

County-wide Administration Costs – FY 2006 Budget Note

In a Budget Note to the FY 2006 Adopted Budget, the Board directed the Chief Financial Officer (CFO) by September 30, 2005 to provide a detailed schedule and analysis of administrative costs within the departmental budgets. The CFO was to work with all departments to ensure that all staff are included. This analysis is being prepared in light of the departmental restructuring and reductions the County faces in FY 2007.

On September 29th, Dave Boyer told Board members that this information would be presented by the end of November.

Definition of "Administration"

This project identified staff in each County department that provide administrative and managerial support for the remainder of that department. This includes:

- Department Directors
- Deputies
- Department Finance, Business, Budget staff
- Human Resources staff
- Evaluation staff
- Other appropriate staff

This did not include division level management or administrative staff primarily responsible for managing or providing support to programs, sections or the divisions themselves. Administrative Service Managers agreed that this list would be expanded to include all departmental procurement, training, safety, volunteer coordination, information technology, and facilities support positions.

Process

A subcommittee was assembled by the Administrative Service Managers (ASMs) to gather these costs. ASMs designated one person per department to this group.

Using FY 2006 Adopted Budget detail, each department listed those positions that fit the definition above for "administration." Specific information described by departments will include:

- Job Class Number of each position
- Position Classification
- FTE of position (0.5, 1.0 FTE, etc.),
- Name of employee in position
- Total personal services budgeted for each position,
- Comments about the service provided by each position (budget, HR, etc.)

As an element of information gathering, division level staff providing any of the defined functions (evaluation, budget, etc.) were listed separately with the same data assembled for each position.

The subcommittee reviewed data gathered by departments and determine whether each list represents an accurate depiction of "administration," in each organization. The division level lists from each department were reviewed to validate that no positions listed were department-wide in nature.

Departments prepared short narratives that described how each was unique in function and organization. These narratives also contained descriptions of their administrative structure.

The CFO's Office reviewed these lists and added back additional positions to lists for specific categories that had been omitted (Research and Evaluation staff). The HR Realignment described to the Board on September 29th was included on each department's list to display Human Resource services county-wide as best as accurately as possible. Deputy Directors were shown as whole positions regardless of funding or described responsibilities.

On November 10th, this material was presented to Administrative Service Managers for their review. Minor changes to the comparison tables were recommended and have been incorporated into this latest packet. Departments were also provided the opportunity to update the narratives they prepared regarding their administrative structure.

On November 30th, this information was presented to the Executive Team for discussion and their input. Team members agreed to provide an organizational chart for each department showing the location within the organization of each position listed in the administrative review.

Materials Presented

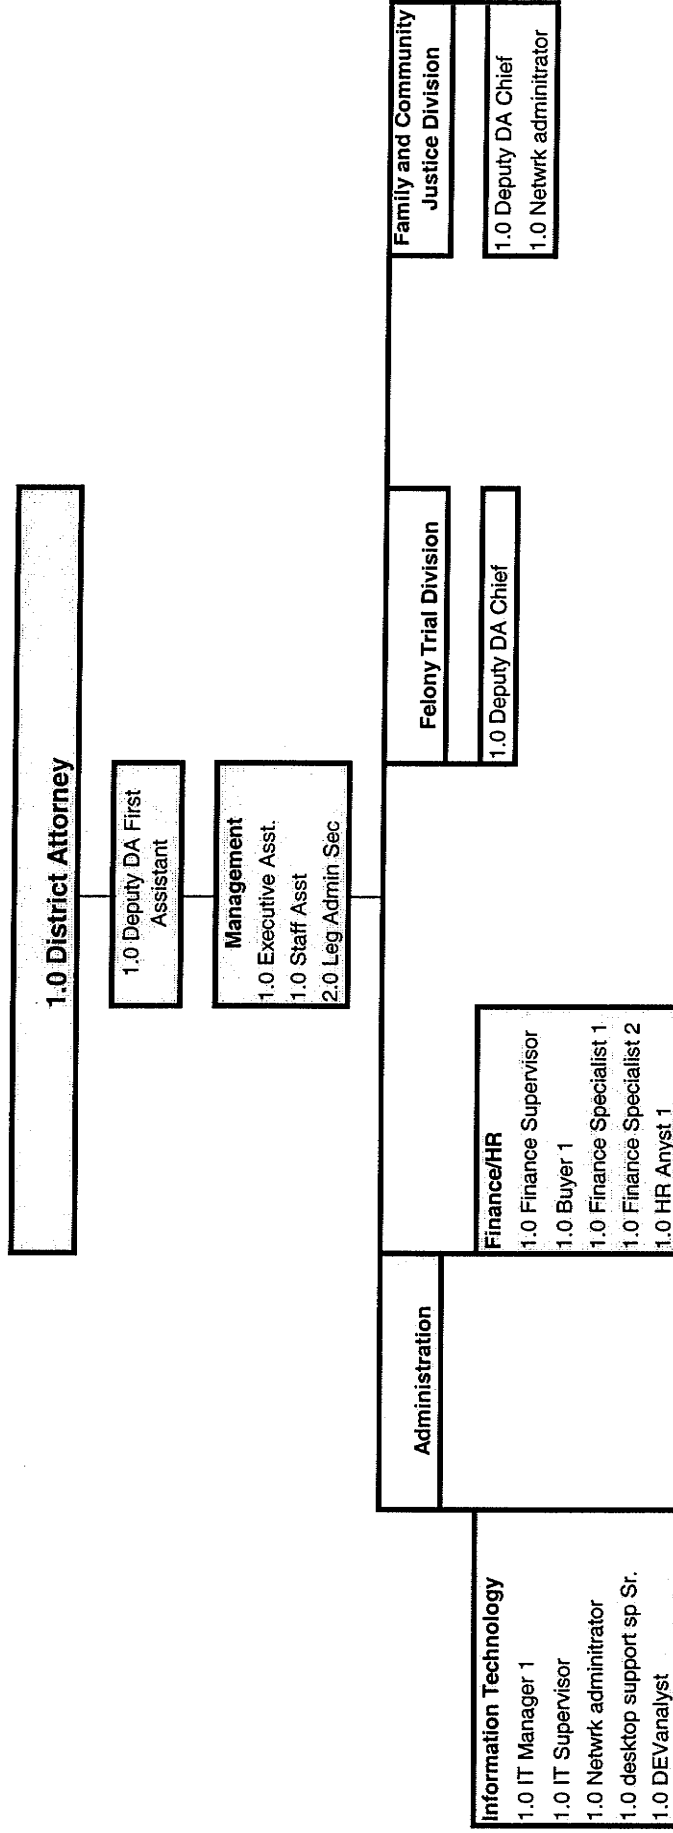

This packet includes:

