DECISION READ. PLANNING DIRECTOR SCOTT PEMBLE REPORTED A NOTICE OF REVIEW APPEAL WAS FILED AND THAT STAFF RECOMMENDS AN APPEAL HEARING BE SCHEDULED FOR OCTOBER 26, 1993, ON THE RECORD, WITH TESTIMONY LIMITED TO 15 MINUTES PER SIDE.

UPON MOTION OF COMMISSIONER KELLEY, SECONDED BY COMMISSIONER SALTZMAN, IT WAS UNANIMOUSLY APPROVED THAT A HEARING ON CU 21-93 BE HELD ON OCTOBER 26, 1993, ON THE RECORD, WITH TESTIMONY LIMITED TO 15 MINUTES PER SIDE.

P-3 CU 17-93/HV 9-93 PUBLIC HEARING, ON THE RECORD, PLUS ADDITIONAL EVIDENCE LIMITED TO THE SUBJECT OF POLICY 37, TESTIMONY LIMITED TO 10 MINUTES PER SIDE, in the Matter of an Appeal of the August 13, 1993 Planning and Zoning Hearings Officer Decision Denying a Conditional Use Request and Lot Size Variance Request, for Property Located at 3130 NW FOREST LANE

STAFF PLANNER BOB HALL CITED STATUTORY PROCEDURES AND REQUIREMENTS CONCERNING HEARING PROCESS. HEARINGS OFFICER LARRY EPSTEIN PRESENTATION REGARDING APPLICATION, PROCEDURAL ASPECTS OF REVIEW, STRUCTURE OF WRITTEN DECISION, FACTS ABOUT SITE AND SURROUNDING AREA, REQUEST FOR VARIANCES AND CONDITIONAL USE PERMIT AND OTHER LEGAL ISSUES RAISED DURING AUGUST 13 PROCEEDINGS. COUNTY COUNSEL JOHN DuBAY REPORTED THAT ARNOLD ROCHLIN HAS WITHDRAWN HIS OBJECTION CONCERNING SCOPE OF REVIEW LIMITING ADDITIONAL EVIDENCE TO POLICY 37, AND THAT MR. ROCHLIN IS REQUESTING THAT TWO DOCUMENTS BE EXCLUDED FROM THE RECORD. MR. DuBAY RECOMMENDED THAT THE BOARD DENY MR. ROCHLIN'S REQUEST. MR. EPSTEIN EXPLAINED THAT WHILE THE DOCUMENTS WERE ADMITTED INTO THE RECORD AS EXHIBITS, THEY WERE NOT CITED AS SUPPORT FOR ANY FINDINGS THAT HE MADE.

APPLICANTS' ATTORNEY MICHAEL ROBINSON, ASSERTED THE BOARD RECEIVED A EX PARTE COMMUNICATION IN THE FORM OF A SEPTEMBER 21, 1993 LETTER FROM ARNOLD ROCHLIN TO THE BOARD AND REQUESTED THAT HE BE GIVEN A COPY OF THE LETTER AND HAVE AN OPPORTUNITY TO RESPOND TO ANY SUBSTANTIVE ISSUES. EACH BOARD MEMBER ACKNOWLEDGED RECEIPT OF THE LETTER AND STATED IT WOULD NOT IMPACT TODAY'S DECISION.

MR. ROBINSON PRESENTED TESTIMONY IN SUPPORT OF A REVERSAL OF THE HEARINGS OFFICER DECISION, ADVISING HIS CLIENTS WERE NOT STATUTORILY NOTIFIED BY MAIL OF COUNTY ADOPTION OF A 1980

AGGREGATION ORDINANCE. MR. ROBINSON ASSERTED HIS CLIENTS HAVE AN UNBUILDABLE LOT WHICH CANNOT BE SOLD TO A THIRD PARTY WISHING TO OBTAIN A BUILDING PERMIT, THAT THE PROPERTY CANNOT BE LOGGED, AND THAT DENIAL OF THE REQUEST WOULD RESULT IN A TAKING. MR. ROBINSON INTRODUCED ADDITIONAL EVIDENCE IN THE FORM OF A REPORT THAT APPLICANTS CAN PROVIDE ADEQUATE SUB-SERVICE SEWAGE DISPOSAL AND ASSERTED THERE WOULD BE NO ADVERSE IMPACT ON THE SURROUNDING AREA OR FOREST PARK. MR. ROBINSON RESPONDED TO BOARD QUESTIONS.

ARNOLD ROCHLIN, REPRESENTING HIMSELF AND THE FOREST PARK NEIGHBORHOOD ASSOCIATION, EXPRESSED CONCERN THAT HIS SEPTEMBER LETTER WAS CONSIDERED EX PARTE CONTACT AND ADVISED THAT COPIES WERE SENT TO EACH COMMISSIONER, THE BOARD CLERK AND TO PLANNING STAFF FOR FILING IN THE CASE FILE, AVAILABLE FOR PUBLIC INSPECTION. MR. ROCHLIN ASSERTED THE BOARD DID NOT COMPLY WITH 11.15.8270(E) WHEN SETTING THE SCOPE OF REVIEW ON AUGUST 31 RELATIVE TO DETERMINING WHETHER THE ADDITIONAL EVIDENCE COULD NOT HAVE BEEN PRESENTED AT THE EARLIER HEARING. MR. ROCHLIN ADVISED THAT APPLICANTS' HOUSE IS ON A 4 ACRE PARCEL IN WHAT IS NOW AN 80 ACRE ZONE AND PRESENTED TESTIMONY IN SUPPORT OF THE DENIAL DECISION, EXPLAINING THAT THE FIRST SENTENCE OF 11.15.8505(A) STATES, "THE APPROVAL AUTHORITY MAY PERMIT AND AUTHORIZE A VARIANCE FROM THE REQUIREMENTS OF THIS CHAPTER ONLY WHEN THERE ARE PRACTICAL DIFFICULTIES IN THE APPLICATION OF THE CHAPTER", WHICH APPLICANT FAILED TO IDENTIFY. MR. ROCHLIN URGED THE BOARD TO DENY THE APPLICATION, ADOPT THE HEARINGS OFFICER'S FINDINGS AND CONCLUSIONS AND TO DESIGNATE THE WALKER AND WATSON LETTERS AS EXCLUDED FROM THE RECORD, THOUGH LEFT IN THE FILE. MR. ROCHLIN SUGGESTED THAT APPLICANT DOES NOT EXPECT TO WIN HERE AND REQUESTED A VARIANCE IN ORDER TO SHOW THAT ALL PLAUSIBLE LOCAL REMEDIES WERE TRIED IN ORDER TO RAISE THE MATTER BEFORE LUBA OR THE COURTS.

IN RESPONSE TO A QUESTION OF CHAIR STEIN, MR. DuBAY ADVISED THE BOARD MUST CONSIDER ANY APPLICABLE STATE LAW, ORDINANCES OR CONSTITUTIONAL ISSUES WHICH OVERRIDE THE COUNTY CODE.

IN RESPONSE TO A QUESTION OF COMMISSIONER COLLIER, MR. DuBAY ADVISED HE HAS NO OBJECTION TO THE BOARD EXCLUDING THE TWO LETTERS AND EXPLAINED THAT LUBA HAS AUTHORITY TO TAKE EVIDENCE ON CONSTITUTIONAL ISSUES WHICH DO NOT APPEAR IN THE RECORD.

IN RESPONSE TO A QUESTION OF CHAIR STEIN, MR.

ROCHLIN ADVISED THE CODE REQUIRES THAT APPLICANT IDENTIFY AT LEAST ONE PRACTICAL DIFFICULTY APPLICABLE TO AT LEAST ONE CRITERIA.

IN RESPONSE TO A QUESTION OF COMMISSIONER SALTZMAN, MR. PEMBLE ADVISED THE COUNTY HAS NEVER CONSIDERED PRACTICAL DIFFICULTY CRITERIA.

UPON MOTION OF COMMISSIONER HANSEN, SECONDED BY COMMISSIONER KELLEY, IT WAS UNANIMOUSLY APPROVED THAT THE HEARINGS OFFICER DECISION BE AFFIRMED.

P-4 CU 20-93 PUBLIC HEARING, ON THE RECORD, PLUS ADDITIONAL EVIDENCE LIMITED TO THE SUBJECT OF THE LOT OF RECORD, GENERAL SUITABILITY OF THE PARCEL FOR FARMING AND OTHER APPROVAL CRITERIA AS INTERPRETED BY THE HEARINGS OFFICER, TESTIMONY LIMITED TO 10 MINUTES PER SIDE, in the Matter of an Appeal of the August 5, 1993 Planning and Zoning Hearings Officer Decision Denying a Conditional Use Request for a Non-Resource Related Single Family Residence on EFU, Exclusive Farm Use, for Property Located at 31075 SE LUSTED ROAD

PLANNER SANDY MATHEWSON GAVE THE STAFF REPORT, CRITERIA REQUIREMENTS AND LUBA APPEAL CAVEAT.

BOARD DISCUSSION AND RESPONSE TO CONCERNS OF ATTORNEY TIM RAMIS REGARDING IMPARTIALITY OF THE HEARINGS OFFICER.

HEARINGS OFFICER ROBERT LIBERTY EXPLAINED PROCESS HE USED IN ARRIVING AT HIS DECISION AND RESPONDED TO BOARD QUESTIONS.

Commissioner Kelley left at 3:05 p.m.

IN RESPONSE TO A QUESTION OF COMMISSIONER HANSEN, MR. DuBAY REPORTED THAT THE COUNTY ADOPTED A PARTITION ORDINANCE IN 1978, GOAL 3 WAS ADOPTED IN DECEMBER, 1974 AND THE COUNTY PLAN WAS ACKNOWLEDGED BY THE STATE ON OCTOBER 30, 1980.

MR. RAMIS PRESENTED TESTIMONY SUPPORTING LOT OF RECORD AND SUITABILITY OF PARCEL FOR FARMING, SUBMITTED AN EXHIBIT LIST AND CITED A 1980 LETTER FROM PLANNING STAFF LARRY EPSTEIN DETERMINING THAT THE LOT AT ISSUE IS A LOT OF RECORD, AND A LETTER FROM FARM BUREAU PRESIDENT LARRY BUSHUE ADVISING IT IS HIS OPINION THAT THE USE WOULD BE COMPATIBLE WITH FARM PRACTICES. MR. RAMIS RESPONDED TO BOARD QUESTIONS.

SPENCER VAIL PRESENTED AND EXPLAINED AN AERIAL PHOTO AND RESPONDED TO BOARD QUESTIONS.

COMMISSIONER SALTZMAN MOVED AND COMMISSIONER

COLLIER SECONDED, TO REVERSE THE HEARINGS OFFICER DECISION AND GRANT THE CONDITIONAL USE. MR. DuBAY AND MS. MATHEWSON EXPLANATION IN RESPONSE TO BOARD QUESTIONS. BOARD COMMENTS. MOTION APPROVED WITH COMMISSIONERS COLLIER, SALTZMAN AND STEIN VOTING AYE, AND COMMISSIONER HANSEN VOTING NAY.

MR. DuBAY DIRECTED MR. RAMIS TO PREPARE AND SUBMIT A PROPOSED FINAL ORDER.

P-5 C 5-93 First Reading and Public Hearing of a Proposed ORDINANCE Which Amends the Multnomah County Comprehensive Framework Plan Policy 16 and Multnomah County Code Chapter 11.15 Regarding Significant Environmental Concern (SEC) Provisions and Adopting a Map of Significant Streams and Riparian Areas Which are Designated "3-C" Resource Sites in Multnomah County Goal 5 Inventory

1.1 INTRODUCTION

On July 1, 1991, Multnomah County became an Option 1 county under the provisions of the Community Corrections Act. This change resulted in a number of staffing, programmatic, and logistical challenges which took months to resolve. The 1991-93 Biennium was a transitional period for the Multnomah County Department of Community Corrections (DCC) due to adjustments required by Option 1, fiscal realities related to transitional operations, and significant management/administrative downsizing.

Some of our critical supporters felt that they were not afforded an opportunity for meaningful input as our 1991-93 Plan was developed. They felt excluded from planning as the Biennium unfolded and that the quality and quantity of communication in our Department was inadequate. In response to these concerns, we initiated an organization development process that will continue well into the 1993-95 Biennium. The process is designed to build a learning organization in which we take risks and can learn from our successes and failures in a safe environment. The first steps of that process saw us begin to deal with some of the wounds and frustrations experienced by our managers. As management worked through a number of emotionally charged interpersonal and organizational issues, a true management team emerged. Managers then began facilitating staff groups that included all of our personnel, allowing them the same opportunity to vent frustrations, raise issues, and be heard. Simultaneously with this process, DCC began to working more closely with the Courts, the Sheriff's Office, and two County departments as partners in the planning and delivery of services to our citizens.

Our vision for community corrections is an integrated system in which an array of supervisory, rehabilitative, and enforcement programs operate in a mutually supportive environment with shared objectives for the enhancement of public safety and the case management of target populations. We believe that we must become a learning organization if we are to mature as part of an integrated system when change is the

only certainty. As an organization, we must develop a shared understanding of our current state and a shared vision for our future. The juxtaposition of those two can help motivate staff to get involved and help chart our course. A learning organization encourages creative, systemic thinking, enabling us, for example, to move beyond workload-based visions to an accomplishment-based vision. As a Department, we must assure that staff have knowledge about their jobs, their clients, and the systems in which we are a partner. We must provide staff with feedback related to the quality of their work and their impacts on the community. We must give them sufficient power and resources to make operational decisions.

A year ago, we had staff and managers working together on a number of program-related committees. Most of those committees have been productive, but they did not deal with the larger organizational issues. We now have staff and managers working together to define our mission, identify our values, describe our principles, shape our structure, create interagency partnerships, respond to workload pressures, and design our case management system. With a high priority on staff development initiatives, we will design our work to effectively deliver services and provide clear outcome measures.

Our vision for community corrections as an integrated system and our Department as a learning organization has guided the development of this Plan. We included major stakeholders in a process which identified priorities for target populations and intervention strategies.

COMMUNITY CORRECTIONS IN MULTNOMAH COUNTY

MULTNOMAH COUNTY DEPARTMENT OF COMMUNITY CORRECTIONS

1.3 DESCRIPTION OF THE LOCAL CORRECTIONS SYSTEM

A. Basic Overview

In Multnomah County, parole and probation supervision is provided by DCC. DCC also provides a wide range of treatment, service, and sanction programs targeting the risk and need factors of the population under our supervision. As of January 1993, DCC was supervising 10,789 offenders. DCC programs and planning will be discussed in detail below and in SECTION 1.5.

The Multnomah County Sheriff's Office (MCSO) administers the jails in our county with a capacity of 1,330 inmates. The MCSO Program Division/Corrections Branch manages several custodial and non-custodial programs that impact many of the clients served by DCC. The MCSO Restitution Center receives CCA funding and will be discussed below and summarized in SECTION 1.5.

The Multnomah County Circuit Court works closely with DCC and MCSO in the development of release and diversion programs that assist in the processing of cases, the management of jail beds, and the provision of early intervention services. These programs will be summarized in SECTION 1.5.

A key element in the delivery of correctional services in Multnomah County is their coordination and oversight. On an organizational level, those functions are the responsibility of our Community Corrections Advisory Committee (CCAC), our Citizen's Budget Advisory Committee (CBAC), the Criminal Justice Advisory Committee (CJAC), the Public Safety Council (PSC), the Regional Drug Initiative (RDI), and the Board

of County Commissioners (BOCC). CCAC and CBAC assist DCC in planning and budgeting, review DCC performance, and advise the department and the BOCC. CJAC and PSC have a wider focus. They are concerned with law enforcement and correctional services and interagency issues. CJAC is staffed by the Presiding Judge of the Circuit Court and includes representatives of our Courts, the Portland Police, the Sheriff's Office, INS, the DA, the Public Defender, and Community Corrections. PSC is staffed by the Board of County Commissioners and includes the County Chair, the mayors and police chiefs of the municipalities in the County, the Presiding Judge, the Sheriff, the DA, the Public Defender, and directors of County Community Corrections, Health, and Social Services. RDI involves corrections, law enforcement, social services, education, and business in a county-wide effort to develop effective drug abuse prevention and intervention strategies. The BOCC supports all of these efforts through their participation and staff involvement, and the development of policy reflected in Ordinance, Resolution, and budget priority.

On a program level, a number of committees staffed by DCC, with interagency membership, have developed priorities for programs and system coordination in such areas as contract services, Safety Action Teams, substance abuse intervention, gangs, mental health services, and sex offender supervision. Some of the committee initiatives will be discussed below.

B. Demographic Factors

1. County Population 600,000

The population of Multnomah County represents 20.5% of the state's total population of 2,930,000, according to July 1991 data provided by the Oregon Employment Division. Multnomah is the most populous county in Oregon. The second most populous county is Washington with a population of 328,500. Multnomah is subject to urban problems which differ in magnitude from those experienced elsewhere in the state.

2. Population by Race/Percentage of County Population

Total Minority Population	88,800	14.8%
African-American Population	36,000	6.0%
Asian/Pacific Island Population	27,600	4.6%
Hispanic Population	18,600	3.1%
American Indian Population	6,000	1.0%
Other Minority	600	0.1%
White	511,200	85.2%

Multnomah County has the largest total minority population and the largest number of each minority group. Jefferson and Malheur Counties have the largest percentage minority populations because of their large American Indian and Hispanic communities. Multnomah County has the largest percentage of African-Americans by a wide margin and Asian/Pacific Islanders by a narrow margin.

3. Unemployment Rates and Minority Rates (August 1992)

	UNEMPL <u>RATE</u>	MINORITY <u>RATE</u>
United States	7.6%	
State of Oregon	7.2%	12.2%
Portland PMSA	6.0%	10.2%
Eugene-Springfield MSA	6.6%	15.6%
Salem MSA	5.9%	14.8%
Medford MSA	7.6%	13.8%

4. Reported Crime (1991, Law Enforcement Data System).
Statewide reported crime increased by 2.9% in 1991, compared to 1992.

<u>County</u>	<u># Crimes</u>	<u>% of State Total</u>
Multnomah	110,242	27.2%
Marion	40,936	10.1%
Lane	38,757	9.6%
Washington	29,502	7.3%
Clackamas	27,157	6.7%
All Others	159,055	39.2%
Total Crime	405,649	

Crimes Against Persons

Multnomah	18,021	6.6%
Marion	4,526	9.2%
Lane	3,881	7.9%

9

Washington	3,208	6.5%
Clackamas	2,992	6.1%
All Others	16,627	33.8%
Total	49,246	

Crimes Against Property

Multnomah	64,937	29.7%
Lane	21,598	9.9%
Marion	21,451	9.8%
Washington	17,337	7.9%
Clackamas	17,209	7.9%
All Others	76,438	34.9%
Total	218,970	

Note that although Multnomah County includes only 20.5% of the State's population, it is responsible for 27.2% of the reported crime, 36.6% of the person crimes, and 29.7% of the property crimes. We believe that this disproportionate crime rate is partly due to a variety of socioeconomic factors which contribute to the "urban multiplier" effect.

C. Population Under Supervision by Risk (August 1993)

The distribution of parole and probation cases among our present offices is summarized on the following page:

	HIGH	MED	LOW	LTD	NEW	UNCL	TOTAL
CENTRAL	163	500	66	1,071	49	30	1,879
EAST	161	605	22	423	34	72	1,317
NORTH	544	760	108	759	102	166	2,439
SOUTHEAST	282	587	142	1,107	74	53	2,245
SOUTHWEST	579	600	21	710	58	316	2,284
DIAGNOSTIC	11	53	0	437	42	43	586
MULTNOMAH TOTAL	1,740 16%	3,105 29%	359 3%	4,507 42%	359 3%	680 6%	10,750
STATE TOTAL	4,839	9,939	2,147	14,250	1,322	2,859	35,371
STATE AVERAGE	14%	28%	6%	40%	3%	8%	

Note that Multnomah County supervises 30.4% of the offenders under supervision in the state. However, our workload (per OCMS) is 33.7% of the state-wide workload. Our population generally scores higher in risk and need measurements.

1. Casebanks: 2,781 cases, or 26% of the total, are supervised in casebanks.
2. Misdemeanants: DCC supervises 1,959 misdemeanants, which is 18% of the total caseload. A total of 549 State-funded misdemeanants are supervised, which represents 6% of the total number of State-funded cases.

3. Parolees: DCC currently has 3,165 parolees under supervision, which is 38% of the State total of 8,222.

D. Integration of Services in DCC

Prior to July 1991, parole and probation supervision in Multnomah County was largely the responsibility of the Oregon DOC (misdemeanor supervision and some specialized supervision was provided by the County), while treatment, services, and sanctions were managed by the County. After Multnomah became an Option 1 county, the entire array of intervention programs came under a single management structure, the Multnomah County Department of Community Corrections.

As the DCC management team struggled with organizational issues during the Spring and Summer of 1992, a consensus emerged concerning the further integration of community corrections services. It was decided that staff and programs providing specialized supervision, case management, and sanction services would be included within the same administrative structure that provides field services, instead of the two "Program Divisions" that had previously existed. It was felt that this change would result in greater mutual support and understanding among field and program staff and more effective utilization of the various program components. This reorganization is reflected in our organization chart. The change is consistent with the County's plan for integrated services, discussed below.

E. Integration of Services in Multnomah County

County departments and divisions already collaborate and coordinate services with each other and with other governments and non-profit

agencies. However, this collaboration is often situational with the effort designed to address a specific service need. The Board of County Commissioners and the Departments of Health, Social Services, and Community Corrections formed a planning team to address specific service delivery issues, including:

1. The need to maximize coordination of services, including the sharing of information and resources.
2. The need to involve individuals and communities in decisions that affect them.
3. The need to use the least intensive, least intrusive, and least expensive interventions in people's lives.
4. The need to reduce barriers to accessing services.
5. The need to make services and service authorization available as close to the target person(s) as possible.

In an effort to meet these needs, the County will organize human services delivery within six service districts whose borders will be adopted by the three participating departments, including DCC. The six districts are: North, Northeast, West, Southeast, Midcounty, and East. The departments are working with state agencies, schools, law enforcement, and neighborhood groups to develop coordination within and between districts. Each district has a Coordination Committee (including DCC representation) which has inventoried services and is meeting regularly to staff cases with difficult resource needs.

To some extent, DCC services are offered within a court-mandated framework which differs from the delivery of health and social services. However, as DCC is both a user and provider of treatment and case management services, we anticipate being able to improve our clients' access to a wider range of services, reduce duplication in client

assessment and case management, and improve access to client data. The service district concept will require our managers and staff to increase their involvement in the community.

Related to the development of service districts is DCC's work with law enforcement, community, and school district personnel in creating Safety Action Teams in the David Douglas and Brentwood/Darlington neighborhoods. These SATs, built on community policing principles, will provide an enhanced presence for, and access to, local services. Each SAT is guided by a Community Advisory Committee which includes representatives of participating agencies and neighborhood groups. DCC has assigned two POs to each SAT.

F. Substance Abuse Programming

Multnomah County participates in the Drug Use Forecasting (DUF) Project funded by the National Institute of Justice. On a quarterly basis, a sample of detainees is tested for drug use. Testing in October - December 1992 in the county jail indicated that 63% of the males and 80% of the females tested positive for at least one controlled substance. The following data was provided by TASC of Oregon and MCSO:

<u>DRUG</u>	<u>% POS: MEN</u> n = 230	<u>% POS: WOMEN</u> n = 54
THC	26%	11%
Opiates	12%	30%
Cocaine	39%	63%
Amph	10%	11%

The data for men is alarming, but consistent with results obtained in DUF testing over the last two years. The data for women indicates a

significant rise in the use of opiates and cocaine over rates that already exceeded those for men.

DCC provides a range of treatment interventions, with special programming for female offenders. Services include: outpatient treatment, intensive outpatient treatment, intensive outpatient treatment for women, residential treatment, residential treatment for women, drug-free housing, drug testing, and case management services for pregnant, addicted women.

In January 1993, DCC received the final report of an evaluation of one of our contracted treatment programs (included in our 1991-92 Annual Report) prepared by the Reed College Public Policy Workshop. The evaluation documented a statistically significant treatment effect that was related to length of stay. It also included several recommendations for further program development and evaluation. Those recommendations, as well as the findings of numerous other studies and taskforces, were considered by our Substance Abuse Committee in developing the following list of proposals for consideration in program development in 1993-95:

1. DEVELOPMENT OF ONE OR TWO SPECIALIZED CASELOADS IN EACH DISTRICT OFFICE TO SUPERVISE OFFENDERS IN RESIDENTIAL/OUTPATIENT DRUG TREATMENT AND AFTERCARE
 - a. Officers with a concentration of clients in treatment should be able to realize a number of efficiencies in supervision. For example, several clients could be seen during a single visit to a program.

- b. Designated POs would be able to work closely with treatment staff. They would be able to participate in treatment planning, staffings, and aftercare planning to a greater extent than is typically the case at present.
- 2. DEVELOPMENT OF A SUBSTANCE ABUSE INTERVENTION WORKSHOP FOR ALL POs AND CASE MANAGERS COVERING THE FOLLOWING AREAS:
 - a. The latest theories on addiction, relapse, and recovery.
 - b. Recent research and evaluation findings.
 - c. The continuum of care:
 - primary care
 - supporting care
 - sustaining care (aftercare).
 - d. Current DCC treatment contracts:
 - program components
 - target populations
 - referral/intake procedures
 - e. Problem solving: How can DCC and treatment staff work together more effectively? How can procedures be streamlined? How can we best match clients and programs?
- 3. INSURE THAT M.I.S. IS DEVELOPED IN MULTNOMAH COUNTY TO FACILITATE THE EVALUATION OF OUR INTERVENTION EFFORTS.
 - a. M.I.S. should help automate the analysis of such key measures as:

- supervision outcomes
- recidivism (including time until rearrest)
- substance abuse (treatment outcomes; UA results; length of time drug-free)
- employment status
- Needs Assessment data (as pre/post test)
- b. Software tools necessary for program evaluation should be made available to designated personnel.

