PRIOR CRIMINAL HISTORY:

11/22/89 Theft III
11/29/90 UUMV
02/16/91 UUMV/Resist Arrest
01/04/92 Menacing

SUPERVISION SUMMARY:

- **Received at Intake/Case assigned 6/5/91 to MTSE and appointment scheduled with probation officer (PO) for 6/26/91.**
- **7/19/91 Client referred to Treatment Alternatives to Street Crime (TASC) for substance abuse evaluation/treatment. Referred to Community Service. Client enrolled at ITT Technical College and was unemployed.**

- 07/19/91 through 10/24/91 offender reported in routinely.
- Offender missed office appointment on 10/28/91.
- 10/30/91 Violation Report to Court. Client failing to comply with Alternative Community Services and treatment referral. Client admitted continued drug use (marijuana). PO requested hearing recommending 60 days jail to begin 2/1/92 if client is not in treatment.
- 12/12/91 offender in for routine reporting requirement.
- 1/4/92 offender was cited by Portland Police for Menacing. No weapon involved. Case is currently pending.
- 1/9/92 Judge Diez ordered offender be cited to appear in Court. Probation Officer was unable to contact offender.

GENERAL:

The offender was supervised according to the current Oregon Correction Management System at the appropriate risk level. This risk classification is based upon a risk assessment tool applied to all offenders when placed on probation.

The offender had been a victim in three separate reported assaults and one robbery with a knife, his prior history did not indicate a history of violence.

The offender admitted to marijuana use, and had been referred to treatment and to the Drug Testing and Evaluation program. He failed to follow through with either referral.

MEMORANDUM

TO: Board of County Commissioners

FROM: Robert A. Jackson, Director
Department of Community Corrections

DATE: January 21, 1992

SUBJECT: Briefing Materials

I am pleased to provide the Board with another update on the Department's implementation of Option I pursuant to the Community Corrections Act. As you know, we have made great strides over the past six months. The information which follows captures a few of the achievements of the Department for the period of October 1991 through December 31, 1991.

While we have made tremendous progress, the upcoming budget process is critical for the continued success of our community corrections program under Option I. I look forward to developing with you a comprehensive strategy for providing community corrections services for the citizens of Multnomah County.

Need For A Strategic Plan: December, 1990

- Creation of new Department of Community Corrections.
- New undertaking for Department.
- Develop organizational mission, goal, and objectives.

Preplanning Design Process: January, 1991 to March, 1991

- Creation of Department-wide planning process.
- Tasks and timeline for design of planning process.
- First Departmental meeting.
- DCC/DOC Design Team meetings.
- Recommendations developed for planning design.

Employee Interviews and Survey: March, 1991

- Survey designed and implemented.
- Findings:
 - Workload was rated as most critical issue facing staff with budget cuts, security/safety and resource availability close behind;
 - Behavior control was rated as the overriding role of corrections with the majority rating rehabilitation as important;
 - Effective leadership was listed as the most important issue to them personally with job resources, safety and job security close behind.

Managers Retreat: May 3, 1991

- Option I - advantages and disadvantages.
- Integrated service delivery.
- Management decision making.
- Role of management in planning process.

Work Session: May 24, 1991

- Identification and assignments of tasks.
- Development of timelines.

Managers Retreat: August 1-2, 1991

- Organizational Values.
- Vision for Department.
- Development of Mission Statement.
- Roles and responsibilities within the organization.
- Organization of planning process.

Managers Work Session: September 6, 1991

- Expanded workshop for all supervisory personnel.
- Revised Mission Statement.
- Reviewed short and long term objectives.
- Team building:
 - How to build a team to accomplish our mission
 - * Identify potential barriers
 - * Utilizing diverse skills.

Development of Planning Group: October 18, 1991

- Define the role and function of the Planning Group:
 - Coordination
 - * Keep Department's committees on schedule
 - * Review committee plans/products for completeness
 - * Enhance communication and coordination between committees and the policy team;
 - Inventory
 - * Develop an inventory of the Department's human assets to know what skills, interests and abilities we have to utilize
 - * Inventory of information developed by the committees and the Department and/or know where to get it;
 - Evaluation
 - * Assess committee plans/products for Department fit and coherence
 - * Develop data/information to assist policy discussion
 - * Evaluate impacts and/or effects of policy decisions or programs for policy teams
 - * Do staff work as needed for policy team.
- Conducted a survey of committees analyzing each committees mission, objectives, products, and timelines.
 - Develop a Committee Status Matrix (See Appendix A.)

Planning Group/Committee Work Session: November 15, 1991

- Explained the role and function of the Planning Group.
- Explained the Strategic Planning Process to committee chairs.
- Status reports received from committee chairs regarding ability to achieve goals.
- Exchanged ideas on methods to coordinate committee information.

Planning Group/Committee Work Session: December 13, 1991

- Continuation of committee chair status reports.
- Presentation and discussion of Planning Timeline.
- Discussion of standardized methodology for committee reports and action plans.