- Brief narrative prepared by departments to explain their administrative models
- Department organization table showing location within the organization of each position included within this administrative review
- Departmental lists of FY 2006 "Administrative Positions" at both the Department and Division level
- Summary table of FY 2006 Admin FTE per department by category
- Summary table of the FY 2006 cost of Admin positions per department by category
- Comparison tables of FY 2006 departmental Admin FTE and costs compared to total number of employees and total budget – this is shown with departmental Information Technology units included in the first comparison and not included in the second

**District Attorney's Office
Administrative Review**

- **Departmental Structure:** The office is organized into two main divisions, the Felony Division and Family & Community Justice Division and a central administration. The Medical Examiners Office is also attached to the DA Office for budget and personnel purposes.
- **Types and numbers of lines of business:** Public Safety- the office prosecutes felony and misdemeanor crimes in Multnomah County. In addition the office provides Child Support Enforcement and Victims Assistance and Medical Examiner services. The office has operations in 7 facilities which are County owned or leased and 8 additional sites which house Neighborhood DA's and the Medical Examiner under cooperative agreements with law enforcement or private entities.
- **Number and types of programs in the department:** 14 total funded programs, 12 in the Safety Priority and 2 in the Basic Needs Priority. With the exceptions of Child Support Enforcement, Victims Assistance, Medical Examiner and Investigations, all other programs (10) are specific prosecution units.
- **Direct Contact with public customers:** Yes daily
- **Administrative model:** Centralized department management and IT, HR and Finance staff serve the entire organization.
- **Amount of overhead recovered by grants:** In FY 2005 the District Attorney's Office recovered a total of \$126,098 in departmental indirect costs from grant programs.

Multnomah County Sheriff's Office Administrative Review Points

Points to cover:

What makes your department unique?

- **It is directed by an elected official.**
- **It is the sole provider of jail services to all of Multnomah County and law enforcement services to unincorporated Multnomah County.**
- **It is a 24/7 operation.**
- **The bulk of its workload (Corrections) is driven by workloads of other public safety providers.**

Departmental structure

- **The Multnomah County Sheriff's Office consists of an Executive Office and three divisions, Law Enforcement, Corrections and Business Services.**

Types and numbers of lines of business

- **Full service community law enforcement and corrections provider.**

Number and types of programs in your department

- **In the FY06 Budget the Sheriff's Office submitted 67 program offers of which 47 are existing programs, 11 are new programs, 6 are support and 3 are administrative. All of the offers support government's core responsibility to provide a safe community.**

Direct contact with public customers?

- **There is daily contact by all Divisions and the Executive Office with our public customers through enforcement, correction, and information/education activities.**

Are there unique factors, such as hours of operation that dictates the type, size or structure of your admin?

- **The Sheriff's Office is a 24 hours per day, 365 days per year operation. The Offender population we manage is very high risk with high levels behavior issues often compounded by severe alcohol and drug addiction, and/or mental illness.**

Describe department's administrative model- how the department is served (Centralized, distributed, etc)

- **The bulk of the administrative needs are served through the Business Services Division, which provides services to the entire agency.**

