General Information

1. What action are you requesting from the Board?

The Department of Community Justice (DCJ) requests approval to apply for up to \$325,000 grant from the Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT), FY2013 Grant to enhance substance abuse treatment in the **Sanction Treatment Opportunity Progress Court. (STOP Court).**

2. Please provide sufficient background information for the Board and the public to understand this issue. Please note which Program Offer this action affects and how it impacts the results.

The purpose of this grant is to enhance and expand substance abuse treatment services in the STOP Court. STOP Court is a "problem solving" court which uses the treatment drug court model in order to provide alcohol and a drug treatment (including recovery support services supporting substance abuse treatment, screening, assessment, case management, and program coordination) to defendants/offenders.

An initial survey of the Multnomah County STOP Court program participants showed that 50% have current, former, or potential DHS involvement due to issues involving their

children and parenting. The link between addictions and child abuse or neglect is well documented. VOA recognizes an emerging trend in addictions treatment that also links increased potential for relapse and recidivism to the stresses and challenges of parenting, or as likely, initial failure to reunite with children. In order to bolster addictions treatment, VOA will offer parenting education and family strengthening services to a minimum of 40 STOP Court participants and their families. Parenting education is proven to decrease the risk of relapse and recidivism as well as strengthen child development and facilitate a child's school and life success. High quality, licensed childcare will also be offered, meeting a critical need that often imposes barriers to recovery.

This grant allows DCJ to continue our partnership with Volunteers of America. This grant will enhance and expand the existing STOP Program.

3. Explain the fiscal impact (current year and ongoing).

DCJ is requesting \$325,000 to be spent from October 1, 2013 through September 30, 2014. This includes 11.40% of Central and Departmental indirect expenses. The grant allow for \$33,258.52 indirect and there is no match required. This grant enhances and expands the existing STOP Program, FY2013 program offer #50013 and is a pass through to Volunteers of America.

4. Explain any legal and/or policy issues involved.

The grantee (DCJ) shall meet all grant requirements and must comply with the provisions and requirements and all other federal, state, local laws and regulation upon acceptance of the award.

5. Explain any citizen and/or other government participation that has or will take place.

This grant allows DCJ to enhance and expand the existing STOP Program in coordination with Volunteers of America Outpatient Treatment services.
