Investment Policy for Fiscal Year 1999-2000

1. Scope

- a. This investment policy applies to investing the financial assets of all funds included in Multnomah County's Investment Pool as defined in Section 13 of this policy. During the last fiscal year, the County's approximate average daily balance of funds invested was \$266,000,000, with a high of about \$598,000,000 in November and a low of about \$172,000,000 in October.
- b. Funds will be invested in compliance with ORS 294, other applicable statutes, this policy, and other written procedures.

2. Investment Objectives

- a. The primary objective of Multnomah County's investment activities is the preservation of capital and the protection of investment principal.
- b. The County's investment portfolio will remain sufficiently liquid to enable the County to meet all operating requirements that are reasonably anticipated. This preference for liquidity will be considered basic to investment decisions.
- c. The County will diversify its investments to avoid unreasonable risks regarding specific security types or individual financial institutions.
- d. The County will conform to Federal and State law and other legal requirements.
- e. The County will attain a market rate of return throughout budgeting cycles.

3. Delegation of Authority

The Treasury Manager is designated as the Investment Officer of the County and is responsible for the daily cash management, and investment decisions and activities.

4. Prudence

- a. The standard of prudence used by the Treasury Manager and Treasury staff in the context of managing the overall portfolio shall be the prudent investor rule, which states: "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."
- b. The Treasury Manager and Treasury staff, acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific security's credit risk or market price changes, provided that these deviations are reported to the Finance Director immediately and that appropriate action is taken to control any adverse developments.
- c. The Treasury Manager shall strive for best execution of trades and shall solicit competitive bids or offers for all instruments traded, whenever practicable.

5. Investment Diversification

- a. The County will diversify its investments across security type and institution. No more than 20 percent (20%) at market value of the County's total investment portfolio will be invested in a single security type as defined in Paragraph 8, or in instruments of a single issuer, or as limited by ORS 294.035, whichever is less. Exceptions to this twenty percent limit are:
 - i) The County may invest one hundred percent (100%) of its portfolio in U.S. Treasury securities.
 - ii) The County may invest seventy-five percent (75%) of its portfolio in securities of U.S. Government Agencies and Instrumentalities.
 - iii) The funds invested in the Local Government Investment Pool may exceed twenty percent (20%) to the extent allowed under ORS 294.810.
 - iv) The County may invest in repurchase agreements to the extent that the collateral received does not cause the County to exceed any limits set elsewhere in this policy, including, but not only, Section 5(a)(ii).
 - v) The County may invest in commercial paper and other corporate debt up to twenty percent (20%) of the total investment portfolio at market value, but may exceed that limit, up to twenty-five percent (25%), for a period not to exceed 10 successive business days.
- b. If due to unanticipated cash needs or investment maturities, the investment in any security type or any financial issuer exceeds the guidelines in this policy, the Treasury Manager is responsible for bringing the investment portfolio back into compliance as soon as practicable. The Treasury Manager will also advise the Finance

Director and Advisory Board members of the occurrence.

6. Investment Maturity

The County will maintain the following investment portfolio types and maturity dates:

- a. Short-term Investment Portfolio (maturities up to 3 years):
 - i) Using the projected cash flow schedule the County will attempt to match its investments with anticipated cash flow requirements. The County will not invest in securities with maturity dates longer than 3 years from date of purchase.
 - ii) The diversification of security maturity dates for the short-term investment portfolio will be measured at market value against average monthly portfolio balances as follows:

(a) Less than 30 days	10% Minimum
(b) Less than 90 days	25% "
(c) Less than 270 days	50% "
(d) Less than 1 year	70% "
(e) Less than 3 years	100% "
 - iii) If the goals for diversification of security maturity dates are exceeded by 5% or more for 10 successive business days, the Treasury Manager is responsible for promptly notifying the Finance Director and Advisory Board members.
- b. Long-term Investments (Maturities over three years and up to a maximum of five years):
 - i) Bond Sinking Fund or Certificate of Participation reserve monies may be invested in securities exceeding three years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of the funds, and the legal documents authorizing the financing allow for long-term investments.
 - ii) Self-Insurance Fund monies in the amount not to exceed \$8,000,000 (face value) may be invested in securities that exceed three years up to the maximum of five years. Securities purchased under this section are to be U.S. Treasury securities or securities of U.S. Government Agencies and Instrumentalities.

7. Investment of Bond Proceeds

The Treasury Manager will work with the Finance Director, the financial advisor, and the bond counsel to determine how best to invest bond proceeds. Bond proceeds will be segregated within the County's investment portfolio, and invested in a manner consistent with Internal Revenue Service limitations on tax-exempt issuers, as well as the trust indenture, if any, and the expectations of drawdown of proceeds.

8. Investment Limitations

- a. The following investment securities are allowed to be purchased under this policy. Additional investments are allowed by ORS 294.035, but are not allowed by the County investment policy to be purchased.

i) U. S. Treasury Issues:

- b) On an exception basis, an on-going investment of \$200,000 in a one-year TCD issued by Albina Community Bank is authorized. Such investment represents the core balance in the Inmate Welfare Trust Fund administered by the Multnomah County Sheriff's Office.