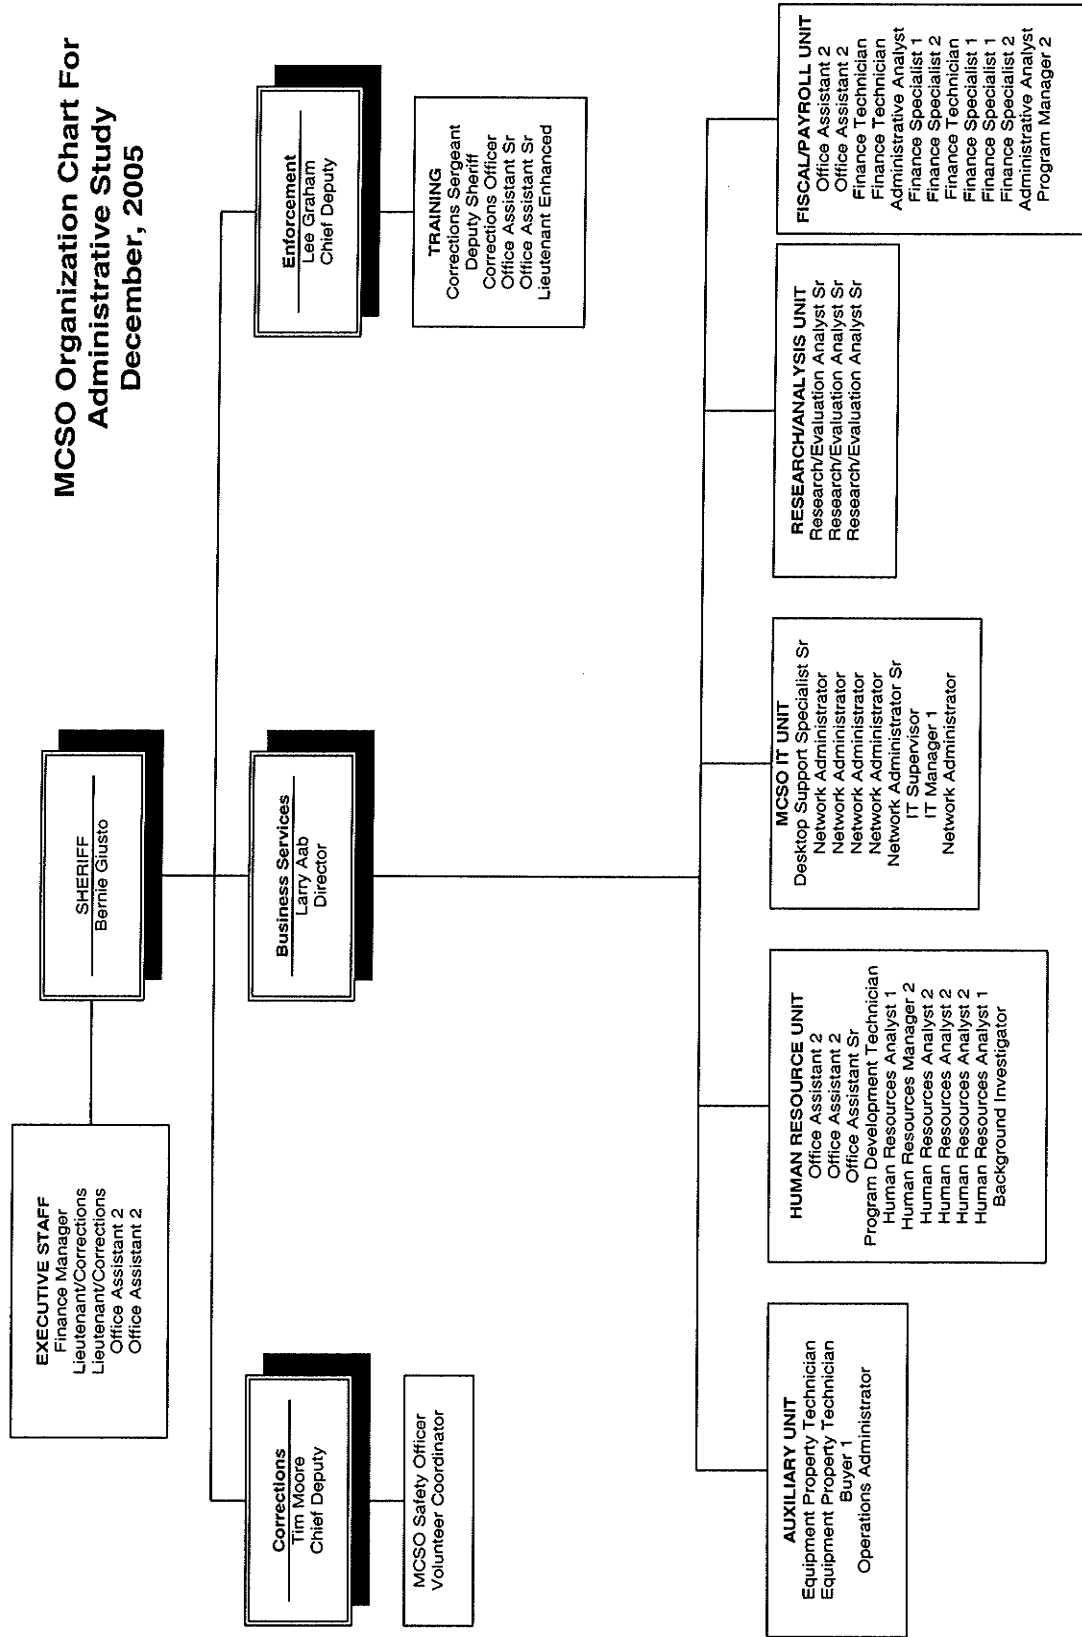

Services provided by their central unit to department

- **Human resources, Information Technology, Budget, Finance and Accounting, Timekeeping, Logistics as well as Research and Evaluation.**

Amount of overhead recovered by grants

- **MCSO has very few grants. Therefore, only a very small amount (less than 1%) of administrative overhead is covered by grants.**

(503) 988-3990 fax**

Department of Community Justice
Description of Departmental Administration
Budget Note Adopted Budget 2005-2006

The Department of Community Justice plays a unique role in the criminal justice system: we safeguard the community and reduce criminal activity by holding juvenile and adult offenders accountable in a just manner while helping them develop the skills necessary to succeed and avoid future criminal activity. DCJ supervises 9,000 adult probationers and parolees, 1,000 youth on formal and informal community supervision and a 180-bed juvenile detention facility, operated 24 hours, 7 days a week.

We supervise offenders and change their behavior through a variety of programs, ranging from field supervision to drug abuse treatment to community service to educational programs.

Adopted Budget 2006

The Adopted Budget for DCJ includes \$77,497,361 from a variety of funding sources, and 553.73 FTE employees, not including on-call and temporary employees. The Department also receives 15,000 hours of volunteer work per year, provided by 170 volunteers.

The Adopted Budget anticipated \$998,784 in departmental indirect charges, paid by non-general fund programs for administrative support.

Administrative Structure

DCJ administration provides centralized support to the department: Finance, Budget, Human Resources, Training, Background Investigations, Volunteer Coordination, Research and Evaluation, Contract Services, Public Information, Policy Analysis, the Web Master and other functions are organizationally located either in the Director's Office or in the Employee, Community and Clinical Services Division.

The Department does not have a Deputy Director. The three divisions of Adult Services, Juvenile Services and ECCS are each led by an Assistant Director who reports to the Director. Each division includes clerical support to the operation of that division.

Services to the public and offenders are provided in 17 County locations, not including contracted services.