4. PROVIDE ENHANCED ASSESSMENT/TRIAGE CAPACITY

- a. As resources permit, assess a greater percentage of drug-involved offenders at pretrial, PSI, or intake.
- b. Assessment staff should identify priority populations for treatment program slots and make referrals.
- c. Priority populations for treatment should be consistent with general DCC priorities for supervision.

5. PROGRAM DEVELOPMENT EFFORTS SHOULD RECOGNIZE THE FULL CONTINUUM OF CARE NECESSARY FOR RECOVERY, INCLUDING:

- a. Detoxification
- b. Assessment
- c. Pre-treatment options (including wait list management)
- d. Drug testing
- e. Intervention training for POs/case managers
- f. Treatment continuity from jail/prison to community
- g. Outpatient treatment
- h. Residential treatment

- i. Aftercare (sustaining care) and relapse prevention
- j. Drug-free housing
- k. Program evaluation

G. Sex Offenders

Research indicates that the victimization caused by sex offenders is grossly understated by the number of convictions. Most sex offenders have engage in numerous episodes of victimization that are never reported. Unfortunately, the nature of the victimization is as problematic as the number of victims. The Oregon Criminal Justice Council reported that in 1986, almost two-thirds of the offenders sentenced for rape, sodomy, felony sexual abuse, or incest were convicted of crimes against a victim under the age of 12. Sex offenders shatter families and young lives. The Governor's Task Force on Corrections Planning (1990) concluded that sex offenders are responsible for a cycle of dysfunction in which victims have difficulties with substance abuse, education, employment, interpersonal relationships, and their own parenting responsibilities.

The DCC Sex Offender Committee has been meeting since July 1991 to assess the treatment and supervision needs of a disturbingly large target population. Approximately 575 sex offenders are under parole or probation supervision in Multnomah County. The Committee believes that effective case management of sex offenders requires:

1. Assessment services
2. Treatment/behavioral control programs;
3. A high degree of surveillance; and
4. A close working relationship with other involved agencies.

The Committee's recommendations led to a contract with a local sex offender therapist for assessment of up to 10 sex offenders per month at the Diagnostic Center, in conjunction with the preparation of PSIs. An average of 10 felony sex offenders per month are referred to the Diagnostic Center for PSIs. The assessments identify psycho-social dynamics, patterns of victimization, risk factors, and amenability to treatment, and offer options for treatment.

DCC contracts with Barry Maletzky, MD, and Richard Wollert, Ph.D., for treatment of approximately 28 offenders per year. Treatment focuses on behavioral control, breakdown of denial, relapse prevention, stress management, communication skills, family involvement, and PO involvement.

The Oregon Criminal Justice Council report, Sex Offenders in Oregon: Recommendations for Change and the Reality of Available Resources (1991) referenced a growing body of literature that questions whether most sex offenders can be "cured." Many therapists, however, point out that offenders are less likely to recidivate while in treatment. They note that those treated will not reoffend as quickly and that episodes of victimization will be fewer. Local therapists have indicated that rapists/predators have higher recidivism rates than situational offenders. They describe rapists as the least treatable and incest offenders as the most treatable.

DCC has POs specializing in sex offender cases at each of our field offices. These POs work closely with personnel from law enforcement, prosecution, schools, CSD, Courts, and treatment agencies. The Department has encouraged staff to participate in training coordinated by BPST, the Association for the Treatment of Sexual Abusers, and

others. In response to a recommendation of the Sex Offender Committee, DCC now contracts for polygraph examinations. This gives POs a resource for monitoring treatment progress and a tool for enhanced surveillance.

H. Female Offenders

Data indicates that female offenders represent 20% of the DCC caseload. DCC Women's Transition Services, including the ADAPT program, provides treatment, case management, and housing for a population of female offenders and their families. Pregnant substance abusers are a priority target population. In cooperation with the County Departments of Health and Social Services, staff begin working with this population when they are identified in the jail. In 1991-92, all those who engaged in the program after leaving jail received case management and substance abuse treatment.

In February 1991, Women's Transition Services opened two houses for seven women and their children. Residents of the housing must be crime and drug-free and participate in aftercare and groups sponsored by the program. One corrections counselor and two volunteers are responsible for teaching life skills and parenting skills, modeling positive behavior, and coordinating access and delivery of other services. Six women gave birth to drug-free babies while residing in these houses since 1991.

DCC contracts with a number of local agencies for specialized services for women. Our contract with Volunteers of America provides a 40 bed residential drug treatment facility serving women and children. A contract with ASAP Treatment Services provides an intensive outpatient

program for women. We contract with the YWCA for an 8 bed residential work release program. We contract with the Council for Prostitution Alternatives for specialized interventions for women attempting to end their involvement in prostitution. Our focus on providing treatment for female offenders recognizes the generational aspect of addiction and the high rates of female drug use reported in DUF data.

I. Indigent Offenders

DCC budgets about \$10,000 per year for the Indigent Crisis Project, providing direct assistance for housing, transportation, medicine, evaluations, etc. A separate fund (approximately \$100,000 last Biennium) provides assistance for indigent parolees. In addition, all of our contracted services are required to serve indigent offenders at no cost to the client.

J. Employment and Education Services

Local data indicates that about one-third of our caseload is unemployed. For several years, DCC has contracted with a local provider for pre-employment training and lifeskills workshops targeting offenders with multiple job search deficits. Budget issues and emerging priorities in other areas have precluded us from continuing that contract in 1993-95. We are planning to address the employment needs of offenders by working with other community agencies, including the State Employment Division.

In December 1992, DCC was awarded a two year, \$500,000 grant from the U.S. Department of Education to implement a 20 station computer

based integrated learning system to provide literacy, adult basic education, and life skill training for offenders. The first clients entered the program in September 1993. We believe that this program, staffed by appropriate instructors, will be able to provide effective pre-employment training. Our objective is to increase our clients' ability to compete in the job market.

K. Housing Services

DCC provides transitional housing services through Women's Transition Services and our Parole Transition Project. WTS has capacity to directly serve seven women with their children and, in addition, coordinates 25 units for homeless families at Columbia Villa through HAP and at the Rose Apartments through REACH. WTS transitional housing can be provided until the women have met their individual case objectives and are assessed as ready to live on their own.

PTP housing consists of 46 beds provided through contracts with Central City Concern and Stay-Clean. Because of the number of parolees released to Multnomah County with no housing resources, we are forced to limit the residents to 30 days in transitional housing, with a possible extension to 60 days.

L. Gang-Involved Offenders

The DCC Gang Committee conducted a survey resulting in a conservative estimate that 250 gangsters are under our supervision. Presently, there are special gang units established at all levels of law enforcement in Multnomah County, including DCC. Prior to the establishment of our gang team in the summer of 1993, it was difficult

for law enforcement and community groups to share gang related information and to plan specific initiatives with us.

Criminal gangs in Multnomah County typically exhibit unique social and behavioral characteristics. In the more established gangs, these characteristics define a culture whose norms and values have replaced those of mainstream society. Children in gang-dominated neighborhoods are being socialized within gang culture. It is that disturbing fact, as much as the number of gang-related crimes, which makes the spread of criminal gangs so threatening to our community.

Our gang team consists of two POs at our Northeast District and two at our Southeast District. The team's objectives include the following:

1. Enhance the coordination of surveillance, supervision, and services targeting gangsters with other agencies.
2. Standardize the supervision of gang-involved offenders.
3. Provide information to DCC and the community regarding gang activity and our gang supervision efforts.
4. Provide training to intake and other staff on the identification and appropriate referrals for gang cases.

M. Implementation of Revocation Guidelines

Parole revocation guidelines were implemented in Multnomah County on October 1, 1992 by agreement with the Board of Parole and Post-Prison Supervision. The agreement delegates considerable decision-making authority to POs, Supervisors, and Hearings Officers to provide for swifter sanctions using graduated local sanction resources. As is noted below, the process has contributed to a decrease in the number of parole

violators returned to prison. The process has also reduced the number of bed days occupied by parole violators in the County Jail.

In implementing guidelines, it was our hope that sanctions would be imposed by POs, whenever possible, to reinforce their authority in working with parolees. That appears to be happening. Between October 1 and December 31, 1992, 315 guidelines sanctions were imposed by POs, Supervisors, Hearings Officers, and the Parole Board. In 150 community safety/abscond cases, the Parole Board could have imposed the sanction, however that was only done in 48 cases (32%).

150 CASES WHERE PAROLE BOARD COULD HAVE SANCTIONED:

<u>Sanction Imposer</u>	<u>Number</u>	<u>Percentage</u>
Parole Board	48	32%
Hearings Officer	78	52%
Supervisor	5	3%
PO	16	11%

Looking at all 315 guidelines sanctions imposed during the October to December quarter, the Parole Board imposed sanctions 15% of the time.

TOTAL OF 315 GUIDELINES SANCTION CASES

<u>Sanction Imposer</u>	<u>Number</u>	<u>Percentage</u>
Parole Board	49	15%
Hearings Officer	128	41%
Supervisor	18	6%
PO	120	38%

SANCTIONS IMPOSED IN 315 GUIDELINES CASES

<u>Sanction</u>	<u>Number</u>	<u>Percentage</u>
Prison	34	11%
Jail	147	47%
Forest Camp	3	1%
Community Service	1	-

Verbal Reprimand	67	21%

DCC is in the process of implementing Structured Sanctions, following the passage of S.B. 139, which provide for an administrative probation hearings process and associated guidelines (paralleling the parole guidelines in many respects). The probation process and guidelines will enable POs to respond quickly, with an appropriate level of sanction, to meet offender risk and need factors. For this process to work in Multnomah County, we will have to expand our present range of sanction resources.

N. Response to Violations

DCC has been working with DOC, the Courts and the Parole Board to reduce the number of parole and probation violators committed to prison. We are planning to bring additional intermediate sanctions on line in 1993-95 to enhance our capacity to maintain offenders in the community, whenever such programming is consistent with public safety. At present, we are able to use reprimands, home detention,

Alternative Community Service, work crews, the Forest Project, the County Jail, and the Restitution Center as local sanctions. In 1993-95, we will be adding a custodial parole/probation violation center, a day reporting center and an intensive supervision program. These new programs will dramatically increase our ability to sanction offenders locally. We are involved in very preliminary siting discussions for the violation center. Day reporting, with enhanced access to services, is going to be located at our West District office. Intensive supervision will be located at our Midcounty District, but officers may be outposted to other districts. These intermediate sanctions will be accessed directly by our POs, Supervisors, and Hearings Officers.

The Multnomah County Restitution Center, operated by MCSO, has traditionally received CCA funding and will undergo some changes to accommodate our need for direct access in 1993-95. We are discussing operational modifications for the Restitution Center so that our funding supports a dedicated capacity.

Our intent for 1993-95 is to offer a continuum of graduated sanctions to enable us to respond appropriately to non-compliant behavior. Even with our present limited intermediate sanctioning capacity, we have made considerable progress in recommending prison commitments judiciously. The following tables attest to our desire to use prison as the sanction of last resort:

PAROLE	<u>AVG # PAROLEES UNDER SUPERVISION/MO</u>	<u>AVG # PAROLEES RETURNED/MO</u>
1/91-6/91	2,142	73
7/91-12/91	2,316	101
1/92-6/92	2,640	100
7/92-12/92	3,013	97

Compared to the first half of 1991, we had a 38% increase in the average monthly parole returns in the second half of the year, although the average parole caseload only increased by 8%. However, in the next 6 month segment, the first half of 1992, the average number of parole returns per month stayed about the same while the parole caseload increased by 14%. In the second half of 1992, the average monthly parole caseload increased by another 14% while the average number of parole returns per month decreased by 3%. During this period, we implemented revocation guidelines.

PROBATION	AVG # PROB CASES <u>UNDER SUPV/MO</u>	AVG # PROB CASES <u>COMMITTED/MO</u>
1/92-6/92	5,407	82
7/92-12/92	5,422	69

Compared to the first half of 1992, the average monthly felony probation caseload increased 0.3% in the second half of the year. However, the average monthly number of probation commitments decreased 16%.

O. Intake and Assessment

A key component of our plans to integrate and target program and supervision services is the intake and assessment function at the Diagnostic Center.

1. Pretrial Programs

Working closely with the Circuit Court, DCC staffs the recog interviewing and pretrial supervision functions. One of our A & D

Evaluation Specialists assess drug involved pretrial releasees. Information gathered during the pretrial portions of an offender's involvement in the criminal justice system is collected at the Diagnostic Center and made available to DCC presentence investigators and intake staff for use in case planning.

2. Presentence Investigation

Cases referred for PSI get a thorough analysis of criminal and social history and an assessment of risk and need factors, including where appropriate, psychological, sex offender, or substance abuse evaluation. The psychological and sex offender evaluations are completed by contract psychologists. The substance abuse evaluations are done by DCC A & D Evaluation Specialists.

3. Probation and Parole Intake

All new probation cases will be processed through the Diagnostic Center, where risk and need instruments will be administered and an A & D evaluation will be available as indicated. The results of these assessments and/or review of the PSI and pretrial information will determine the assignment of the offender (to special unit, casebank, or general caseload and the appropriate District Office). A similar intake process is being developed for parolees at our Northeast District office, located near the Columbia River Correctional Facility. We expect an increasing number of our parolees to be released from that institution.

5. Parole Transition

Our parole transition effort includes:

- a. Pre-release planning, working closely with SCI and CRCI.
- b. Central intake and referral, as described above.
- c. Transitional drug-free housing

P. Community Services Branch Outcome Measures

DOC Community Services Branch has established the following outcome measures for community corrections programs:

- 1. Increased percent of positive case closures by supervision level and legal status.
- 2. Increased amount of time under supervision in the community prior to revocation for new crimes.
- 3. Decreased percent of offenders convicted of new crimes while under supervision.
- 4. Reduction in the number of technical violators revoked to prison.

The following elements of our Plan will contribute directly to the realization of DOC's outcome measures:

- 1. Revocation guidelines.

Parole and probation guidelines will enable POs to respond quickly to non-compliant behavior, getting the offender's attention,

responding to case specific needs, and modifying behavior in many cases before revocation is necessary. Guidelines will prescribe graduated sanctions to assure that maximum use is made of local resources before incarceration is imposed.

2. Enhanced intermediate sanction capacity.

The addition of a custodial parole/probation violation center, a day reporting center and intensive supervision will provide opportunities for offenders to succeed in the community under close surveillance and with dedicated treatment resources.

3. Targeting supervision and services.

DCC will focus supervision and program resources on higher risk offenders. Although this means that we will be working with a more difficult caseload, we expect to see an increasing number of successful closures and decreased recidivism in the higher risk classifications because those cases will have priority access to treatment and other services. To a greater extent than has previously been the case, treatment, services and sanction options will target the same offenders targeted for the highest levels of supervision.

Q. Program Evaluation

In 1991-92, DCC contracted with the Reed College Public Policy Workshop for an impact evaluation of one of our contract residential drug treatment programs. As noted above, the findings of that evaluation report have been incorporated into our planning for 1993-95.

DCC and our Advisory Committee have prioritized program evaluation for the coming Biennium. Toward that end, we are involved in the following activities:

1. Cooperating with DOC and the National Council on Crime and Delinquency in an outcome study of several corrections/treatment interventions.
2. Working with the Urban Institute and BOTEK Analysis in an evaluation of our drug testing program.
3. Working with RAND Corporation in an evaluation of several outpatient drug treatment programs (including two of our contract agencies).
4. Working with National Development and Research Institutes, Inc. on a proposal for a NIDA-funded evaluation of treatment interventions for female offenders.
5. Cooperating with American University in the development of a proposal for a NIDA-funded evaluation of the Circuit Court's drug diversion program.
6. Working with the Northwest Professional Consortium in an evaluation of the ADAPT program targeting pregnant substance abusers.
7. Working with the Northwest Professional Consortium in an evaluation of our federally funded literacy program.

I PRESENTENCE INVESTIGATIONS

Diagnostic Center staff will complete about 60 PSIs per month. These reports detail an offender's criminal and social history and make a sentencing recommendation consistent with sentencing guidelines. Staff are able to access dedicated resources for psychological, sex offender, and substance abuse evaluations.

II PROBATION INTAKE

All probation cases will be processed by the Diagnostic Center for assignment to a district office or special unit. Processing will include collection of file material, computer print-outs, and other documentation, completion of risk and need assessments, and referral for further evaluation and treatment. Intake staff will process about 300 probation cases per month.

III HEARINGS

Hearings Officers currently average 210 hearings per month. the Hearings Unit has worked closely with the Parole Board to implement revocation guidelines. The Hearings Unit currently consists of two Hearings Officers, one Senior Program Development Specialist, and one support person. The unit may be increased, depending on the workload distribution established if an administrative probation violation process is approved by the Legislature.

IV PAROLE TRANSITION

A staff of two POs and three Corrections Technicians will work closely with institutional release staff (especially at SCI and CRCI), to do pre-release planning and central intake of an estimated 160-200 parolees per month. The Parole Transition Unit will coordinate the placement of subsidy clients in 46 transitional housing beds for which we have contracted with local agencies, and arrange for specialized evaluations and treatment referrals as indicated.

V A & D EVALUATIONS

Three Alcohol and Drug Evaluation Specialists will complete thorough assessments based on the Addiction Severity Index. An estimated 1,000 to 1,500 evaluations per year will be completed for pretrial, PSI, Intake, Hearings, and Parole Transition staff.

Six District Offices will be responsible for the supervision of the probation and parole caseload in Multnomah County. In many cases, staff in our District Offices will share information and case management responsibilities with other law enforcement and social service agencies. That process has already begun with the formation of safety action teams in two neighborhoods.

Supervision will be provided according to the Oregon Case Management System, though DCC is in the process of developing local initiatives for managing targeted drug-involved offenders, sex offenders, gangsters, domestic violence, low risk, and traffic cases. These initiatives will take advantage of dedicated resources and partner agencies in the community.

DCC is exploring ways to enhance the cooperative case management of drug involved offenders with our treatment providers. Proposals under consideration include specialized caseloads and joint training with treatment agencies.

Sex offenders will continue to be supervised by specialists in each District. These POs work closely with law enforcement, CSD, schools, and neighborhood groups. They also participate in state-wide committees; developing initiatives for more effective surveillance and treatment of sex offenders.

A gangs unit, consisting of up to four POs, is being developed to share information with law enforcement, to enhance our ability to identify gangsters, and to develop more effective supervision strategies.

The supervision of low risk and traffic cases will be automated as much as possible. We also anticipate developing a volunteer unit to assist in the supervision of traffic cases.

At present, 10,789 cases are under supervision. We expect that number to decrease by about 20% if DOC's package of Legislative proposals is approved. The reduction in caseload numbers will be accompanied by an increase in the percentage of high risk cases. To help accommodate a higher risk caseload, DCC will assure that treatment services and intermediate sanctions give priority access to cases at risk of revocation.

Estimated Impacts on Prison Populations Beginning July 1993

Policies: Senate Bill 139 As Amended

DEPARTMENT OF CORRECTIONS **Impact of Admissions and Length of Stay on Institution Population**

DEPARTMENT OF CORRECTIONS

GOAL

- ***A balanced corrections system is needed to manage offenders while protecting the community and changing criminal behavior within available resources.***

WHAT WE KNOW

- Sentencing Guidelines set the standards for who is sentenced to prison or probation and for how long.
- 82% of offenders are sentenced to probation.
- 74% of offenders complete probation without going to prison.
- 97% of inmates return to their communities.
- 58% of offenders do not return to prison within three years of release.

PRINCIPLES

- For purposes of public safety, some offenders must be sent to prison while many offenders are safely sanctioned and controlled in the community.
- Probation, prison and parole are most effective in combination with programs and sanctions.
- Community-based sanctions are most effective when imposed immediately so the offender sees the connection between the punishment and their offending behavior.
- Transition services following prison significantly improve successful reintegration back into the community, reducing criminal activity.

PROBATION

- **ISSUES**

- Probation Population Growth of 50.1% in 8 Years
- Low Failure Rates for Lowest-Risk Offenders
- 10,000 Cases Casebanked (47% of Caseload)
- Inconsistent Use of Local Sanctions

- **OPTIONS CONSIDERED TO BALANCE SYSTEM**

WITHOUT BALLOT MEASURE 5

- Add 57.5 New Probation Officers (\$5.3 Million)
- Add Local Sanctions (\$8.0 Million)
- Add Treatment Programs (\$3.0 Million)
- Structure Use of Local Sanctions and Prison

WITH BALLOT MEASURE 5 = LESS RESOURCES

- Structure Use of Local Sanctions and Prison
- Reduce Workload to Serve Only Higher-Risk Offenders:
 - No Supervision of Lowest-Risk Offenders
 - No State Funding of Misdemeanant Supervision
- Increase Local Sanctions for Higher-Risk Offenders
- Reclassify Selected Felonies to Misdemeanors
- Probation Earned Time Credits
- Shorter Probation Sentences
- Change Sentencing Guidelines to Reduce Number of Offenders Placed on Probation
- Eliminate Probation Revocations for Offenders Below Line

- **DOC STRATEGY**

- Focus Supervision on High and Medium Risk Offenders
- Increase Local Sanctioning Capacity by \$9.2 Million to Hold More Offenders Accountable for Violations
- Structure Use of local Sanctions and Prison (SB139- A Eng.) By Redirecting Funds From:
 - Eliminate Funding for Supervision of 2,700 Misdemeanants (Reduction of 25.3 Probation Staff)
 - Eliminate Supervision of 4,500 Lowest-Risk Felony Offenders (Reduction of 17.0 Probation Staff)
 - Reclassify Selected Felonies to Misdemeanors (SB139-A Eng.) (Reduction of 15.0 Probation Staff)

PAROLE

- **ISSUES**

- Parole Population Growth of 368.4% in 8 Years
- 1,600 Cases Casebanked
- Inadequate Transition Programs
- Inadequate Local Punishments
- 70% of Parole Failures Occur Within the First 12 Months

- **OPTIONS CONSIDERED TO BALANCE SYSTEM**

WITHOUT BALLOT MEASURE 5

- Add 29.0 New Parole Staff (\$2.7 Million)
- Add Local Sanctions (\$6.0 Million)
- Add Parole Transition Programs (\$4.0 Million)

WITH BALLOT MEASURE 5 = LESS RESOURCES

- Reduce Workload Through:
 - Eliminate Parole Supervision
 - Limit Parole to Approximately 1,600 Most Dangerous Offenders
 - Reduce Length of Parole Supervision
 - No Parole, Provide Only a 120-Day Transition Program

- **DOC STRATEGY**

- Reduce Length of Parole Supervision (SB139-A Eng.) (Reduction of 26.5 Parole Staff)
- Redirect Supervision Resources to Parole Transition Programs
- Redirect \$2.7 Million to Local Sanctions

PRISON

- **ISSUES**

- Prison Population Growth:
 - 7,333 By July 1995 (758 Over Capacity)
 - 7,958 by July 1997 (1,383 Over Capacity)
- Inadequate Treatment Dollars
- Inadequate Training Dollars

- **OPTIONS CONSIDERED TO BALANCE SYSTEM**

WITHOUT BALLOT MEASURE 5

- Open 324 Beds at Snake River (\$13.0 Million)
- Construct 1,059 New Prison Beds (\$72.6 Million)
- Increase A&D Treatment Programs
- Add Sex Offender Treatment Programs
- Add Job Training/Work Release
- Add Self-Help Skills Training
- Add Pre-Release Transition Programs

WITH BALLOT MEASURE 5 = LESS RESOURCES

- Establish Emergency Release Authority
- Close Up to 2,000 Prison Beds
- Reinstate Temporary Leave
- Change Sentencing Guidelines to Shorten Length of Prison Sentences
- Increase Earned Time Credits
- Change Sentencing Guidelines to Sentence Fewer Offenders to Prison

- **DOC STRATEGY**

**DEPARTMENT OF CORRECTIONS STRATEGY
TO
ADDRESS PRISON GROWTH AND SAFELY MANAGE OFFENDERS IN THE
COMMUNITY**

THE PROBLEM:

- ▶ The number of offenders supervised in the community has increased 58% since 1989 with a growth of 14% in the number of probationers and 233% in the number of parolees with no additional staff to manage this growing caseload. Many probationers have been casebanked in order to manage the rapidly growing population of parolees.
- ▶ More than 80% of offenders admitted to Oregon prisons each month are offenders revoked from the community.
- ▶ There is no structured transition from prison back to the community - impacting both the offender's successful reintegration and the safety of the community.
- ▶ There is inadequate prison space available if revocations with no conviction are not reduced through the use of sanctions in the community. The availability of community-based sanctions will reduce the need to revoke offenders to prison while continuing to keep the community safe.

GUIDELINES TO ASSIST IN COUNTY PLANNING:

- ▶ Counties should address availability of transitional services for offenders leaving prison and returning to the community.
- ▶ Counties should demonstrate how they will implement structured probation sanctions and parole intervention guidelines.
- ▶ Plans should be based around the array of supervision, sanctions and interventions that will assist the county in implementing structured sanctions and parole intervention guidelines.
- ▶ Counties should focus resources on high and medium risk probationers and all parolees.

FLEXIBILITY:

- ▶ While the FY 93-95 Community Corrections program is targeted towards high and medium risk offenders and funding for supervision of misdemeanants and limited risk probationers is not in the Governor's Budget, counties may be given some flexibility. If the local programs clearly target the identified groups, there can be flexibility to provide some access to limited risk and misdemeanor offenders.

- ▶ If services to misdemeanants and limited risk offenders result in additional access to jail or other sanctions for higher risk offenders, these programs may be favorably considered.

