The drawing of the Hawthorne Bridge on the budget cover was graciously provided by Michael Beard. The drawing was reproduced from his poster, [The Portland Bridges](#), which is available for sale through the Oregon History Center store.

The Hawthorne Bridge, designed by John Alexander Low Waddell, opened December 19, 1910, and is the oldest operating vertical lift span bridge in the world. The bridge is, however, closed for approximately 12 months for painting and deck replacement.