(503) 988-3674 phone
(503) 988-3015 fax

Multnomah County Health Department (MCHD) Administration

The Health Department's administrative structure focuses on its three business lines of direct service to individuals to the community as a whole:

Integrated Clinical Services

Community Health Services

Community Health Promotion, Partnerships and Planning

The Director's Office, including the County Health Officer, leads the overall public health strategic, operational and management policy development and alignment. The Business and Quality service group (financial management, business services, human resources, facilities and safety, training and development) provides centralized department level support and infrastructure.

The Health Department also requires professional leadership across clinical disciplines in order to assure quality medical and health services. This includes medical, dental, nursing, pharmacy, laboratory, and specialties (such as maternal-child health, communicable disease, psychiatrics, medical informatics, and accreditation) for primary care clinics, school-based clinics, corrections health and early childhood development services.

One area where the Health Department differs from other County Departments is in the area of Research and Evaluation services. Three-quarters of our Research and Evaluation capacity is grant funded with very specific research and evaluation assignments. Fewer than five of the 18.60 FTE are supported by the general fund. The majority of the staff are funded by the State Public Health Department, who directs the work and assignments of the staff. Consequently, we have not historically included any of the Research and Evaluation staff in our Departmental indirect rate, nor do we define them as administrative.

In FY06, the Department budget includes:

- 32 operating program offers that provide direct services to individuals, community organizations and the community at large, totaling \$96,469,507 and 704.86 FTE.
- 12 support program offers, including pharmacy, lab and interpretation services serving the operating programs, totaling \$21,302,420 and 130.92 FTE.
- 4 administrative program offers, totaling \$1,899,235 and 14.6 FTE.

The total amount of department indirect budgeted for FY06 is \$3,761,063. This amount will be recovered through grants and other outside funding. Our "Administrative Percentage" shown in this departmental comparative is comparable to the other County departments. If only the general fund Research and Evaluation staff were included in our calculation, then our rates would be 1 percent lower than the rate reflected herein.

Analysis of Department Administration

DCHS Description

November 16, 2005

What makes your department unique?

The Department of County Human Services (DCHS) provides a range of care and support to the elderly and to people with serious addiction, emotional, or developmental disabilities. It operates under two different Medicaid waivers and the rules governing the Oregon Health Plan. The Department operates three different business models: (A) providing services as in Aging and Disability Services, (ADS) and Developmental Disabilities (DD); (B) Contracting for services as in Mental Health and Addiction Services, (MHASD) and (C) Coordinating services as in Domestic Violence, (DV).

Departmental structure.

The departmental structure consists of the Director's Office that supports the four main program divisions of:

- Aging & Disability Services,
- Developmental Disabilities Services,
- Mental Health & Addiction Services,
- Domestic Violence.

Types and numbers of lines of business.

DCHS provides the following services:

Aging & Disability Services: operates a continuum of services to seniors and people with disabilities, everything from simple information & referral to intensive, constant and complex care. In a typical month, ADS provides about 57,000 services.

Developmental Disabilities Services: provides direct services of intake, assessment, case management and protective services for approximately 3,600 individuals with developmental disabilities. This division maintains long-term relationships with a majority of their clients.

Mental Health and Addiction Services: provides treatment services to individuals via contracts with local providers. Services include a 24-hour crisis call center, walk-in clinic, and mobile response unit. They provide mental health and addiction services of approximately 48,000 adults and 52,000 children who are eligible for Oregon Health Plan mental health benefits.

Domestic Violence Office: provides policy direction, assistance and leadership in the implementation of the domestic violence policy passed by the Board of Commissioners. The office works with the Portland Police Bureau, the DA, the Department of Community Justice, community-based victims' services and other organizations that provide services to victims of domestic violence.

Direct contact with public customers?

ADS and DD provide most of their services directly to citizens. MHASD and DV provide services via contracts with other providers.

Are there unique factors, such as hours of operation that dictates the type, size or structure of your admin?

The number of Contracts (over 300) and number of Funding Sources (~100) combined with 567 FTE drive the size and structure of administration.

Describe department's administrative model- how the department is served (Centralized, distributed, etc).

The department administration is a mix of centralized services for department wide functions, which are assigned to department administration units. While divisional functions are assigned to specific divisional administration units.

