

## Attachment A: ZONE CHANGE CRITERIA

This replaces all language on page 221 of Proposed Draft

### AMEND CHAPTER 33.855, ZONING MAP AMENDMENTS

#### 33.855.050 Approval Criteria for Base Zone Changes

An amendment to the base zone designation on the Official Zoning Maps will be approved (either quasi-judicial or legislative) if the review body finds that the applicant has shown that all of the following approval criteria are met:

- A. Compliance with the Comprehensive Plan Map.** [No change.]
- B. Adequate public services.** ~~Public services for water supply, transportation system facilities and capacity, and police and fire protection are capable of supporting the uses allowed by the zone or will be capable by the time development is complete, and proposed sanitary waste disposal and stormwater disposal systems are or will be made acceptable to the Bureau of Environmental Services.~~
1. Adequacy of services applies only to the specific zone change site.
  2. Adequacy of services is determined based on performance standards established by the service bureaus. The burden of proof is on the applicant to provide the necessary analysis. Factors to consider include the projected service demands of the site, the ability of the existing and proposed public services to accommodate those demand numbers, and the characteristics of the site and development proposal, if any. the projected service demands of the site and the ability of the public services to accommodate those demands. Service demands may be determined based on a specific use or development proposal, if submitted. If a specific proposal is not submitted, determination is based on City service bureau demand projections for that zone or area which are then applied to the size of the site. Adequacy of services is determined by the service bureaus, who apply the demand numbers to the actual and proposed services to the site and surrounding area.
    - a. Public services for water supply, and capacity, and police and fire protection are capable of supporting the uses allowed by the zone or will be capable by the time development is complete.
    - b. Proposed sanitary waste disposal and stormwater disposal systems are or will be made acceptable to the Bureau of Environmental Services. Performance standards must be applied to the specific site design. Limitations on development level, mitigation measures or discharge restrictions may be necessary in order to assure these services are adequate
    - c. Public services for transportation system facilities are capable of supporting the uses allowed by the zone or will be capable by the time development is complete. Transportation capacity must be capable of supporting the uses allowed by the zone by the time development is complete, and in the planning period defined by the Oregon Transportation Rule, which is 20 years from the date the Transportation System Plan was adopted. Limitations on development level or mitigation measures may be necessary in order to assure transportation services are adequate.
  3. Services to a site that is requesting rezoning to IR Institutional Residential, will be considered adequate if the development proposed is mitigated through an approved impact mitigation plan or conditional use master plan for the institution.
- C. and D** [No change.]
