To: Lynda GROW <lynda.grow@multco.us>

Lynda,

I've attached the APR for the board, and the application for Nellie DeVries. Each member of the Food Service Advisory Committee serves for 2 year terms.

The purpose of the Food Service Advisory Committee is below:

To review and provide to the County Board of Commissioners an evaluation and recommendation regarding the following aspects of the county food protection program:

- 1) Licensing
- 2) Inspections and Re-inspections of Restaurants; Reports; Public Notice Posting
- 3) License Revocation; Suspension; Closures; Sanitation Scores
- 4) County Delegation; Administration; Enforcement; Fees
- 5) Other duties as prescribed by the County Commissioners or Director of Health

B. To improve communications between the industry, the public and the Multnomah County Environmental Health Section.

- 1) Information processing and deliverance.

C. To provide information as to the perceived environmental health needs and wants of the community and industry .

D. To perform other duties as prescribed by the County Commissioners or Director of Health.

Nellie represents a critical stakeholder in food service, the Oregon Restaurant and Lodging Association, and replaces longtime ORLA representative Kara Thallon. ORLA is a critical lobby for the industry.

I hope that this email serves to outline why Nellie would make important contributions to the Food Service Advisory Committee and why Multnomah County Environmental Health supports her appointment.

I am happy to answer any additional questions or concerns.

Thanks,

Ben Duncan  
Program Development Specialist  
Multnomah County Environmental Health