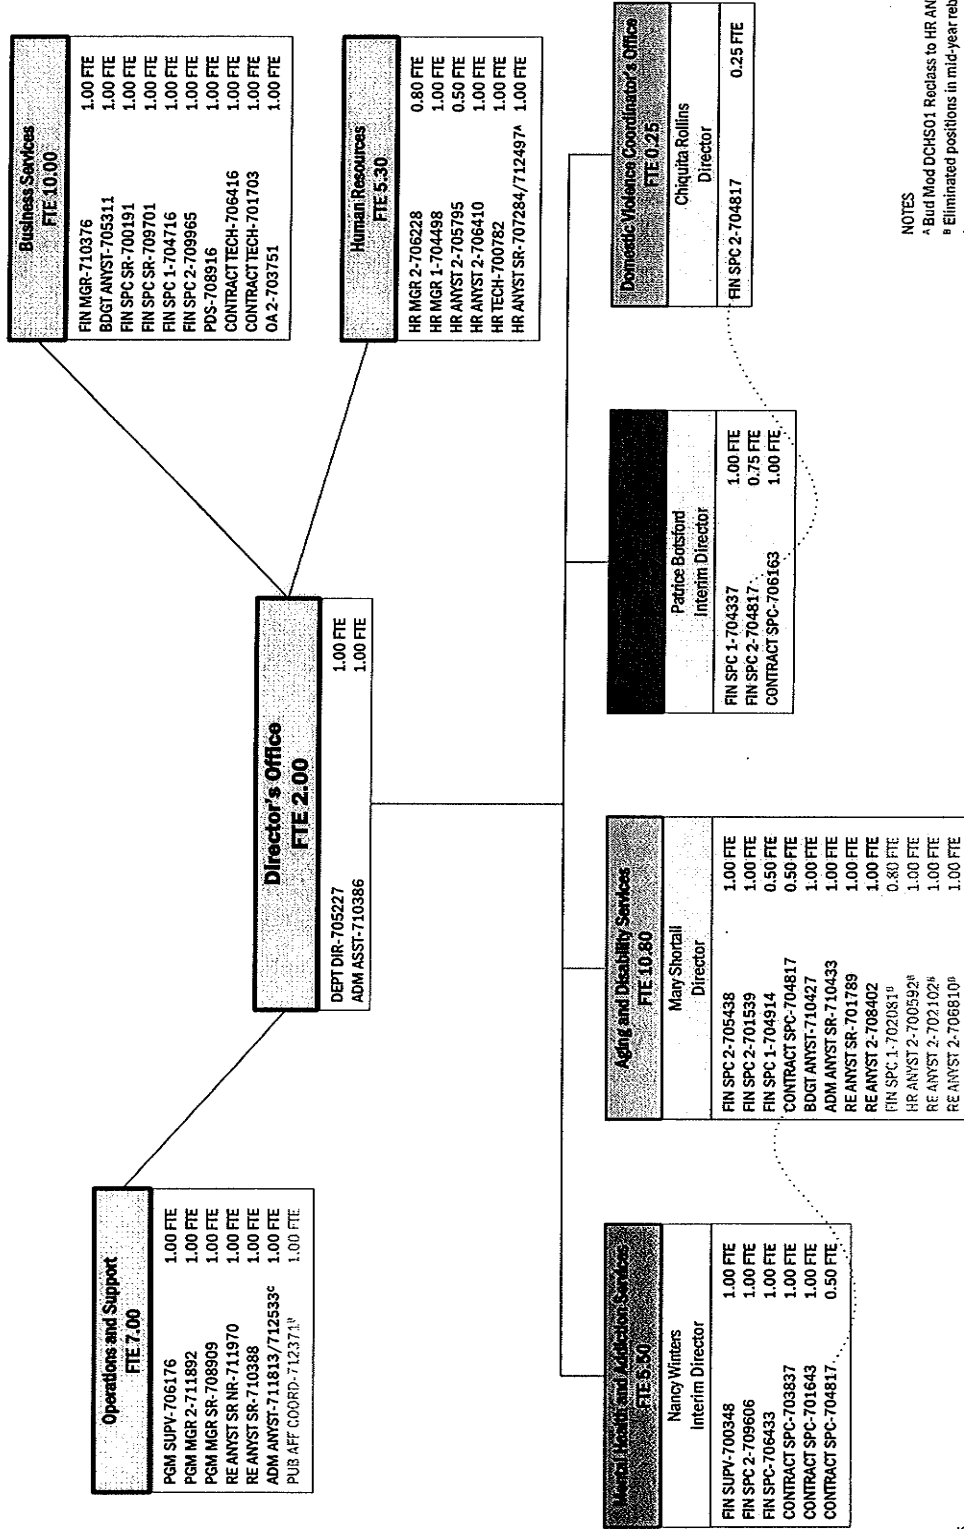

Services provided by their central unit to department.

DCHS administration provides centralized support to the department: Overall management and direction, Budget and Finance, Contract Services, Research and Evaluation, Human Resources, and Training. The department does not have a deputy director.

The Department of School and Community Partnerships

What makes your department unique?

DSCP is unique in that the services the department provides, directly or through community-based organizations, target academic success and self-sufficiency as a strategy to eliminate poverty. The Department's nationally recognized collaborative partnerships with school districts, the city of Portland, and the State are critical to achieving these goals. These partnerships have led to joint agreements for program design, funding and other leveraging of resources. The School Age Policy Framework (SAPF) approved by the BCC in 2003 guides the work of the Department and the alignment of services provided in schools throughout the County.

Budgetarily the department is unique in that its funding is comprised of County General Fund and over 40 different federal, state or local grant revenue sources. Many of these funding sources contain more than one grant, and each grant has multiple spending categories. This results in over 200 different funding streams that are tracked in SAP and reported on by grant accountants and program specialists. Because of the complexity and volume of various reporting requirements, a greater level of administrative staffing is necessary for grant management/accounting, data collection, reports, and analysis.

Departmental structure

The Department of School and Community Partnerships (DSCP) consists of the Director's Office and three Divisions: Operations, Community Services, and SUN Service System. Each of the Division Managers, who report to the Department Director, are "working managers" as they not only manage the Division, they also directly supervise staff and directly oversee program operations.

The **Operations Division** provides Department wide operational and administrative support as described below. DSCP is an Administrative organization, with 80% of the budget dedicated to contracted services which require more admin staffing support for procurement, contract processing and contract payment than a department that primarily delivers its services with County staff.

The **Community Services Division**, as the County's Community Action Agency, is responsible for programs including those serving homeless youth and homeless families; emergency services such as rent assistance and housing vouchers; transitional housing programs; early childhood services; gang and delinquency prevention programs; and energy programs. The energy programs include low income energy assistance as well as weatherization services. All services in the Community Services Division are provided via community-based organizations with the exception of weatherization audits and inspections, which are conducted by DSCP staff.

The **SUN Service System** is responsible for all programs that implement the School Age Policy Framework with services provided across the County via six geographic regions. In each Region, DSCP contracts with community based organizations to provide SUN Community Schools; anti-poverty services; and social and support services for educational success. In the Touchstone program DSCP staff are sited at 41 schools throughout the County directly providing case management and family intervention services during the 10-month school year.

In addition, the Division is responsible to manage the Alcohol, Tobacco and Other Drug (ATOD) services; technical assistance for gender specific services to girls; and technical assistance and services for sexual minority youth.

Describe department's administrative model- how the department is served (Centralized, distributed, etc)

The administrative functions are centralized in the Director's Office and the Operations Division to support all of the programs in the department.

Services provided by their central unit to department.