SPECIFIC PROGRAM ISSUES:

- ▶ **Construction:** Although construction of buildings is not allowable, but reasonable rent or lease is permitted. Renovation or remodeling of buildings is also permitted.
- ▶ **Jail Beds:** Department funds can be used to purchase jail on a daily rate for actual use; or on a guaranteed availability basis with a set number of beds at a fixed daily rate. Community Corrections funds cannot pay for jail beds used on detainees awaiting hearings or for pre-trial.
- ▶ **General Probation/Parole Officers:** Community Corrections funds cannot purchase PO's for general caseloads, but may fund specialized caseloads if the supervision enhancement is a sanction and represents a level of supervision greater than High Supervision such as Intensive Supervision. Laid-off PO's may be rehired if those staff have other skills and abilities to perform tasks other than general PO work.
- ▶ **Supervision, Services and Sanctions for Non-target Populations**
[*Diversion, Pre-trial, Misdemeanants, DUI's, Lower Risk*]: These populations are currently not included in the Governor's Budget. If a county plans to use funds for these program types, however, it must show that adequate sanctions and interventions exist for the higher risk offenders. Counties should balance the need to target higher risk offenders with these populations and show how this will impact revocations to prison. Any or all of these services can also be provided by other funds or methods including: client fees, supervision fees from these offenders, volunteer programs, county General Fund, grants.
- ▶ **Purchase of Vehicles:** Purchase of vehicles is discouraged. Both Legislative Fiscal and the Executive Department have indicated concern regarding use of funds for this purpose.

TIME WITH OFFENDERS:

Since the 1989-91 biennium, the time the probation and parole officers spend with and for offenders has decreased considerably, while the offender population under supervision has grown more serious.

July 1989 and prior, the number of hours spent with various risk levels in each level were:

- ▶ Level I = 5 hours/month
- ▶ Level II = 3 hours/month
- ▶ Level III = 2 hours/month
- ▶ Level IV = .6 hours/month

November 1989 and since, a new classification and workload calculation was implemented; the levels and hours allocated were:

- ▶ High = 3.6 hours/month
- ▶ Medium = 2 hours/month
- ▶ Low = .8 hours/month
- ▶ Limited = .4 hours/month
- ▶ New Case = 2.3 hours/month

In October 1990, a major adjustment of the cut-off scores for supervision levels was undertaken to reflect the actual level supervision provided to the increasing caseload with no new resources. The result was more felony probationers into "casebanks" in order to provide supervision to the growing parole caseload. In October, 1992, 78% of the casebanked offenders were felony probationers, 8% were misdemeanants and 14% were parolees.

SUMMARY:

With no new resources since the 87-89 biennium and a caseload that grew by 58%, from 19,331 to 30,529 since July 1989, DOC has had to:

- ▶ reduce the hours spent with offenders by 38%
- ▶ "casebank" approximately 12,000 offenders, almost 10,000 of whom are felony probationers

DEPARTMENT OF CORRECTIONS
STRUCTURED SANCTIONING PROCESS

MARCH 17, 1993

Structured Sanctioning Process provides:

- ▶ More consistent response to probation and parole violations
 - * Offenders with similar history and similar risk receive the same type of sanctions for similar violations
- ▶ Swift and sure response to violations
 - * Better provides for Community Safety
 - * More likely to change offender behavior
 - * Range of options to better respond to offender behavior and provide flexibility in the utilization of local resources.
 - * Ability to respond to violations on individual basis, enhancing caseload management

Structured Sanctioning Process parameters:

- ▶ Offenders who admit to violations and consent to sanction will be handled by a parole/probation officer with supervisory oversight. If offender wants a hearing, the case will go to the Court for a hearing.
- ▶ Parole/probation officers will utilize a sanctioning grid when sanctioning offender behavior.
- ▶ Written violation reports indicating violation, sanction imposed, waiver of hearing, with copies submitted to both District Attorney and Judge.
 - * Notice of Rights is administered
- ▶ When sanction is Local Detention
 - * Detention includes possible options of: Jail, Restitution/Work Center, Electronic House Arrest and Home Detention.

Structured Sanctioning Process

- * Local detention is imposed with supervisor oversight. This sanction is not available without supervisor approval.
 - * Local jails used only with agreement of Sheriff.
 - * Jail as a sanction cannot exceed available jail custody units
- Sanctions available for violations cannot exceed established "ceiling" level of authority.

Interdepartmental Memo Community Corrections Branch

DT: May 20, 1993

TO: Management Team

FR: Barbara McGuire

RE: Plan to Monitor Community Corrections Program Compliance for FY 93-95

ISSUE: How should the Community Corrections Branch assure and monitor compliance with community corrections plans for FY 93-95?

BACKGROUND: The Community Corrections Compliance Committee met Friday, March 5, 1993 with the following in attendance:

Barbara McGuire - Central Administration, Harry Olson- Josephine County [on the telephone], Mike Reed - Linn County Community Corrections Advisory Committee, Vicki Ross - Central Administration, Barbara Seljan - Central Administration

Elyse Clawson briefed the group on her expectations. She indicated that the recommendation from the group should develop a recommendation that:

- Assists the DOC in providing oversight to the Community Corrections program
- Assists the DOC in providing reports to the legislature
- Assists counties to succeed - the intent is not to develop a "gotcha" system

She indicated that she wished to see a system that was based in mirroring data back to the counties as feedback with specific trigger points. The general questions we need to be able to answer are:

- Whether Intervention Guidelines are working - with a focus on impacts rather than many regulations.
- Whether sanctions are working

She told the group that it is important to know why there are problems and to be able to take further steps if interventions are not working. The process needs to be a supportive one - to help the counties be successful. She indicated that the DOC will only be as successful as the individual counties are.

DISCUSSION OF THE PROCESS AND RECOMMENDATION: The group identified the following areas to monitor and prioritized them into two separate tiers:

Level I *Implementation of Structured Sanctions and Intervention Guidelines, Progress on Outcomes and Targets*

Level II *Other Plan Compliance Issues:*

- a. Reports - Fiscal and Annual
- b. Program Compliance [whether planned and approved programs are actually operating or other IGA issues]
- c. Administrative Rules

It was the intent of the group that two separate processes be in place to deal with the two tiers - given that Level I is the most critical.

LEVEL I

Focus will be on two areas:

- ✓ **How Structured Sanctions and Intervention Guidelines are operating in each county**
- ✓ **Progress on county non-conviction targets and other DOC performance measures as noted in community corrections plans**

Monthly reports on each outcome and the overall target by county will be provided. Other reports might include:

- Review of sanctioning practices reports
- Review of individual sanctioning reports for appropriateness [percent of departures from the "grids"]
- Review of proportion of sanctions that happen at PO, Supervisor or Hearings Officer level.

The first quarter - July, August and September will be considered an adjustment period to allow for program implementation and staff re-adjustment. Counties will need the opportunity to implement new sanctions and as well as adjusting to mandates and

direction resulting from finalization of Budget. After the first quarter, DOC interventions will be possible every two months.

Step One - Request for Information - Month 1 [October]

1. In October - from the September report, those counties who seem to be showing progress will receive a letter with congratulations and encouragement to share successes with fellow directors. Technical assistance will be offered.
2. For counties making little progress or getting worse, a verbal request will be made by DOC staff for a written report - from the county's perspective - discussing the county problems regarding implementation or other issues. This report will include a plan to meet the targets and outcomes - or come more close to meeting them - in the next quarter. Counties will be asked in this step to look at the implementation of guidelines and structured sanctions, the range of available sanctions and how those sanctions are being used. The DOC will offer technical assistance in the development of the plan.

Step Two - Peer Team - Month 3 [December]

1. If the county continues to fall short of the targets, a meeting with a peer team of counties who are succeeding will occur. DOC central staff will also participate in this meeting. The focus will be on positive, constructive methods that may assist in reaching the targets. The tone will be one of "what can we do to help." There will be an attempt to match similar counties when possible. This process will focus on implementation of guidelines and structured sanctions to see if these processes are properly implemented. If it appears they are not, assistance will be offered to make changes.

Step Three - Appear before CCAB - Month 5 [February]

1. Counties which continue to demonstrate little progress will be scheduled to appear before the State Community Corrections Advisory Board to discuss the problems they are encountering and their plans to correct these problems. The CCAB will forward a report with recommendations to the Director of the DOC.
2. The county will be scheduled to appear and report back to the CCAB each quarter until targets are met or until significant improvement has occurred. On each occasion the CCAB shall forward a progress report with recommendations to the Director of the DOC.

LEVEL II

The intent is that the issues in this level are initially identified by Central Office staff.

1. The county will be contacted privately and informally by telephone requesting compliance with an offer of technical assistance to address the issue. Examples might include counties who are having problems getting Allocation Reports or Annual Reports in on time; or counties who need to submit a plan amendment.
2. The next step would include an agenda item at a Statewide Directors' Meeting detailing who is on time - or not - with various reports or other plan compliance issues. At this time, an explanation of the importance of the issue would be given. The idea is that peer pressure may be effective for many counties.
3. If the county does not comply after the Directors' meeting, a letter to the local Board of Commissioners would follow.

Community Corrections Advisory Committee

Dear Committee Member:

I am pleased to forward a copy of our Community Corrections Briefing Book for your review. The material was prepared by my staff for our Community Corrections Advisory Committee, our Citizen's Budget Advisory Committee, and the Board of County Commissioners as we begin developing our 1995-97 Community Corrections Plan. The Briefing Book summarizes our present operations, major policy/program initiatives (Integrated Human Services and Structured Sanctions), and our Department's reorganization. Sections discussing recent research and emerging themes in community corrections are interesting because they offer empirical and philosophical support for our new directions.

We look forward to working with you during our strategic planning process.

Yours truly,

CHALLENGES/TRANSITIONS

MULTNOMAH COUNTY DEPARTMENT OF COMMUNITY CORRECTIONS

MISSION STATEMENT

The mission of the Multnomah County Department of Community Corrections is to enhance public safety and promote the positive change of offenders in the community through integrated supervisory, rehabilitative and enforcement strategies.

VALUES

People

We value the people who work in our organization and make it possible to accomplish the Department's mission.

Professional Behavior

We value positive interpersonal relations. We treat others with respect, promote effective communication, and hold each other accountable to the highest standards of professional behavior.

Positive Change

We value the promotion of positive change. We achieve this through collaboration and cooperation within our Department and in partnership with other criminal justice and community organizations.

Community

We value participation with our neighborhoods to promote a safer and more livable community.

Diversity

We value diversity and equal opportunity. As an organization, we structure ourselves to include staff with varied background and experience to deliver services for a diverse community.

NEW CHALLENGES

The Department is undergoing a transition in response to two broad policy initiatives: Integrated Human Services System and Structured Sanctions. These initiatives have influenced the development of our 1993-95 Plan and they will continue to impact the structure and function of the Department throughout the Biennium. In addition, the Department has eliminated the divisional layer of management to enhance internal communication and develop a more responsive organization.

The Integrated Human Services System involves the Departments of Health, Social Services, and Community Corrections in an effort to provide an efficient and effective, value-driven system for delivering human services. Objectives include:

1. *Maximize coordination of services and resources to increase effectiveness.*
2. *Develop proactive service delivery; early intervention; focus on families.*
3. *Reduce barriers to accessing services.*
4. *Empower communities and line-level service providers.*

In adopting service integration as a case management theme, the Department has begun a reorganization to provide services in six districts and a Diagnostic Center, consistent with the Departments of Health and Social Services. District Coordination Teams composed of social service, health, school, corrections, law enforcement and community representatives in each district have already begun assessing community needs and staffing difficult cases.

In each of our district offices, one or more programs are co-located with traditional probation/parole units under a District Manager. That is a significant change for the Department. Formerly, program and supervision units were under separate management structures, but we now realize that the effectiveness of all of our components is enhanced by their integration. Similarly, we recognize that the effectiveness of community corrections will be enhanced by working with county health and social services agencies to meet the needs of our common clients and their families.

Structured Sanctions is a state-wide effort to:

1. *Maximize the effectiveness of probation and parole officers by authorizing them to administer immediate sanctions up to and including jail;*
2. *Develop a range of intermediate sanction options in each county; and*

3. *Reduce the number of commitments to prison.*

Structured Sanctions, through the enabling legislation of S.B. 139, builds on our experience with an administrative hearings process and the use of a standardized sanctions grid in responding to parole violators. S.B. 139, effective 9/1/93, extends those tools to probation cases. In a legislative session marked by reduced funding of many essential services, corrections was treated generously. We have been presented with an opportunity to demonstrate that local sanctions and services can reduce recidivism and that funding local intermediate sanctions can reduce the pressure on overcrowded prisons. In fact, our Intergovernmental Agreement with the state DOC for this biennium will require that we reduce commitments for technical probation and parole violations by 50%.

We intend to provide a range of intermediate sanctions that addresses several sanction objectives:

1. *Individual deterrence*, through intensive controls on the client's activities;
2. *Punishment*, through limits on personal liberty and restitutive requirements; and
3. *Rehabilitation*, through treatment and other service interventions.

THE TRANSITION

Our transition plan, developed with input from professional, support, and management staff, calls for the closure of one of our present offices (we have two offices in Southeast Portland) and the establishment of two new offices to serve North Portland and East County in January 1994. The logistical and personnel issues involved in the transition are considerable. Committees including a cross section of the Department identified the following principles to guide the staffing of our district offices.

The transition process will be:

1. *Fair and equitable to staff, offenders, public, and other agencies;*
2. *Developed with input from staff and impacted agencies;*
3. *Reviewed by staff and impacted entities;*
4. *Designed with an internal feedback mechanism to respond to modifications of plan and unanticipated changes;*

5. *Coordinated to minimize movement and costs;*
6. *Coordinated to maximize efficiencies of equipment, furniture, supplies, functions, etc.;*
7. *Developed to assure continuity in the delivery of services;*
8. *Minimally disruptive to staff, offenders, public, and other system components (i.e., LEDS, OCMS, OJIN, ISIS);*
9. *Consistent with personnel rules and union contracts;*
10. *Based on the precept that final allocation of staff will be determined after state budget and legislation is finalized and the CCA Plan is approved by the Board of County Commissioners; and*
11. *Coordinated to open offices in a manner that facilitates meeting these principles.*

Concurrently, we will be implementing several new programs (detailed summaries provided later in this document):

1. *Intensive supervision*, an intermediate sanction intended to encourage compliance through some or all of the following: close monitoring and frequent PO contact, enhanced access to services, immediate sanction for specified behaviors;
2. *Day reporting center*, an intermediate sanction providing greater structure than intensive supervision in which client's report daily and maintain itineraries including treatment, education, community service, or job search as appropriate;
3. *Probation/parole violation center*, a residential program providing POs with an immediate, short-term custodial sanctioning option;
4. *Volunteer program* to supervise DUI cases, thus reducing caseloads and allowing POs to focus their attention on higher risk cases;
5. *Learning Center* to help meet the basic education and life skills needs of our clients; and
6. *Mental health program*, providing consultation and case management assistance for POs, evaluation, medication management, and group therapy for clients at our district offices.

DEPARTMENT OF COMMUNITY CORRECTIONS
MAJOR CHANGES - LAYOUT ACCORDING TO NEW BUDGET STRUCTURE
SEPTEMBER 17, 1993

Administration

Reduced State Sanction & Service funding to MIS by \$50,000. Department made year end purchases with 92-93 unspent state monies.

Diagnostic

Reduced State Allocation funding to Parole Hearing by \$86,500 and offset with new Parole Hearing dedicated revenue. Allowed the Department to fund one probation/parole officer with these dedicated revenues.

Reduced Recog/Pre-Trial Release by \$197,000 and eliminated new program. State courts will maintain provision of service.

Client Support and Treatment Services

Increased State Sanction & Service funding of Drug Testing Lab contract by \$100,000. The Drug Testing Lab services were cut by \$100,000 during the budget process and current demand of the testing by field staff have used approximately 80% of current contract dollars (\$40,000).

Increased State Sanction & Service funding of Women's Services by \$16,000 to purchase van to transport women and their children from the transitional houses.

Increased Grant funding of Learning Center by the actual unspent revenue carried over from 92-93.

Sanction and Diversion Programs

Decreased State Sanction & Service funding of the Work Release Center and the Day Reporting Center by one-fourth. Late start up of those programs and a reduction in Sanction & Service funding necessitated decision.

Increased Grant and General Funds in Domestic Violence to fund two full-time probation/parole officers and treatment.

Integrated Service Districts

Increased General Fund (\$500,000), Allocation funding (\$1,155,000), and supervision collection (\$21,000) in all Districts to reflect the increase of sixteen (16) probation/parole officer positions funded with those revenues. This will allow the Department to hire during the current fiscal year 9 new probation/parole officers.

RECENT RESEARCH AND POLICY STUDIES

DRUG TREATMENT FOR OFFENDERS

Collins, James J. (1991). Presentation to Second Annual Conference on Evaluating Crime and Drug Control Initiatives, Washington, D.C.

Dr. Collins, Senior Program Director for Crime, Delinquency, & Justice Systems Studies at the Research Triangle Institute, summarized the findings of recent research:

1. A single treatment episode will probably not be sufficient to affect permanent behavioral change for most serious drug users.
2. Less serious drug abusers do well in outpatient programs, especially programs augmented by urine surveillance. The more serious drug abusers do better in inpatient programs.
3. Most drug users reduce or eliminate their drug use and involvement in criminal behavior while in treatment.
4. Length of time in treatment is the strongest predictor of positive post-treatment outcomes.
5. Treatment outcomes for legally-referred [involuntary] and voluntary drug abusers usually do not differ when other factors, such as severity of abuse, are taken into account [controlled].
6. Cost-benefit analyses suggest that treatment costs are recovered in avoided costs of continued drug abuse.

Kapsch, Stefan (1992). Alpha House Drug Treatment Evaluation Project. Preliminary report prepared for the Multnomah County Department of Community Corrections.

Dr. Kapsch presented a literature review which summarized many of the studies also summarized above by James Collins. Kapsch extracted four characteristics associated with successful outcomes:

1. Program flexibility to meet client needs.
2. Availability of aftercare services.

3. Availability of ancillary services during treatment to deal with employment, family, and other issues.
4. Clear program philosophy, policies, and goals.

Field, Gary (1991). "A Review of Effective and Innovative Substance Abuse Treatment Strategies in Community Corrections." Oregon Department of Corrections.

Critical elements of effective correctional treatment include:

1. Availability of a variety of programs.
2. Coordination of control and rehabilitation missions.
3. Adequate duration and intensity of programming.
4. Leveraged treatment: incentives and sanctions.
5. Transitional programming from institution to community.
6. Relapse prevention focus.
7. Self-help groups.
8. Creative use of treatment adjuncts: acupuncture, education/employment services, etc.
9. Programming for special needs populations.

National Association of Criminal Justice Planners (1992). "Cost Management of Drug Treatment."

Most current research demonstrates that traditional probation or parole supervision, without treatment intervention, has little, if any, impact on reducing substance abuse in the population of supervised offenders. Research summarized below:

From the research of Douglas Anglin and Yeh-Ing Hser:

To date, both the literature and empirical research outcomes support the supposition "...that coerced involvement in

community based programs and/or corrections based treatment can have a substantial impact on the behavior of chronic drug using offenders."

From the National Task Force on Correctional Substance Abuse Strategies:

There is clear evidence that a blend of control and treatment in corrections is both effective and necessary.

From the Treatment Outcome Perspective Study (TOPS):

Clients referred from the Courts and correctional agencies have outcomes that are at least as positive as clients entering on their own or referred by other sources. The criminal justice client did tend to stay in programs longer than other clients, perhaps contributing to more positive outcomes than otherwise could have been possible.

Attorney General Janet Reno

In recent public appearances, Ms. Reno has spoken of the need to shift the emphasis in drug policy from supply side (interdiction) to demand reduction (treatment and education) programs.

Lee Brown, Director of the Office of National Drug Control Policy

At the 1993 Alcohol and Drug Problems Association conference, Mr. Brown described treatment as "good drug policy, good crime policy, good health policy, good economic policy, and good urban policy." He also addressed the need for performance standards that enable communities to assess the success of drug programs in such terms as reduced drug use, crime, and unemployment. Noting that research supports the use of coercive treatment, Mr. Brown explained that the Clinton administration will look to prison, parole, and probation systems to develop more treatment programs.

INTERMEDIATE SANCTIONS AND THE INTEGRATION OF TREATMENT AND SUPERVISION

National Council on Crime and Delinquency Board of Directors (1993). Reducing Crime in America: A Pragmatic Approach.

Among NCCD's recommendations are the following:

Prison sentences should be principally reserved for three types of offenders: a) first-time felons who have committed a violent or heinous crime, b) felons with a prior felony conviction whose new crimes involve a substantial threat to public safety, and c) felons whose crimes involve substantial violations of the public trust.

The use of intermediate sanctions or alternatives to incarceration should be expanded, but only for non-violent offenders who would otherwise be imprisoned.

McGarry, Peggy (1993). "Improving the Use of Intermediate Sanctions: Lessons from the Intermediate Sanctions Project." Presented at Community Corrections: Saving Dollars and Lives, Tampa Florida, May 25, 1993.

NIJ and the State Justice Institute have supported technical assistance through the Center for Effective Public Policy to 25 jurisdictions implementing intermediate sanctions. Our department is one of their newest technical assistance sites. Peggy McGarry summarizes what is required for a policy-driven range of intermediate sanctions:

1. Key players in the criminal justice system must agree to regular, frank communication about the sentencing practices, options, and desired outcomes in their jurisdiction.
2. The effort at regular communication and dialog must be led by the bench and provided with the necessary resources.
3. The key actors comprising the policy group must educate themselves about their own system.
4. The key actors must assume responsibility for the implementation and outcomes of sentencing decisions.

5. The work of the policy group must be supported by needed changes in the individual agencies represented by the group. Members must be willing to implement those changes within their agencies.

The essential elements of the intermediate sanctions process are:

1. Establishment of an organized work group.
2. Obtaining good base-line information.
3. A continuing process of goal and outcome clarification.
4. System scanning capability (data collection/analysis) to support, monitor and evaluate proposals and programs.
5. An ongoing review of the policies and practices of individual agencies.
6. Policy creation and implementation guided by data collection, dialog, and goal clarification.

Petersilia, Joan and Susan Turner (1990). Intensive Supervision for High-Risk Probationers. Rand Corporation.

On integration of treatment and supervision:

"NIJ/BJA sponsored evaluation of three California intensive supervision programs found a statistical relationship between participation in treatment interventions and recidivism. **Greater participation [in treatment] was associated with lower levels of recidivism.** This result held true even when the offender's risk-of-recidivism level was statistically controlled."

On responding to technical violations:

"The emphasis on technical violations (of some programs) largely reflects the assumption that such violations are proxies for criminal behavior, i.e., signals that offenders are "going bad," and thus, if an offender's probation is revoked for violations, the system may be preventing crimes. ... **One of our most important findings is that offenders who had technical violations were no more likely to have new arrests than those who did not.**

Since technical violations evidently are not proxies for criminal behavior, it seems reasonable to question ISP programs' emphasis on them -- especially the practice of sending offenders to prison for them. The effort and resources spent on monitoring and incarcerating people for technical violations might be better spent, for example, on more drug/alcohol treatment and job placement efforts."

Petersilia, Joan and Susan Turner (1993). "Evaluating Intensive Supervision Probation/Parole: Results of a Nationwide Experiment." NIJ Research in Brief, May 1993.

This research brief summarizes the RAND Corporation's evaluation of 14 programs in 9 states. The authors concluded that the programs studied were successful in increasing surveillance and providing intermediate sanction options. Although the programs were perceived by participants as "tough," participants generally did not have lower rearrest rates. However, the authors note that participation in treatment/counseling programs was correlated with lower rates of recidivism (10% to 20% less recidivism in Texas and California programs).

Petersilia, Joan (1990). "When Probation Becomes More Dreaded Than Prison." Federal Probation, March 1990, pp.23-27.

The author has found that many offenders, when given the choice, elect to go to prison instead of intensive supervision. She concludes that if the public was made more aware of intermediate sanctions, legislators might be convinced that there are other means besides prison to punish offenders. She suggests that, because of the treatment opportunities implicit in community sanctioning, corrections would become more cost effective.

Fulton, Betsy and Susan Stone (1993). "The Promise of a New ISP." Perspectives, American Probation and Parole Association, Winter 1993.

Critical elements for effective intensive supervision programs:

1. Focus on the provision of services; availability of a range of interventions.
2. Target high risk/high need population; use reliable risk/need instrument.

3. Small caseloads and frequent substantive contact aimed at assisting the offender, resolving problems and monitoring progress in rehabilitative programming.
4. Systematic case review.
5. System of rewards and sanctions.
6. Clear program objectives; program evaluation.

Gordon, Diana (1991). The Justice Juggernaut. Rutgers University Press.

Author identifies three goals for intensive supervision programs:

1. Save prison space and money.

She concludes that the savings can be real and substantial, but she warns that "if intensive supervision evolves primarily not as an alternative to incarceration but as an add-on to regular probation, the additional cost ... could be substantial." Note that policy makers will have to compare the costs and benefits of establishing a program with a target population of high risk/high need offenders with a program targeting prison-bound offenders. *[Oregon's Structured Sanctions initiative, and DCC, assume that there is considerable overlap in those two populations. In targeting violators, we expect to serve high risk/high need offenders who are also at risk of commitment.]*

2. Effect Punishment.

The author notes that intermediate punishments are clearly harsher than ordinary probation and, for many offenders, harsher than prison.

3. Prevent crime.

The author notes that the record of intensive supervision programs in reducing recidivism is mixed. She also notes that many would argue that if such programs reduce costs and effect punishment, it may be sufficient that they do not increase criminality.

Multnomah County Department of Community Corrections

DCC operated a grant-funded intensive supervision program from 1988-91 that targeted high risk drug users and included a dedicated treatment resource. A control group was randomly assigned to standard supervision. The following summary data was obtained for participants through March 1991.

	Experimental Group	Control Group
Revoked/abscond after 6 mos. of supervision	15%	31%
Revoked/abscond after 12 mos. of supervision	30%	34%
Revoked for new crime	9%	21%
Involved in at least one drug treatment program	97%	68%

Discussion:

1. The impact of intensive supervision is greater in the early stages of supervision. [Note that our proposed intensive supervision program will be targeting clients already under supervision who are in violation. That may prove to be a difficult population to work with, but successes will represent significant benefits in terms of public safety and avoided costs.]
2. The dedicated treatment resource for the intensive supervision clients probably explains much of the difference between the two populations in their involvement in treatment. If that is the case, and we accept the research findings linking drug use and criminal behavior, then the dedicated treatment resource probably explains some of the difference between the populations in their rates of revocation for new crimes.