OFFICE OF THE DIRECTOR

DESCRIPTION: The Director's office is responsible for providing overall management, administrative coordination, and operational control for the Department. The Office serves as the liaison with other components of the County's criminal justice system, and coordinates the Department's activities with both state and federal agencies. Using the Department's strategic planning process as a model for rational decision making in a complex and dynamic criminal justice environment, this Office will work with the Board of County Commissioners, the District Attorney, and the Sheriff to develop policy options based upon principled correction practices.

OBJECTIVES:

- Provide leadership and direction for the Department.
- Institutionalize the strategic planning process for the Department.
- Create an organization that values diversity.
- Develop a community corrections agenda for the year 2000.

ACCOMPLISHMENTS:

- Provided management and organizational direction by establishing clear goals and objectives for the Department, Divisions and other operational units.
- Continued to facilitate the strategic planning process through the creation of the planning group.
- Began dialogue with the State of Oregon's Department of Corrections regarding resource allocation issues and defining the various types of workloads of community corrections personnel.
- Began public education and out-reach effort which includes planning for public hearings associated with the Community Corrections Act funding process.
- Continued to develop linkages with the Courts, District Attorney's Office and the Sheriff's Office as a predicate to developing a criminal justice/public safety plan for the County.

ADMINISTRATIVE SERVICES DIVISION

DESCRIPTION: The Division provides centralized administrative support and coordination for the Department. Functional areas within this Division includes: fiscal management and control, personnel management, policy and procedure development, employee safety, and budget development.

OBJECTIVES:

- Centralization of all fiscal functions.
- Promote positive labor-management relations that address issues and concerns in a constructive, effective, and efficient manner.
- Facilitate and implement active affirmative action plan.
- Coordinate Option I conversion issues including facilities, automobiles, phones, personnel, benefits, equipment, and leases.
- Ensure the Department provides a safe working environment.
- Creation of a data base:
 - Serves the Department's need for timely access to information, allowing for supervision of offenders and protection of the community.
 - Offers support for strategic planning and operation control decisions.
 - Where information regarding the essential elements for serving and protecting citizens is readily accessible to the public.

ACCOMPLISHMENTS:

- Centralized purchasing and payments resulting in savings through cost comparisons, bulk purchasing, and other inexpensive solutions to operational needs.
- Converted all branch offices to automated probation fees collection system and reaching 100% of the goal in budgeted revenues (\$602,875 per year/\$301,438 per half year budget - \$307,525 collected by December 31, 1991.) (See Appendix B.)
- Centralized payroll functions and adaptation to dual (exempt and represented) payroll systems.
- Completed Department hardware/software survey, program evaluation and management needs assessment, and near completion of the Department's long range MIS Plan and platform recommendations.
- Established standardized word processing format: WordPerfect. Conversion of all former state phone systems to county system.
- Purchased safety equipment for Department, including Cap-Stun, radios, safety/utility belts. Completed training associated with the acquisition of this new equipment.

DIAGNOSTIC AND PROGRAM DEVELOPMENT DIVISION

DESCRIPTION: The Division provides diagnostic assessment and referral services through the delivery of pretrial, presentence investigation, and intake functions. The Division plans, manages, and evaluates correctional programs and contracts services for pre- and post-sentenced adult offenders.

OBJECTIVES:

- Make presentence investigation and parole and probation intake processes more efficient.
- Provide enhanced diagnostic information and program recommendations at key decision points.
- Begin case planning as early as possible and assure continuity of supervision and a seamless flow of case information between pretrial and post trial supervision.
- Reduce the number of parole revocations that occur within the first few months of supervision.
- Assure the delivery of cost-effective contract services.

ACCOMPLISHMENTS:

- Working with the Courts and Field Services Division to provide presentence investigations, specialized evaluations and other services that are more responsive to their needs.
- Parole Transition Project is operational.
 - Staff are working with inmates before their release to Multnomah County.
 - Necessary protocols have been developed with staff at the State institutions.
- Program Development Committees are involving a cross section of the Department in developing program proposals in key areas for the 1992-93 budget planning. Highlights include:
 - Mental Health Committee representatives have been meeting with mental health agencies and County mental health managers to expand services for mentally ill offenders.
 - Sex Offenders Committee hosted a forum for the Department to discuss assessment, treatment and supervision issues with sixteen therapists.
 - Gangs Committee has been meeting with Portland Police and a local Gang Task Force to identify the most effective way for the Department to work with other involved agencies.

SPECIALIZED PROGRAMS AND SERVICES DIVISION

DESCRIPTION: The Division provides innovative programs and services appropriate to the specialized needs of offenders. These services include alternative sanctions, specialized case management, and utilization of treatment alternatives in support of the courts and supervision.

OBJECTIVES:

- Create and implement effective programming and services to meet specific offender needs.

Community Service Forest Project

- Positively impact offenders and the community, while providing a viable alternative to incarceration utilizing the natural environment of a National Forest as a work experience.

Alternative Community Services

- Increase program effectiveness to courts and supervision through appropriate system changes and improvements.