The Operations Division provides the Department the fiscal functions of accounts payable, accounts receivable, grant accounting and grant reporting; contract and RFP processing; budget development, monitoring and administration; data collection, analysis, and reporting; Human Resources; timekeeping; purchasing; travel planning; central reception; and general clerical and administrative office support. Given the relative size of the department, administrative support functions are provided from the department level rather than within divisions or programs as with larger County departments.

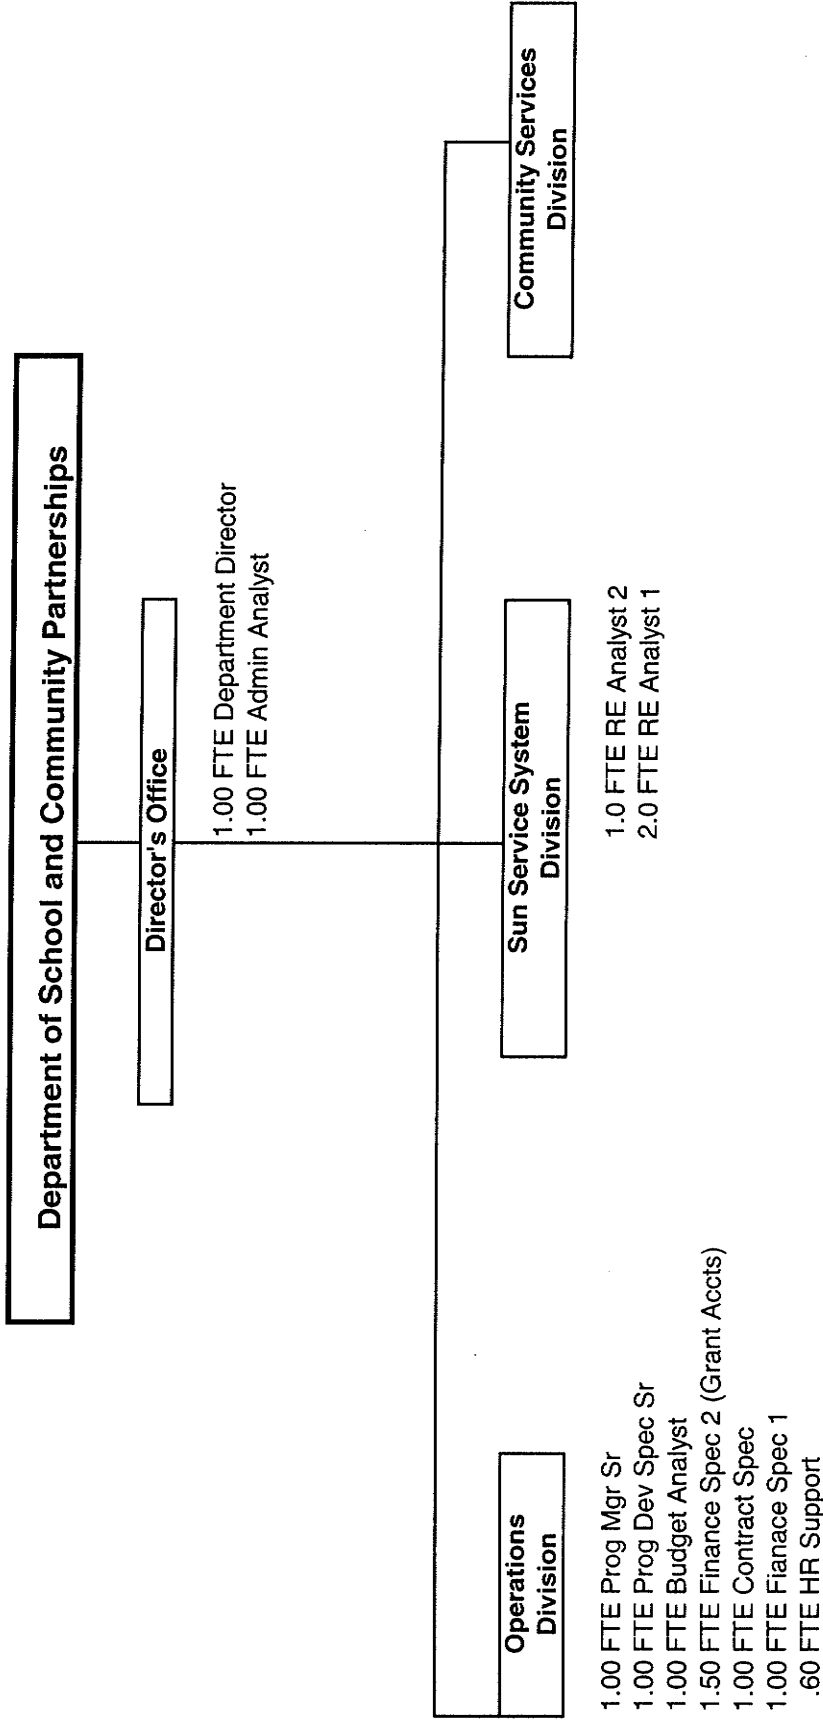

In addition, DSCP currently provides several administrative support functions for the Commission on Children, Families and Community (CCFC) such as reception, grant accounting, HR support and soon will be providing contract processing.

Data collection functions provided by the Research/Eval Analyst 1 positions include training, technical assistance and support for 220 end users (including over 180 from community based organizations) of two DSCP sponsored data collection systems (Crosswalk and SUN). The DSCP Research Analyst/Eval 2 position has two areas of focus: 1) provides overall technical expertise on several Department data systems (which requires technical expertise on a range of data systems and systems that support them) and 2) writes structured queries on several source data bases (SQL, Access and Paradox), using the appropriate query tools and user interfaces to pull the data. These queries result in data reports used by internal and external customers for the purpose of program review, monitoring, analysis, and complex query. Although these three positions have the classification title of "Research/Evaluation Analyst 1 or 2" they do not provide program evaluation.