Falkin, Gregory (1993). Coordinating Drug Treatment for Offenders: A Case Study (unpublished manuscript, presented at the Fourth Annual Conference on Evaluating Crime and Drug Control Initiatives, June 28, 1993, Washington, D.C.

Falkin studied the integration of correctional treatment programs in several jurisdictions and commented favorably on the systems in place in Oregon and Multnomah County.

"The main thing that characterizes Oregon's efforts to enhance its treatment system at the state and local levels is the **interconnection that exists among key players involved in the development of the system, and the pro-treatment orientation of criminal justice officials throughout the system.** The development of the system, and the delivery of treatment services, has been facilitated by a large number of interagency advisory committees, task forces, informal working groups, and the like, operating at the state and local levels. Some of these interagency entities, such as the Community Corrections Advisory Committee, are required by law; others, such as the Regional Drug Initiative (RDI) -- a model community-wide anti-drug task force dealing with treatment, prevention, and law enforcement -- were created on a voluntary basis (the [Multnomah County] District Attorney has chaired RDI from its inception until recently).

State and local officials, **and individuals from the private sector,** have been working together for some years -- there is little turnover in key government positions. They have developed professional relationships, are aware of each other's views, and are committed to resolving differences. The various efforts to coordinate activities have enhanced the treatment system, as can be seen in the development of new programs and procedures, and improvements in implementing treatment for offenders."

EMERGING THEMES FOR COMMUNITY CORRECTIONS

1. Integration of Services/Focus on Families

The Multnomah County plan for integrating the delivery of human services mirrors similar efforts in other jurisdictions. NIJ, BJA, several foundations are funding demonstration sites in which the value of an integrated approach to urban crime problems will be evaluated. The Fresh Start Post Incarceration Program serves parolees with drug histories. The program uses case managers in community agencies working with designated parole officers. Services include aftercare, education, employment training, drug-free housing, health and mental health interventions, and parenting skills. The Strategic Intervention for High Risk Youth Program applies a similar approach to working with youthful offenders. Both programs target the needs of the families of offenders. Interagency cooperation is now expected of organizations applying for most Federal grants. Applicants are typically required to explain how related agencies and agencies serving common target populations will be involved in service delivery and impacted by the grant.

2. Community Partnerships

A collaborative approach to managing community corrections clients, based on the paradigm of integrated services, is emerging in many jurisdictions. Community Partnerships in Action, a recent publication of the American Correctional Association highlights this trend. Although our department has long relied on the private sector, and private non-profits in particular, for delivering many specialized services, the concept is new to many jurisdictions. Our challenge is to build on the partnerships that we have developed to assure that our agency and our justice system and community partners support each other's objectives and provide services as efficiently and effectively as possible. In Multnomah County, as elsewhere, we need to focus more on agency resources than on agency boundaries as we serve high risk/high need clients and families with multiple problems.

3. Privatization

Community partnerships in many jurisdictions include the privatization of certain correctional services. In Multnomah County and an increasing number of jurisdictions around the country, government agencies contract for specialized treatment, residential programs, other program interventions,

and professional services. In other states and local jurisdictions, governments contract for jail and prison management. The National Council on Crime and Delinquency has recommended that the federal government initiate pilot studies of privatizing probation and parole to determine if costs can be reduced. Vice President Gore's proposed reorganization of the federal government includes the privatization of numerous services.

The arguments for and against contracting must be weighed in the context of specific services, communities, and political environments. Our CCAC Planning & Evaluation Subcommittee will be developing recommendations in this area.

4. Decentralization

Recent books, popularizing such themes as "reinventing government" and "total quality management" have stimulated the public sector to rethink its values, missions, objectives, structures, and operations. By dealing with citizens and clients as consumers, many government agencies have become more responsive to their communities and developed higher levels of public support. Many government agencies have chosen to empower those employees closest to the point of service delivery through enhanced training and decision-making status and participation in strategic planning processes. As form should follow function, these agencies have decentralized and eliminated layers of management that often complicated intra-agency communication, the flow of information, and the ability of line level staff to work creatively in the field.

5. Mediation

Realizing that the justice system is a very expensive and often unsatisfactory means of resolving conflict, many jurisdictions have adopted alternative dispute resolution (ADR) programs. Long available as an alternative to civil disputes, the practice is evolving as a mechanism to help clear criminal dockets while still meeting justice objectives. Mediation can facilitate payment of restitution and produce a deterrent effect by allowing victims to confront offenders. Supporters of ADRs claim that offenders who learn about the impacts of their crimes develop an empathy that can reduce the likelihood of recidivism.

6. Diversion

The costs of prosecution and corrections are also resulting in the development of diversion programs around the country. When the underlying causes of an individual's criminal behavior can be identified and treated cost-effectively, many jurisdictions are electing to divert the offender to immediate, intense, focused services. Diversion programs typically hold out the promise of dismissed charges if the defendant completes the treatment program. Diversion for drug cases in Multnomah County involves defendants in a program of outpatient treatment, supplemented with acupuncture and drug testing. That model was developed in Dade County, Florida and is now operating or being considered in several other jurisdictions, based on the number of inquiries received at program sites. Diversion is also being used locally and elsewhere to get abusive spouses/partners into treatment focusing on communication, anger management, and family dynamics. In most jurisdictions, including Multnomah County, drug and domestic violence diversion programs involve the courts, prosecution, defense, corrections and community agencies in the kind of program partnerships described earlier in this section.

7. New Directions in Drug Treatment

Research sponsored by the National Institute on Drug Abuse is trying to understand the chemical bases of addiction with the goal of developing chemical treatments that substitute for abused drugs with less side effects, block the effects of drugs of abuse, reduce craving for drugs and moderate or eliminate withdrawal symptoms. Future treatment models may integrate drug therapies, various Western counseling and therapeutic milieus, and Oriental traditions such as acupuncture. Western health practitioners are beginning to realize that they can learn much from other cultures. They are also beginning to appreciate the need to understand those cultures. As our society becomes increasingly diverse in its ethnic and racial composition, human service professions and local agencies will have to develop the cultural competence to provide relevant treatment for all segments of the population.

Other intervention trends include: treating families, providing a continuum of care (from assessment through aftercare and from institutions to community settings), and providing integrated programs that address major problem areas (health, housing, education, employment).

8. Drug Testing

Technological advances are making drug testing programs less expensive and easier for corrections agencies to implement. Research continues in several key areas:

- Identifying an individual's historical pattern of substance abuse (hair analysis, for example).
- Developing simple, quick and reliable field test kits.
- Eliminating problems related to false positives and cross-reactions.
- Developing technologies that are less intrusive than urinalysis (hair analysis, for example).

Drug testing programs have traditionally served as a surveillance tool for monitoring compliance with supervision conditions, but the limited availability of testing resources has resulted in inconsistencies in utilization. System-wide testing, with enhanced funding, has evolved in several jurisdictions to provide additional services, including identification of abusers for early intervention (case management) and objective measurement of client and aggregate treatment progress within and across programs (evaluation).

9. Technologies for Supervision

The private sector has responded to the need for jail alternatives and efficiencies in offender supervision with a number of products designed to provide remote monitoring of community corrections populations. Electronic monitoring devices ("bracelets") now make it a much less labor intensive proposition to enforce curfew or home detention. Some monitoring devices require the offender to respond to randomly generated telephone contacts. Other devices detect offender presence without any action on the offender's part. Available technology now permits officers with portable receivers to monitor the location of offenders wearing transmitters by driving through the community. This would allow officers to verify that an offender is at home without having to enter the home. It would also permit officers to monitor that an offender is not at prohibited locations.

Efficiencies in the supervision of low risk cases are being realized through telephone monitoring. Offenders are required to call the monitoring

company monthly and respond to an automated series of questions that take the place of a written monthly report. POs receive exception reports that alert them to changes in the offender's circumstances. DCC contracts for this service on a pilot basis. We are finding that staff are able to manage large caseloads of telephone monitored offenders, freeing more staff resources to focus on higher risk cases.

Caller ID technology can assist in verifying that an offender is complying with curfew or home detention by reporting the phone number from which he or she makes a "check-in" call.

10. Intermediate Sanctions and the Use of Prison and Jail Resources

State and local governments throughout the country are attempting to manage growing institutional populations through a variety of strategies, including early releases, emergency releases, decriminalization or reduced penalties for certain crimes, and sentencing guidelines which attempt to structure sentencing so that it is consistent with institutional capacity. Many jurisdictions are attempting to bring a more global perspective to corrections by providing a graduated range of intermediate sanctions, harsher than probation, but not as restrictive as prison. By providing a wider range of sanction options, it will be possible to more appropriately match offenders with the level of punishment, deterrence, or treatment that their crimes and circumstances warrant. It is generally assumed that use of intermediate sanctions will relieve some of the crowding at jails and prisons. Many supporters of intermediate sanctions also believe that long term offender outcomes based on behavioral changes are more likely to be realized through community interventions (sanctions and treatment) than through incarceration. Some of the literature on intermediate sanctions is referenced in the preceding sections.

11. Automation/Information Technology

Shared databases and computerized case files should improve:

- Planning, by enhancing our ability to base decisions and forecasts on reliable data;
- Accountability, by enabling agencies to relate costs to specific outputs and outcomes;

- Case management, by automating specific clerical and reporting functions and by providing staff with timely reports that organize more information more efficiently than had previously been possible; and
- Evaluation, by making consistent and accurate data readily available for analysis and eliminating much of the labor intensive work involved in searching paper files and incompatible databases.

Automation should enable professional and clerical staff to use their time more efficiently and effectively, focusing on critical work. Automation should enhance our ability to learn from our work, but, as we have seen, there will be associated training costs that need to be built in to system implementation plans.

The design of databases and the automation of case files in a system of integrated services raises issues of confidentiality. As we begin to collaborate with health, social services, mental health, law enforcement, and juvenile systems in our case management efforts, data access and data sharing issues become significant.

12. Rethinking the Mission and Evaluation of Community Corrections

The BJS-Princeton University Study Group was established to re-examine the concepts and methodologies involved in measuring and evaluating the performance of justice system components. Papers prepared by John Dilulio (1992) and Joan Petersilia (1993) question whether recidivism should be the primary outcome measure. They note that it may be unfair to hold probation and parole agencies responsible for client behavior after their supervision has terminated, especially since the causes of criminal behavior are beyond the justice system's control. Petersilia recommends development of realistic performance measures for each of the goals of community corrections. Based on a review of the literature, she identifies five goals: 1) assess offender suitability for various sentences and placements; 2) enforce court-ordered sanctions; 3) protect the community; 4) assist offenders to change; and 5) restore crime victims.

34 III. DUTIES AND RESPONSIBILITIES OF COUNTY

35

- 36 1. COUNTY shall participate in accordance with this Agreement and assume ad-
- 37 ministrative responsibility for correctional services within its jurisdiction which are

- 39
- 40 2. COUNTY shall designate a Community Corrections Manager and employ other
- 41 staff to implement the COUNTY COMMUNITY CORRECTIONS PLAN and perform
- 42 such other duties as may be specified elsewhere in this AGREEMENT subject to
- 43 the approval of the COUNTY Board of Commissioners.

- 1 3. Subject to the requirements of Oregon Local Budget Law, COUNTY shall maintain
2 the current level of COUNTY general fund corrections programs at substantially
3 the same level as specified in this agreement. Nothing should be construed to
4 obligate COUNTY to appropriate general funds for these activities beyond the
5 current fiscal year. Should COUNTY fail to make such an appropriation as
6 indicated in the COMMUNITY CORRECTIONS PLAN, the rights of the parties as
7 specified in Paragraph 4 of the termination portion of this agreement may apply,
8 at DOC's option.
9
- 10 4. COUNTY will concentrate its Field Services and Community Corrections resources
11 on more effective supervision and sanctioning of higher-risk felony offenders. The
12 COUNTY shall prioritize supervision, program and sanction resources based on
13 offender risk, as determined by the Oregon Case Management System. If funding
14 requires the elimination of some supervision, elimination will begin with the lowest-
15 risk offenders. Supervision, program and sanction services may be provided to
16 higher-risk person-to-person misdemeanants based on risk and within available
17 resources.
18
- 19 5. COUNTY will meet or improve on the following outcomes:
20

- 21 a. Reduction in the number of non-conviction revocations to prison:

30 Intervention Guidelines and the reduction of non-conviction revocations to
31 prison.
32

- 33 b. Increase the percentage of positive case closures of probation and parole
34 cases based on risk;

COUNTY further recognizes that the administration of personnel services for contract employees is subject to State merit system law, DOC personnel rule and policies, and union contracts where applicable.
 12. In counties of less than 200,000 population, when ever a vacancy occurs in a contract employee position, COUNTY may convert the funds associated with the vacancy to a COUNTY position, or it may accept the voluntary transfer into the position of a DOC employee of the same classification as the terminating contract employee. COUNTY agrees to ensure that transferring employees shall not suffer any reduction in salary or retirement eligibility, in compliance with ORS 423.550(2)(c). VI. NON-COMPLIANCE

1. DOC shall periodically review the performance of COUNTY participating under ORS 423.500 to 423.560. COUNTY must substantially comply with the provisions of the approved Plan and DOC operating standards.
2. If the Director of DOC determines that there are reasonable grounds to believe that COUNTY is not in substantial compliance, Director shall notify COUNTY of non-compliance. If COUNTY does not achieve substantial compliance within 30 days, Director shall conduct a hearing to determine whether there is substantial compliance or satisfactory progress toward compliance.

5 indemnify the other for any such liability arising out of the wrongful acts of the other's
6 officers, employees or agents.
7

8 VIII. TERMINATION 9

10 This Agreement shall continue in force and govern all transactions between the
11 parties hereto until canceled or terminated as follows:
12

- 13 1. It is understood and agreed by the parties hereto that this Agreement shall remain
14 in force only during its term and shall not continue in force after its term; and there
15 shall be no automatic extension, but this Agreement may be extended only by
16 written consent of the parties hereto. Not later than 180 days prior to the expiration
17 of this Agreement, COUNTY shall notify DOC in writing of its intention to renew
18 this agreement for another term by entering into a new agreement for the next
19 biennium.
20
- 21 2. It is understood and agreed by the parties hereto that if any part, term or provision
22 of this agreement, including any part, term or provision of any appended material,
23 is held by a court to be illegal or in conflict with any law of the State of Oregon or
24 applicable administrative rule, that element of the contract including relevant
25 appended materials shall be void and without effect and shall be treated by the
26 parties as having been terminated as of the date of determination of voidness.
27
- 28 3. COUNTY may terminate participation at the end of any month by delivery of a
29 resolution of the Board of Commissioners to the Director of DOC not less than 180

39 has participated for 20 continuous years since the facilities were renovated
40 or constructed. COUNTY and DOC may agree to permit COUNTY to retain
41 ownership in the facility in exchange for an agreement that COUNTY will
42 house specified persons under the jurisdiction of DOC.
43

- 1 5. It is understood and agreed by the parties hereto that this Agreement shall
2 automatically terminate in the event that the State of Oregon fails to provide any
3 funding. In the event of reduced state funding, the COUNTY may elect to modify
4 the Agreement pursuant to Article III, paragraph 9, or to terminate the Agreement
5 pursuant to Article VIII, paragraph 3.
6
7

8 IX. INTEGRATION
9

10 This Agreement, and the Exhibits attached hereto as set out above, embodies the
11 whole agreement of the parties. There are no promises, terms, conditions or obligations
12 other than those contained herein; and this Agreement shall supersede all previous
13 communications, representations, either verbal or written, between the parties hereto.

FROM: MARY BLAKE 
COMMUNITY CORRECTIONS BRANCH

SUBJECT: COUNTY REVOCATION TARGETS - Bring to February 18th Meeting

Attached are the County Revocation Targets for 1993-95. The High Risk Score % is each counties high risk caseload as compared to the state total high risk caseload. *High risk* is defined as having the most recent initial classification or reclassification score of 0 to 6 (October 1, 1992 caseload).

I have included both the admissions for Revocations with *No New Conviction* and the admissions for Revocations with *New Convictions*. We must reduce the "no new conviction revocation" admissions while not increasing the "new conviction revocation" admissions or increasing the length of stay of each category.

The No New Conviction *Probation* Revocation Admission Targets are phased-in over the first 12 months of the biennium. The No New Conviction *Parole* Targets are in effect immediately in July 1993 as the caseload will presumably be reduced by July 1, 1993, while the probation violation hearings process and probation intervention guidelines will take some time to reach its full effect.

We will be designing a monitoring report that will provide all of us county by county, hopefully monthly, information on 1) *admissions* (no new conviction revocations, new conviction revocations, and brand new admits); 2) *length of stay* for all categories, and 3) *prison beds* used for each type of admission.

Congrats to those of you whose county is under its target! Keep up the good work -- we're counting on you. The 1993-95 biennium will probably be known as the biennium of "Population Management".

We will be answering any questions of clarification for you at the February 18th Statewide Directors Meeting in Salem. *Please bring this with you.*

DEPARTMENT OF CORRECTIONS

STRATEGIC PLAN
TO
MANAGE THE OFFENDER POPULATION

DEPARTMENT OF CORRECTIONS
1993-95 GOVERNOR'S BUDGET

STRATEGIC PLAN

MISSION

The Mission of the Department of Corrections is to reduce the risk of criminal conduct, through a partnership with communities, with a continuum of community supervision, incarceration, sanctions and services to manage offender behavior.

The fundamental value in the continuum of probation, prison and parole is the principle that the least restrictive method be used to manage offender behavior, consistent with public safety. The Department's Strategic Plan implements this value within the constraints of reduced state resources.

MAJOR POLICIES

- Manage offenders who violate conditions of probation and parole in their communities through expansion of sanctions such as local jails, restitution centers, house arrest and day reporting centers.
- Target scarce community supervision resources to higher-risk felony probationers and all parolees.
- Adjust Sentencing Guidelines to reflect the funded prison capacity.

IMPLEMENTATION STRATEGIES

→ **Utilize Increased Local Sanctions that are Swift and Sure to Reduce the Projected Increase in Demand for Prison Beds and Create a More Effective Corrections System:**

- **Statewide Intervention Guidelines for Probation and Parole Violators**
- **Restitution Center Beds**
- **House Arrest**
- **Local Jail Beds**
- **Day Reporting Centers**

→ **Expand Institutional Programming Aimed at Rehabilitation and Inmate Skill Building:**

- **Boot Camp Type Program**
- **Professional/Technical Training Programs**
- **Alcohol and Drug Treatment Programs**
- **Training on Self-Accountability and Responsibility**

→ **Improve Offender Transition from Institutions to Communities Through:**

- **Job Readiness Training**
- **Work Release Programs**
- **Transitional Housing**

→ **Redirect Community Supervision Resources to Higher-Risk Offenders Through:**

- **Eliminating Supervision of Approximately 4,500 Lower-risk Felony Offenders**
- **Reduction of Parole Supervision to 12 Months for Targeted Offenders and 6 Months for All other Parolees Except for Sex Offenders and Dangerous Offenders Who Will Continue Under Long-Term Supervision.**
- **Elimination of State Funding for Supervision of Approximately 2,600 Misdemeanant Offenders**

OREGON PROGRESS BOARD BENCHMARKS, OUTSTANDING QUALITY OF LIFE:

- Reduce average rate of reincarceration of paroled offenders within three year of initial release (1992: 41%, 1995: 35%, 2000: 20%, 2010: 15%). (Oregon Benchmarks, Outstanding Quality of Life, #51).

DEPARTMENT PERFORMANCE MEASURES

- Utilize Performance Measures To Assess and Evaluate the Impact of Major Policies and Strategies:
- Percent of offenders returned to prison within three years of release,
 - Amount of time under supervision in the community prior to revocation for a new crime,
 - Percent of offenders convicted for new criminal behavior during period of supervision,
 - Rehabilitative program slots available per inmate population,
 - Percent of inmates employed six months following release from prison.

GOAL

- 50 Percent Reduction in Revocations to Prison with No New Conviction.

OREGON DOC ALLOCATION REQUIREMENTS

COUNTY PLAN ISSUES

GENERAL ISSUES TO ASSIST IN COUNTY PLANNING

- ▶ Counties should develop a plan that reflects the Department Strategic Plan and change in philosophy, the change in the profile of the caseload including lower numbers of lower-risk offenders and a greater emphasis on interventions and sanctions targeting higher-risk offenders.
- ▶ Counties must address availability of work release, transitional services, implementation of parole and probation intervention guidelines and a substantial reduction in the numbers of offenders revoked to prison for supervision failures.
- ▶ In order to achieve the goal of effective management of offenders in the community, it will be necessary to clearly identify what sanctions and interventions are in place to manage those offenders that may have otherwise returned to prison.
- ▶ Plans should be based around the array of supervision, sanctions and interventions that will assist the county in meeting individual target reductions in revocations.

SPECIFIC ISSUES

CONSTRUCTION/PURCHASE OF BUILDINGS:

- ▶ Not allowable, but reasonable rent or lease is allowable.

RENOVATION/REMODELING OF BUILDINGS

- ▶ Allowable

GENERAL JAIL OPERATIONS

- ▶ Purchase of care only:
 - a. Paid on daily rate for actual use; or
 - b. Guaranteed availability of a set number of beds at a fixed daily rate whether actually used or not.
- ▶ Plans need to specify that jail beds are for specific purpose i.e. DROP, work release, sanction.
- ▶ Detainers awaiting hearings or pre-trial not allowable.

PURCHASE OF GENERAL P/PO'S

- ▶ Purchase of generalized PO's not allowable
- ▶ Rehire of previous PO's is allowable if those staff have other skills and abilities to perform tasks other than general PO work. If the county develops other programs, personnel can be used as staff, but not as traditional PO's.
- ▶ Funding of specialized caseloads is allowable if:

- a. The supervision enhancement is a sanction and represents a level of supervision greater than High Supervision such as Intensive Supervision. The program description should clearly show this enhancement.

FUNDING OF DIVERSION, PRE-TRIAL, MISDEMEANANT SUPERVISION OR PROGRAMS, DUII: EVALUATIONS, SUPERVISION OR PROGRAMS, LOWER RISK PROGRAMS AND SUPERVISION

- ▶ Funding is currently not included in the Governor's Budget for these populations.
- ▶ Depending on the actions of Ways and Means, it may be necessary to prohibit these program types with State General Fund. [It is likely the Legislature will take action to prohibit these kinds of programs within the Appropriation Bill]
- ▶ If a county plans to use funds for these program types, it must show that adequate sanctions and interventions exist for the higher risk offenders. Counties should balance the need to target higher risk offenders and the requirement that each county will reduce revocations to prison.
- ▶ Any or all of these services can be provided by other than State General Fund or Beer and Wine Tax monies. Sources might include: client fees, supervision fees from these offenders, county General Fund, grants.

PURCHASE OF VEHICLES

- ▶ Purchase of vehicles is discouraged. Both Legislative Fiscal and the Executive Department have indicated concern regarding use of funds for this purpose.

PURCHASE OF ELECTRONICS EQUIPMENT

- ▶ Lease rather than purchase of this equipment is encouraged.

PURCHASE OF COMPUTER AND OTHER AUTOMATION EQUIPMENT

- ▶ The Board will not approve purchase of computer equipment if it is not demonstrated as compatible with the Department of Corrections system.

COMMUNITY CORRECTIONS BRANCH 93-95 WORKLOAD FORMULA

The **FORMULA** for allocation of Field Services resources consists of:

- ▶ Workload as described by the Oregon Case Management System based on the risk of offenders under supervision using Statewide Actual risk scores based on each county's caseloads from July 1992 through December 1992.

Assumptions:

1. Parole cases, supervised 6, 12, 18 or 36 months, plus inactive; sex offenders for length of sentence.
 2. Felony probation risk scores 0-10, plus sex offenders scoring 11 or 12, active supervision; other 11-12, inactive.
 3. Misdemeanant probation risk scores 0-8 (person-to-person offenses only).
 4. Investigations are included in workload calculations.
- ▶ Required reports and investigations to releasing authorities as 10% of the supervision workload; and
 - ▶ Ratios for clerical staff to POs and supervisors of 4.8 and for supervisors/managers to clerical and PO staff of 11.8. These ratios are established by the overall ratio funded by the legislature.

PERSONNEL: Probation and parole officers, clerical staff, and supervisors/managers are allocated according to each jurisdiction's portion of the state workload as described above. Average state salaries and adjustments are used to establish the personnel allocation to Option I counties. The PIC system will determine the state personnel allocation.

SERVICES & SUPPLIES and CAPITAL OUTLAY: S&S and Capital Outlay are allocated based on state workload as described above. Other Fund S&S is allocated only to state offices as it is supervision fee revenue from only those operations. Option I counties retain their supervision fee revenue locally for budgeting purposes.

IMPLEMENTATION: Option I counties and state branches will receive their allocation as basic Personnel and S&S/Capital Outlay. However, Community Corrections Branch may make adjustments to state branch allocations based on the need for minimal coverage in rural areas, to address span of control issues, and rounding of partial FTE to half- or full-time staff. The layoff procedure for state staff was commenced in late July 1993 in order to comply with budgetary limitations by mid-August 1993.

AN ACT

Relating to crime: creating new provisions: amending ORS 131.315, 137.540, 137.550, 161.390, 161.625, 161.635, 164.045, 164.055, 164.115, 164.125, 164.215, 164.255, 165.013, 165.055, 166.715, 423.530 and 423.550 and section 4, chapter 614, Oregon Laws 1989; repealing ORS 144.305 and 144.310; limiting expenditures; and declaring an emergency.

