Contract/Amendment Description Or Comments

Intergovernmental Agreement with Oregon DEQ to allow certain development projects to be subject to the Multnomah County storm water management program. This agreement is related to the proposed reissuance by DEQ of the 1200-C National Pollutant Discharge Elimination System (NPDES) general permit, which regulates stormwater runoff from construction activities that disturb one or more acres of land. In local jurisdictions with eligible stormwater programs, construction activities that disturb less than five acres will be automatically covered under the permit and will not be required to submit an application to DEQ. This will reduce dual permitting for the qualifying construction projects. The Multnomah County stormwater program is one of several programs in area jurisdictions that qualify for this "automatic coverage" procedure. (DEQ Agreement No. Mult110410)
