(1) People living below poverty line used 2004% of the 2006 Population									
(2) Since Clark County is Washington State, you can't really look at these four counties as a percentage of Oregon's totals, but this still seemed a useful measure.									
(3) Portland (city)population data older, Pop.'03 , Pop Chg. 4/00-7/03; HH. 2000; Median Income 1999;Percent of people below Pov. Line 1999; Land Area 2000									
(4) Source: AVMA method of extrapolating based on 2007 U.S. Pet Ownership and Demographic Sourcebook. Does not include 'unowned cats'									
(5) Source: rough estimate based on Merritt Clifton's national proportion of feral cats to cats in HH data would be 46,000. Feral Cat Coalition estimates more like 100K or 22%. Using their estimate.									
(6) Source: Peter Marsh estimates that we need to sustain 5 targeted SPAYS per 1000 people not including Ferals									
(7) Source: Peter Marsh estimates 1.25 ferals need to be sterilized per 1000 people									
<b>NOTE:</b> I could find few resources defining the Portland Metro area, but WIKIPEDIA is obviously not including the entire other counties or Clark.									
The Portland metropolitan area is the urban area centered in northern Oregon (Multnomah County and parts of Washington, Yamhill, and Clackamas counties) and southern Washington (Clark County). It is Oregon's largest urban center and the hub for trade, transportation, and business. Altogether it is about 550 to 600 sq. mi. of urbanized land area.									
<a href="http://en.wikipedia.org/wiki/Portland_metropolitan_area">en.wikipedia.org/wiki/Portland_metropolitan_area</a>

Abbreviations:

MCAS : Multnomah County Animal Services

OHS: Oregon Humane Society

FCCO: Feral Cat Coalition of Oregon

(A) Neuter before adoption program sustained. Assumed x % growth but incremental growth not included in this budget.

(B) FCCO data for 2007 entire Portland metro (ASAP - 4 county) area was 1678 . This assumes achieving target rate with subsidy. Surplus anticipated.

(C) Through existing Adoption programs or subsidized programs such as Oregon Spay/Neuter Fund. In cremental spurred by Maddies Fund dollars ?

(D) OHS capable of 10K cat community cat surgeries - assume 50% for Multnomah County.

(E) Assumes surgeries for \$0 targeted to those on federal or state assistance programs -with gov't picking up \$10 (cat) to \$20 (dog) co-pay.

(F) Assumes 1.25 feral cat surgeries per 1000 human population.

(G) Assumes we need to at last match total surgeries for the Working Poor population, as for the Medicaid at subsidized rates at the level of the Oregon Spay/Neuter Fund.

(H) Assumes able to do twice a month surgery with 12.5 surgeries a day for 10 months a year..

(I) Dog/Cat break assumes that 70% of the surgeries for impounded and RTO pets are for dogs.