Be It Enacted by the People of the State of Oregon:

SECTION 1. ORS 423.530 is amended to read:

423.530. (1) Financial grants for community corrections pursuant to ORS 423.500 to 423.560 shall consist of:

(a) Payments from moneys appropriated to the Department of Corrections for the purposes of management, support services and supervision of parolees, probationers and offenders subject to post-prison supervision. The department shall determine, prior to July 1 of each odd-numbered year, each county's percentage share of the amount appropriated for the purposes of this subsection. Such determination shall be made by use of a workload formula adopted by the department by rule, which formula shall be in effect beginning July 1, 1991, and which formula shall include all parole and probation appropriations subject to review and comment by the Community Corrections Advisory Board before the rule becomes final. This determination shall be based upon the community supervision workload and the difficulty and cost of servicing that workload.

(b) Enhancement grants from the department for the purpose of providing community corrections services. The department shall determine, prior to July 1 of each odd-numbered year, each county's percentage share of the amount appropriated for the purposes of this subsection. Such determination shall be *[adopted by rule and shall be based upon statewide crime and demographic data certified by a state agency other than the Department of Corrections. The data shall be subject to review and comment by the Community Corrections Advisory Board before the determination of the department.]* made by use of a workload formula adopted by the department by rule, which formula shall be in effect beginning July 1, 1993. This determination shall be based upon the community supervision workload and the difficulty and cost of servicing that workload. The formula shall be subject to review and comment by the Community Corrections Advisory Board before it becomes final.

(c) Appropriations to counties pursuant to ORS 423.550 to 423.560 approved for local government corrections programs shall not be reduced by the department except by action of the Legislative Assembly or the Emergency Board. Such reductions shall be made proportionately using the applicable allocation formula.

(2) The department shall by rule provide for computation of each county's entitlement in each biennial period in the event participation by the county is for less than a biennial period. Such

computation shall be based upon any actions approved by the Legislative Assembly relative to the timing of expenditures with respect to appropriations for purposes of subsection (1) of this section.

SECTION 2. ORS 423.550, as amended by section 3, chapter 614, Oregon Laws 1989, is amended to read:

423.550. (1) When a county pursuant to ORS 423.500 to 423.560 assumes responsibility for any portion of correctional services previously provided by the Department of Corrections, the county and the department shall enter into an intergovernmental agreement that includes an approved local community corrections plan, program descriptions, budget allocation, performance objectives and method of evaluation for each correctional service to be provided by either the county or the department. Funds appropriated for the provision of these corrections services shall be apportioned between the department and the county as provided for in each intergovernmental agreement drawn to effect the purposes of ORS 423.505 and this section.

(2)(a) Except as provided in paragraph (b) of this subsection, any state correctional field officer, immediate supervisor of such correctional officer or any supporting clerical personnel whose job involves rendering services assumed by the county may transfer to employment by the county or may remain in the employment of the department and provide field services to the county under the terms of a contract for services between the county and the department. The county shall pay the department for any services rendered by such employees on an actual cost basis.

(b) In any county having a population of 200,000 persons or more, at the discretion of the county, all state correctional field officers, immediate supervisors of such correctional officers and any supporting clerical personnel whose jobs involve rendering services assumed by the county shall transfer to county employment. An employee who is involuntarily transferred under this paragraph may, within two years of the transfer, terminate county employment and immediately return to employment with the Department of Corrections in a vacant position. The termination and reemployment of the employee is subject to the provisions of ORS 236.605 to 236.650 as those statutes apply to sick leave, vacation leave, retirement systems, preexisting conditions under health insurance plans and seniority.

(c) Any such employee transferring to county employment under this section shall not suffer any reduction in salary or retirement eligibility. Any such employee shall be considered a transferred employee and shall be subject to the provisions of ORS 236.610 to 236.650.

(3) Any such employee who transfers employment pursuant to subsection (2) of this section shall be entitled to reenter state employment within 30 days if the county to which the employee has transferred withdraws from participation under ORS 423.500 to 423.560 or if funds are not appropriated to carry out the purposes of ORS 423.500 to 423.560. The employee shall reenter state employment at the same status and seniority that the employee held prior to the transfer. The return transfer right shall be exercised in accordance with ORS 236.610 to 236.650 and the applicable collective bargaining agreement.

SECTION 3. Section 4, chapter 614, Oregon Laws 1989, is amended to read:

Sec. 4. The amendments to ORS 423.550 by section 3, *[of this Act]* chapter 614, Oregon Laws 1989, and section 2 of this 1993 Act apply only to counties that assume responsibility for correctional services pursuant to ORS 423.500 to 423.560 on or after *[the effective date of this Act]* October 3, 1989.

SECTION 4. (1) The State Board of Parole and Post-Prison Supervision shall adopt rules providing for periods of supervised parole and post-prison supervision subject to the following:

(a) All prisoners shall serve at least:

(A) Six months of supervised parole or post-prison supervision for crimes in crime categories one to three;

(B) Twelve months of supervised parole or post-prison supervision for crimes in crime categories four to six; and

(C) Eighteen months of supervised parole or post-prison supervision for crimes in crime categories seven to eleven;

(b) Prisoners sentenced as dangerous offenders under ORS 161.725 and 161.735, for aggravated murder under ORS 163.105 or for murder under ORS 163.115 shall serve at least three years of supervised parole or post-prison supervision; and

(c) Prisoners sentenced for violating or attempting to violate ORS 163.375, 163.405, 163.408, 163.411, 163.425 or 163.427 shall serve a term of post-prison supervision as provided in ORS 144.103.

(2) No sooner than 30 days prior to the minimum supervision date of an offender's supervised parole or post-prison supervision, the supervising officer may send to the board a closing summary if the offender has substantially fulfilled the supervision conditions. The summary shall include:

(a) An evaluation of the offender's compliance with supervision conditions;

(b) The status of the offender's court ordered monetary obligations, including fines and restitution, if any;

(c) The offender's employment status;

(d) The offender's address;

(e) Treatment program outcome;

(f) Any new criminal activity; and

(g) A recommendation that the board place the offender on unsupervised parole or post-prison supervision.

(3) Upon completion of the period of supervision and after reviewing the closing summary submitted under subsection (2) of this section, the board may:

(a) Order a period of inactive parole or post-prison supervision that shall continue until the expiration of the sentence; or

(b) Extend the supervision period if it finds the offender has not substantially fulfilled the supervision conditions or has failed to complete payment of restitution.

(4) During the pendency of any violation proceedings, the running of the supervision period and the sentence is stayed, and the board has jurisdiction over the offender until the proceedings are resolved.

(5) The board shall send written notification to the supervised offender of the expiration of the sentence.

SECTION 5. The State Sentencing Guidelines Board shall amend its rules regarding post-prison supervision sanctions to provide graduated periods of maximum sanctions based on the length of the supervision term as follows:

(1) Six months if the term of supervision is one year;

(2) Nine months if the term of supervision is two years; and

(3) Twelve months if the term of supervision is three years.

SECTION 6. Section 5 of this Act is repealed on November 1, 1995.

SECTION 7. ORS 144.305 and 144.310 are repealed.

SECTION 8. The Legislative Assembly finds that:

(1) To protect the public, the criminal justice system must compel compliance with the conditions of probation by responding to violations with swift, certain and fair punishments.

(2) Decisions to incarcerate offenders in state prisons for violation of the conditions of probation must be made upon a reasonably systematic basis that will insure that available prison space is used to house those offenders who constitute a serious threat to the public, taking into consideration the availability of both prison space and local resources.

SECTION 9. (1) Sections 10 to 15 of this Act and the amendments to ORS 137.540 by section 16 of this Act apply to:

(a) All persons on probation for felonies committed on or after September 1, 1993.

(b) All persons on probation for felonies committed prior to September 1, 1993, if:

(A) The sentencing judge orders, on or after September 1, 1993, that the person be subject to sections 10 to 15 of this Act and the amendments to ORS 137.540 by section 16 of this Act; and

(B) The probationer consents in writing or on the record to be subject to sections 10 to 15 of this Act and the amendments to ORS 137.540 by section 16 of this Act.

(2) If it cannot be determined whether the felony was committed on or after September 1, 1993, the crime shall be deemed, for purposes of sections 10 to 15 of this Act and the amendments to ORS 137.540 by section 16 of this Act, to have been committed prior to September 1, 1993.

SECTION 10. (1) Except as otherwise provided in subsection (2) of this section, when a court suspends the imposition or execution of sentence and places a defendant on probation, or sentences a defendant to probation under the rules of the State Sentencing Guidelines Board and orders a defendant placed under the supervision of the Department of Corrections or a county community corrections agency, the Department of Corrections or the county community corrections agency shall impose structured, intermediate sanctions for the violation of conditions of probation in accordance with rules adopted under section 11 of this Act. Under no circumstances may the Department of Corrections or a county community corrections agency revoke probation.

(2) The sentencing judge shall retain authority:

(a) To revoke probation and receive recommendations regarding revocation of probation from the supervising officer made in accordance with rules adopted under section 11 of this Act;

(b) To determine whether conditions of probation have been violated and to impose sanctions for the violations if the court, at the time of sentencing, states on the record that the court is retaining such authority; and

(c) To cause a probationer to be brought before the court for a hearing upon motion of the district attorney or the court's own motion prior to the imposition of any structured, intermediate sanctions or within four judicial days after receiving notice that a structured, intermediate sanction has been imposed on the probationer pursuant to rules adopted under section 11 of this Act and to revoke probation or impose such other or additional sanctions or modify the conditions of probation as authorized by law.

(3) In no case may the sentencing judge cause a probationer to be brought before the court for a hearing and revoke probation or impose other or additional sanctions after the probationer has completed a structured, intermediate sanction imposed by the Department of Corrections or a county community corrections agency pursuant to rules adopted under section 11 of this Act.

SECTION 11. (1) The Department of Corrections shall adopt rules to carry out the purposes of this Act by establishing a system of structured, intermediate probation violation sanctions that may be imposed by the Department of Corrections or a county community corrections agency, taking into consideration the severity of the violation behavior, the prior violation history, the severity of the underlying criminal conviction, the criminal history of the offender, protection of the community, deterrence, the effective capacity of the state prisons and the availability of appropriate local sanctions including, but not limited to, jail, community service work, house arrest, electronic surveillance, restitution centers, work release centers, day reporting centers or other local sanctions.

(2) Rules adopted by the Department of Corrections under this section shall establish:

(a) A system of structured, intermediate probation violation sanctions that may be imposed by the Department of Corrections or a county community corrections agency on a probationer who waives in writing a probation violation hearing, admits or affirmatively chooses not to contest the violations alleged in a probation violation report and consents to the sanctions;

(b) Procedures to provide a probationer with written notice of the probationer's right to a hearing before the court to determine whether the probationer violated the conditions of probation alleged in a probation violation report, and if so, whether to continue the probationer on probation subject to the same or modified conditions, or order sanctions for

any violations and the right to be represented by counsel at the hearing if the probationer is indigent;

(c) Procedures for a probationer to waive in writing a probation violation hearing, admit or not contest the violations alleged in the probation violation report and consent to the imposition of structured, intermediate sanctions by the Department of Corrections or a county community corrections agency;

(d) The level and type of sanctions that may be imposed by probation officers and by supervisory personnel;

(e) The level and type of violation behavior warranting a recommendation to the court that probation be revoked;

(f) Procedures for notifying district attorneys and the courts of probation violations admitted by probationers and the sanctions imposed by the Department of Corrections or county community corrections agencies; and

(g) Such other policies or procedures as are necessary to carry out the purposes of this Act.

(3) Jail confinement imposed as a custodial sanction by the Department of Corrections or a county community corrections agency pursuant to rules adopted under this section shall not exceed 30 days per violation report. The total number of days of jail confinement for all violation reports per conviction shall not exceed the maximum number of available jail custody units under rules adopted by the State Sentencing Guidelines Board.

(4) Nonjail confinement imposed as a custodial sanction by the Department of Corrections or a county community corrections agency pursuant to rules adopted under this section shall not exceed the maximum number of available nonjail custody units under rules adopted by the State Sentencing Guidelines Board.

SECTION 12. (3) A sentence to pay a fine for a violation shall be a sentence to pay an amount, fixed by the court, not exceeding \$250.

(4) If a person has gained money or property through the commission of a misdemeanor or violation, then upon conviction thereof the court, instead of imposing the fine authorized for the offense under subsection (1), (2) or (3) of this section, may sentence the defendant to pay an amount fixed by the court, not exceeding double the amount of the defendant's gain from the commission of the offense. In that event, ORS 161.625 (4) and (5) apply.

(5) This section shall not apply to corporations.

SECTION 31. Section 32 of this Act is added to and made a part of ORS chapter 144.

(2) An offender may be held longer than 20 days:

NOTE: Section 35 was deleted by amendment. Subsequent sections were not renumbered.

SECTION 36. ORS 161.625 is amended to read:

161.625. (1) A sentence to pay a fine for a [Class A, B or C] felony shall be a sentence to pay an amount, fixed by the court, not exceeding:

(3)(a) If a person has gained money or property through the commission of a felony, then upon conviction thereof the court, in lieu of imposing the fine authorized for the crime under subsection (1) or (2) of this section, may sentence the defendant to pay an amount, fixed by the court, not exceeding double the amount of the defendant's gain from the commission of the crime.

(b) The provisions of paragraph (a) of this subsection do not apply to the felony theft of a companion animal, as defined in ORS 164.055, or a captive wild animal.

(4) As used in this section, "gain" means the amount of money or the value of property derived from the commission of the felony, less the amount of money or the value of property returned to the victim of the crime or seized by or surrendered to lawful authority before the time sentence is imposed. "Value" shall be determined by the standards established in ORS 164.115.

(5) When the court imposes a fine for a felony the court shall make a finding as to the amount of the defendant's gain from the crime. If the record does not contain sufficient evidence to support a finding the court may conduct a hearing upon the issue.

(6) Except as provided in ORS 161.655, this section shall not apply to a corporation.

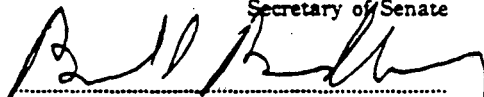

SECTION 37. The amendments to ORS 164.045, 164.055, 164.115, 164.125, 164.215, 164.255, 165.013 and 165.055 by sections 19 to 26 of this Act become operative on September 1, 1993.

management is not an isolated entity. *Data source:* Executive Department, Oregon Emergency Management.

47. Percentage of Oregonians living within jurisdictions with the capability to respond to a disaster, coordinate multi-jurisdictional resources, and assist communities to recover fully from the effects

Explanation: This benchmark will require a survey. It will assess how well counties can respond to, and recover from, a natural or other disaster.

48. Index of Serious Crimes (willful murder, aggravated assault, burglary, larceny, motor vehicle theft, arson) per 1,000 Oregonians

49. Other crimes punishable by statute (e.g., negligent homicide, kidnapping, simple assault, forgery, fraud, vandalism, weapon laws, drug and liquor laws, prostitution) per 1,000 Oregonians

Explanation: These benchmarks replace several on overall crime, property crime, and personal crime. Index crimes, also known as 'Part I' crimes, are defined at the national level. *Rationale:* These are fundamental measures of public safety in Oregon. *Data source:* Report of Criminal Offenses and Arrests, Criminal Justice Services Division (Law Enforcement Data System).

50. Juvenile arrests per 1,000 juvenile Oregonians per year

Explanation: This benchmark measures the rate of arrests of all types of crimes committed in Oregon by juveniles as reported by Oregon law enforcement agencies. This benchmark does not measure crimes which in fact are committed by juveniles but for which there are no juvenile arrests resulting in clearances of those crimes. *Rationale:* The data for this benchmark do not take into account differences between reported crime rates and actual crime rates. This benchmark differs from the other crime rate benchmarks in that it focuses on the nature of the criminal rather than on the nature of the crime. *Data source:* Oregon Criminal Justice Services Division (Law Enforcement Data System).

51. The average rate of reincarceration of paroled offenders within three years of initial release

Explanation: This is a measure of felon behavior after being returned to the community. Reincarceration may be based on either criminal behavior or violations of parole conditions. *Rationale:* This is a critical measure of public safety and our ability to help felons succeed in the community. *Data source:* Oregon Department of Corrections. In future reports, this benchmark will be replaced by Percentage of felons who commit new felonies within three years of reentry into the community, which is a more direct measure of felon behavior, and is not dependent on limits on revocations.

52. Percentage of arrestees who have one or more drugs in their system at time of arrest

Rationale: This is a direct measure of the prevalence of drug use among offenders, and the link between drug use and crime. *Data source:* This data is not currently gathered statewide. Benchmark data are taken from a study of arrestees in Multnomah, Deschutes, and Coos counties.

53. Percentage of parole revocations involving substance abuse problems

Explanation: This is a measure of incidence of substance abuse problems. Parole revocation is based on a combination of factors, substance abuse is not considered independently. *Rationale:* Substance abuse is prevalent among those whose parole is revoked, and is central to public safety issues overall. *Data source:* This data has not been gathered regularly. Data for 1992 is taken from *Community Supervision to Prison: A Study of Felony Probation and Parole Revocations*, Oregon Department of Corrections.

54. Number of communities involved in a community-based strategic plan for law enforcement

Explanation: This is a measure of statewide development of community-policing plans as coordinated interagency efforts, consistent with statewide and regional policies, and driven by standard measures of enforcement effectiveness. *Rationale:* Achievement of this benchmark will help improve public safety in communities statewide, making them more responsive, more effectively linked with related efforts, and outcomes driven. *Data source:* Data for this benchmark will need to be developed.

55. Time the judicial system takes to resolve cases

Explanation: These benchmarks and goals have been adopted by the Oregon Judicial Conference, and incorporate portions of national bar and judicial standards. *Rationale:* This is a measure of judicial fairness and efficiency. *Data source:* Judicial Department.

56. Felony arrest rate per 100,000 community adult population

57. Felony conviction rate per 100,000 community adult population

Explanation: These benchmarks contrast racial and ethnic communities' arrest and conviction rates with their share of Oregon's adult population. Future reports will include measures of underlying characteristics of felons associated with criminal behavior. *Rationale:* These are measures of evenhandedness of the judicial system at two important points. *Data source:* 1991 data from the Department of Corrections Data. Community adult population share of overall adult population is taken from Census data. Intercensal estimates of share of adult population are currently unavailable.

58-59. Victimization rates: Homicides and hate crimes per 100,000 community adult population

Explanation: This is a measure of incidence of crimes by race or ethnicity of the victim, weighted by the victim's group's share of the overall population. *Rationale:* These are measures of the relative public safety of racial and ethnic communities in Oregon. They help describe the challenge we face in making all Oregonians safer. *Data source:* Report of Criminal Offenses and Arrests, and Report of Criminal Offenses Motivated by Prejudice, Criminal Justice Services Division, and Census data on community percentage of overall state population. Data are not available for crimes victims generally. Homicide figures are based on five year averages ending in 1979, 1989, and 1991, respectively. Overall figures are based on annual estimates from the Portland State University Center for Population Research.

(2) When the judge recommends a custodial facility or program other than jail as a condition of probation, the judge shall sentence the defendant directly to the custody of the supervisory authority, as defined in rules of the State Sentencing Guidelines Board, with jurisdiction over the facility or program. Before imposing such a sentence, the judge must determine from the supervisory authority that space is available in the facility or program and that the defendant meets the eligibility criteria established for the facility or program.

(1) If a person pleads guilty or no contest to, or is found guilty of, a crime described in ORS 163.305 to 163.465, and if the court contemplates placing the person on probation, the court, before entering judgment, may order that the person undergo an examination by a psychiatrist or other physician found qualified and appointed by the court to determine whether available medical treatment would be likely to reduce such biological, emotional or psychological impulses, including any paraphilia,

which may be the cause of the criminal conduct and, if so, whether the person is a suitable candidate medically for such treatment. Such medical treatments may include the taking of prescribed medication.

(2) If the examining psychiatrist or other physician reports that available medical treatment would be likely to reduce the biological, emotional or psychological impulses that were a probable cause of the criminal conduct, and that the person is a suitable candidate medically for such treatment, the court may include as a condition of probation that the person participate in a prescribed program of medicine and accept medical treatment at the person's own expense under the care of the psychiatrist or other physician appointed by the court and that the person faithfully participate in the prescribed program of medical treatment during the course of the probation.

(1) Probation officers, when directed by the court, shall fully investigate and report to the court in writing on the circumstances of the offense, criminal record, social history and present condition and environment of any defendant; and unless the court directs otherwise in individual cases, no defendant shall be placed on probation until the report of such investigation has been presented to and considered by the court.

(2) Whenever a presentence report is made, the preparer of the report shall make a reasonable effort to contact the victim and obtain a statement describing the effect of the defendant's offense upon the victim. If the victim is under 18 years of age, the preparer shall obtain the consent of the victim's parent or guardian before contacting the victim. The preparer of the report shall include the statement of the victim in the presentence investigation report. If the preparer is unable to contact the victim or if the victim declines to make a statement, the preparer shall report that the preparer was unable to contact the victim after making reasonable efforts to do so, or, if contact was made with the victim, that the victim declined to make a statement for purposes of

this section. Before taking a statement from the victim, the preparer of the report shall inform the victim that the statement will be made available to the defendant and the defendant's attorney prior to sentencing as required under ORS 137.079.

(3) Whenever desirable, and facilities exist therefor, such investigation shall include physical and mental examinations of such defendants.

(4) As used in this section, "victim" means the person or persons who have suffered financial, social, psychological or physical harm as a result of an offense, and includes, in the case of any homicide, an appropriate member of the immediate family of any such person. [Amended by 1983 c.723 §1]

137.540 Conditions of probation; evaluation and treatment; effect of failure to abide by conditions; modification. (1) The court may place the defendant on probation, which shall be subject to the following general conditions unless specifically deleted by the court. The probationer shall:

(a) For crimes committed prior to November 1, 1989, and misdemeanors committed on or after November 1, 1989, be confined to the county jail or be restricted to the probationer's own residence or to the premises thereof, or be subject to any combination of such confinement and restriction, such confinement or restriction or combination thereof to be for a period not to exceed one year or one-half of the maximum period of confinement that could be imposed for the offense for which the defendant is convicted, whichever is the lesser. (L) Neither own, possess nor control any firearm or any other specified weapon.

(m) Submit person, residence, vehicle and property to search by a probation officer having reasonable grounds to believe such search will disclose evidence of a probation violation. This condition may be set when it is reasonably related to the nature of the offense or treatment of the offender.

(3)(a) As a condition of probation, the court may require the defendant to report to any state or local mental health facility or other appropriate mental health program for evaluation. Whenever medical, psychiatric or psychological treatment is recommended, the court may order the defendant, as a condition of probation, to cooperate with and accept the treatment from the facility or program.

(b) The facility or program to which the defendant has been referred for evaluation shall perform such evaluation and submit a written report of its findings to the court. If the facility or program finds that treatment of the defendant is appropriate, it shall include its recommendations for treatment in the report to the court.

(c) Whenever treatment is provided by the facility or program, it shall furnish reports to the court on a regular basis concerning the progress of the defendant.

(d) Copies of all reports submitted to the court pursuant to this section shall be furnished to the defendant and the counsel of the defendant. The confidentiality of these reports shall be determined pursuant to ORS 192.501 to 192.505.

(5)(a) As a condition of probation, the court may require the defendant to:

(A) Be evaluated as provided in ORS 137.227. If the evaluation finds the defendant to be an alcoholic or a drug-dependent person, and if public or private resources are available, the court shall order, as an additional condition of probation, the defendant to enroll, participate in and successfully complete an appropriate treatment program for alcohol or drug dependency problems. An evaluation will not be required if the court has entered a finding that the defendant is an alcoholic or a drug-dependent person under ORS 137.228.

(6) Failure to abide by all general and special conditions imposed by the court and supervised by the probation department and its representatives may result in arrest, revocation of probation or notification of the violation to the sentencing court.

(7) The court may at any time modify the conditions of probation.

(8) It shall not be a cause for revocation of probation that the probationer failed to apply for or accept employment at any workplace where there is a labor dispute in progress. As used in this subsection, "labor dispute" has the meaning for that term provided in ORS 662.010. [Amended by 1965 c.346 §1; 1969 c.597 §125; 1977 c.371 §3; 1977 c.380 §2; 1981 c.671 §1; 1983 c.588 §2; 1985 c.818 §2; 1987 c.780 §3; 1989 c.790 §16; 1991 c.196 §1; 1991 c.630 §5; 1991 c.731 §1]

137.550 Period of probation; discharge from probation; proceedings in case of violation of conditions. (1) Subject to the limitations in ORS 137.010 and to rules of the State Sentencing Guidelines Board for felonies committed on or after November 1, 1989:

(a) The period of probation shall be such as the court determines and may, in the dis-

cretion of the court, be continued or extended.

(b) The court may at any time discharge a person from probation.

(2) At any time during the probation period, the court may issue a warrant and cause a defendant to be arrested for violating any of the conditions of probation. Any probation officer, police officer or other officer with power of arrest may arrest a probationer without a warrant for violating any condition of probation, and a statement by the probation officer setting forth that the probationer has, in the judgment of the probation officer, violated the conditions of probation is sufficient warrant for the detention of the probationer in the county jail until the probationer can be brought before the court. The probation officer, as soon as practicable, but within one judicial day, shall report such arrest or detention to the court that imposed the probation. The probation officer shall promptly submit to the court a report showing in what manner the probationer has violated the conditions of probation.

(3) Except for good cause shown or at the request of the probationer, the probationer shall be brought before a magistrate during the first 36 hours of custody, excluding holidays, Saturdays and Sundays. That magistrate, in the exercise of discretion, may order the probationer held pending revocation hearing or pending transfer to the jurisdiction of another court where the probation was imposed. In lieu of an order that the probationer be held, the magistrate may release the probationer upon the condition that the probationer appear in court at a later date for a probation revocation hearing. If the probationer is being held on an out-of-county warrant, the magistrate may order the probationer released subject to an additional order to the probationer that the probationer report within seven calendar days to the court that imposed the probation.

(4)(a) For defendants sentenced for felonies committed prior to November 1, 1989, and for any misdemeanor, the court that imposed the probation, after summary hearing, may revoke the probation:

(A) If the execution of sentence has been suspended, the court shall cause the sentence imposed to be executed.

(B) If no sentence has been imposed, the court may impose any sentence which originally could have been imposed.

