REVENUE HIGHLIGHTS FY 94-95

BUSINESS INCOME TAX

Companies and proprietorships which do business within Multnomah County are subject to a 1.45% tax on income derived from sales made in the county.

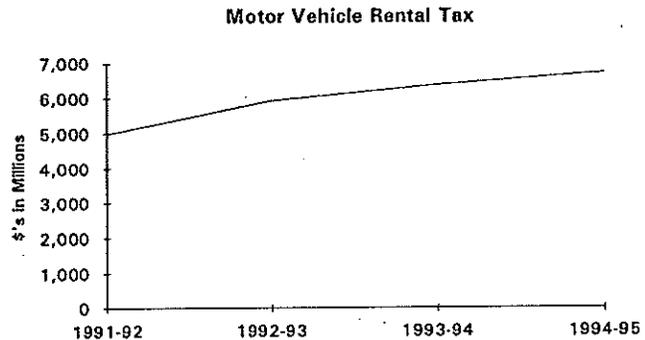

BIT receipts have grown significantly over the past several years and it is now the second largest single source of revenue in the General Fund. Business Income Tax appears to closely parallel State of Oregon corporate tax revenue and, thus, is a good indicator of the overall health of the regional economy.

MOTOR VEHICLE RENTAL TAX

Vehicle rentals in Multnomah County are subject to a 10% tax on the gross rental fee. In addition, each commercial rental establishment is required to pay a licensing fee of \$15 per year.

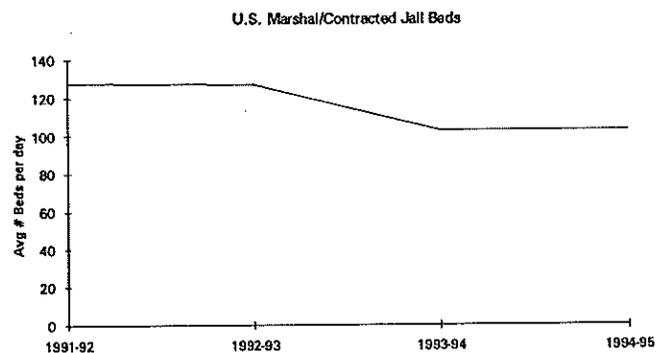

Motor Vehicle Rental Tax revenue has steadily increased over the past few years. This revenue source has a correlation to economic activity (i.e. more passengers coming through Portland International Airport) and, like the BIT, is a good indicator of the region's current economic condition.

U.S. MARSHAL PER DIEM

The U.S. Marshal maintains a contract with the Multnomah County Sheriff's Office for the lease of bed space at county corrections facilities.

The current contract calls for the Marshal's Office to lease up to 172 beds at a rate of \$89.98 per day. Actual usage of the contracted beds varies with the amount of federal court activity taking place in Portland.

REVENUE HIGHLIGHTS

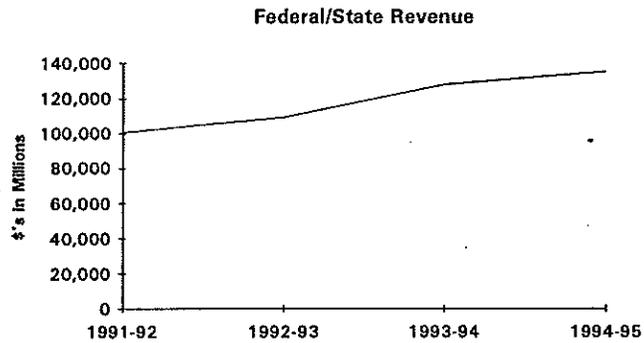

FY 94-95

INTERGOVERNMENTAL REVENUE

Multnomah County receives over \$130 million from the State of Oregon and the federal government - accounting for nearly one quarter of the county's operating budget. This revenue comes in the form of grants and pass-throughs.

A majority of the revenue received by the county supports mandated programs in the Health and Social Services areas. Although the amount of federal and state revenue received by the county has increased in recent years, it has not kept pace with increasing demands for services.

With greater demands being placed on both the state and federal budgets, it is likely that this trend will continue. Since this revenue plays such a large role in fulfilling the mission of Multnomah County it is a source which will receive greater attention and analysis in coming years.

SERVICE REIMBURSEMENTS

Service reimbursements represent charges paid to the General Fund (or other operating funds) for work performed by that fund. As an example, departments pay a service reimbursement to the Fleet Fund for costs associated with usage and maintenance of the county's vehicle fleet.

Most of the service reimbursement revenue paid to the General Fund (\$12.3 M) represents indirect costs paid by federal and state grants. Detail for the various service reimbursements paid by county departments can be found in the Appendix section of this document.
