

# An Age Friendly Future for Multnomah County!

Everyone's entitled to YOUR opinion!

Age friendly services benefit everyone, including elders, people with disabilities, and parents with children. The Multnomah County Chair's Office and the Citizen Involvement Committee have scheduled two public forums to get your input.

- Learn about what age friendly services the county currently provides and plans to in the future.
- Give county decision-makers your input about how age friendly services can be improved and budget money should be allocated.

Your voice truly matters and will help the county commissioners and departments prioritize services and make age friendly budget decisions.

**To RSVP, make requests and learn more:**