(b) For defendants sentenced for felonies committed on or after November 1, 1989, the court that imposed the probationary sentence may revoke probation supervision and impose a sanction as provided by rules of the State Sentencing Guidelines Board.

(5) Except for good cause shown, if the revocation hearing is not conducted within 14 calendar days following the arrest or detention of the probationer, the probationer shall be released from custody.

(6) A defendant who has been previously confined in the county jail as a condition of probation pursuant to ORS 137.540 or as part of a probationary sentence pursuant to the rules of the State Sentencing Guidelines Board may be given credit for all time thus served in any order or judgment of confinement resulting from revocation of probation.

(7) In the case of any defendant whose sentence has been suspended but who is not on probation, the court may issue a warrant and cause the defendant to be arrested and brought before the court at any time within the maximum period for which the defendant might originally have been sentenced. Thereupon the court, after summary hearing, may revoke the suspension of sentence and cause the sentence imposed to be executed.

(8) If a probationer fails to appear or report to a court for further proceedings as required by an order under subsection (3) of this section, the failure to appear may be prosecuted in the county to which the probationer was ordered to appear or report. [Amended by 1955 c.688 §2; 1965 c.346 §2; 1971 c.743 §326; 1987 c.908 §1; 1989 c.790 §17; 1991 c.196 §2]

137.551 Revocation of probationary sentences; release dates; rules. (1) The State Board of Parole and Post-Prison Supervision shall adopt rules to establish release dates for revocations of probationary sentences imposed for felonies committed before November 1, 1989.

(2) To the extent permissible under law, the release dates for revocation of probationary sentences imposed for felonies committed before November 1, 1989, shall be set consistent with sanctions for probation revocations as provided by rules of the State Sentencing Guidelines Board for felonies committed on or after November 1, 1989. [1989 c.790 §18a]

Note: 137.551 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 137 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

137.553 Use of citations for probation violations authorized. (1) In addition to any authority granted under ORS 137.550, a court may authorize the use of citations to direct its probationers who violate conditions of probation to appear before the court. The following apply to the use of citations under this subsection:

(a) A court may authorize issuance of citations under this subsection only by officers

who are permitted under ORS 137.550 to make an arrest without a warrant.

(b) Nothing in this subsection limits the authority, under ORS 137.550, of a probation officer, police officer or other officer to arrest for violation of conditions of probation even if the officer is authorized under this section to issue a citation.

(c) A court may impose any conditions upon an authorization under this subsection that the court considers appropriate. The conditions may include, but are not limited to, requirements that citation authority be sought on a case by case basis, provision for citation in all cases that meet certain conditions, allowance of citation for certain types of cases or designation of certain cases where citations shall not be used.

(2) The cited probationer shall appear before the court at the time, date and court specified in the citation. If the probationer fails to appear at the time, date and court specified in the citation, the court may issue a warrant of arrest, upon the request of the supervisor of probation, or upon request of the district attorney, or upon the court's own motion. [1987 c.761 §2]

137.557 Citation; procedure; contents.

(1) If a citation is issued under ORS 137.553, the officer who issues the citation shall serve one copy of the citation to the probationer who is cited to appear and shall, as soon as practicable, file a duplicate copy with the court in which the probationer is cited to appear, along with proof of service.

(2) Each copy of the citation issued under ORS 137.553 shall contain:

(a) The name of the court at which the cited probationer is to appear.

(b) The name of the probationer cited.

(c) A brief description of the asserted probation violation, the date, the time and the place at which the violation occurred, the date on which the citation was issued and the name of the officer who issued the citation.

(d) The time, date and place at which the cited probationer is to appear in court.

(e) A notice to the effect that:

(A) The citation is not itself a motion to revoke probation, but that such a motion will be filed and a copy provided to the probationer when the probationer appears at court;

(B) The probationer must appear in court at the time set in the citation; and

(C) If the probationer fails to appear as directed, the court may immediately issue a warrant for the probationer's arrest or the

probationer may immediately be taken into custody by the officer responsible for supervising the probation. [1987 c.761 §3]

137.560 Copies of certain judgments to be sent to Department of Corrections. Within 10 days following the issuing of any judgment of suspension or imposition or execution of sentence or of probation of any person convicted of a crime, or of the continuation, extension, modification or revocation of any such judgment, or of the discharge of such person, or the recommendation by the court to the Governor of the pardon of such person, provided such person is under the jurisdiction of the Department of Corrections, the court issuing such a judgment shall cause prompt delivery of a copy of the same to the Director of the Department of Corrections. [Amended by 1973 c.836 §271; 1979 c.75 §1; 1987 c.320 §39; 1991 c.111 §16]

137.570 Authority to transfer probationer from one agency to another; procedure. A court may transfer a person on probation under its jurisdiction from the supervision of one probation agency to that of another probation agency. Whenever a person placed on probation resides in or is to remove to a locality outside the jurisdiction of the court which placed such person on probation, such court may transfer such person to a probation officer appointed to serve for the locality in which such person resides or to which the person is to remove:

(1) If such probation officer sends to the court desiring to make such transfer a written statement that the probation officer will exercise supervision over such person.

(2) If the statement is approved in writing by the judge of the court to which such probation officer is attached. [Amended by 1973 c.836 §272]

137.580 Effect of transfer of probationer from one agency to another. Whenever the transfer mentioned in ORS 137.570 is made, the court making it shall send to the probation agency to whose supervision the probationer is transferred a copy of all the records of such court as to the offense, criminal record and social history of the probationer. The probation agency shall report concerning the conduct and progress of the probationer to the court that placed the probationer on probation. Probation officers or agencies shall have, with respect to persons transferred to their supervision from any other jurisdiction, all the powers and be subject to all the duties now imposed by law upon them in regard to probationers received on probation from courts in their own jurisdiction. Appointments shall be in writing and entered on the records of the court. Probation officers and clerical assistants appointed under this section are not state officers or employees, and their compensation and expenses shall not be paid by the state. [Amended by 1971 c.633 §12; 1973 c.836 §274; 1981 s.s. c.3 §38]

The judge or judges of any court of criminal jurisdiction, including municipal courts, may request at any time the staff of the Department of Corrections to perform any of the duties which might be required of a probation officer appointed by the court pursuant to ORS 137.590. All such requests for services of the staff shall be made upon the Director of the Department of Corrections, who shall order the prompt performance of any such requested service whenever members of the staff are available for such duty. [Amended by 1969 c.597 §126; 1987 c.320 §40]

137.620 Powers of probation officers; oath of office; bond; audit of accounts. Each probation officer appointed by the court, before entering on the duties of office, shall take an oath of office. Each probation officer who collects or has custody of money shall execute a bond in a penal sum to be fixed by the court, with sufficient sureties approved thereby, conditioned for the honest accounting of all money received by the probation officer as probation officer. The accounts of all probation officers shall be subject to audit at any time by the proper fiscal authorities. [Amended by 1973 c.836 §275; 1987 c.320 §41]

137.630 Duties of probation officers. (1) The duties of probation officers appointed pursuant to ORS 137.590 or 423.500 to 423.560 shall be:

The board shall consider as an aggravating factor the fact that the prisoner has been sentenced to consecutive terms of imprisonment.

(b) Whenever a prisoner is committed to the custody of the Department of Corrections for a crime that was committed during a period already considered at an initial parole hearing and upon a sentence consecutive to any sentence imposed for crimes committed during that period, the board shall conduct a hearing to consider the previously unconsidered crime. The hearing shall be a hearing supplemental to the original initial hearing concerning crimes committed during the period. Time limitations and other procedural provisions applicable to initial hearings shall apply to a supplemental hearing under this subsection. Upon conclusion of the supplemental hearing, the board shall redetermine the appropriate total term for the period. The redetermination shall be conducted de novo under the provisions of subsection (2) of this section.

(2) The method established by this section for determining, where applicable, the total term resulting from the summing of consecutive sentences shall apply only if none of the crimes involved is:

(3) The duration of imprisonment pursuant to consecutive sentences may be less than the sum of the terms under subsection (1) of this section if the board finds, by affirmative vote of a majority of its members that consecutive sentences are not appropriate penalties for the criminal offenses involved and that the combined terms of imprisonment are not necessary to protect community security.

(4) The State Board of Parole and Post-Prison Supervision shall use the method set forth in subsections (1) to (3) of this section to determine the parole release date for any person serving a sentence in the custody of the Department of Corrections for crimes committed before or after July 11, 1987. (d) Any other information relevant to the prisoner's reintegration into the community that may be submitted by the prisoner, the prisoner's attorney, the victim of the crime, the Department of Corrections or any other person.

(2) The board must attempt to notify the victim before the review of the release plan by sending written notice to the victim if the victim requests to be notified and furnishes the board with a current address. The notice must inform the victim that the victim may submit information concerning the prisoner and the crime to the board for the board's consideration.

(3) The department shall provide to the board any psychiatric or psychological reports held by the department regarding the prisoner. However, if the psychiatrist or psychologist who prepared the report or any treating psychiatrist or psychologist determines that disclosure to the prisoner of the contents of the report would be detrimental to the prisoner's mental or emotional health, the psychiatrist or psychologist may indorse upon the report a recommendation that it not be disclosed to the prisoner. The department may withhold from the board any report so indorsed. [1989 c.790 §32b]

If the board requires attendance under this paragraph, the board may require the person, as an additional condition of post-prison supervision, to pay a reasonable fee to the victim impact program to offset the cost of the person's participation. The board shall not order a person to pay a fee in excess of \$5 under this paragraph.

(3) The board may establish such special conditions as it shall determine are necessary because of the individual circumstances of the person under post-prison supervision.

(4) The board may require the person to pay, as a condition of post-prison supervision, any compensatory fines, restitution or attorney fees imposed by the sentencing court.

(5) A person's failure to apply for or accept employment at any workplace where there is a labor dispute in progress may not constitute a violation of the conditions of post-prison supervision. As used in this subsection, "labor dispute" has the meaning given that term in ORS 662.010. [1989 c.790 §32a; 1991 c.597 §1]

Note: See note under 144.096.

144.103 Term of post-prison supervision for person convicted of certain sexual offenses. Any costs incurred as a result of this section shall be paid by increased post-prison supervision fees under ORS 423.570. [1991 c.831 §1]

Note: 144.103 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 144 by legislative action. See Preface to Oregon Revised Statutes for further explanation.

144.104 Supervisory authority; revising conditions. (1) Upon release from prison, the person shall be supervised by the Department of Corrections or the corrections agency designated by the department.

(2) During the period of post-prison supervision, the supervisory authority may adjust the level of supervision and recommend to the State Board of Parole and Post-Prison Supervision revisions to the conditions of supervision appropriate to the released person's conduct in the community. [1989 c.790 §§33, 34]

(1) Except as otherwise provided by rules of the Department of Corrections and the State Board of Parole and Post-Prison Supervision concerning parole and post-prison supervision violators, the supervisory authority shall use a continuum of administrative sanctions for violations of the conditions of post-prison supervision.

(2) The sanction continuum shall include adjustments to the level of supervision and, as approved by the State Board of Parole and Post-Prison Supervision:

(b) Any other appropriate available local sanctions including, but not limited to, community service work, house arrest, electronic surveillance, restitution centers, work release centers, day centers or other local sanctions established by agreement with the supervisory authority.

(3) If the local sanction requires confinement for more than 15 days in a restitution center, work release center or jail, the board or its designated representative shall hold a hearing under the procedures in ORS 144.315 to 144.380. [1989 c.790 §35; 1991 c.836 §1]

Note: See note under 144.096.

144.108 Recommitment to prison for certain violations; procedure; effect of recommitment. (1) If the violation of post-prison supervision is new criminal activity or if the supervisory authority finds that local sanctions are insufficient punishment for a violation of the conditions of post-prison supervision, the supervisory authority may request the State Board of Parole and Post-Prison Supervision to return the released person to a state correctional facility.

(2) If so requested, the board or its designated representative shall hold a hearing to determine whether imprisonment is appropriate. Except as otherwise provided by rules of the Department of Corrections con-

cerning parole and post-prison supervision violators, the board may impose a term of imprisonment up to the maximum provided by rules of the State Sentencing Guidelines Board. In conducting a hearing pursuant to this subsection, the board or its designated representative shall follow the procedures and the offender shall have all the rights described in ORS 144.343 and 144.347 relating to revocation of parole.

[1989 c.790 §36]

Note: See note under 144.096.

PAROLE PROCESS

144.110 Restriction on parole of persons sentenced to minimum terms. (1) In any felony case, the court may impose a minimum term of imprisonment of up to one-half of the sentence it imposes.

(2) Notwithstanding the provisions of ORS 144.120 and 144.780:

(a) The board shall not release a prisoner on parole who has been sentenced under subsection (1) of this section until the minimum term has been served, except upon affirmative vote of a majority of the members of the board.

(b) The board shall not release a prisoner on parole who has been convicted of murder defined as aggravated murder under the provisions of ORS 163.095, except as provided in ORS 163.105. [1977 c.372 §4; 1991 c.126 §5]

Note: Section 28, chapter 790, Oregon Laws 1989, provides:

Sec. 28. The provisions of ORS 144.110, 144.120, 144.122, 144.125, 144.130, 144.135, 144.185, 144.223, 144.245, 144.270 and 144.305 apply only to offenders convicted of a crime committed prior to November 1, 1989, and to offenders convicted of aggravated murder regardless of the date of the crime. [1989 c.790 §28]

144.120 Initial parole hearing; initial release date determination; delay of initial determination; notification of victim. (1)(a) Within six months of the admission of a prisoner to any Department of Corrections

institution, with the exception of those prisoners sentenced to a term of imprisonment for life or for more than five years, the board shall conduct a parole hearing to interview the prisoner and set the initial date of release on parole pursuant to subsection (2) of this section. For those prisoners sentenced to a term of imprisonment for more than five years but less than 15 years, the board shall conduct the parole hearing and set the initial date of release within eight months following admission of the prisoner to the institution. For those prisoners sentenced to a term of imprisonment for life or for 15 years or more, with the exception of those sentenced for aggravated murder, the board shall conduct the parole hearing, and shall set the initial release date, within one year following admission of the prisoner to the institution. Release shall be contingent upon satisfaction of the requirements of ORS 144.125.

(b) Those prisoners sentenced to a term of imprisonment for less than 15 years for commission of an offense designated by rule by the board as a non person-to-person offense may waive their rights to the parole hearing. When a prisoner waives the parole hearing, the initial date of release on parole may be set administratively by the board pursuant to subsections (2) to (6) of this section. If the board is not satisfied that the waiver was made knowingly or intelligently or if it believes more information is necessary before making its decision, it may order a hearing.

(2) In setting the initial parole release date for a prisoner pursuant to subsection (1) of this section, the board shall apply the appropriate range established pursuant to ORS 144.780. Variations from the range shall be in accordance with ORS 144.785.

(3) In setting the initial parole release date for a prisoner pursuant to subsection (1) of this section, the board shall consider the presentence investigation report specified in ORS 144.790 or, if no such report has been prepared, a report of similar content prepared by the Department of Corrections.

(4) Notwithstanding subsection (1) of this section, in the case of a prisoner whose offense included particularly violent or otherwise dangerous criminal conduct or whose offense was preceded by two or more convictions for a Class A or Class B felony or whose record includes a psychiatric or psychological diagnosis of severe emotional disturbance such as to constitute a danger to the health or safety of the community, the board may choose not to set a parole date.

(5) After the expiration of six months after the admission of the prisoner to any Department of Corrections institution, the

board may defer setting the initial parole release date for the prisoner for a period not to exceed 90 additional days pending receipt of psychiatric or psychological reports, criminal records or other information essential to formulating the release decision.

(6) When the board has set the initial parole release date for a prisoner, it shall inform the sentencing court of the date.

(7) The State Board of Parole and Post-Prison Supervision must attempt to notify the victim, if the victim requests to be notified and furnishes the board a current address, and the district attorney of the committing county at least 30 days before all hearings by sending written notice to the current addresses of both. The victim, personally or by counsel, and the district attorney from the committing jurisdiction shall have the right to appear at any hearing or, in their discretion, to submit a written statement adequately and reasonably expressing any views concerning the crime and the person responsible. The victim and the district attorney shall be given access to the information that the board or division will rely upon and shall be given adequate time to rebut the information. Both the victim and the district attorney may present information or evidence at any hearing, subject to such reasonable rules as may be imposed by the officers conducting the hearing. For the purpose of this subsection, "victim" includes the actual victim, a representative selected by the victim or the victim's next of kin. [1977 c.372 §5; 1981 c.426 §1; 1985 c.283 §2; 1987 c.2 §14; 1987 c.320 §51; 1987 c.881 §1; 1989 c.589 §3; 1991 c.126 §6]

Note: See note under 144.110.

144.122 Advancing initial release date; requirements; rules. (1) After the initial parole release date has been set under ORS 144.120 and after a minimum period of time established by the board under paragraph (a) of subsection (2) of this section, the prisoner may request, and the board may grant, that the parole release date be reset to an earlier date only upon a showing by the prisoner of:

(a) An extended course of conduct indicating outstanding reformation; or

(b) A severe medical condition including terminal illness.

(2) The Advisory Commission on Prison Terms and Parole Standards may propose to the board and the board shall adopt rules:

(a) Establishing minimum periods of time to be served by prisoners before application may be made for a reset of release date under subsection (1) of this section; and

(b) Detailing the criteria set forth under subsection (1) of this section for the resetting of a parole release date.

(3) The provisions of paragraph (b) of subsection (1) of this section apply to prisoners sentenced in accordance with ORS 161.610. [1983 c.489 §2; 1991 c.133 §1]

144.125 Review of parole plan, psychological reports and conduct prior to release; release postponement; criteria for parole plan; Department of Corrections assistance. (1) Prior to the scheduled release of any prisoner on parole and prior to release rescheduled under this section, the board may upon request of the Department of Corrections or on its own initiative interview the prisoner to review the prisoner's parole plan and psychiatric or psychological report, if any, and the record of the prisoner's conduct during confinement. To accommodate such review by the board, the Department of Corrections shall provide to the board any psychiatric or psychological reports held by the department regarding the prisoner. However, if the psychiatrist or psychologist who prepared any report or any treating psychiatrist or psychologist determines that disclosure to the prisoner of the contents of the report would be detrimental to the prisoner's mental or emotional health, the psychiatrist or psychologist may indorse upon the report a recommendation that it not be disclosed to the prisoner. The department may withhold from the board any report so indorsed.

(2) The board shall postpone a prisoner's scheduled release date if it finds, after a hearing, that the prisoner engaged in serious misconduct during confinement. The board shall adopt rules defining serious misconduct and specifying periods of postponement for such misconduct.

(3) If a psychiatric or psychological diagnosis of present severe emotional disturbance such as to constitute a danger to the health or safety of the community has been made with respect to the prisoner, the board may

order the postponement of the scheduled parole release until a specified future date.

(4) Each prisoner shall furnish the board with a parole plan prior to the scheduled release of the prisoner on parole. The board shall adopt rules specifying the elements of an adequate parole plan and may defer release of the prisoner for not more than three months if it finds that the parole plan is inadequate. The Department of Corrections shall assist prisoners in preparing parole plans. [1977 c.372 §6; 1981 c.426 §2; 1987 c.320 §53; 1989 c.790 §68]

Note: See note under 144.110.

144.126 Advancing release date of prisoner with severe medical condition including terminal illness. The State Board of Parole and Post-Prison Supervision may advance the release date of a prisoner suffering from a severe medical condition including terminal illness who was sentenced in accordance with rules of the State Sentencing Guidelines Board or ORS 161.610. [1989 c.790 §27a; 1991 c.133 §2]

144.130 Prisoner to have access to written materials considered at hearings or interviews; access procedures. (1) Notwithstanding the provisions of ORS 179.495, prior to a parole hearing or other personal interview, each prisoner shall have access to the written materials which the board shall consider with respect to the release of the prisoner on parole, with the exception of materials exempt from disclosure under ORS 192.502 (4).

(2) The board and the Director of the Department of Corrections shall jointly adopt procedures for a prisoner's access to written materials pursuant to this section. [1977 c.372 §8; 1987 c.320 §54]

Note: See note under 144.110.

144.221 [1975 c.564 §2 (enacted in lieu of 144.220); repealed by 1977 c.372 §18]

144.223 Examination by psychiatrist or psychologist of parole candidate; report; copies to affected persons. (1) The State Board of Parole and Post-Prison Supervision may require any prisoner being considered for parole to be examined by a psychiatrist or psychologist before being released on parole.

(2) Within 60 days after the examination, the examining psychiatrist or psychologist shall file a written report of the findings and conclusions of the psychiatrist or psychologist relative to the examination with the chairman of the State Board of Parole and Post-Prison Supervision. A certified copy of the report shall be sent to the convicted person, to the attorney of the convicted person and to the executive officer of the Department of Corrections institution in which the convicted person is confined. [1977 c.379 §2; 1987 c.320 §56]

prior to the parole consideration hearing under ORS 144.228 or the last day of the presumptive sentence established under ORS 161.737 and at least every two years thereafter be given a complete mental and psychiatric or psychological examination by a psychiatrist or psychologist appointed by the State Board of Parole and Post-Prison Supervision. Within 60 days after the examination, the examining psychiatrist or psychologist shall file a written report of findings and conclusions relative to the examination with the Director of the Department of Corrections and chairperson of the State Board of Parole and Post-Prison Supervision.

(2) The examining psychiatrist or psychologist shall include in the report a statement as to whether or not in the psychiatrist's or psychologist's opinion the convicted person has any mental or emotional disturbance or deficiency or condition predisposing the person to the commission of any crime to a degree rendering the examined person a menace to the health or safety of others. The report shall also contain any other information which the examining psychiatrist or psychologist believes will aid the State Board of Parole and Post-Prison Supervision in determining whether the examined person is eligible for parole or release. The report shall also state the progress or changes in the condition of the examined person as well as any recommendations for treatment. A certified copy of the report shall be sent to the convicted person, to the convicted person's attorney and to the executive officer of the Department of Corrections institution in which the convicted person is confined. The parole consideration hearing date shall be the earliest time the prisoner is eligible for parole under the board's rules.

(b) At the parole consideration hearing, the prisoner shall be given a release date in accordance with the applicable range and variation permitted if the condition which made the prisoner dangerous is absent or in remission. In the event that the dangerous

condition is found to be present, reviews will be conducted at least once every two years until the condition is absent or in remission, at which time release on parole shall be ordered if the prisoner is otherwise eligible under the rules. In no event shall the prisoner be held beyond the maximum sentence less good time credits imposed by the court.

(c) Nothing in this section shall preclude a prisoner from submitting a request for a parole consideration hearing prior to the earliest time the prisoner is eligible for parole or a two-year review. Should the board find, based upon the request, that there is a reasonable cause to believe that the dangerous condition is in remission based upon the information provided in the request, it shall conduct a review as soon as is reasonably convenient.

(2) For the parole consideration hearing, the board shall cause to be brought before it and consider all information regarding such person. The information shall include:

(a) The written report of the examining psychiatrist or psychologist which shall contain all the facts necessary to assist the State Board of Parole and Post-Prison Supervision in making its determination. (A) A detailed account of the person's conduct while confined, all infractions of rules and discipline, all punishment meted out to the person and the circumstances connected therewith, as well as the extent to which the person has responded to the efforts made in the institution to improve the person's mental and moral condition.

(B) A statement as to the person's present attitude towards society, towards the sentencing judge, towards the prosecuting district attorney, towards the arresting police officer and towards the person's previous criminal career.

(C) The industrial record of the person while in or under the supervision of the institution, showing the average number of hours per day that the person has been employed, the nature of the occupations and a recommendation as to the kind of work, if any, the person is best fitted to perform and at which the person is most likely to succeed upon leaving the institution in which the person has been confined. [1955 c.636 §5; 1961 c.424 §6; 1971 c.743 §339; 1973 c.836 §291; 1981 c.644 §5; 1985 c.283 §4; 1987 c.320 §58; 1991 c.318 §2]

(1) A person sentenced under ORS 161.725 and 161.735 as a dangerous offender for felonies committed on or after November 1, 1989, shall be considered for release to post-prison supervision. The offender is eligible for release to post-prison supervision after having served the presumptive sentence established under ORS 161.737.

(2) The State Board of Parole and Post-Prison Supervision shall hold a release hearing no later than 10 days prior to the date on which the offender becomes eligible for release on post-prison supervision as provided in subsection (1) of this section.

(3) The dangerous offender's eligibility for and release to post-prison supervision shall be determined in a manner consistent with the procedures and criteria required by ORS 144.228 for the parole determination process applicable to dangerous offenders sentenced for crimes committed prior to November 1, 1989.

(4) An offender released under this section shall serve the remainder of the sentence term imposed under ORS 161.725 and 161.735 on post-prison supervision, however:

(a) Notwithstanding ORS 137.010 or the rules of the State Sentencing Guidelines Board, the State Board of Parole and Post-Prison Supervision may return an offender to prison for a maximum period of 180 days as a sanction for any supervision violation. The sanction may be imposed repeatedly during the term of post-prison supervision for subsequent supervision violations.

(b) The board may at any time require the offender to submit to a psychiatric examination as provided for in ORS 144.226. If the board determines, as a result of the examination, that the condition that made the prisoner dangerous is no longer in remission or has otherwise returned, the board shall return the offender to prison for an indefinite period of time. An offender returned to prison under this paragraph is entitled to periodic reviews once every two years for possible release to post-prison supervision as provided by subsection (3) of this section. not eligible for parole, in which case the prisoner shall not be released until the expiration of the minimum term.

(2) When the board has not set a date on which a prisoner is to be released upon parole, the prisoner shall be released upon a date six months prior to the expiration of the prisoner's term as computed under ORS 421.120 and 421.122 unless the prisoner on that date remains subject to an unexpired minimum term during which the prisoner is not eligible for parole, in which case the prisoner shall not be released until the expiration of the minimum term.

(3) In no case does a prisoner have a right to refuse an order granting the prisoner release upon parole. [1985 c.53 §§2, 3]

Note: See note under 144.110.

