

April 26, 2017
Multnomah County

This letter is regarding the public hearing notice you sent to my residence on Thompson Rd.

The idea, you collectively seem to embrace, would destroy the rural reserves that now exist. Territorily, people need to feel that there is still a substantial wild. The bears, seen here 30 years ago, have disappeared since Forest Heights was built. As have the plentiful birds, rabbits, racoons, and any vestige of wild animals. Indirectly, this reserve has already been altered in the 50 years I have lived here. Stop, before all wildness has vanished from upper Portland!

Fifty years ago no one came to Forest Park. Now it is bulgeing with people. I wonder why you find it neccessary to add bicycles.

Sincerely,

Lou Ann Schreiber