Amount of overhead recovered by grants

The amount of allowable administrative costs varies from grant to grant. While some grants do not allow any administrative costs, others allow as much as 12%. When administrative costs are allowed, the grant funds are used to cover Indirect and Business Services. Any remaining administrative funding, after the Indirect and Business Services rates are applied, funds departmental administrative staff. The FY06 Adopted Budget includes \$580,684 of grant generated indirect revenue.

MULTNOMAH COUNTY LIBRARY

- Multnomah County Library is the oldest public library west of the Mississippi, with a history that reaches back to 1864.
- Central Library and 16 neighborhood libraries make up a library system housing a collection of 2 million books and other library materials. As Oregon's largest public library, MCL serves nearly one-fifth of the state's population.
- Multnomah County residents use their library. In FY 2005, they checked out 19.4 million items – an average of 28.4 items per person – and picked up more than 1.9 million holds.
- Each library is open seven days/week with open hours each day ranging from five on Sundays to eight or ten on other days of the week.
- The department is structured in five divisions: Central Library; Neighborhood Libraries; Outreach Services; Director's Office (includes public communications and all programs); and Support Services (includes IT, the materials collection and related staff; Volunteer Services, HR, and other internal support services). Most of Support Services and all of Outreach Services are housed in the Library Administration building.
- Administrative services are centralized (fiscal, HR, purchasing, time entry), so that front line staff can focus on serving the public.
- Budgeted FTE: 447; total employee count of 620 includes part-time and on-call staff.
- Over 1,000 volunteers contributed 66,038 hours in FY 05.

Department of Community Services Department Administration

The Community Services Department consists of seven operating divisions with a centralized department administrative staff. There are approximately 250 FTEs in the department distributed as follows. 169.8 in Land use and Transportation, 15 in Elections (which increases to 300+ temporary staff during some primary and General Elections), 50 in Animal Services, 2 in Emergency Management, 3 in Housing and Tax Title and 2 in Environmental Compliance. There are several sections within the Land Use and Transportation Division, such as survey, road maintenance, bridge operations, land use planning, transportation planning and road engineering – all of which have a section administrator who is clearly a working program manager. The administrative staff of all other CS divisions such as animal services, elections, emergency management and housing are also working program managers.

The department administrative staff consists of 3.2 staff in the Director's office; the Director, 0.20 FTE at the Deputy Director level, one administrative assistant, one Human Resources Analyst and support from the finance staff based in the LUT division. The department receives procurement, information technology and other services from the Department of County Management.

Department of County Management Organization Model

The Department of County Management was created in May 2005 to consolidate the County's internal services and key support functions within one organization.

The Chief Financial Officer serves as department director and as the ultimate financial authority for the County, responsible for establishing and adjusting the County's overall financial policies.

