General Information

1. What action are you requesting from the Board?

We are requesting approval of an Intergovernmental Agreement (IGA) #31099 with the Oregon Department of Transportation (ODOT) for the NE 238th Drive: Halsey St. to NE Glisan St. project.

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

This project improves NE 238th Drive between Halsey and Glisan Streets. Improvements include constructing shared-use sidewalks on both sides of the roadway, constructing retaining walls, acquiring right-of-way, minor widening of lanes, and constructing storm water facilities.

3. Explain the fiscal impact (current year and ongoing).

The total project cost is \$8,241,944. The Regional Economic Opportunity Fund (REOF) will provide \$1,000,000 and the Multimodal Transportation Enhance Program (MTEP) will provide \$6,549,187. The balance of the project cost will be County commitment to match these funds through providing in-kind staff time and/or Transportation funds.

4. Explain any legal and/or policy issues involved.

Property acquisitions and negotiations will be conducted in compliance with Trans-01 and applicable Federal and State law.

5. Explain any citizen and/or other government participation that has or will take place.

This project was identified as the top priority project from the East Metro Connections Plan (EMCP). The process of developing that plan included a robust public process. Moving forward the County will continue to engage the public, partner agencies, and stakeholders in the design and construction process. This will include project open houses, a project website, and continued updates at the East Multnomah County Transportation Committee (EMCTC).