144.250 [Amended by 1973 c.836 §292; repealed by 1973 c.694 §26; see 144.183]

144.260 Notice of prospective release on parole or post-prison supervision of inmate. Prior to the release on parole or post-prison supervision of a convicted person from a Department of Corrections institution, the chairperson of the State Board of Parole and Post-Prison Supervision shall inform the Department of Corrections and the sentencing judge, the district attorney, sheriff or arresting agency of the prospective date of release and of any special conditions thereof. At least 30 days prior to the release from actual physical custody of any convicted person, other than by parole or post-prison supervision, whether such release is pursuant to work release, institutional leave, or any other means, the Department of Corrections shall notify the sentencing judge and the district attorney of the impending release. The victim may request notification of the release and if the victim has requested notification, the State Board of Parole and Post-Prison Supervision or the Department of Corrections, as the case may be, shall notify the victim in the same fashion and under the same circumstances it is required to give notification to other persons under this section. [Amended by 1969 c.597 §115; 1973 c.836 §293; 1983 c.635 §1; 1987 c.2 §15; 1987 c.320 §59; 1989 c.790 §29]

144.270 Conditions of parole; copy to parolee. (1) The State Board of Parole and Post-Prison Supervision, in releasing a person on parole, shall specify in writing the conditions of the parole and a copy of such conditions shall be given to the person paroled.

(2) The board shall determine, and may at any time modify, the conditions of parole, which may include, among other conditions, that the parolee shall:

(a) Accept the parole granted subject to all terms and conditions specified by the board.

(b) Be under the supervision of the Department of Corrections and its representatives and abide by their direction and counsel.

(c) Answer all reasonable inquiries of the board or the parole officer.

(d) Report to the parole officer as directed by the board or parole officer.

(e) Not own, possess or be in control of any weapon.

(f) Respect and obey all municipal, county, state and federal laws.

(g) Understand that the board may, in its discretion, suspend or revoke parole if it determines that the parole is not in the best interest of the parolee, or in the best interest of society.

(3) The board may establish such special conditions as it shall determine are necessary because of the individual circumstances of the parolee.

(4) It shall not be a cause for revocation of parole that the parolee failed to apply for or accept employment at any workplace where there is a labor dispute in progress. As used in this subsection, "labor dispute" has the meaning for that term provided in ORS 662.010.

(5)(a) When the State Board of Parole and Post-Prison Supervision grants an inmate parole from the custody of the Department of Corrections, the board shall order, as a condition of parole, that the inmate reside for the first six months in the county where the inmate resided at the time of the offense that resulted in the imprisonment.

(b) Upon motion of the State Board of Parole and Post-Prison Supervision, an inmate, a victim or a district attorney, the State Board of Parole and Post-Prison Supervision may waive the residency requirement only after making a finding that one of the following conditions has been met:

(A) The inmate provides proof of a job with no set ending date in a county other than the established county of residence;

(B) The inmate is found to pose a significant danger to the victim of the offender's crime, or the victim or victim's family is found to pose a significant danger to the inmate residing in the county of residence;

(C) The inmate has a spouse or biological or adoptive family residing in other than the county of residence who will be materially significant in aiding in the rehabilitation of the offender and in the success of the parole;

(D) As another condition of parole, the inmate is required to participate in a treatment program which is not available or located in the county of residence;

(E) The inmate desires to be paroled to another state; or

(F) The State Board of Parole and Post-Prison Supervision finds other good cause, of a nature similar to the other conditions listed in this paragraph, for the waiver.

(c)(A) For purposes of this subsection, "residency" means the last address at the time of the offense, as established by an examination of all the available information in the following records:

(i) An Oregon driver's license, regardless of its validity;

(ii) Records maintained by the Department of Revenue;

(iii) Records maintained by the Department of State Police, Bureau of Criminal Identification;

(iv) Records maintained by the Department of Human Resources; or

(v) Records maintained by the Department of Corrections.

(B) When an inmate did not have one identifiable address of record at the time of the offense, the inmate shall be considered to have resided in the county where the offense occurred.

(C) If the inmate is serving multiple sentences, the county of residence shall be determined according to the date of the last arrest resulting in a conviction.

(D) If the inmate is being rereleased after revocation of parole, the county of residence shall be determined according to the date of the arrest resulting in a conviction of the underlying offense. [Amended by 1973 c.694 §7; 1973 c.836 §294; 1974 s.s. c.36 §5; 1987 c.320 §60; 1987 c.780 §4; 1989 c.1023 §1; 1991 c.278 §1]

Note: See note under 144.110.

144.275 Parole of inmates sentenced to make financial restitution; schedule of payments. Whenever the State Board of Parole and Post-Prison Supervision orders the release on parole of an inmate who has been ordered to pay compensatory fines pursuant to ORS 137.101 or to make restitution pursuant to ORS 137.106, but with respect to whom payment of all or a portion of the fine or restitution was suspended until the release of the inmate from imprisonment, the board may establish a schedule by which payment of the compensatory fine or restitution shall be resumed. In fixing the schedule and supervising the paroled inmate's performance thereunder the board shall consider the factors specified in ORS 137.106 (2). The board shall provide to the

sentencing court a copy of the schedule and any modifications thereof. [1977 c.271 §6; 1989 c.46 §1]

Note: 144.275 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 144 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

144.305 Length of parole. Any parole in this state shall extend for the entire term of the offender's sentence; but active supervision of parole may be discontinued after three years if the parolee has substantially complied with the conditions of active supervision and any restitution owed to the victim has been paid. Any additional costs incurred as a result of this section shall be paid for by increased parole fees under ORS 423.570. [1987 c.2 §16; 1991 c.148 §1]

Note: See note under 144.110.

Note: 144.305 was added to and made a part of ORS chapter 144 but was not added to any smaller series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

TERMINATION OF PAROLE

144.310 Final discharge of parolee; period of active supervision. (1) When a paroled prisoner has performed the obligations of parole for such time as satisfies the State Board of Parole and Post-Prison Supervision that the prisoner's final release is not incompatible with the prisoner's welfare and that of society, the board may make a final order of discharge and issue to the paroled prisoner a certificate of discharge; but no such order of discharge shall be made within a period of less than six months after the date of release on parole, except that when the period of the sentence imposed by the court expires at an earlier date, a final order of discharge shall be made and a certificate of discharge issued to the paroled prisoner not later than the date of expiration of the sentence.

(2) A paroled prisoner shall be subject to active parole supervision during the first six months of the period of parole. The board may require a more extended period of active supervision if, in a manner provided by rule, it finds that a six-month period of supervision is incompatible with the welfare of the parolee or of society. In making a determination whether to require active parole supervision for a period longer than six months, the board may consider the extent and availability of Department of Corrections resources.

(3) The board may extend or renew the period of active parole supervision or delay discharge of a parolee if it finds, in the manner provided in ORS 144.343, that the parolee has violated the conditions or terms of parole.

(4) During the pendency of any parole violation proceedings, the running of time periods set forth in this section is stayed and the board has jurisdiction over the parolee until the proceedings are resolved. [Amended by 1963 c.625 §2; 1973 c.694 §18; 1973 c.836 §295; 1974 s.s. c.36 §6; 1981 c.425 §1; 1987 c.320 §61]

144.315 Evidence admissible before board; rules. Evidence may be received in proceedings conducted by the State Board of Parole and Post-Prison Supervision even though inadmissible under rules of evidence applicable to court procedure and the board shall establish procedures to regulate and provide for the nature and extent of the proofs and evidence and method of taking and furnishing the same in order to afford the inmate a reasonable opportunity for a fair hearing. The procedures shall include the means of determining good cause not to allow confrontation of witnesses or disclosure of the identity of informants who would be subject to risk of harm if their identity is disclosed. [1973 c.694 §22]

144.317 Appointment of attorneys; payment. (1) The State Board of Parole and Post-Prison Supervision shall have the power to appoint attorneys, at board expense, to represent indigent parolees and offenders on post-prison supervision if the request and determination provided in ORS 144.343 (3)(f) have been made.

(2) Upon completion of the parole or post-prison supervision revocation hearing, the board shall determine whether the person for whom counsel was appointed pursuant to subsection (1) of this section is able to pay a portion of the attorney fees to be paid by the board. In determining whether the person is able to pay such portion, the board shall take into account the other financial obligations of the person, including any existing fines or orders to make restitution. If the board determines that the person is able to pay such portion, the board may order, as a condition of parole or post-prison supervision, that the person pay the portion to the appropriate officer of the state. [1973 c.694 §23; 1981 c.644 §6; 1987 c.803 §16; 1989 c.790 §40]

144.320 [Repealed by 1961 c.412 §5]

144.330 [Amended by 1973 c.836 §296; repealed by 1973 c.694 §8 (144.331 enacted in lieu of 144.330)]

144.331 Suspension of parole or post-prison supervision; custody of violator; revocation hearing before suspension. (1) The State Board of Parole and Post-Prison Supervision may suspend the parole or post-prison supervision of any person under its jurisdiction upon being informed and having reasonable grounds to believe that the person has violated the conditions of parole or post-prison supervision and may order the arrest

and detention of such person. The written order of the board is sufficient warrant for any law enforcement officer to take into custody such person. A sheriff, municipal police officer, constable, parole or probation officer, prison official or other peace officer shall execute the order.

(2) The board or its designated representative may proceed to hearing as provided in ORS 144.343 without first suspending the parole or post-prison supervision or ordering the arrest and detention of any person under its jurisdiction upon being informed and having reasonable grounds to believe that the person under its jurisdiction has violated a condition of parole and that revocation of parole may be warranted or that the person under its jurisdiction has violated a condition of post-prison supervision and that incarceration for the violation may be warranted.

(3) During the pendency of any post-prison supervision violation proceedings, the period of post-prison supervision is stayed and the board has jurisdiction over the offender until the proceedings are resolved. [1973 c.694 §9 (enacted in lieu of 144.330); 1977 c.375 §1; 1991 c.108 §1]

144.333 [Repealed by 1974 s.s. c.36 §28]

144.334 Use of citations for parole or post-prison supervision violators; conditions; appearance. (1) In addition to the authority granted under ORS 144.331 and 144.370, the State Board of Parole and Post-Prison Supervision may authorize the use of citations to direct alleged parole or post-prison supervision violators to appear before the board or its designated representative. The following apply to the use of citations under this section:

(a) The board may authorize issuance of citations only by officers who are permitted under ORS 144.350 to arrest and detain.

(b) Nothing in this subsection limits the authority, under ORS 144.350, of a supervising officer or other officer to arrest an alleged parole or post-prison supervision violator.

(2) The board may impose any conditions upon an authorization under this section that the board considers appropriate. The conditions may include, but are not limited to, requirements that citation authority be sought on a case by case basis, citation authority be granted in all cases that meet certain conditions, citation authority be allowed for certain types of cases or designation of certain cases be made where citations shall not be used.

(3) The cited offender shall appear before the board or its designated representative at the time, date and place specified in the ci-

tation. If the offender fails to appear as required, the board may issue a suspend and detain order upon its own motion or upon request of the supervising officer. [1991 c.836 §4]

Note: 144.334 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 144 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

144.335 Appeal from order of board to Court of Appeals; effect of filing appeal; appointment of master. (1) When a person over whom the board exercises its jurisdiction is adversely affected or aggrieved by a final order of the board related to the granting, revoking or discharging of parole or the revoking of post-prison supervision and after exhaustion of administrative review as provided by board rule, such person is entitled to judicial review of the final order.

(2) The final order and the proceedings underlying the order are subject to review by the Court of Appeals upon petition to that court filed within 60 days of the final order for which review is sought. The board shall submit to the court the record of the proceeding, or, if the inmate agrees, a shortened record. A copy of the record transmitted shall be delivered to the inmate by the board.

(3) The court may affirm, reverse or remand the order on the same basis as provided in ORS 183.482 (8). The filing of the petition shall not stay the board's order, but the board may do so, or the court may order a stay upon application on such terms as it deems proper.

(4) In the case of disputed allegations of irregularities in procedure before the board not shown in the record which, if proved, would warrant reversal or remand, the Court of Appeals may refer the allegations to a master appointed by the court to take evidence and make findings of fact upon them. [1973 c.694 §24; 1983 c.740 §18; 1989 c.790 §41]

144.337 Public Defender to represent petitioner. Persons petitioning for review under ORS 144.335 shall be represented by the Public Defender pursuant to the terms of ORS 151.210 to 151.290. [1973 c.694 §25]

144.340 Power to retake and return violators of parole and post-prison supervision. (1) The Department of Corrections, in accordance with the rules and regulations or directions of the State Board of Parole and Post-Prison Supervision or the Governor, as the case may be, may cause to have retaken and returned persons to the institution, whether in or out of the state, whenever they have violated the conditions of their parole or post-prison supervision.

(2) Persons retaken and returned to this state from outside the state upon order or

warrant of the Department of Corrections, State Board of Parole and Post-Prison Supervision or the Governor, for violation of conditions of their parole or post-prison supervision, shall be detained in a Department of Corrections facility pending any hearing concerning the alleged violation, and ultimate disposition by the State Board of Parole and Post-Prison Supervision. [Amended by 1969 c.597 §116; 1973 c.836 §297; 1987 c.320 §62; 1989 c.790 §42; 1991 c.228 §1]

144.343 Hearing required on revocation; procedure. (1) When the State Board of Parole and Post-Prison Supervision or its designated representative has been informed and has reasonable grounds to believe that a person under its jurisdiction has violated a condition of parole and that revocation of parole may be warranted, the board or its designated representative shall conduct a hearing as promptly as convenient to determine whether there is probable cause to believe a violation of one or more of the conditions of parole has occurred and also conduct a parole violation hearing if necessary. Evidence received and the order of the court at a preliminary hearing under ORS 135.070 to 135.225 may be used by the board to determine the existence of probable cause. A waiver by the defendant of any preliminary hearing shall also constitute a waiver of probable cause hearing by the board. The location of the hearing shall be reasonably near the place of the alleged violation or the place of confinement.

(2) The board may:

(a) Reinstate or continue the alleged violator on parole subject to the same or modified conditions of parole;

(b) Revoke parole and require that the parole violator serve the remaining balance of the sentence as provided by law;

(c) Impose sanctions as provided in ORS 144.106; or

(d) Delegate the authority, in whole or in part, granted by this subsection to its designated representative as provided by rule.

(3) Within a reasonable time prior to the hearing, the board or its designated representative shall provide the parolee with written notice which shall contain the following information:

(a) A concise written statement of the suspected violations and the evidence which forms the basis of the alleged violations.

(b) The parolee's right to a hearing and the time, place and purpose of the hearing.

(c) The names of persons who have given adverse information upon which the alleged violations are based and the right of the parolee to have such persons present at the

hearing for the purposes of confrontation and cross-examination unless it has been determined that there is good cause for not allowing confrontation.

(d) The parolee's right to present letters, documents, affidavits or persons with relevant information at the hearing unless it has been determined that informants would be subject to risk of harm if their identity were disclosed.

(e) The parolee's right to subpoena witnesses under ORS 144.347.

(f) The parolee's right to be represented by counsel and, if indigent, to have counsel appointed at board expense if the board or its designated representative determines, after request, that the request is based on a timely and colorable claim that:

(A) The parolee has not committed the alleged violation of the conditions upon which the parolee is at liberty;

(B) Even if the violation is a matter of public record or is uncontested, there are substantial reasons which justify or mitigate the violation and make revocation inappropriate and that the reasons are complex or otherwise difficult to develop or present; or

(C) The parolee, in doubtful cases, appears to be incapable of speaking effectively on the parolee's own behalf.

(g) That the hearing is being held to determine:

(A) Whether there is probable cause to believe a violation of one or more of the conditions of parole has occurred; and

(B) If there is probable cause to believe a violation of one or more of the conditions of parole has occurred:

(i) Whether to reinstate parole;

(ii) Whether to continue the alleged violator on parole subject to the same or modified conditions of parole; or

(iii) Whether to revoke parole and require that the parole violator serve a term of imprisonment consistent with ORS 144.346.

(4) At the hearing the parolee shall have the right:

(a) To present evidence on the parolee's behalf, which shall include the right to present letters, documents, affidavits or persons with relevant information regarding the alleged violations;

(b) To confront witnesses against the parolee unless it has been determined that there is good cause not to allow confrontation;

(c) To examine information or documents which form the basis of the alleged violation

unless it has been determined that informants would be subject to risk of harm if their identity is disclosed; and

(d) To be represented by counsel and, if indigent, to have counsel provided at board expense if the request and determination provided in paragraph (f) of subsection (3) of this section have been made. If an indigent's request is refused, the grounds for the refusal shall be succinctly stated in the record.

(5) Within a reasonable time after the preliminary hearing, the parolee shall be given a written summary of what transpired at the hearing, including the board's or its designated representative's decision or recommendation and reasons for the decision or recommendation and the evidence upon which the decision or recommendation was based. If an indigent parolee's request for counsel at board expense has been made in the manner provided in paragraph (f) of subsection (3) of this section and refused, the grounds for the refusal shall be succinctly stated in the summary.

(6) If the board or its designated representative has determined that there is probable cause to believe that a violation of one or more of the conditions of parole has occurred, the hearing shall proceed to receive evidence from which the board may determine whether to reinstate or continue the alleged parole violator on parole subject to the same or modified conditions of parole or revoke parole and require that the parole violator serve a term of imprisonment as provided by ORS 144.346.

(7) At the conclusion of the hearing if probable cause has been determined and the hearing has been held by a member of the board or by a designated representative of the board, the person conducting the hearing shall transmit the record of the hearing, together with a proposed order including findings of fact, recommendation and reasons for the recommendation to the board. The parolee or the parolee's representative shall have the right to file exceptions and written arguments with the board. The right to file exceptions and written arguments may be waived. After consideration of the record, recommendations, exceptions and arguments a quorum of the board shall enter a final order including findings of fact, its decision and reasons for the decision. [1973 c.694 §13; 1977 c.375 §2; 1981 c.644 §7; 1987 c.158 §20a; 1987 c.803 §17; 1989 c.790 §42a; 1991 c.836 §2]

144.345 Revocation of parole; effect of conviction for crime. (1) Except as provided in subsection (2) of this section, whenever the State Board of Parole and Post-Prison Supervision considers an alleged parole violator and finds such person has violated one or more conditions of parole and evidence

offered in mitigation does not excuse or justify the violation, the board may revoke parole.

(2) When a person released on parole or post-prison supervision is convicted of a crime and sentenced to a term of imprisonment at any institution of the Department of Corrections or its counterpart under the laws of the United States or any other state, such conviction and sentence shall automatically terminate the person's parole or post-prison supervision as of the date of the sentence order. Notwithstanding any other provision of law, the person shall not be entitled to a hearing under ORS 144.343 and shall have a rerelease date set as provided by rule. [1973 c.694 §14; 1977 c.372 §16; 1991 c.836 §3]

144.346 Parole revocation sanctions; rules. (1) The State Board of Parole and Post-Prison Supervision shall adopt rules to establish parole revocation sanctions for parole violations committed on or after November 1, 1989.

(2) To the extent permissible under law, the parole revocation sanctions established under this section shall be consistent with the post-prison supervision violation sanctions set by rules of the State Sentencing Guidelines Board. [1989 c.790 §18b]

Note: 144.346 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 144 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

144.347 Compelling witnesses; subpoena power; fees. (1) Upon request of any party to the hearing provided in ORS 144.343 and upon a proper showing of the general relevance and reasonable scope of the testimony to be offered, the board or its designated representatives shall issue subpoenas requiring the attendance and testimony of witnesses. In any case, the board, on its own motion, may issue subpoenas requiring the attendance and testimony of witnesses.

(2) Upon request of any party to the hearing provided in ORS 144.343 and upon a proper showing of the general relevance and reasonable scope of the documentary or physical evidence sought, the board or its designated representative shall issue subpoenas duces tecum. In any case, the board, on its own motion, may issue subpoenas duces tecum.

(3) Witnesses appearing under subpoena, other than the parties or state officers or employees, shall receive fees and mileage as prescribed by law for witnesses in ORS 44.415 (2). If the board or its designated representative certifies that the testimony of a witness was relevant and material, any per-

son who has paid fees and mileage to that witness shall be reimbursed by the board.

(4) If any person fails to comply with a subpoena issued under subsection (1) or (2) of this section or any party or witness refuses to testify regarding any matter on which the party or witness may be lawfully interrogated, the judge of the circuit court of any county, on the application of the board or its designated representative or of the party requesting the issuance of the subpoena, shall compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued by the court. [1973 c.694 §15; 1983 c.489 §3; 1989 c.980 §7]

When an alleged parole or post-prison supervision violator is in custody in a state to which the alleged parole or post-prison supervision violator has not been paroled or released or in federal custody, ORS 144.343 does not apply. [1973 c.694 §16; 1989 c.790 §43]

Before issuing such an order, the department shall investigate for the purpose of ascertaining whether the terms of the parole, post-prison supervision, probation, conditional pardon or other conditional release have been violated.

(2) Notwithstanding subsection (1) of this section, the department may order the arrest and detention of any person under its supervision or control if it has reasonable grounds to believe that such person is a danger to self or to others. A hearing shall follow as promptly as convenient to the parties to determine whether probable cause exists to continue detention pending a final determination of the case. [Amended by 1969 c.597 §117; 1981 c.644 §8; 1987 c.320 §63; 1989 c.790 §44]

(2) Any person deputized pursuant to subsection (1) of this section shall have the same powers with respect to the return of any person who has violated the conditions of parole, post-prison supervision, conditional pardon or other conditional release from custody as any peace officer of this state.

(1) Upon seizing property in execution of duty, a parole and probation officer shall, as soon thereafter as is reasonably possible, make a written list of the things seized and furnish a copy to the suspected parole or post-prison supervision violator. The list shall contain a notice informing the person of the right to contest the seizure by filing a petition and shall contain such other information as the Department of Corrections, by rule, may require.

(2) If no claim of rightful possession has been established under ORS 144.405 to 144.409, the Department of Corrections may order the sale, destruction or other disposition of the things seized. The department may enter into agreements with other state and local officials responsible under applicable laws for selling, destroying or otherwise disposing of contraband or unclaimed goods in official custody for ultimate disposition of the things seized. The clear proceeds, if any, generated by the disposition of things seized shall be deposited in the State Treasury to the credit of the General Fund.

(3) If things seized by a parole and probation officer in execution of duty are not needed for evidentiary purposes, and if a person having a rightful claim establishes identity and right to possession to the satisfaction of the Department of Corrections, the department may summarily return the things seized to their rightful possessor.

(4) If the things seized are contraband, the fruits of crime or things otherwise

criminally possessed, the Department of Corrections may:

(a) Relinquish custody of the things seized to appropriate law enforcement officials for disposition; or

(b) Hold and safeguard the things seized until directed by appropriate law enforcement officials that the things in question are no longer needed for purposes of criminal prosecution. [1991 c.286 §2]

Note: See note under 144.404.

144.406 Petition for return of things seized. (1) Within 30 days after actual notice of any seizure, or at such later date as the Department of Corrections in its discretion may allow:

(a) An individual from whose person, property or premises things have been seized may petition the department to return the things seized to the person or premises from which they were seized.

(b) Any other person asserting a claim to rightful possession of the things seized may petition the department to restore the things seized to the person.

(2) Petitions for return or restoration of things seized shall be served on the manager of the local field services office having supervision over the suspected parole or post-prison supervision violator.

(3) Service of a petition for the return or restoration of things seized shall be made by certified or registered mail, return receipt requested. [1991 c.286 §3]

Note: See note under 144.404.

144.407 Grounds for valid claim to rightful possession. A petition for the return or restoration of things seized shall be based on the ground that the petitioner has a valid claim to rightful possession because:

(1) The things had been stolen or otherwise converted and the petitioner is the owner or rightful possessor;

(2) The things seized were not, in fact, subject to seizure in connection with the suspected parole or post-prison supervision violation;

(3) Although the things seized were subject to seizure in connection with a suspected parole or post-prison supervision violation, the petitioner is or will be entitled to their return or restoration upon a determination by the Department of Corrections or the State Board of Parole and Post-Prison Supervision that they are no longer needed for evidentiary purposes, do not constitute a parole or post-prison supervision violation or may be lawfully possessed by the petitioner; or

(4) The suspected parole or post-prison supervision violator and the department have stipulated that the things seized may be returned to the petitioner. [1991 c.286 §4]

Note: See note under 144.404.

144.408 Hearing on petition. (1) If, upon consideration of a petition for return or restoration of things seized, it appears to the Department of Corrections that the things should be returned or restored, but there is substantial question whether they should be returned to the person from whose possession they were seized or to some other person, or a substantial question among several claimants to rightful possession, the department may set a further hearing, assuring that all persons with a possible possessory interest in the things in question receive due notice and an opportunity to be heard. Upon completion of the hearing, the department shall enter an order for the return or restoration of the things seized.

(2) Instead of conducting the hearing provided for in subsection (1) of this section and returning or restoring the property, the department in its discretion, may leave the several claimants to appropriate civil process for the determination of the claims. [1991 c.286 §5]

Note: See note under 144.404.

144.409 Granting petition for return of things seized; judicial review. (1) In granting a petition for return or restoration of things seized, the Department of Corrections shall postpone execution of the order until such time as the things in question are no longer needed for evidentiary purposes in establishing either a criminal or parole or post-prison supervision violation.

(2) Judicial review of a department order for return or restoration of things seized shall be available as for review of orders in other than contested cases as provided in ORS 183.310 to 183.550. [1991 c.286 §6]

(2) The director, with the advice of the Community Corrections Advisory Board, shall adopt rules prescribing minimum standards for the establishment, operation and evaluation of community corrections under a community corrections plan and other rules as may be necessary for the administration and implementation of ORS 423.500 to 423.560. The standards shall be sufficiently flexible to foster the development of new and improved supervision or rehabilitative practices.

(3) All community corrections plans shall comply with rules adopted pursuant to ORS 423.500 to 423.560, and shall include but need not be limited to:

(a) Proposals for correctional programs that demonstrate the need for the program, its purpose, objective, administrative structure, staffing, staff training, proposed budget, evaluation process, degree of community involvement, client participation and duration of the program;

The plan shall specify the manner in which these requirements shall be met.