- c) TCD's purchased from any Oregon Community Bank as authorized by subsequent action by the Board of County Commissioners.

v) Repurchase Agreements (Repo's):

All repurchase agreements will be collateralized at margin ratios prescribed by written policy of the Oregon Short Term Fund Board. The County will not enter into term repo's with maturities exceeding 90 days.

vi) Reverse Repurchase Agreements (Reverse Repo's):

Before entering into a reverse repurchase agreement, the County will obtain a signed master repurchase agreement from the brokerage firm. The firm's current net worth must be over \$50 million. Reverse repo's cannot exceed two percent (2%) of the issuing firm's liabilities. Proceeds from reverse repo's will be invested in securities with maturities that match the

10. Authorized Financial Institutions and Securities Dealers

- a. Addendum A is the list of banks and securities dealers authorized to provide investment services. The County will limit all investment activities to the institutions in Addendum A.
- b. The Treasury Manager is authorized to sign a Trading Authorization agreement or master repurchase agreement with any institution included on this list.
- c. Additions to the list of authorized financial institutions may be made at the discretion of the Finance Director with written notification to the County Chair, the Board of County Commissioners and the Investment Advisory Board.
- d. Before the County purchases securities over \$100,000 from any financial institution, the County must have on file the firm's most recent audited financial report. The Treasury Manager is responsible for keeping current files indicating the necessary licenses and professional credentials of broker/dealers with whom the County

transacts business. The files will be reviewed annually by the Treasury Manager.

11. Cash Flow Planning

The Treasury Manager is responsible for preparing an annual projected cash flow schedule of all funds that are included in the County's Investment Pool. The projected cash flow schedule will be based on the previous two years actual cash flows. The Finance Director will review the schedule periodically. The Treasury Manager is responsible for comparing the cash flow projections to actual cash flows each month and will revise the schedule, if necessary, based on the actual cash flows.

12. Accounting Method

- a. At the time of purchase, investments will be booked at cost. Any gains or losses from investments sold or called will be credited or charged to investment income at the time of sale or call. Premiums or discounts on securities will be amortized or accreted over the life of the securities, and be credited or charged to interest income.
- b. The County shall comply with all required legal provisions and generally accepted accounting principles (GAAP). These principles are contained in the pronouncements of authoritative bodies, including, but not necessarily limited to, the American Institute of Certified Public Accountants (AICPA), the Financial Accounting Standards Board (FASB), and the Government Accounting Standards Board (GASB).

13. County Investment Pool and Interest Earnings Allocation

The funds not pooled will be restricted to: contract retainage and lien deposits; deferred compensation deposits and investments; Library Retirement Plan investments; funds held for Certificates of Participation and Revenue Bond reserves, or construction payments; petty cash funds; and imprest funds. These funds will earn interest income, if any, from the financial institution or organization holding the funds in a trust or fiduciary capacity.

 - v) Interest will not be allocated to the Federal/State Program Fund because the majority of the expenditures are on a reimbursement basis from the grantor agency, and the General Fund provides the cash flow.
 - vi) The General Fund will receive the balance of interest earnings. All other Funds that are supported in whole or part by the General Fund will not be allocated interest earnings.
 - vii) In the event a new fund or account is created, the Finance Director is authorized to make the determination if the fund or account should receive interest. This determination is to be based on the criteria used for the funds in existence at the time this policy is adopted.

15. Reporting Requirements

The Treasury Manager will provide the Chair of the Board, the Investment Advisory Board, the Executive Assistant to the Chair, and the Finance Director copies of the monthly investment portfolio report. At each quarterly Advisory Board meeting the Treasury Manager will provide the Board and the Finance Director a monthly detailed listing of all transactions, with an explanation for the decision to sell or purchase. The investment portfolio will be marked-to-market monthly for financial reporting purposes.

15. Indemnity Clause

The County shall indemnify County officials and Advisory Board members from personal liability for losses that might occur pursuant to administering this investment policy.

17. Internal Controls

The Treasury Manager and Treasury staff shall follow the internal controls outlined in the Financial and Budget Policy, Finance Division policies and procedures, and any policies adopted after this policy is adopted.

18. Performance Evaluation and Goals

The performance of the County's portfolio shall be measured against the performance of the Local Government Investment Pool yield and of 90-day Treasury Bill yields. It is the goal of the County to maintain a yield that is not more than ½ percent (.5%) lower than that of the Local Government Investment Pool, and is not less than ¼ percent (.25%) higher than the 90-day Treasury Bill yield. The County will attempt to compare its yield to Washington County and Clackamas County portfolios.

19. Investment Policy Adoption

- a. The County's investment policy will be reviewed by the Finance Director and Investment Advisory Board for appropriate modifications on an annual basis and submitted to the Oregon Short Term Fund Board.