Women's Transition Services

- Provide case management specialized services and programs designed specifically for female offenders.

ACCOMPLISHMENTS:

- Developed a management structure to promote the link between probation/parole supervision and the treatment and sanctions needed to address specific offender needs.
- Coordinated several planning efforts which include a comprehensive plan for female offenders services, including child care for women who have community service and substance abuse treatment conditions imposed by the Court.
- Worked with Field Services Division to begin the process of addressing a host of issues in the area of domestic violence. Discussions have begun with the D.A.'s Office and the City of Portland to explore ways of cooperating to support the Department's efforts regarding domestic violence.
- The Forest Project has been involved during the past three months in clearing and rebuilding the trails in the Columbia Gorge after the devastating fires of September 1991. Forest Project crews were among the first crews to clear trails after the fires.
- Alternative Community Service has recently developed a group interview format to better handle the over 7,000 intake interview of offenders per year.

PAROLE AND PROBATION FIELD SERVICES DIVISION

DESCRIPTION: The Division provides supervision of approximately 10,000 offenders in Multnomah County - approximately 1,900 misdemeanants and over 8,000 felons. Supervision involves monitoring offenders' behavior in the community to prevent recidivism, making home and collateral contacts, involving offenders in meaningful activities, including full-time employment, counseling offenders and programming them for treatment as needed, and using all available alternatives before recommending incarceration to releasing authorities.

OBJECTIVES:

- To provide a proactive approach to supervising offenders in the community, enabling the Division to intervene before behavior leads to inappropriate and criminal acts.
- To provide assistance to those offenders with special needs to ensure community and public safety.
- Create a case management system which ensures that the offender population is appropriately managed and supervised within the community to enhance public safety.
- Provide a process that will closely monitor the placing of detainers, authorizing arrests, and submitting revocation reports to reduce the number of offenders returned to prison or imprisoned for the first time.

ACCOMPLISHMENTS:

- Developed Division management structure and procedures to ensure a clear understanding of goals and objectives of field services.
- Developing specialized caseload emphasis using behavioral information to target domestic violence cases for special supervision. DUII offender cases have been consolidated at a single branch to allow specialization of supervision.
- Improved community relations by having Branch Managers work more closely with neighborhood associations and community-based anti-crime efforts (issues such as location and operation of subsidy housing, treatment, etc.)
- Working to improve working relationships with other criminal justice agencies, including the Sheriff's Office, the D.A.'s Office, Courts and the State of Oregon's Department of Corrections.
- Analyzed and acted to improve staff safety by providing necessary equipment and training. This is a continuing effort.
- Worked with Administrative Services Division to improve supervision fee collection by:
 - Expanding the use of the automated billing system by an additional 5,000 cases
 - Developing training for Parole/Probation Officers to improve collection techniques
 - Making fee collection management information available to line staff and managers.

EXECUTIVE BRIEFING ON THE AMERICANS WITH DISABILITIES ACT

1. AMERICANS WITH DISABILITIES ACT DEFINED

The Americans with Disabilities Act of 1990 will effectively ban discrimination based on disability in: 1) Employment, 2) Public Service, 3) Privately-operated public accommodations, and 4) Telecommunications. Multnomah County will be affected primarily by two titles in the Act: Employment, which is administered by Equal Employment Opportunity Commission regulations; and, Public Service, administered by Department of Justice rules.

Department of Justice rules are effective January 26, 1992, while Equal Employment Opportunity Commission regulations are effective July 26, 1992.

2. LOCAL GOVERNMENT OBLIGATIONS

Department of Justice Rules, effective January 26, 1992, implement Title 2 (Public Service) provisions of the law. Those Rules require that public entities:

1. Designate a responsible individual;
2. Conduct a self-evaluation;
3. Provide public notice of our commitment to the law;
4. Assure access to programs, services and activities;
5. Establish an ADA grievance procedure for access to programs, services and activities;
6. Prohibit retaliation and coercion against those asserting ADA rights; and
7. Assure that policies, practices and procedures do not discriminate against people with disabilities.

Equal Employment Opportunity Commission Rules, effective July 26, 1992, implement Title 1 (Employment) provisions of the law. Those Rules stipulate that public entities:

1. May not discriminate against people with disabilities in any employment practice, policy or procedure;
2. Must reasonably accommodate people with known disabilities in their efforts to seek and retain employment;
3. Must establish qualification standards, tests and other selection criteria prior to recruitment; and
4. May not conduct pre-employment physical prior to job offer.

3. WHAT IS BEING DONE TO COMPLY

Multnomah County has completed several tasks, or is in the process of completing tasks, to assure compliance with the Americans with Disabilities Act such as:

1. Designated the City/County Affirmative Action Officer as the responsible individual.
2. Started the self-evaluation process to determine access of programs, services and activities and to reaffirm that facilities are accessible.
3. Developing an ADA grievance procedure for people with disabilities denied access to programs, services and activities.
4. Begun a review of policies, practices and procedures (including Employment) to assure they do not discriminate against people with disabilities.
5. Affirmed our commitment to the Americans with Disabilities Act by inclusion in the Affirmative Action Plan and dissemination of posters and other written material.
6. Will develop a Transition Plan by July 26, 1992, to modify existing non-compliant facilities.
7. Should complete structural modifications of facilities (if required) by July 26, 1995.

NOTE: Refer to the attached chart for a pictorial view of the activities and time lines for compliance.

ADA COMPLIANCE CHART

<u>Obligations</u>	<u>Effective Dates</u>	<u>Status</u>
1. Designate Responsible Employee.	January 26, 1992	Completed.
2. Self-Evaluation.	July 26, 1992	Started, will be completed after January 26, 1992.
3. ADA Grievance Procedures.	January 26, 1992	Will be in place January 26, 1992.
4. Policy, Practices, and Procedures Review.	January 26, 1992 (PSAs) July 26, 1992 (Employment)	Ongoing evaluation.
5. Affirm our Commitment to ADA.	January 26, 1992	1992-93 Affirmative Action Plan, Board Resolution, Posters, Written Material dissemination.
6. Transition Plan.	July 26, 1992	Will have City/County Advisory Committee on the Disabled evaluate facilities and assist in plan development.
7. Facilities Modification.	July 26, 1995	Action dictated by Transition Plan.

4. ANTICIPATED FINANCIAL OBLIGATIONS

Fiscal obligations resulting from ADA compliance are hard to predict at this time because we have no firm idea of what the County may ultimately be required to do to assure that facilities, programs, services and activities are accessible. However, we do know that the County must provide auxiliary aids and American Sign Language (ASL) interpreters for the deaf and hearing impaired to aid in participating in programs, services and activities.

The County's past compliance with the Rehabilitation Act of 1973, Section 504 may relieve some of our liability. However, some Departments may be affected more than others when considering costs related to facilities modifications and program, service and activity access. The County will have a better idea of these costs when the Self-evaluation Survey is completed and analyzed (after January 26, 1992) and the Transition Plan is developed (July 26, 1992). Costs and funding requests will be presented by the Departments later when figures are known.

5. SUMMARY OF POTENTIAL LIABILITIES

The County's liability for failure to comply with EEOC and DOJ regulations could be substantial and include the possibility of termination of federal funds and compensatory damages of up to \$300,000 per incident.

NOTE: Please see the attached chart for Enforcement Provisions of the ADA.

6. RECOMMENDATIONS

1. Adopt a resolution which asserts the County's desire to be in compliance with the Americans with Disabilities Act; and
2. Consider contingency funding (when the figures are known) to assure compliance.

SUMMARY OF INFORMATION

SUGGESTION

To be eligible for consideration a suggestion must be submitted on the approved form.

The completed form should be returned to a member of the Suggestion Committee, or sent to: ESC, B/101, R/134.

An accepted suggestion must identify a condition or problem and a solution which was not under active consideration by the affected department at the time the suggestion was submitted.

Suggestions will be evaluated on the basis of practicality, usefulness, originality, safety, and/or cost-effectiveness.

ELIGIBILITY

All non-management County employees. The Suggestion Committee will be responsible for final determination of eligibility.

PROCESSING

The Suggestion will be assigned a number and logged by the receiving Suggestion Committee member.

The Suggestion Committee will evaluate the Suggestion at the next scheduled committee meeting.

The committee shall inform the suggestor within 2 weeks of the committee meeting of the results of the evaluation.

1. The suggestion may need more analysis.
2. The suggestion may be passed on to the Board of County Commissioners for consideration.
3. The suggestion may be rejected.

OWNERSHIP

Suggestions and the ideas embodied in it become the exclusive property of Multnomah County upon submission of the suggestion.

PRESENT METHOD, CONDITION, or PROBLEM:**Present Cost:**

I am very concerned about the use of County Sponsered Classes which are taught on County Time.

Let me cite an example. A "Stress Management Refresher" course is led by Jerry Brown of Cascade Counseling Center. The course description I am referring to describes a course that is a "refresher" for employees who have already completed the 6 Week stress management series.

The Cost of the course is listed as "free" to all County employees. "Free" is hardly an appropriate description of the cost of the course to Taxpayers. I say this because this class may be taken on county time. The aforementioned course runs for a total of 4 hours. When one figures in travel time, etc., it is conceivable that an employee may actually be off

Subtotal:**PROPOSED SOLUTION:****Estimated Cost:**

his or her job for up to 6 hours to attend this course. The Costs for this are obviously dependent on the number of people participating and their salaries.

Proposal: No class should be offered on County Time unless that class is directly related to that persons job (i.e. no stress classes, exercises classes, massage classes, basket weaving classes, women's self defense classes, etc. etc.).

I am appalled that I am paying tax dollars for employees to attend this type of class. This inappropriate use of tax payers money should end immediately. (OFFER THE CLASS OVER LUNCH)

HEALTH SCREENING OPTIONS

The Health Promotion Program and Portland Adventist Hospital offer County employees (and their immediate family members) a chance to learn more about their health through "Health Chec." Programs can come to your worksite or you can go to Portland Adventist on your own (and still get the discount rates) - for information, check off the appropriate box on the registration form at the end of this Schedule. Gift certificates available, too!

Just how physically fit am I? What is my risk of heart disease? How healthy are my eating habits? What type of exercise is right for me?

Health Chec is a screening and assessment program designed to answer these and other questions. It can help you improve your health and lower your risk of developing serious health problems by providing you with individualized information about yourself and how it all relates to specific health factors.

The program includes a few basic components:

- Lifestyle questionnaire.
- Physical testing (optional).
- Education session.

Health Chec is a flexible program - you select the specific testing you need and want. This flexibility, coupled with state-of-the-art techniques and continuously updated information, means that you get just the right combination of evaluation and information that's right for you.

There are four levels of Health Chec available, as shown in the chart below, along with the cost to you for each level (the County pays the rest).

MULTNOMAH COUNTY JUVENILE DETENTION FACILITY

January 14, 1992

MULTNOMAH COUNTY JUVENILE DETENTION FACILITY

CAPACITY REQUEST RATIONALE

RECOMMENDATION

The Multnomah County Juvenile Justice Division **recommends an 88 bed facility** consistent with the DeMuro report recommendations and architectural design plans previously submitted. This capacity includes 20 beds for the Assessment Intervention and Transition Program.

BACKGROUND

The Multnomah County Juvenile Justice Division currently operates its detention facility under the State's public policies of "downsizing" and some of the most restrictive Detention Admission Criteria in the nation. It has been widely recognized that the County is detaining only those youth absolutely needing secure custody.

The State is likely to increase its downsizing efforts in the future due to both a philosophical commitment to the effectiveness of community based treatment as well as shrinking financial resources brought on by Measure 5. There are currently no efforts underway in the statewide juvenile justice system to relax or further restrict detention admission criteria.

CURRENT BED CAPACITY

BOYS II	-	22
BOYS III	-	22
GIRLS	-	10
NEW BOYS UNIT	-	20
AITP	-	20
TOTAL POTENTIAL CURRENT CAPACITY	-	94
LESS REGIONAL BEDS	-	- 12
TOTAL MULTNOMAH COUNTY BED CAPACITY	-	82

CAPACITY ISSUES

After deducting regional beds from the total, a theoretical total of 82 beds exist in Multnomah County to accommodate all pre-adjudicatory needs as well as "judicially ordered" back up for juveniles who have violated their probation. **(Note that this analysis assumes full capacity for the new Boys' Unit.)**

Current utilization practice gives priority access to the pre-adjudicatory population resulting in only one or two beds available at all times to serve as a judicial back up for a daily probation population of between 800 - 1,000 juveniles. This includes back up for all youth placed in community alternatives.

The County's role as regional resource is also likely to increase. Multnomah County's juvenile population ages 15-19 has increased in recent years and is projected to grow by 5,000 children by the year 2,000. Portland State's Center for Population Research estimates that this projection is already low as a result of the 1990 Census and current data indicates that the County has already reached its "projected" 1995 population in most categories. As a result, the "official" projections are in the process of being revised upward. The neighboring counties of Clackamas and Washington are growing at an even faster rate than Multnomah County and are projected to continue present patterns.

The Division has been committed to community based programming for a number of years. It practices an aggressive Diversion policy and has fully tapped existing community resources for a number of years. Additionally the Division has been aggressive in developing its own alternatives to both pre-adjudicatory and post-adjudicatory detention.

While the Division has been aggressive in its efforts to detain only the most appropriate juveniles, the Detention population has been steadily climbing over the last several years. During the last two years, the **average** monthly population has exceeded bed capacity in 16 separate months. During the last year, the **average** monthly population has exceeded capacity in all but one month. The following chart illustrates this problem.

Note: Since AITP is the new state funded program for youth who would otherwise be committed to the state training school, it is not included in the above figures. In fact, the presence of AITP probably decreases the number of youth held in regular detention.

Average Monthly Detention Population Boys II, III and Girls Units

Page 2A

DIVISION OPERATED ALTERNATIVES TO DETENTION

Below are descriptions and utilization information about the Division's own detention alternative programs. In addition to those described below, the Division actively utilizes Conditional Release, Release to Parent/Guardian/Relative, Contracts, Informal Dispositions, and other strategies when appropriate.

Close Supervision: This pre-adjudicatory program has served a total of 1,448 juveniles since 1989 with a daily average of 25.

Electronic Monitoring Program: This pre-adjudicatory program will serve up to 40 juveniles during an 8 month test period.

Detention Alternative Program: This post-adjudicatory program is a Community Service work crew designed as an alternative to sanctioning probation violators in detention. The program serves up to 13 youth per crew, 3 days a week plus an additional 12 on the weekend.

Probation Assistance Weekend: This post-adjudicatory program serves between 8 and 12 juveniles at a time and has served 80 youth since its inception.

Automatic Report: This is a post-adjudicatory program which requires chronic probation violators to appear weekly before a judge. This program provides opportunities for weekly successes and has been instrumental in reducing the demand for probation violation bed space.

COMMUNITY OPERATED ALTERNATIVES TO DETENTION

Community alternatives consist of a contracted 10 bed staff secure facility, a 4 bed foster home, a system of volunteer homes certified to provide short term emergency shelter care, and a variety of contracted shelter care services for children under custody of the State Children Services Division.

Community alternatives believe that they are turning away two youth for every three served. Many of these alternatives also have rigid criteria which screen out a number of difficult to place youth. Many programs will not take juvenile fire setters, sex offenders, or those who exhibit assaultive behavior.

UTILIZATION OF COMMUNITY ALTERNATIVES

Not only is the demand for community alternative services swelling beyond capacity, juveniles are increasingly difficult to place as they begin to fall outside the community's acceptable placement criteria. As previously reported, Children Services

UTILIZATION OF COMMUNITY ALTERNATIVES - continued

Division recently released a \$500,000 Request for Proposals for a 30 day Emergency Shelter for difficult to place youth. Not one single agency offered a bid. This is surprising in such a resource tight economy. The implication is that the community can not absorb any more of these children.

CONCLUSION

Besides utilizing its own alternatives to capacity, it is clear that the Division has also been taxing the community shelter care system to its limits. Children would not be held in Detention if home or some other suitable alternative were available. That there are children in Detention in the context of multiple Division operated and community operated alternatives means that there is no other suitable place. Existing detention population trends are unlikely to change soon since any additional community programming will simply relieve the stress on an already over utilized community based system.

The current shelter care system is thoroughly drained and providers are not seeking to expand their services to the more difficult youth. If not served by Detention, these children would create an unacceptable deluge in the community. Again, it must be emphasized that the County is experiencing the reality of state downsizing and it must position itself well to adequately implement "community responsibility" as its own public policy. Community responsibility includes short term secure custody.

A new facility must carry the County well into the next 20 years. The facility must not only meet today's detention needs but future needs as well. Assuming continuation of existing public policy, assuming modest population growth in this County and continued active growth in the two neighboring counties, and assuming on-going development and utilization of community alternatives, the Division can recommend no less than 88 beds.

The Division believes that its recommendation for 88 beds is an extremely **conservative estimate**. The recommendation represents a decrease from existing capacity if AITP and a fully funded third boys' unit are considered. The recommendation assumes continuation of existing community based alternatives to detention and aggressive development of new alternatives.

The recommendation is consistent with the DeMuro report which based its estimate on ideal capacity on the assumption that all of its other recommendations would also be implemented. While it is indeed unfortunate that any children must be held in secure custody, it is a reality if community responsibility is to be adequately fulfilled.

In the Matter of Building a)	RESOLUTION

Plan for Multnomah County)	

WHEREAS, Robyn A. et al. v. McCoy et al is a class action suit filed against Multnomah County alleging the existence of unconstitutional conditions at the Juvenile Detention Home, and

WHEREAS, the County Board referred a \$23 million bond issue to the voters in May, 1990, to construct a new juvenile facility. The bond was defeated. A major issue in the campaign was the lack of a Comprehensive Plan for Juveniles.

WHEREAS, the Board has received several reports relating to youth and delinquency in the past year. (e.g. the Child Abuse Task Force, the Child and Adolescent Mental Health Planning Group, the Service Plan for Displaced Youth, and the consultant's study on the juvenile home.)

WHEREAS, consultants Richard Gable and Paul DeMuro issued a Program Review of the Detention Facility and Practices in September, 1991. The report noted that there were needs to expand "the number and improve the accessibility of pretrial detention alternatives" and "the county's post-adjudicative alternatives for committed youth". The report concluded that:

In many ways, the County's need for a secure detention facility will be contingent on its commitment to alternative programs. Without a doubt, chronic and violent offenders will need to be held in secure care. However, a thoughtful commitment to alternative programs will both reduce the need for secure care beds and offer more of an opportunity for some of Portland's troubled youth. In this case, development of decent alternative programming makes good economic and programming sense.

WHEREAS, the recent efforts of the Portland Employment and Empowerment Coalition is evidence of strong community concern about the root causes of gang involvement and activity.

WHEREAS, the Children's Justice Steering Committee recommended that the county commit to construct a new juvenile facility and begin a planning process for the needs of youth.

WHEREAS, the need for a new juvenile home is symbolic of the lack of adequate services for children and young people,

THEREFORE BE IT RESOLVED, the Board of County Commissioners recognizes the need for a new juvenile facility to be an emergency. The Board does not want to fund extensive improvements to a building that must be abandoned soon.

THEREFORE BE IT FURTHER RESOLVED, that the Board commits to construct a new juvenile facility as quickly as possible. The Board will pursue regional funding from other jurisdictions proportionate to their use of the facility.

THEREFORE BE IT FURTHER RESOLVED, that the Board requests that the Chair schedule a briefing on the specific design of the facility within 30 days. Also, the Board requests that the Chair present a plan to the Board to fund the facility within 60 days.

THEREFORE BE IT FURTHER RESOLVED, that the Board will make the following emergency expenditures:

a. One time only repairs to meet Fire Marshal requirements, after Facilities Management has rediscussed these requirements given the commitment to build a new facility and to cap the existing facility.

b. Programming to adequately serve youth at the facility.

c. A partial third boys unit to operate between now and June 30, 1992.

THEREFORE BE IT FURTHER RESOLVED, that the Board will provide funding for appropriate community alternatives for juveniles as part of the Comprehensive Youth Action Plan. The Board will ask the Department to monitor and evaluate the success of that programming to help determine the final size of the new facility.

THEREFORE BE IT FURTHER RESOLVED, that the Board recognizes that a new facility does not address the inadequate prevention and intervention services for youth. The Board therefore requests that a Comprehensive Youth Action Plan be developed by a Task Force, with representatives from the following:

Juvenile Department	Youth Program Office
District Attorney's Office	Juvenile Court
Law Enforcement	Children's Services Division
Tri County Youth Consortium	Public Schools
Community Agencies serving youth - 2	
Children and Youth Services Commission	
Children's Justice Steering Committee	
Court Appointed Special Advocates	
Oregon Council on Crime and Delinquency	
Multnomah County Legal Aid or Juvenile Rights Project	

THEREFORE BE IT FURTHER RESOLVED, that appointments will be made in accordance with the Charter. The Planning Group will select its own chair. Staff will be provided by the Board of Commissioners, and other agencies as requested by the Chair.

THEREFORE BE IT FURTHER RESOLVED, that the Comprehensive Youth Action Plan Task Force will develop a strategy for dealing with preventing juvenile delinquency and intervening with children who are already delinquent.

THEREFORE, BE IT FURTHER RESOLVED, that the Task Force will consider the recommendations of the Child Abuse Task Force, Child and Adolescent Mental Health Planning Group, Service Plan for Displaced Youth, and the consultant's report.

THEREFORE BE IT FURTHER RESOLVED, that the goal of this Plan is a reduction of delinquency through early intervention in the lives of predelinquent youth and reintegration of delinquent youth into productive lives in the community. In pursuit of that goal, the Plan should include recommendations designed meet the objectives outlined in Appendix A.

THEREFORE BE IT FURTHER RESOLVED, that the Committee will report to the Board by March 15, 1992. The Board commits to reviewing and adopting a plan and funding it during its 1992-3 budget process.

APPENDIX A

Protect the public by targeting beds at the Home to those who pose the greatest public safety risk

Increase effectiveness of probation by developing a progressive series of sanctions as a consequence for violations of standards

Increase the accountability of youth by providing a continuum of services between the Youth Services Center and the Juvenile Home.

Strive for greater public safety and youth accountability, by building upon the skill based competency program and including services such as job readiness skills, mental health, health, alcohol and drug treatment, and appropriate living arrangements.

Target resources to youth who now occupy space at the Home because of a lack of appropriate alternative sanctions - e.g. dependency cases, children in need of shelter care.

Target resources to young sex offenders and victims of child abuse, who may become delinquent without treatment.

Provide services attuned to cultural differences and diverse youth populations

Expand community prevention efforts aimed at keeping youth out of gangs.

Seek a balance between prevention services which seek to assist younger children who will likely be delinquent if assistance is not provided and intervention services directed at youth already involved in delinquent activities

SUBJECT: JDH Financing

SUMMARY

On December 10, 1991 you requested us to explore alternative financing methods to replace the Donald E. Long Home.

Three methods are available:

- General Obligation Bonds
- Revenue Bonds
- Certificates of Participation

Because of the current low interest rates, there is no overriding financial advantage of one method over the other. The difference in annual cost between General Obligation Bonds (the least expensive method) and Certificates of Participation (the most expensive) would be about \$36,000 per year on a \$20 million issue, and \$54,000 per year on a \$30 million issue.

A more detailed comparison of the financing methods follows, but what seem to us the most important advantages and disadvantages are:

General Obligations Bonds

Advantages - least expensive option; will not require any payments from current revenue stream because they have their own taxing source.

Disadvantages - require voter approval; long timeline for process.

Revenue Bonds

Advantages - do not require voter approval.

Disadvantages - require additional, new, revenue source tied to the facility.

We believe Revenue Bonds may not be appropriate to finance this building. The requirements to establish a clear tie between the revenue source and the constructed facility will be difficult to meet.

Certificates of Participation

Advantages - do not require voter approval; short timeline.

Disadvantages - most expensive option; requires payments from current revenue stream.

COMPARISON OF FINANCING METHODS

The following is a brief analysis of the three options.

<u>Description</u>	<u>Certificates of Participation</u>	<u>GO Bonds</u>	<u>Revenue Bonds</u>
Authority	ORS/County Charter Executive Order 196	ORS	ORS/County Charter
Potential Issue Size	\$58,000,000 ⁽¹⁾	Amount authorized by vote	Depends on project and revenue stream
Voter Approval	No	Yes	No
Maximum No. of Years	20	30	20
Security	Purchased asset	Taxing authority	Revenue stream
Risk to Investors	Highest	Lowest	Middle
Moody's Rating	A1	AA1	AA (est.)
Limited by Measure 5	No	No	No

(1) Amount subject to change depending on outstanding issue amounts and General Fund revenue. This estimate is based on 1992-93 General Fund Revenues of \$145,000,000.