(5) All community corrections plans shall designate a community corrections manager of the county and shall provide that the administration of community corrections under ORS 423.500 to 423.560 shall be under such manager.

(a) Payments from moneys appropriated to the Department of Corrections for the purposes of management, support services and supervision of parolees, probationers and offenders subject to post-prison supervision. The department shall determine, prior to July 1 of each odd-numbered year, each county's percentage share of the amount appropriated for the purposes of this subsection. Such determination shall be made by use of a workload formula adopted by the department by rule, which formula shall be in effect beginning July 1, 1991, and which formula shall include all parole and probation appropriations subject to review and comment by the Community Corrections Advisory Board before the rule becomes final. This determination shall be based upon the community supervision workload and the difficulty and cost of servicing that workload.

(b) Enhancement grants from the department for the purpose of providing community corrections services. The department shall determine, prior to July 1 of each odd-numbered year, each county's percentage share of the amount appropriated for the purposes of this subsection. Such determination shall be adopted by rule and shall be based upon statewide crime and demographic data certified by a state agency other than the Department of Corrections. The data shall be subject to review and comment by the Community Corrections Advisory Board before the determination of the department.

(c) Appropriations to counties pursuant to ORS 423.550 to 423.560 approved for local government corrections programs shall not be reduced by the department except by action of the Legislative Assembly or the Emergency Board. Such reductions shall be made proportionately using the applicable allocation formula.

(2) The department shall by rule provide for computation of each county's entitlement in each biennial period in the event participation by the county is for less than a biennial period. Such computation shall be based upon any actions approved by the Legislative Assembly relative to the timing of expenditures with respect to appropriations for purposes of subsection (1) of this section. [1977 c.412 §7; 1979 c.160 §1; 1985 c.708 §1; 1987 c.320 §223; 1989 c.613 §1; 1989 c.790 §66]

423.535 Notice to director to participate in program; plan approval; contract for service by Department of Corrections.

(1) To receive moneys for the operation of the community corrections program authorized by ORS 423.500 to 423.560, the county

must notify the Director of the Department of Corrections 90 days prior to the proposed beginning date of participation. Such notification shall be by resolution of the appropriate board or boards of county commissioners.

(2) Prior to participation in the program, the county shall have a comprehensive community corrections plan approved by the department.

(3) The Department of Corrections, in consultation with the respective board of county commissioners, may use moneys which would have been made available to the county pursuant to ORS 423.530 (1) and (2) to provide the community corrections services described therein. In providing such services, the department may contract with public or private agencies for the provision of services to convicted felons. Any agreement to reimburse counties for the cost of providing services for felons shall include a provision that the department shall deduct from such reimbursement the cost incurred by the department of supervising misdemeanor probationers. [1977 c.412 §13; 1987 c.320 §224; 1989 c.613 §2]

423.540 Program performance review by Director of Department of Corrections; standards; effect of failure to comply; prohibited use of program financial aid. (1) The Director of the Department of Corrections shall periodically review the performance of counties participating under ORS 423.500 to 423.560. A county must substantially comply with the provisions of its community corrections plan and the operating standards established pursuant to ORS 423.525 (2) to remain eligible to participate. If the director determines that there are reasonable grounds to believe that a county is not in substantial compliance with the plan or operating standards, the director shall, after giving the county not less than 30 days' notice, conduct a hearing to ascertain whether there is substantial compliance or satisfactory progress being made toward compliance. After the hearing, the director, with the advice of the Community Corrections Advisory Board, may suspend any portion of financial aid made available to the county under ORS 423.500 to 423.560 until the required compliance occurs.

(2) Financial aid received by a county pursuant to ORS 423.530 shall not be used to replace moneys, other than federal or state funds, currently being used by the county for existing correctional programs for misdemeanants and shall not be used to develop, build or improve local correctional facilities as defined by ORS 169.005 (3). [1977 c.412 §8; 1979 c.487 §14; 1987 c.320 §225]

nating participation; effect of termination. (1) A county that accepts financial aid under ORS 423.500 to 423.560 shall assume responsibility for those correctional services, other than the operation of state institutions, presently planned or provided in the county by the Department of Corrections.

(2) Any county that receives financial aid under ORS 423.500 to 423.560 may terminate its participation at the end of any month by delivering a resolution of its board of commissioners to the Director of the Department of Corrections not less than 180 days before the termination date.

(3) If a county terminates its participation under ORS 423.500 to 423.560:

(a) The responsibility for correctional services transferred to the county pursuant to subsection (1) of this section and the remaining portion of the financial aid made available to the county under ORS 423.530 shall revert to the Department of Corrections.

(b) The facilities renovated or constructed with moneys made available under ORS 423.500 to 423.560 shall revert to the Department of Corrections, unless the county has participated for 20 continuous years in ORS 423.500 to 423.560 since the facilities were renovated or constructed. The county and the department may agree to permit the county to retain ownership in the facility in exchange for an agreement that the county will house specified persons under the jurisdiction of the department. [1977 c.412 §9; 1987 c.320 §226]

423.550 Contract by counties for parole and probation supervision service; transfer of state personnel to county employment; reentry of transferred employees. (1) When a county pursuant to ORS 423.500 to 423.560 assumes responsibility for any portion of correctional services previously provided by the Department of Corrections, the county and the department shall enter into an intergovernmental agreement that includes an approved local community corrections plan, program descriptions, budget allocation, performance objectives and method of evaluation for each correctional service to be provided by either the county or the department. Funds appropriated for the provision of these corrections services shall be apportioned between the department and the county as provided for in each intergovernmental agreement drawn to effect the purposes of ORS 423.505 and this section.

(2) Any state correctional field officer, immediate supervisor of such correctional officer or any supporting clerical personnel

whose job involves rendering services assumed by the county may transfer to employment by the county or may remain in the employment of the department and provide field services to the county under the terms of a contract for services between the county and the department. The county shall pay the department for any services rendered by such employees on an actual cost basis. Any such employee transferring to county employment under this section shall not suffer any reduction in salary or loss of employee benefits as a result of the transfer.

(3) Any such employees who transfers employment pursuant to subsection (2) of this section shall be entitled to reenter state employment within 30 days if the county to which the employee has transferred withdraws from participation under ORS 423.500 to 423.560 or if funds are not appropriated to carry out the purposes of ORS 423.500 to 423.560. [1977 c.412 §10; 1987 c.320 §227; 1989 c.607 §3]

(2) Up to one-half percent of all funds appropriated for purposes of ORS 423.500 to 423.560 and the provision of probation and parole services shall be allocated for the purpose of conducting evaluations required by ORS 423.525 (4). [1989 c.607 §2]

(1) A person placed by an authority on probation, parole, post-prison supervision or other form of release, subject to supervision by either the Department of Corrections or, directly or indirectly, by a community corrections program established under ORS 423.500 to 423.560, shall be required to pay a monthly fee to offset costs of supervising the probation, parole, post-prison supervision or other supervised release.

(2) A person placed by an authority on probation, parole, post-prison supervision or other form of release, subject to supervision other than by either the Department of Corrections or a community corrections program established under ORS 423.500 to 423.560, may be required by the releasing authority to pay a monthly fee to offset costs of supervising the probation, parole, post-prison supervision or other supervised release.

(3) When a fee is required under subsection (1) of this section, the fee shall be determined and fixed by the releasing authority but shall be at least \$25, and if the releasing authority fails to establish the amount of a released person's required fee, the fee shall be \$25.

(4) Fees are payable one month following the commencement of probation, parole, post-prison supervision or other supervised release and at one-month intervals thereafter. Fees shall be collected as follows:

(a) If the released person is supervised under county authority, other than by the Department of Corrections, the county shall collect or provide by contract for the collection of the fee from the released person and shall retain the fee to be used by the county for funding of its community corrections program or, if it has no community corrections program, then for general governmental purposes.

(b) If the released person is supervised by the Department of Corrections, the department shall collect or provide by contract for the collection of the fee from the released person and shall retain the fee. Moneys received by the Department of Corrections are continuously appropriated to the Department of Corrections for use in financing department field services.

(5) Except in the case of a probation granted by a court before that date, the fee requirements imposed by this section apply beginning July 1, 1981, to all persons under supervised probation, parole, post-prison supervision or other form of supervised release pursuant to subsection (1) of this section, including persons on such supervised release in this state under any interstate agreement. Timely payment of the fee is hereby made a condition of such probation, parole, post-prison supervision or other supervised release. In the case of a probation granted by a court prior to July 1, 1981, the court may amend its order granting probation to provide for payment of the fee.

(6) In cases of financial hardship or when otherwise advisable in the interest of the released person's rehabilitation:

(a) The community corrections program director or the Director of the Department of Corrections, whichever is appropriate, or the designee thereof, may waive or reduce the amount of the fee.

(b) The sentencing court may waive or reduce the amount of the fee for any person whom the court has placed on probation. If any of the fee requirement is reduced by the court, only the court may restore the requirement. [1981 c.169 §1; 1983 c.252 §1; 1987 c.320 §229; 1989 c.497 §1; 1989 c.790 §67]

MULTNOMAH COUNTY
INTEGRATED HUMAN SERVICES SYSTEM PLAN

MULTNOMAH COUNTY
INTEGRATED HUMAN SERVICES SYSTEM PLAN

Revised 5/12/93

INTRODUCTION

In the post Measure 5 era, governments, their supportive agencies, private non-profits and other entities serving the welfare of the community will be called upon to serve an increasingly needy population with diminishing resources. The frail elderly, the homeless, low and no-income individuals, single parent households, the disabled, adolescents, separated families and extended relationships will find themselves more vulnerable and at risk.

At the local level, county government is the human service agency of last resort. Reductions in revenues, personnel, and service hours have rendered traditional service delivery systems incapable of responding to increasing numbers of persons with multiple problems.

The Multnomah County Board of Commissioners recognized in resolution that:

- Shrinking financial resources will require the County to explore new methods of providing services to citizens,
- The issues and problems facing our communities have changed the traditional roles and responsibilities of government, business, community, and family, and
- The problems and issues of alcohol and drug addiction, child abuse, crime, unemployment, apathy, racial and sexual hatred, inadequate community services, and the changing family and community have the potential to destroy the very fabric of our communities and society.

County departments and divisions already collaborate and coordinate services with a variety of government and private non-profit agencies. This collaboration, however, is often situational, with the effort designed to address a specific service need or to augment local, state or private efforts. The Multnomah County Board of Commissioners has called for a change in how the County responds to these kinds of human needs.

THE INTEGRATED HUMAN SERVICES SYSTEM

In response, the Board of County Commissioners has directed the development of an Integrated Human Services System, including Children and Youth Centers, for Multnomah County.

MISSION

The Mission of the Multnomah County Integrated Human Services System is to provide an efficient and effective, value-driven system of delivering high quality human services.

In order to fulfill the Mission, the characteristics of the Integrated Human Services System will be:

- a. Strong focus on people with interlocking linkages of policy, fiscal resources, and personnel.
- b. Flexibility, focused on family, individual and neighborhood needs, and coordinated with other local, state, and private non-profit efforts to provide maximum benefits for service recipients.
- c. Concerned about the greater environmental context in which we live.

GOALS

The goals for the Integrated Human Service System derives from the Mission and characteristics of the System and include:

- a. Have a strong focus on people, with interlocking linkages of policy, fiscal resources, and personnel.
- b. Will be flexible, focused on family, individual, and neighborhood needs, and coordinated with other local, state, and private non-profit efforts to provide maximum benefits for service recipients.
- c. Will be an efficient system of delivering effective, high quality services.

UNDERLYING VALUES

The entire system will be driven by a common philosophy of service and common values, including:

- Promoting client independence and empowerment.
- Involving individuals and communities in decisions that affect them.
- Using the least intrusive, least expensive interventions in people's lives that are appropriate to the needs.
- Providing high quality, integrated, timely services with the fewest possible barriers to access.

- Making services and service authorization available as close to the need as possible.
- Encouraging change and innovation to make the system responsive to individual, family, and community needs.

The directors of the Departments of Health, Social Services, and Community Corrections, along with key division managers, formed an Integrated Human Services Planning Team to develop the system.

SYSTEM ELEMENTS

Community Service Districts

Community Service Districts are designed to organize County services as close as possible to where people live. The districts are divided by recognized geographic boundaries. Within each of the districts are social service agencies, schools, private non-profit resources, community policing activities, and other agencies and efforts. County resources within each district are structured to include both contracted agencies and direct County services. Organizing services by districts enables program staff to work cooperatively to serve individuals and families with multiple and complex problems.

Individuals who receive child, youth, individual, senior, family, physical and mental health services will generally be served within a district. This will allow better coordination and follow-up support for the person or family securing services. It should also allow for a better match of service to the specific problem, since the assessment will be conducted in the context of the individual's community or environment. The services will be cost effective, resulting from a higher rate of recovery for the individual and a lesser rate of relapse because of treatment in the context of the community. The integrated service approach will keep the individual in a protected service environment.

Multnomah County will comprise six Community Service Districts: Northeast, North, West, Mid-county, Southeast and East.

Community Service Districts will have common boundaries for all County services. They are not used to restrict residents' access to services, and individuals will retain choice of service locations regardless of where they live.

Common service boundaries have been agreed upon by the Department of Health, the Department of Community Corrections and the Department of Social Services' Aging Services Division, Mental Health, Youth and Family Services Division, Housing and Community Services Division, and Juvenile Justice Division (see Attachment A).

Neighborhood Access

In the Community Service District model, the point of entry into the system may be any number of County offices or provider offices within the community where a person or family can enter and receive assistance. The goal is to provide services uninterrupted at any point along the continuum.

Key elements of a neighborhood access system include:

- Close relationships between all providers of services and the local community.
- A well-publicized and accessible Information/Referral system.
- An emphasis on cultural relevance to the community. This includes the availability of bilingual staff and providers where appropriate.
- Intensive cross-training of staff in provider agencies and County programs.

The principles outlined above will be common to all Community Service Districts, but the design of "user friendly" neighborhood access will vary from district to district. Specifics such as responsibility for and "agency location" of the information and referral function, the degree of co-location of services, and cross-training of staff will emerge as part of the district planning process for each district.

District Coordination

In the integrated service system model, each Community Service District will have a coordination function to assure a system-wide response to the community, the individual and his or her family; to work with the agencies, school, families, community policing, sheriff, and other service providers to develop a uniform set of policies and operational strategies; and to assure that there are services adapted to the special needs of the district in addition to the core services available in each district.

The structure of and responsibility for district coordination will evolve over time. At the outset, coordination within each Community Service District will be accomplished through a District Coordination Team (DCT) consisting of, at a minimum, the district or branch managers of each of the participating County Departments and related provider agencies.

The DCTs will:

- Set goals and expected outcomes with community participation specific to the district.
- Develop and implement a "bottom up" process for determining community needs.
- Oversee the development of service integration in the district within the framework of the service integration plan developed by the County.

- Develop district-specific policies and protocols for neighborhood access, staff cross-training, program coordination, case management, client data sharing and client advocacy.
- Develop recommendations for policy and organizational changes.
- Help determine evaluation criteria.
- Serve as a clearinghouse and mediation team when conflicts arise between programs.
- Serve as a linkage to all other planning groups addressing services integration in that district.

Case Management

In each program, a service recipient is usually assigned a primary contact person to call or relate to for services. This could be a nurse, a case manager, a probation officer or other. When an individual or family uses more than one County service, the primary staff assigned to the individual for each service will work cooperatively with him/her to assure that services are coordinated. One of them will be the lead contact (referred to as a "Primary Case Manager").

The role of case management in the integrated service system is one of quality control, coordination, counseling, review and referral. The case manager in this system is the traffic coordinator and support agent assigned to a given individual and/or family. The case manager connects the family or individual with the appropriate agencies and other resources.

Those who deliver the services within a district will be actively involved in the creation of the case management model for that district. A cooperative approach, involving consumers, service delivery personnel, neighborhood organizations, and governmental units offers the best means to enhance service delivery through a case management system. The model, therefore, will vary from district to district. The development of the model, as well as the specific operational protocols between departments, divisions, and community providers, will be the responsibility of the DCTs.

Information Sharing

No comprehensive service system or district structure will work without some method to bind the players, coordinate service and information flow, and assess the quality of services provided. A management information system can be the mortar that connects effort and outcome. In the case of individual client or family information, some sharing among providers may be necessary to assure holistic treatment planning and resource allocation.

Development of a management information system for an integrated services model involves complex policy and technical issues. Policy decisions include:

- The purpose of sharing client data (focus on system planning versus individual service planning),
- Resolving the tension between protecting client confidentiality and sharing information between programs, and
- The allocation of sufficient funds to establish and operate a shared data base system.

Evaluation

An evaluation process will be needed to assure accountability, to provide ongoing feedback for program and system improvement, and to determine whether the desired outcomes are being achieved. Program monitoring and evaluation are already a part of many of the services to be included in the integrated service system, and will continue. A more sophisticated evaluation system is needed, however, to measure outcomes and determine the effectiveness of the model.

Unfortunately, this type of evaluation is expensive and is beyond the resources currently available within the County budget. The Integrated Human Services Planning Team will seek new resources in order to implement a comprehensive evaluation process. These might include outside funding and the services of non-county personnel such as a university graduate program.

IMPLEMENTATION

Planning and implementation phases will overlap or occur simultaneously in various Community Service Districts and with other agencies.

I. PROCEDURE DESCRIPTION

The Request for Proposal (RFP) process is required for the procurement of all professional services which exceed \$15,000 in the same fiscal year per contractor, per Department/Office. Exceptions to this requirement are delineated in "Exemptions" (Section VIII below). The RFP process is also an alternate method to the bid process for some types of PCRB contracts and is optional for professional services contracts under \$15,000 in value. An RFP is not required for intergovernmental agreements. If the RFP process is undertaken, the following procedure applies.

II. DEFINITIONS

- A. Request for Proposal (RFP): a process used to select the best qualified contractor when price is not the sole determining factor.
- B. Request for Qualifications (RFQ): a process used to establish minimum common qualifications for all contractors eligible to compete in an RFP process. The procedures are the same as for the RFP.

III. RFP/RFQ PREPARATION

A. Contact Purchasing for technical assistance to:

1. determine when RFP process is appropriate;
2. assist in content and schedule of RFP;
3. get advertisement dates (ads are placed by Purchasing); and
4. develop potential applicant lists.

B. Originating Departments/Offices should use the following general format when preparing RFPs:

1. background statement - describe County organization;
2. problem statement - include purpose of RFP;
3. services to be performed, deadlines for work products, etc., also known as "performance specifications";
4. minimum qualifications, if any;
5. overview of constraints - size, duration, location, etc.;
6. boilerplate Instructions to Applicants (Purchasing Requirements, obtained from Purchasing);
7. a statement that Multnomah County encourages the participation of MBE/WBE firms;
8. notice of applicants' conference, if any - date, time, place; whether it is mandatory or optional;
9. evaluation information for applicants:
 - a. list criteria to be used in evaluating proposals, may include:
 - (1) qualifications and relevant agency experience
 - (2) qualifications of personnel assigned to project
 - (3) responsiveness and local availability
 - (4) fee arrangement or cost breakdown

(5) performance standards

(6) financial status record and management capability

The list is not exhaustive; you may add or substitute. Remember, the criteria will help the applicant identify areas of most importance. Each criteria must be assigned a point value, to be used by the Evaluation Committee in the selection process (see Section V).

b. Describe selection process for the applicant. This must include the method of selection used by the Evaluation Committee (see Section VII).

10. contractual requirements;

Include boilerplate County contractual requirements. Add any Department/Office contractual requirements; i.e., performance bonds termination clauses, state or federal regulations, etc.

IV. REVIEW OF RFP/RFQ

A. Purchasing Review of RFP

For a single RFP the Department/Office must submit the draft RFP to Purchasing ten (10) working days before date of advertisement. The buyer will take no more than three (3) days to review the document for content, clarity, and procedural and legal requirements and will return it to the originating Department/Office for any changes. **If you plan to process more than one RFP at any one time you must contact the buyer at least thirty (30) days prior to expected date of advertisement to establish timelines.** The finalized packet submitted to Purchasing must contain:

1. RFP document;
2. complete mailing list with applicant names, addresses, and zip codes
Please include mailing labels if available (see Section V);
3. completed and signed Request for Advertisement form (EXHIBIT A);
4. estimated number of copies needed for public mailing list and Department/Office. If copies are not standard 8-1/2" by 11" pages, the Department/Office must arrange for printing;

5. names and positions of Evaluation Committee members;
 6. evaluation form to be used by evaluators (Samples may be obtained from Buyer);
- B. Purchasing will review the RFP for completeness, send announcements to BCC, advertise, arrange for printing, and mail to applicants. Purchasing reserves the right to require rescheduling of issue and due dates to accommodate workloads and will contact Department/Office of reschedule.

V. DISSEMINATION OF RFP/RFQ

A. Advertisement

1. Purchasing will place the advertisement in a newspaper of general circulation, inviting applicants to submit proposals. The initiating Department/Office must complete the advertisement form (EXHIBIT A) and attach it to the final RFP.
2. Purchasing is responsible for paying all newspaper advertising invoices using the expense account code supplied on the advertisement form. A copy of the payment voucher will be returned to the initiating Department/Office when the invoice is paid.

B. Distribution of RFP to Applicants

1. Purchasing may require you to provide mailing lists of potential applicants.
2. Purchasing will distribute RFP's to the applicants on the mailing list and will make RFP's available to interested persons up to the time of the RFP deadline.

C. Questions from Applicants

1. Applicants who request a clarification of the RFP requirements must submit questions in writing to Purchasing or present them verbally at a scheduled pre-proposal conference. Written questions must be received in Purchasing no later than seven (7) calendar days prior to the scheduled deadline for proposals. A response will be issued in the form of addenda to the RFP by Purchasing if a substantive clarification is in order.

2. To ensure that any substantive information given to a single potential applicant is given to all potential applicants, the initiating Department/Office must direct all applicant questions to Purchasing.
3. From the time the RFP's are publicized to the date award letters are sent by Purchasing, Departmental/Office staff contact with applicants should be limited to the pre-proposal conference.

VI. RULES GOVERNING RECEIPT OF PROPOSALS

- A. Purchasing is responsible for receiving and time-stamping each proposal and enforcing the submittal deadline.
- B. If a proposal is sent to a Department/Office in error, do not open it. Call Purchasing, immediately, for instructions.
- C. Purchasing will accept proposals up to the precisely designated time and date stated in the RFP. All proposals which are not time-stamped by Purchasing by the deadline will be considered late and will be returned to the applicant unopened. This is not an appealable procedure.
- D. The first working day following receipt of proposals, Purchasing will review and approve/deny all contract proposals for compliance with RFP minimum requirements. Proposals not in compliance with RFP minimum requirements shall be rejected and applicants shall be notified by Purchasing. After this review, Purchasing will send the copies of each proposal to the initiating Department/Office for evaluation.
- E. Purchasing will make the copies of proposals available to the initiating Department/Office by 2:00 pm the day after the proposals are due.

VII. EVALUATION AND SELECTION OF CONTRACTOR

- A. The following procedure describes the selection of an evaluation committee and their conduct during the evaluation of the RFPs. Any deviation from this procedure requires prior approval by the Purchasing Director.

- c. Designated members of the Evaluation Committee may contact applicants for clarification of proposals; however, no additions, deletions, or substitutions may be made to proposals that cannot be termed as clarifications. All such contacts must be documented.
- d. If the evaluation process includes oral interviews, the criteria for ranking must be described in the RFP.

2. Contract Award

- B. If recommended award is not made to the highest scoring proposal, the following must be submitted and approval must be granted by at least three members of the BCC.
- (1) Provide a detailed explanation of the reasons for award recommendation.
 - (2) Show findings that award procedure does not violate any applicable law or regulation.
 - (3) State why this award would be in the best interest of the public and the County.

- (1) State what steps were taken to solicit proposals.
 - (2) State any known reasons for receiving only one proposal.
- D. Purchasing will approve all materials submitted for accuracy and adherence to RFP and Ordinance 746 procedures and disperse Notice of Award letters to all applicants.
- E. Departments/Offices are cautioned that information contained in the Evaluation will become public record at the conclusion of the evaluation process, which occurs at the time the award letters are dispersed by Purchasing.

VIII. RFQ - SOLE QUALIFIED RESPONDENT

- A. If an RFQ is advertised and mailed to a potential list of applicants and the County receives only one qualified response, the Department/Office may:
 - 1. adjust the qualifications and readvertise;
 - 2. present an RFP to the single respondent; or
 - 3. begin negotiations with the sole respondent if the RFQ is sufficiently detailed to serve as a basis for developing a contract.
- B. The Department/Office must check the applicants' qualifications and advise Purchasing of their choice in the Transmittal Letter.
- C. Purchasing will notify the sole applicant of the decision by mail.

IX. APPEALS

- A. Applicants may appeal deviations from laws, rules, regulations or procedures. Disagreement with the process, e.g. scoring by evaluators, is not appealable.

- initiating Director/Elected Official/Manager. **(1 working day allowed)**
3. The initiating Director/Elected Official/Manager will send a written response to Purchasing. **(5 working days allowed)**

 5. The Purchasing Director may schedule a meeting with the applicant and the initiating Director/Elected Official/Manager to attempt to resolve the appeal. **(5 working days allowed)**
 6. If the appeal remains unresolved, the Purchasing Director will prepare written findings and a recommendation to the County Chair. **(5 working days allowed)**
 7. The Chair will review the grounds for appeal by the contractor and based on the record will affirm the process or reject it and instruct Purchasing to correct the process. **(5 working days allowed)**
 8. The RFP process is the same for all PCRB contracts which use the RFP process, except the PCRB (Board of County Commissioners) shall act as the final review authority for PCRB contracts, after a public hearing has been conducted.
 9. The County Chair's decision is final. Written notice of the decision will be sent by the Chair's Office to the contractor.

NOTE: Professional services contracts are not PCRB contracts.
