2011-12 County Budget Forums

**Multnomah County Chair Jeff Cogen
and the Citizen Involvement Committee
are holding two forums to gather citizen input that will
help shape the County's budget decisions next year.**

For the 11th time in as many years Multnomah County again faces funding reductions to programs and services. With significant reductions in state funding looming next year, understanding and giving input into the County's budget is more critical than ever!

***Learn about state funding to the County and then tell
decisionmakers which programs and services are the most
important to you!***
