, invest and disburse "directly to the payee" money obtained from the sale of the certificates.

It has been explained that the procedure followed by Multnomah County is one whereby equipment is acquired and paid for with county funds. Subsequently, the title or other evidence of ownership is delivered to the Escrow Agent with a request for reimbursement to Multnomah County. If this is the procedure the county desired to follow it should have been so stated in the Third Party contracts. We question the authority of the county to mortgage or otherwise encumber equipment or similar assets.

We have not and do not now question the basis of accounting. Under ORS 294.445 the county may select whatever basis of accounting it desires. It is significant, however, that the June 3, 1983 clarification provided by the Department of Revenue, on request of Multnomah County, states that reporting by Multnomah County of Third Party financing in accordance with NCGA Statement 5 would represent a change in the basis of accounting. ORS 294.416 allows a change in the basis of accounting at the start of each fiscal year provided that a prescribed notice and explanation is given. Such notice was not given in the 1982-83 or 1983-84 budget document.

Another issue to which we want to direct your attention is the question of indebtedness arising from implementation of NCGA Statement 5. This statement requires that in a lease purchase plan the lease purchase be treated like ordinary purchases at the inception of the agreement and that a liability in the same amount be recorded simultaneously. The liability would appear to be subject to the \$5,000 debt limit specified for counties in Article XI, Section 10, Oregon Constitution. Applying contemporary interpretations of the Attorney General and Oregon Courts, we note that the current and proposed budgets do not include appropriations or identified unappropriated fund balances in amounts sufficient to cover the existing Third Party debt.

We recommend that the 1983-84 budget be adjusted to delete all transactions related to Third Party finance except for the scheduled interest payment due on the contract. The Third Party projects should be accomplished by having the Trustee directly pay the vendor selected by the county.

This certification, made pursuant to ORS 294.645, is based on the following budget estimate and tax levy:

FROM: Helen Barney, Director *HAB*
Budget and Management Analysis Division

SUBJECT: Certification of the 1983-84 Capital Reserve Fund

DATE: June 29, 1983

It is our understanding that your intention was to certify those portions of the Capital Reserve Fund dealing with jail construction and payment of principal and interest on the Third Party Lease/Purchase agreement. We believe the resources of the fund, in that case, should be:

Beginning Working Capital	\$ 313,802
Charges and Recoveries	130,000
Federal Sources	39,734
Cash Transfer from General Fund	297,769
Service Reimbursements	660,000
TOTAL RESOURCES	\$ 1,441,305

The appropriations for 1983-84 will be:

Personal Services	\$ 49,468
Materials & Services	441,860
Capital Outlay	507,802
Expenditures	\$ 999,130
Contingency	\$ 50,000

Remaining unappropriated as a reserve for future lease payments to the escrow agent will be \$392,175.

Ladies and Gentlemen:

The Commission's certification dated June 23, 1983 of the 1983-84 Multnomah County budget is hereby amended as follows:

	<u>From</u>	<u>To</u>
Capital Reserve Fund	\$ 853,130	\$ 1,441,305
Unappropriated Balance	0	(392,175)
Total Budget Estimates	\$171,449,655	\$172,037,830
Total Unappropriated Balance	(1,211,350)	(1,603,525)

As is noted in the June 29th memorandum from Helen Barney, Budget Officer, it was indeed the Commission's intent to include in the certification all estimates concerned with jail construction and lease payments. The certification error resulted from a wrongful interpretation of the Estimate Sheets and we regret any inconvenience this may have caused.

BEFORE THE BOARD OF COUNTY COMMISSIONERS FOR
MULTNOMAH COUNTY, OREGON

In the Matter of the Adoption of the 1983-84
Budget for Multnomah County, Oregon, for the
Fiscal Year July 1, 1983, to June 30, 1984,
and Making the Appropriations thereunder,
Pursuant to ORS 294.435.

The above-entitled matter is before the Board to
consider the adoption of the budget for Multnomah
County for the fiscal year July 1, 1983, to June 30,
1984; and,

It appearing to the Board that the Multnomah County
budget as prepared by the duly appointed Budget Officer
has been duly considered and approved by the Board;
that a public hearing was held before the Multnomah
County Tax Supervising and Conservation Commission on
the 17th day of June, 1983, and that said budget was
duly certified by the said Tax Supervising and Conser-
vation Commission with certain objections and recommend-
ations; and,

It further appearing to the Board that said budget
as certified is on file in the Department of General
Services of Multnomah County; and that the Board being
fully advised in the premises; therefore,

The budget, a copy of which is appended hereto,
and which is on file in the Department of General
Services, and as amended herein, is hereby adopted as
the budget of Multnomah County, Oregon, for the fiscal
year July 1, 1983, to June 30, 1984, and the Board
makes the following responses to the points of the
Multnomah County Tax Supervising and Conservation
Commission.

POINT 1: Certain adjustments should be made to the Adopted Budget.

RESPONSE: The changes are included in the Adopted Budget.

POINT 2: County Auditor Report No. 1-83 recommended the establishment of a special revenue fund to account for institutional commissary functions. The 1983-84 budget does not report this activity ~~either as a trust fund or as a special revenue fund.~~ We recommend that the budget be amended, before adoption, to include the commissary fund. Estimates may have to be refined and amended at a later date; however, we believe it important that effective controls be applied to the commissary accounts beginning July 1st.

RESPONSE: The appropriation schedule included in this action establishes a commissary account as recommended by County Auditor Report No. 1-83 with resources from operational revenue of \$184,526, authorized expenditures for supplies for inmates of \$150,000, and a cash transfer to the General Fund of \$34,526 to pay back an advance from the General Fund to cover the deficit generated by unbudgeted commissary activities in the past.

POINT 3: We recommend that the 1984-85 budget document include estimate sheets displaying information specified by ORS 294.376 and ORS 294.635 in a more complete format than appears in the 1983-84 budget document.

RESPONSE: The County will attempt to determine what information is required and how to display it in the 1984-85 budget. Before making any final decisions on format modifications, we will review them with T.S.C.C. staff.

POINT 4: The budget should be adjusted to delete all transactions related to Third Party finance except for the scheduled interest payment on the contract.

RESPONSE: In both the 1982-83 and 1983-84 budgets, Multnomah County has chosen a budgetary treatment for Third Party financing transactions which our external auditors believe most accurately complies with the procedures of the Financial Accounting Standards Board; makes the fullest public disclosure of Third Party resources and expenditures;

and has been described by the Attorney General's Office in response to a request from the Department of Revenue as "proper" and "consistent with the basic facts involved and could be used in the preparation of the budget".

As a result, we do not believe the change recommended by the Commission is warranted. However, the litigation that would very likely result from a decision to adopt a budget containing an appropriation greater than that certified by the Commission is not the most appropriate way to resolve the issue.

We have therefore amended the budget as recommended. At the same time, we will seek a formal Attorney General's opinion clarifying the circumstances under which the Tax Supervising and Conservation Commission can strike expenditures and withhold certification of the tax levy so that future differences of opinion can be resolved more expeditiously.

The funds are hereby appropriated as follows:
