Multnomah County Board of Commissioners
1021 S.W. 4th, Room 606
Portland, Oregon 97204

Dear Commissioners:

I wish to bring to your attention the very real need for a Family and Childrens Specialist position in the county office of Alcohol and Drug Programs.

Our child treatment programs and public schools, our day care centers and scouting groups are struggling with the phenomenon of children from chemically dependent families. But these child-oriented providers have little or no expertise in the dynamics and problems of youngsters from chemically dependent families.

Our alcohol and drug treatment programs are increasingly having to attend to the needs of the children of their adult clients. But these specialists in chemical dependency have little or no expertise in the unique needs of children or in family systems theory.

If we are to effectively impact on the generational progression of chemical dependency and the associated issues of child abuse, crime, and poverty, we must enlarge the knowledge base, coordinate services, and establish networks and data bases to assure the provision of comprehensive preventive and rehabilitative programming for our county's most dysfunctional families.

I hope you will consider the attached proposal for a new position in the Alcohol and Drug Program office as you develop the upcoming county budget. The families and children of Multnomah County are our most significant resource and services to them clearly need to be enriched and expanded.

Yours truly,

Nancy P. Simpson

Nancy P. Simpson, M.A.
2924 N.E. Tillamook
Portland, Oregon 97212
H: 287-0305
W: 241-0266

Proposal Outline

Family-COSA Specialist Position

I. Justification

- A. The problems of chemically-dependent families--and of the children in these families--have been identified as one of the most pressing social issues in our community.
 - 1. The numbers of drug-affected babies born in Multnomah County continues to grow each year
 - 2. The numbers of children of substance abusers (COSAs) in out of home placement are overwhelming the CSD foster care system
 - 3. The number of children being identified as COSAs by the school system is growing annually
- B. Alcohol and drug treatment providers are increasingly being expected to address the complex needs of their clients' children and other family members.
 - 1. While these agencies have great expertise in A&D treatment, there is little knowledge about the needs of children, how these needs can be addressed within the context of adult treatment, or how to incorporate traditional treatment methods with family systems theory
- C. Other social service agencies--from corrections to day-care providers to Scouts--are faced with the problems of chemically-dependent families but have little expertise about the special needs of these families.
- D. There is no existing focal point for the coordination of services or the sharing of information, expertise or resources between child/family-oriented service agencies and alcohol and drug treatment agencies.
- E. The Multnomah County Alcohol and Drug Program Office could take a strong leadership position and serve as the focal point for agencies struggling to address the complex and far-reaching problems of chemically-dependent families and their children.

II. The Family-COSA Specialist would provide the following services:

- A. Technical Assistance to Alcohol and Drug Treatment Agencies
 - 1. Program design and development for outpatient and residential treatment providers
 - functional dynamics of chemically-dependent families
 - needs of drug-affected infants

- needs of pre-school and school-age COSAs
 - development of parent-training, family counseling and COSA groups
 - 2. Integration of family-systems theory with individual and group A&D treatment modalities
 - 3. Integration of childrens programming with adult A&D treatment
 - 4. Development of service standards for childrens programming, child care rooms, etc..
- B. Training for A&D providers and Related Service Agents
1. Provision and/or organization of trainings on dynamics of chemically-dependent families, needs of COSAs and drug-affected infants to A&D providers
 2. Provision and/or organization of trainings on chemically-dependent families and COSAs to related service providers such as:

-day care providers	-private schools
-pre-school organizations	-Boy and Girl Scouts
-Oregon Association of Child Care Workers	-Camp Fire
-Mt.Hood Community College	-PCC Early Childhood Program
Mental Health Worker program	-Boys and Girls Club
- C. Networking and Liason
1. Development of cross-agency monthly networking group:
 - opportunity to share resources, methods, successes, problems
 - sharing case presentations
 - assistance with referrals
 2. Development of resource library
 - books, articles, research materials
 - videos, movies
 3. Liason with other agencies and programs that have related concerns
 - C.S.D.
 - Multnomah County Child Abuse Council
 - Multnomah County Community Corrections
 - Office of Womens' Transitional Services
 - Portland Public Schools
 - Council for Prostitution Alternatives
 - Our New Beginnings
 - Parents Anonymous and Parents United
 - Teen Parenting Programs
 - Mental Health Quarterly Conference
 - Multnomah County Health Department, Office of Child/Maternal Health
 - Emanuel and OHSU pediatrics, obstetrics, and social work departments
 - Child/Family Mental Health Treatment Providers (i.e., Parry Center, Waverly Childrens Home, Christie School)

4. Development of cross-agency data base to track methodology and outcomes
5. Organization of county- or state-wide conference

**Health Division
FY 91 PROPOSED BUDGET REQUEST
SOURCES OF REVENUE**

HEALTH DIVISION
1990-91 BUDGET HIGHLIGHTS

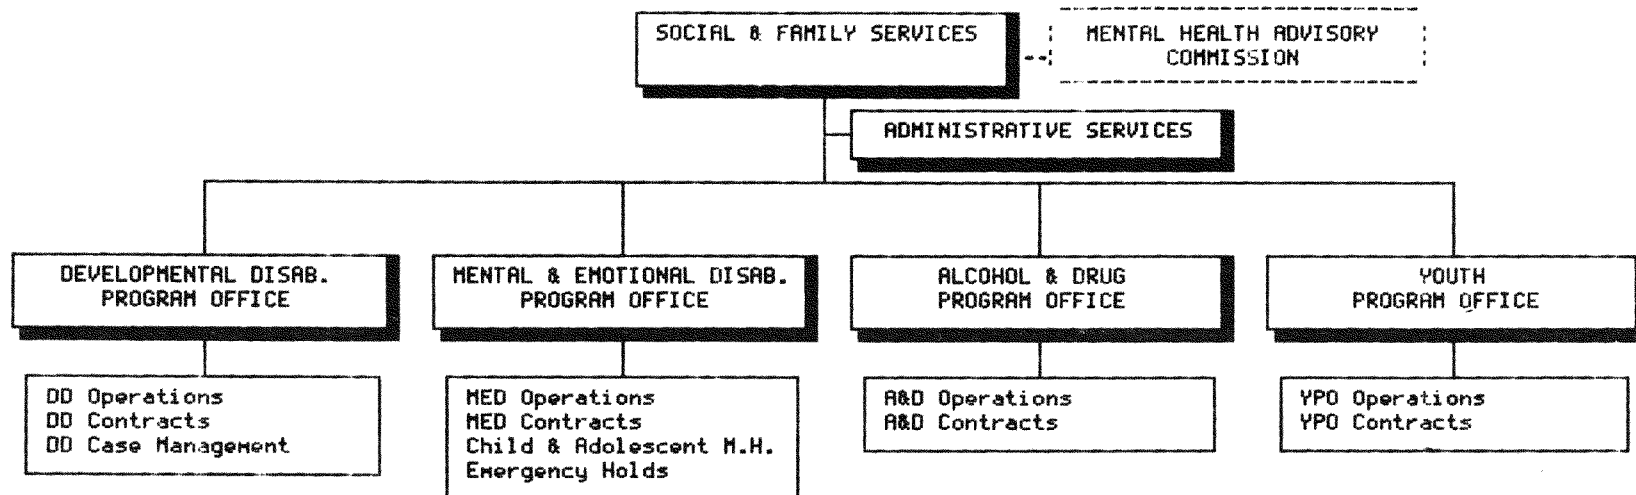

1. County general fund contracts are projected at current funding level (no COLA).
2. Emergency Medical Services (EMS) is projected to be funded entirely by ambulance fees (total \$224,449); \$99,272 replaced revenue currently received from other jurisdictions.
3. Fees for environmental health, food service program are projected to increase 29.5%. \$93,181 frees up general fund to offset further health service cuts. A \$78,201 fee increase is proposed to fund additional critical staff for the food service program.
4. Currently the County and City of Portland share (50% each) of the cost of water collection and sampling for the City, which is conducted by the Health Division. This arrangement dates back to the merger of the City and County Health Departments in 1968. The County general fund subsidy would have been \$59,104 in 1990-91, and is projected to be eliminated.
5. Projected budgeted funds for pharmaceuticals (drugs) reflect a 33% reduction in our current service level (\$250,000). This would require a plan to eliminate provision of subsidized drugs for identified health problems for our Primary Care Clinic clients.
6. The only service enhancement included in the 1990-91 budget proposal is an increase in our International Health Clinic (\$617,000) and in our outside referrals for refugees (\$227,000). This increase is critical due to the sharp increase in refugees, particularly from the Soviet Union--and is necessary to obtain the projected increase in REEP revenue. Our contract with IRCO for interpretation services is cut from a current annual expenditure level of \$145,000 to \$40,000. Part of the increase in services will include an increase in county operated interpretation services, which are projected to be less cost.

Note: Small "pilot" acupuncture service is included in this increase.

7. An enhancement is included in the Chair's budget (per Policy Development Committee) for \$191,719 which would add two new School Based Health Centers, to open January, 1991. This proposal anticipates obtaining an additional \$62,149 from the state to assist in funding.
8. A current \$10,000 contract with Keepwell, Inc. to develop wellness oriented education/support groups for the elderly is cut.

SOCIAL SERVICE DIVISION
1990-91 BUDGET HIGHLIGHTS

1. Includes an additional \$140,000 to plan an alcohol and drug strategy for the County. (BCC Strategic Initiative)
2. Includes over \$900,000 in new State Youth Commission Great Start funds for planning, evaluation and services for children ages 0-6 years and their families.
3. Includes an increase of \$200,000 towards the County's continued support of the Youth Service Centers which offsets the city of Portland's decreased support of \$200,000.
4. Decreases in various material/services and capital items necessary to meet constraint without a reducing FTE.
5. No cost of living adjustment (COLA) to General Fund Contractors.

ANTICIPATED PROGRAM ADDITIONS NOT INCLUDED IN THE PROPOSED BUDGET:

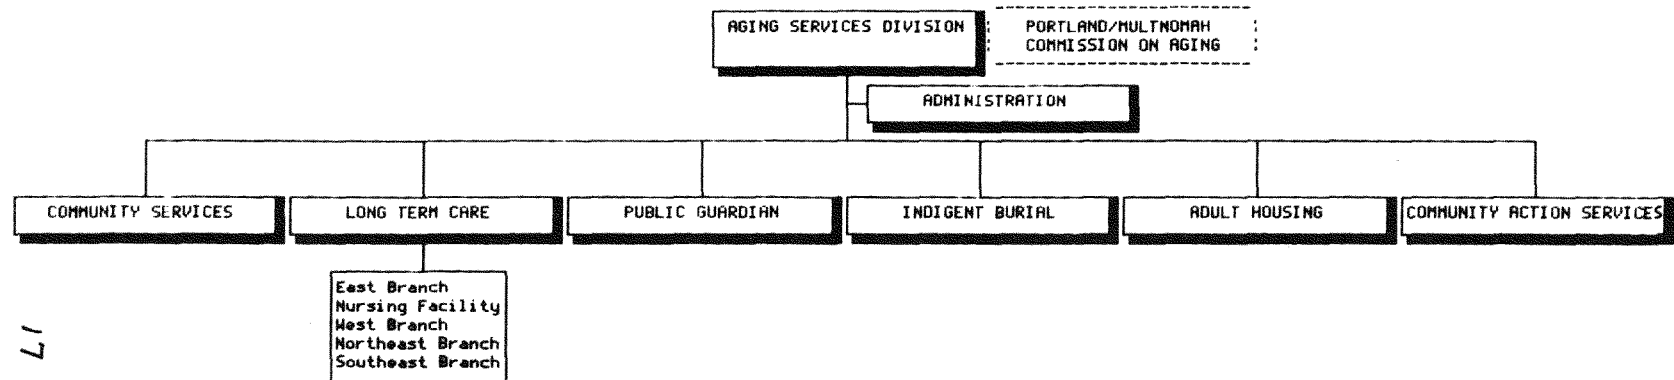

Adult Transfer - addition of approximately \$2 to \$3 million dollars of new Title XIX and 75.0 FTE transferred from the State AFS. These funds will provide for the transfer of Medicaid eligibility and related services for disabled adults ages 18-64.

Robert Wood Johnson - Application has been made to Robert Wood Johnson Foundation for a grant to provide mental health services to severely mentally ill youth in Multnomah County. The grant, if awarded will be approximately \$1.7 million over 4 years.

Crisis/Acute Care System - would bring in new state funds of approximately \$2.87 million for the remainder of this biennium, funding an evaluation and treatment facility providing 20 acute care beds and an envelope of services to be combined with existing crisis services.

FY 91 PROPOSED BUDGET REQUEST
SOURCES OF REVENUE**

AGING SERVICES DIVISION
FY 1990-91 BUDGET HIGHLIGHTS

Administration

1. Deletes .50 FTE Program Manager position and .5 FTE Program Development Specialist Long Term Care.
2. Deletes 1 FTE Program Development Specialist. (The position manage and monitor the District Center contracts in Community Services.)
3. Deletes .50 FTE Office Assistant position.
4. Adds 1 FTE Minorities Services Coordinator. (This is a new position started in March 1990 to give new emphasis and focus to serving ethnic minority elderly persons.)
5. Adds 1 Financial Specialist position and .5 clerical position in anticipation of Community Action contracts with providers being managed directly by ASD beginning July 1, 1990. They are currently managed by Metropolitan Community Action.
6. Adds \$1,500 for contracting for services of ethnic minority interpreters.

Subcontracts (Provider contracts for community services including meals, legal services, in-home, mental health, transportation, adult day care, respite, etc.)

1. The budget includes no additional funding for provider cost of living adjustments (COLA). In effect this will mean fewer services for the same money.
2. Elimination of health screening (\$25,000)
3. Reduction in transportation services (\$24,000)
4. Reduction in congregate meals (\$68,000). This will probably result in the closure of 1 or more congregate meal sites.

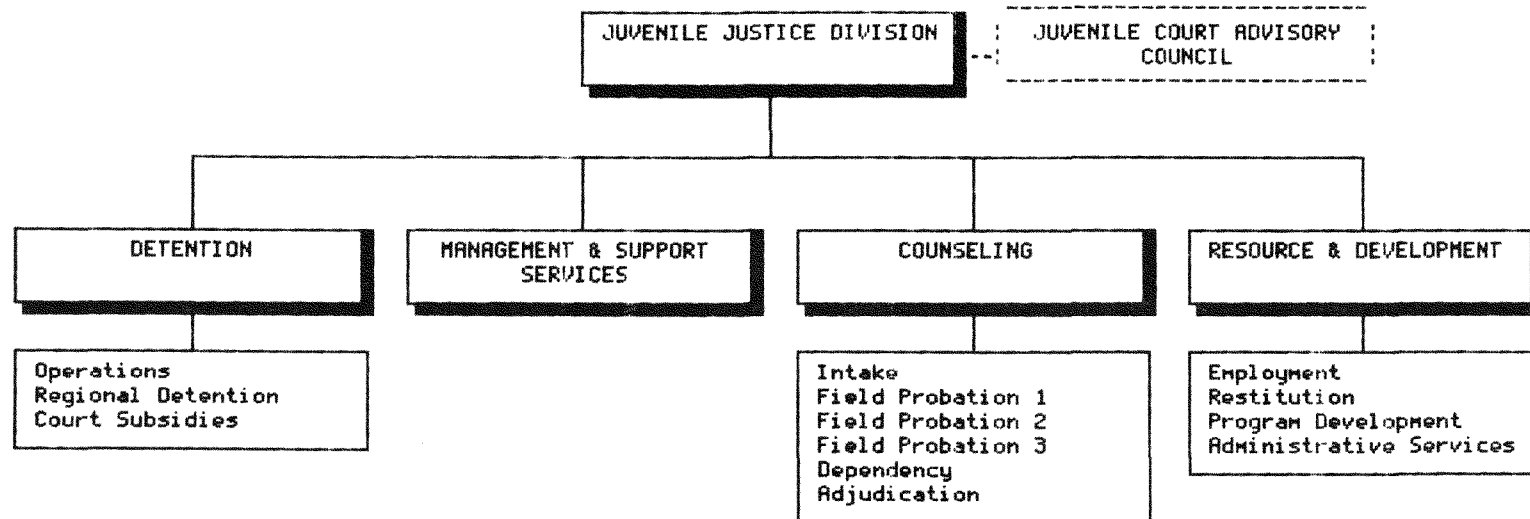

Long Term Care

1. Deletes 6 Case Manager I positions from Nursing Facility Branch Office.
2. Deletes 1 Case Management Supervisor.
3. Deletes 3.5 FTE Case Manager II positions. At this point, ASD has budgeted 7 Case Manager II positions at half time rather than delete 4 positions from the budget.
4. Deletes 2 clerical positions.

Juvenile Justice Division

FY 91 PROPOSED BUDGET REQUEST

SOURCES OF REVENUE

JUVENILE JUSTICE DIVISION
1990-91 BUDGET HIGHLIGHTS

1. Maintain Community presence with three (3) District Offices.
2. Maintain the Options Program for young women involved in prostitution.
3. Maintain the Adolescent Sex Offender Program.
4. Maintain Close Supervision Detention Program.
5. Maintain temporary on call staff to provide outside recreational program.
Increased visitation and coverage for overflow Boy's Unit.
6. Loss of Private Industry Council (PIC) funds (\$66,484) requires
elimination of employment/work preparation services program.
7. Increase Division Training Allocation.
8. Purchase of a digital dictation system for the Word Processing Center to
replace outdated dictation equipment.

JJD NOTES

Upon favorable action by the Legislative Emergency Board in May we will be able to:

- a. Expand the GRIT Team.
- b. Establish a thirty (30) day residential program for probation violators.
- c. Purchase treatment for gang involved youth in the House of Umoja.
- d. Establish a client service fund to purchase treatment services for youth at high risk of commitment to the State Training School.

Steven A. Fulmer; 2106 SE 42nd Ave; Portland, OR; 97215-3703

**Statement to the Multnomah County Board of Commissioners
1990 - 1991 Budget Hearing
April 5, 1990**

Good morning. My name is Steve Fulmer and I have had the pleasure of serving on the Citizens' Advisory Board for Human Services for the past five years. During that time I have witnessed considerable improvement in the structure and methods of management both within Human Services and within the County as a whole. During that same period the Department of Human Services has developed responses to some of the most demanding social problems of our day. These problems have included rising rates of juvenile crime and substance abuse, teen pregnancy, the HIV epidemic, and growth in our immigrant, elderly and homeless populations. These demands have been complicated by transfers of government authority, judicial and legislative mandates, and chronic inflation.

So, I believe that I speak on behalf of the entire CAB when I offer you my sincere appreciation for maintaining a clear commitment to the quality of life for *all* citizens of Multnomah County, despite the common temptation to balance straining budgets at the expense of human services. This is not to say that every need has been met or that some valued services have not been reduced or eliminated. Financial realities present painful decisions in most families and this one has been no exception.

This year's budgeting process has presented particularly painful choices for you and for the CAB and Human Services staff. These decisions, though difficult, have been made easier by utilizing ranking systems and financial spreadsheets and by critical reviews of project goals and strategic plans.

The impact of these systems and your care in considering our recommendations is evident in the Chair's proposed budget. We are particularly happy to note that services in the Burnside and Mid-county clinics will be retained and that our strategic commitments to Teen Health Centers and to basic alcohol and drug intervention have been honored.

I especially want to use these moments to reinforce the importance of strategic planning for all county services. Particularly now that the County has taken on delivery of virtually all health and human services, the quality of life for our least fortunate citizens will increasingly depend on planning and on strategic partnership between the county and various other public, private, and community-based agencies.

The Teen Health Center program is a particularly good example of strategic investment, because it represents effective intergovernmental cooperation as well as delivery of modest services which are most likely to reduce both human suffering and long-term public expense. Truly our youth are our most important resource and I thank you for investing so wisely in the future they represent.

Strategic investments always have their price, however, so care must be taken that these costs are of limited duration. I hope that such is the case where cuts in Social Services administration and cost of living adjustments to contracted agencies are concerned. Sound administration and maintenance of good faith cooperation with contract agencies are fundamental to our social service success and I hope that these areas of restraint will be given maximum priority as new resources are found. The elimination of funds for the purchase of prescription drugs is also of great concern since it may result in increased hospitalization and general deterioration in the effectiveness of our clinic services.

(over)

And so, even as I thank you for your committed, compassionate leadership and for steady improvement in the County's management procedures, I stress the necessity of your continued vigilance so that no strategic investment is made by repeatedly underfunding other areas of vital importance to our future.

Thank you, again, for your continuing attention to good management on behalf of *all* citizens of Multnomah County and for your attention this morning.

2754 NE 34th Avenue
Portland, Or. 97212
April 4, 1990

Gladys McCoy
Multnomah County Chair
Board of Commissioners
1021 SW Fourth Avenue
Portland, OR. 97204

Dear Madam Chair:

My comments come from the perspective of serving as a volunteer to five activities dealing with human services in Multnomah County:

- Portland/Multnomah Commission on Aging (PMCOA) - an outgrowth of my past years of expertise with Portland State University and its Institute on Aging;
- Chair, Central Advisory Board, Department of Human Services;
- member of the Advisory Board for the Robert Wood Johnson grant proposal team, entitled the Partners Project;
- member of the MED Advisory Committee, which was recently re-established;
- member of the strategic planning panel with Commissioner Anderson which examined human services.

Positive Points to the County Budget for 1990-91

■ programs in the human services were treated well; we recognized, unfortunately that with cuts in federal programs, the County could not maintain all of these services. I do request, as a member of PMCOA, that the Commissioners examine restoring additional funds for continuing case management for nursing home residents.

■ Another program which received special attention in the past and which the CAB and PMCOA both think has turned itself around, and needs to grow in order to serve a waiting list of eligible people, is the Public Guardian program.

Support for other federally reduced aging services programs would be advantageous since you are well aware that the seniors are well organized and helped to assist the County in gaining support from the City of Portland for the senior service centers at a level of nearly \$400,000. As an aside, the CAB invited the Mayor, to one of our meetings in February. We wanted to help break what we perceived to be an impasse in the negotiations between the City and the County. When his representative joined us in March, Marge Kafoury was able to announce the new policy of funding and for this we were grateful. I suspect you should continue discussions on the Resolution A controversy, however, since I believe the City will work to end support for what they identify as human services.

■ The CAB also supports additional dollars for health programs for the teen clinics as we stated to you earlier in the budget process. We would also like to suggest that you work with an urban school district that has neighboring middle schools and develop a test clinic program for one middle school, using the other as a control. We suggest/believe health care support at the middle school level should be tested as a demonstration project.

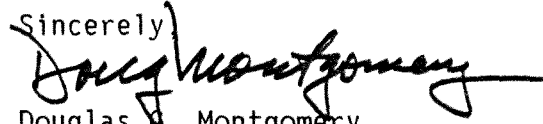

■ This takes me to the March Final Report of the CBAC which shows a different perspective on human service programs than the CAB has. Unfortunately, in the spirit of meeting a deadline, the CBAC chose not to inform the CAB of its opinion about client tracking and evaluation. In fact, we did not receive a copy of the draft report. I only received a copy of the final draft when I requested it. It is my professional opinion that Multnomah County does an excellent job of monitoring its human service programs, either with County personnel or with contractors. The County has to follow rigorous state and federal guidelines when those organizations pass through grants and contracts. Particularly in aging services, the case management program is one of the best in the country. Since I was in on the ground floor of development of the pre-admission screening instrument used to determine level of support services for older citizens -- this was an outgrowth of a research study approved by HCFA in the early 1980's and tested in southern Oregon -- the FIG/Waiver Project -- I feel the County is doing very well in delivery of services to clients. We meet with the directors of the various programs throughout the year and regularly ask them questions about their clients. The County can do better, particularly in bringing outcome measures into operation, but at the present time, I disagree with one of the CBAC recommendations for tracking contractors' clients--perhaps that is why we have multiple citizen groups to provide input into the budget and decision-making process of the County -- so we can disagree and you can decide.

■ my final point is a recommendation. We developed a matrix spread sheet which enabled our group of dedicated citizens to better understand the concept of drop packages, add packages, the strategic initiatives, and other complex details with the programs and projects in the Department of Human Services. Duane Zussey's group, and it is very professional and first-rate, helped us put our format into practice. We have some extra copies and have learned that some members of your staffs also found it useful in review of this material. We offer it to you, as a tool for the budget process next year. With the spreadsheet and accompanying program description package, we felt OK in making recommendations.

■ Our starting point in the budget review exercise of cutting was very difficult for us as it was for you. We had multiple meetings to chart a course of action. It was painful and was one reason for my letter to you, Madam Chair, for you to consider placing the county in a hiring and budget freeze for this last quarter. We saw major problems for next year. I hope these have gone away, but if they will not, I encourage you to act decisively in slowing down program growth in the final quarter of the fiscal year. Examine those support service costs, too, and you might consider doing a review which would compare in the support services -- ADP, phones, etc. -- the cost of doing business internally vs. contracting out the activity.

The federal government identifies this program as an A-76 study and what it does, if nothing else, is to shake the cobwebs out of an internal organization, allow it to develop every efficiency it can or wants to do, attaches a description of the product and or service, and then your analysts can compare private vs. public costs based on the performance work statement developed by the operating unit. It encourages efficiencies inside.

Thank you for giving me the opportunity to share my comments with you.

Sincerely,

Douglas V. Montgomery

County Commissioner Gretchen Kafoury

FROM: Duane Zussy, Director *Duane Zussy*
Department of Human Services

DATE: April 5, 1990

SUBJECT: Highlights of DHS FY 90-91 Executive Budget

In preparing our FY 90-91 Budget Request the Department of Human Services faced the prospect of deep cuts in order to meet the "constraint" level. This situation was the result of the labor intensive nature of our programs coupled with the expiration of certain state and federal grants, the operation of Graham-Rudman reductions in federal funding, and cost of living adjustments on the state and federal grants we will receive that fall far short of actual inflation ratio in many critical areas.

In response to this set of circumstances, the department made significant internal cuts as well as identifying whole programs for elimination. The County Chair, in her review of budget requests county-wide, was able to make adjustments throughout the county budget which allowed her to restore a number of the most serious of these proposed reductions.

We are now presenting an Executive Budget Request which includes many of the programs and services we had initially targeted for reduction in order to meet constraint level funding. However, there are still many worthwhile services and activities that the Chair was not able to include within the limited dollars available. This is true in all operating departments. In Human Services the activities that are funded in the current fiscal year (FY 89-90) which could not be continued at current levels in FY 90-91 include:

Memo to the Board of County Commissioners

April 5, 1990

Page 2

- o No cost of living adjustment for the general fund supported subcontractor agencies who provide a variety of direct client services;
- o Reduced availability of prescription drugs for indigent health care clients totalling \$250,000;
- o Reduced county support for case management of the homeless (\$25,800)
- o Reduced case management resources for older and disabled clients in Medicaid supported long term care (nursing home) settings (\$198,867).
- o Reduced psychiatric consultation services for mentally and emotionally disturbed clients, stabilization services for developmentally disabled, and a myriad of administrative and technical support service reductions department-wide totalling in excess of \$650,000.
- o Numerous small reductions in Materials and Services and in other internal administrative areas throughout the Department.

With these exceptions, the Executive Budget proposed for FY90-91 represents a continuation of current activities (other than those which are "one time only" in nature at the levels authorized by the Board.

Should you have other questions with which you feel I may be helpful, please feel free to call upon me accordingly.

TOTAL INCLUSIONS IN PROPOSED BUDGET 579,000

April 5, 1990

Good afternoon Commissioners/Ladies & Gentlemen,

My name is Lueria Davis. I am 18 years old. This is my son Justin. He's 15 days old. I've come to you today to tell you how I feel about the North Portland Youth Service.

I was sent to the Youth Service Center Diversion Program when I was 13 years old. The program helped me change my attitude about things and I learned there really is a place to go when you need help.

Last year I came back. I was depressed, pregnant and involved with a boy who was physically and mentally abusive to me. Bob and Molly worked with both of us. My boyfriend's not ready to change yet but I feel I've straightened out my life a lot and I feel better about myself. I'm not afraid to be a single parent and I'm not afraid to learn because I want to be the best person and parent I can be. I'm a member of the Young Mom's Group now. Our weekly meeting's are important to me and help me deal with my new parent role.

The point of my story is that the Youth Service Center has always been there for me. I'm here as proof that they help people, but they have waiting lists and are short staffed. I know there are many many more people like me out there and it bothers me that they may not get services or have to wait too long to get in to see someone. When there is a crisis, you need to see somebody you can trust right away!

I think you need to give the North Portland Youth Service Center more money so they can hire more staff and expand their programs. If the County doesn't give cost of living raises, money to cover rising costs and other expenses, programs may eventually be cut. This isn't okay with me and that's what I came to tell you.

Thank you.

