Presenter Name(s) & Title(s): Kim Peoples, Department Director, Ian Cannon, Transportation Director/County Engineer, Megan Neill, Engineering Services Manager, and Heather Catron, HDR Project Manager

General Information

1. What action are you requesting from the Board?

No action is required. The purpose is to provide an update on the Burnside Bridge Earthquake Readiness Study.

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

The purpose of the study is to continue the mission and direction established by the 2015 Willamette River Bridge Capital Improvement Plan: to establish a seismically resilient Burnside crossing and lifeline route over the Willamette River that will remain fully operational to vehicles and river traffic following a Magnitude 9.0 Cascadia Subduction Zone (CSZ) earthquake.

3. Explain the fiscal impact (current year and ongoing).

None

4. Explain any legal and/or policy issues involved.

None

5. Explain any citizen and/or other government participation that has or will take place.

Early stakeholder interviews have been started. This initial study phase includes a stakeholder engagement plan that provides opportunities for public and agency engagement to identify stakeholder interests as it relates to the study, develop a short list of replacement and rehabilitation alternatives that meet current seismic standards, and recommend replacement and/or rehabilitation alternatives that shall be advanced to a potential future National Environmental Policy Act study.

Required Signature

**Elected
Official or
Department
Director:**

Kim Peoples /s/

Date: January 3, 2017

Note: Please submit electronically. Insert names of your approvers followed by /s/