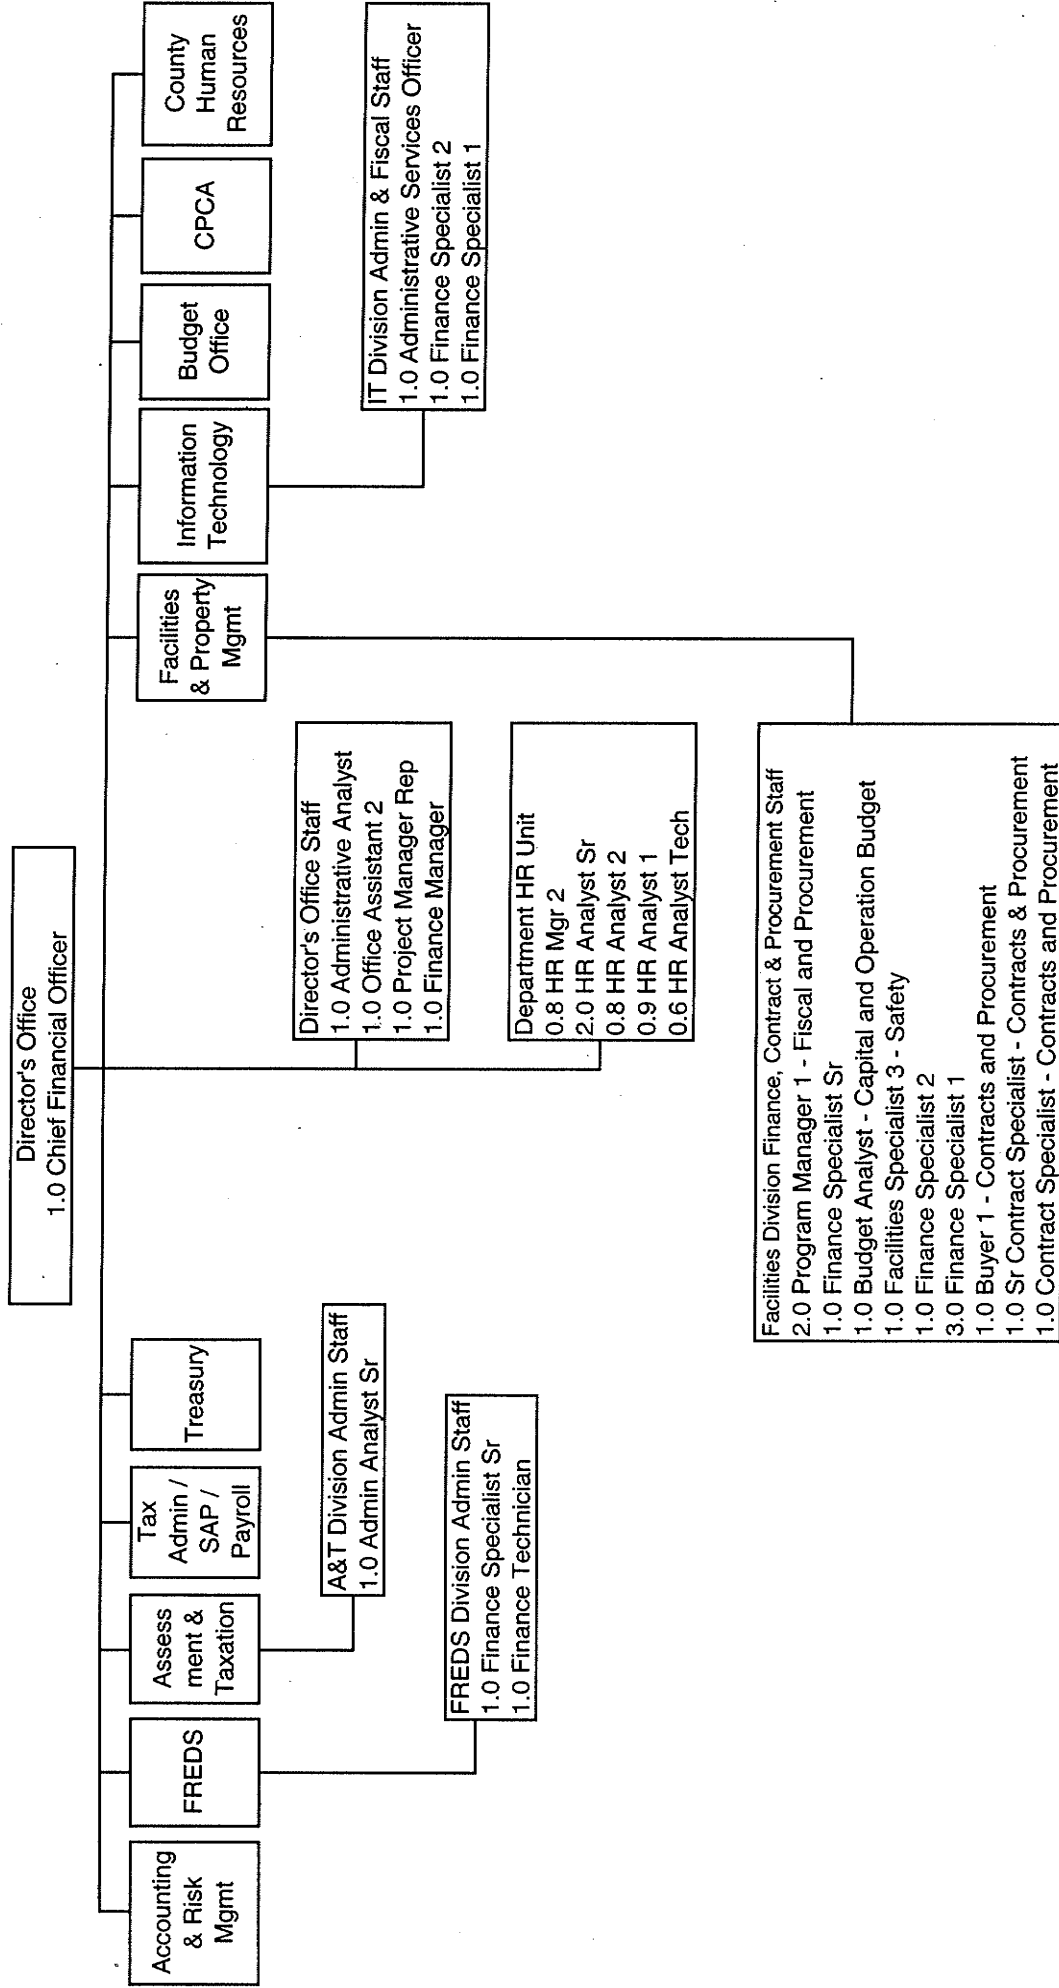

The department is organized with a small Director's Office (Office of the Chief Financial Officer) and ten divisions. The ten divisions include Accounting & Risk Management, the Budget Office, Assessment & Taxation, Treasury, Facilities & Property Management, FREDs (Fleet, Records, Electronics and Distribution Services), Information Technology, CPCA (Central Procurement and Contract Administration), and County Human Resources.

The Director's Office (Office of the Chief Financial Officer) provides departmental management and also houses two smaller programs (Sustainability, Affirmative Action, Cultural Competency) with county-wide significance. The department does not have a deputy director. Fiscal and administrative support is provided by the Director's Office to Accounting & Risk Management, the Budget Office, SAP/Tax Administration, and Treasury. The Director's Office also provides overall department budget and financial management.

The DCM Human Resources Team provides services to the entire department, to Non-Departmental organizations and some services to the Department of Community Services.

The department's four largest divisions have unique lines of business and are largely self-contained for financial administrative purposes. Assessment & Taxation assesses and collects the County's property taxes; Facilities & Property Management manages the County's property portfolio and capital construction projects; FREDs operates an extensive fleet and electronic services programs, manages the archival of County records, manages the County's Central Stores, and operates the County's interoffice mail distribution system; Information Technology manages and operates the County's IT infrastructure backbone, connects the County to the world via telephone and network connections and develops and manages application systems for departments.

Non Departmental Administration

Multnomah County's Non Departmental organizations include:

- Chair's Office
- Multnomah County Commissioner Offices
- County Auditor
- County Attorney
- Public Affair's Office
- Citizen Involvement Office
- Commission on Children and Families
- Tax Supervising and Conservation Commission
- Public Safety Coordinating Council

There is no departmental administration for Non Departmental organizations. The only common administration is that provided by other departments. The Department of County Management provides Human Resources administration and Budget assistance. The Department of School and Community Partnerships provides Finance Administration for the Commission on Children and Families.

Cash Transfers have been pulled out of Departmental Budgets in both tables to eliminate double counting of expenditures within departments.

Notes:

1 DSCP is an administrative organization, with 80% of its budget dedicated to contracted services which require a greater amount of admin support for procurement, contract processing, and payment than a direct service organization; and given the relative size and scope of DSCP, this support is provided at the Department level

2 Community Services - Election Workers count as 0.1 employee each, as was used in the HR Realignment Study

3 Commission on Children and Families employees are shown under DSCP since DSCP provides most admin support for that group