Lueria Davis

#21

5 April 1990

To: Multnomah County Board of Commissioners
Sitting as the Budget Committee

Fr: Mike Hoffman
Board Member Delaunay Mental Health Center

Re: DHS budget recommendation

Please give your support to increasing the budget for the North Portland Youth Service Center. The work that this facility does with kids is essential to holding the fabric of the neighborhood together in this time of gangs, racism and greed.

Our society is faced with demographic constraints that are reducing the number of young people entering the work force. The numbers however are not only reduced but the reasoning ability of young people is seriously reduced from that of preceding generations, due to the effects of the media (television) with its flow of images that do not require consideration or contemplation. These two factors, reduced numbers of new workers and the quality of those workers, is a terrifying prospect for the social fabric of our culture.

Children who can not stay in school, for whatever reason can not achieve economic security, those who are without stable jobs will see the growing gap between the educated (rich) and the uneducated (poor). Seeing that gap and the expectations of consumption constantly conveyed by the media will lead to society being ripped apart violently, Before you say that can not happen here, think of numerous other countries in South America and Europe that are currently facing crises of inflation, riots and radical changes in society. The Youth Service Centers in Portland help keep kids out of trouble and in school.

We must, as a society place adequate resources into long term investments, children are the only future that we have and many of them will be wasted without proper nurturing (that is often times not available at home).

To retain skilled staff, an increased budget is necessary. Additionally the county needs to factor in a retirement benefit so that staff will be retained. The current system of using outside contract agencies to administer the Youth Service Center program is an effective way of avoiding the payment of adequate retirement benefits, but defeats the purpose of retaining qualified staff that can effect youth positively to remain in school and become stable members of a functional society.

Re: Budget for Emergency Mental Holds

Dear Board of County Commissioners:

I represent Holladay Park Medical Center (HPMC) in connection with the proposed budget of the Department of Human Services for Mental Health Programs. Attached to this letter is a copy of the proposed budget.

A total of \$1,411,869 has been budgeted for paying the cost of emergency psychiatric care in local hospital psychiatric units. This represents a decrease of approximately 5% from the 1989-90 budget of \$1,481,108.

As the attached proposed budget states, ORS 426.241(1) mandates that the cost of emergency psychiatric care shall be paid by the County, after offsetting any costs collected by the hospital from the patient or the patient's third party payors.

HPMC believes that the proposed 5% decrease in the budget for emergency mental holds is inappropriate without any assumption as to the number of patient days expected in the 1990-91 budget year. HPMC's experience is that its number of patient days for County emergency mental holds has been increasing over the past several years, and HPMC's cost of treating those patients has also been increasing. Accordingly HPMC requests that the Board of County Commissioners request and obtain accurate information on the number of patient days expected in the emergency mental hold program in the 1990-91 budget year before approving this proposed budget.

HPMC is aware of the March 1, 1990 Resolution of the Board of County Commissioners which provides for the Director of the Department of Human Services to set a per diem rate for reimbursement to hospitals subsequent to final Board approval of the rates. HPMC is also aware that the Mental and Emotional Disabilities Program Office in the Social Services Division will

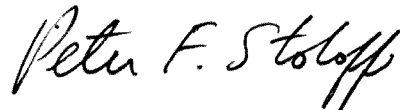

Board of County Commissioners
Multnomah County Oregon
April 5, 1990
Page 2

let a Request For Proposal in which hospitals may propose reimbursement rates. If none of the proposals are accepted by the County, the Resolution provides that a per diem rate will be implemented.

HPMC wishes to express its opinion that if the per diem rate is enacted and does not pay at least HPMC's costs of providing emergency psychiatric care, that the rate will contravene the statutory mandate in ORS 426.241(1).

HPMC believes that it is important that the proposed budget for emergency mental holds accurately reflect both the number of patient days expected in the 1990-91 budget year for the emergency mental hold program, and the costs to the hospitals of providing the emergency psychiatric care to those patients.

Sincerely,

A handwritten signature in cursive script that reads "Peter F. Stolloff".

EXECUTIVE BUDGET MESSAGE

April 3, 1990

This is the fourth Budget of my first term as County Chair. The first one was more or less the acceptance of much of the work that had been done prior to my arrival.

The second was characterized as a hold the line budget that retained much of what we had approved in 1986-1987 with the exception of additional funding for infrastructure. This was an attempt to increase support services to match new programs. In addition, we approved a resolution that stated such policy would be established for future budgeting.

Recognizing the "rubber band" had reached its limits, without additional funding, staff "burn out" rate would increase, equipment would fail, systems would need updating and efficiency would be merely a word. At the end of the third budget session all agreed there had to be a better way to accomplish the most critical task we as a board had to perform. We needed a clear and rational way to allocate resources.

Strategic Planning was the vehicle the Board agreed to use as a new way to operate. It represents an approach to sound fiscal planning and prioritization; it is a reflection of information-based decision-making; enlightened management practices; and active participation of the decision-makers, both elected and appointed, and various community groups and citizens.

The 1990-91 budget is significant for two reasons. First, it represents the first budget that has been affected by our new Strategic Planning process. Second, it is a budget which has required more than usual fiscal restraint.

In this proposed budget, I have kept our initial planning in mind as I dealt with the fiscal constraints we face. I have continued to affirm our commitment to a continuum of services to citizens served by our Justice and Human Services programs.

The Reasons for Restraint.

The major reasons for the constraint in this budget are due to labor cost and health care coverage increases.

Other expenditures this next year will grow consistent with the Portland Metropolitan Consumer Price Index, CPI. Taken together the unavoidable costs have put substantial pressure on our ability to sustain programs. Our revenues have not kept pace.

Total budgeted requirements for FY 1990-91 will be \$ 361.5 M of which \$ 133.3 M are from the General Fund.

Our revenues for the General Fund will grow by approximately \$ 10.8 Million, from \$ 123 to \$133.8 Million. Of the 300 plus revenue sources, only 12 produce income greater than \$1 million.

Our Reaction to Restraint

Based on local budget law, we must have a balanced budget. I relied on three sources of information to prepare this budget: the results of our initial year's strategic planning activity; the thoughtful input of our citizen advisory groups; and County management staff expertise within our many programs.

Strategic and Other Major Initiatives

As a result of our Strategic Planning process, we created a series of initiatives, some required funding and some required program redirection. In order to implement these initiatives in a year of fewer resources, fiscal restraint has been necessary.

Two major initiatives which require new funding in the budget are the expansion of the Multnomah County Jail at Inverness by 210 beds as well as 120 alcohol and drug treatment beds and the incorporation of the Library as a County Department. Both are funded by special levies.

Strategic Initiatives to be carried out by the Departments are:

- A major planning effort to coordinate County alcohol and drug programs.
- Expansion of our highly regarded Teen Clinic program with the opening of two additional clinics.
- A joint study with Metro to assist in the preservation of Natural Areas and a coordinated effort to create a master plan for the recreational use of Sauvie's Island.
- A continuation of our precedent setting community policing program under contract with the Housing Authority at Columbia Villa.
- A reinforcement of our commitment to Affirmative Action with a program to ensure Handicapped Compliance.
- A major step in the direction of equitable taxation.
- A coordinated effort to develop a capital-improvement planning process which will create reserves for funding major projects and improvements.

Effect on County Services

The following changes are recommended to establish responsible financial management of County services:

The Department of Human Services, due to its size, faced the greatest number of cuts. Moreover, the effect of Gramm-Rudman reductions and the expiration of State and Federal grants has had an added impact. Through extraordinary effort within that department, an appropriate commitment to human services, and reasonable levels of vital services have been maintained.

To preserve programs and to provide mandated services, I have authorized the realignment of the health clinic system with reduced staff so as to ensure the opening of the new Mid-County Primary Care Clinic in July. In addition, I have proposed some restrictions on drug prescriptions, training and support for Youth Programs, psychiatric care for the mentally and emotionally disturbed and made a myriad of administrative and technical service reductions. While these reductions and delays are painful, they are consistent, I believe, with reasonable public health and safety, and they meet our most pressing priorities.

The programs of the Sheriff and District Attorney have been less severely impacted. Both have contributed efficiencies through internal reductions rather than program service losses.

Within the Justice Services Department, loss of State grant funding will reduce the intensive probation program for DUII offenders.

In the Department of Environmental Services, facilities management which provides day-to-day maintenance needs for County buildings will be limited.

In the Department of General Services, we must maintain administrative support for our many direct service programs.

The Overall Result

My proposed budget reflects the necessity to establish both sound fiscal policies and priorities. It preserves a prudent contingency to guard against the unforeseen for which we cannot budget.

Responsible financial management must consider ways of balancing budgets that look beyond the simple response of raising taxes or cutting services. This budget provides the benefits of both fiscal responsibility and social fairness.

page 4

Fairness because I care about our aging community service programs; for unless seniors are supported, our county will never completely realize its potential as a community.

Fairness because I care about our successful anti-gang program; for unless our children are safe from gangs, and unless our neighborhoods are safe from crime, our county will never be secure.

Fairness because I believe our libraries are so important; for unless our citizens are literate and well educated for this competitive world, our county will fall behind.

I continue to solicit the input of the Board, the County managers, the Sheriff, the District Attorney and citizens to help us extend our vision and think ahead. We have to work together and plan long-term as though the fate and future of Multnomah County's citizens depend on us; because they do.

CHAIR'S EXECUTIVE BUDGET DECISIONS

CHAIR'S GENERAL FUND INCLUSIONS IN EXECUTIVE BUDGET

Human Services

Health

Burnside Clinic	377,000
Midcounty Clinic (with offsets so it can go full yr) operate for a full year)	410,000
Corrections Health Prof Services	120,000
DP service reimbursement	140,000
Cascade AIDS Project	13,000
Teen Clinics (Strategic Initiative)	219,000

Aging

Adult Housing CHN	19,000