Financing can be used for the following:

1. Land purchasing and land improvements.
2. Building purchase or building renovation.
3. Architectural fees relating to building.
4. Infrastructure, telephone and computer lines.
5. Furniture and equipment.
6. Permits and licenses required by project.
7. Cost of issuance.
8. Reserve requirements (approximately 10 percent of issue size).

Financing cannot be used for the following:

1. Leases without option to purchase.
2. Moving costs or displacement costs.
3. Operational costs.
4. Material and services used in operations.

General Obligation Bonds

General Obligation Bonds are bonds secured by the full faith and credit of the issuing government and repaid by property taxes levied against the property within the boundaries of the issuing jurisdiction. Multnomah County can issue General Obligation Bonds only with voter approval. General Obligation Bonds are not affected by property tax limits resulting from measure 5.

<u>Issue Size</u>	<u>Estimated Interest Rates (1)</u>	<u>Annual Interest and Principal Payment</u>
\$ 20,000,000	3.75% to 6.30%	\$ 1,744,000
25,000,000	3.75% to 6.30%	2,180,000
30,000,000	3.75% to 6.30%	2,616,000

(1) Bonds maturing in year one carry the lowest rate, bonds maturing in year 20 carry the highest rate.

- Advantages -
- Not limited by measure 5.
 - Debt payments made from additional, dedicated, tax revenue.
 - Lowest interest rate among options.
 - No impact on 5% Cap Limitation based on General Fund revenue.
- Disadvantages -
- Require voter approval - outcome uncertain.
 - Electoral process requires long timeline before revenue becomes available (see attached timeline).
 - Additional revenue would require additional bond election, makes phase in difficult.

Revenue Bonds:

To issue revenue bonds, the County has to have an established revenue source that is dedicated for the retirement of the debt. In order to sell these types of bonds we must have data on the revenue source establishing past history or future trends that indicate the revenue is sufficient to meet the debt schedule requirements and the revenue must be dedicated and separated into its own fund. The rating agency(Moody's)/underwriters will probably consider the revenue source "sufficient" if it covers 120% of the annual cost of bond principal and interest payments. If the revenue source will be generated by a new fee or tax, the ordinance enacting the fee or tax must be in place before issuing the bonds; any initiative/referendum period must be past and the fees or taxes must be outside of measure 5 limitation. Property taxes cannot be pledged to secure the debt.

<u>Issue Size</u>	<u>Estimated Interest Rates (1)</u>	<u>Annual Interest and Principal Payment</u>
\$20,000,000	3.8% to 6.55%	\$ 1,764,000
25,000,000	3.8% to 6.55%	2,205,000
30,000,000	3.8% to 6.55%	2,646,000

(1) Bonds maturing in year one carry the lowest rate, bonds maturing in year 20 carry the highest rate.

- Advantages -
- Voter approval not required.
 - Not limited by measure 5.
 - Lower interest rate than COP's but higher interest rate than GO Bonds.
 - Additional bonds may be issued at a later date if revenue can support the debt payment schedule. Would allow for phase in.
- Disadvantages -
- Possibly take revenues from General Fund that could be used for programs.
 - Fee or tax imposed to support debt schedule must not be considered a "property tax" under measure 5.
 - Fee or tax may be referred to voter which would require the County to wait past the referendum period before issuing debt.
 - If new revenue source, Moody's and investors would have to be convinced of stable revenue source.

Certificates of Participation

Certificates of Participation are financial instruments issued on behalf of Multnomah County by a third party. They are secured by the property or equipment purchased with the proceeds from sale of the certificates. Title to the property or equipment passes to the County when the certificates are retired, therefore, the property cannot be used as security for more than one issue of Certificates at any time.

By order of the Chair, there is a cap on the total lease/purchase amount paid per year of 5% of the General Fund. After accounting for existing Certificates of Participation, the maximum available issue in 1992-93 (assuming low interest rates continue) will be \$58,000,000. The 5% cap was established in July 1988. In establishing the cap, Finance used a percentage that was fiscally responsible but very conservative and Dave Boyer feels that if the cap was raised to 7% there would be no impact on the County's ratings for Certificates of Participation.

<u>Issue Size</u>	<u>Estimated Interest Rates (1)</u>	<u>Annual Interest and Principal Payment</u>
\$ 20,000,000	3.90% to 6.55%	\$ 1,780,000
25,000,000	3.90% to 6.55%	2,225,000
30,000,000	3.90% to 6.55%	2,670,000

(1) Bonds maturing in year one carry the lowest rate, bonds maturing in year 20 carry the highest rate.

|-----------------|--|
| Advantages - | • Funds become available quickly, only Board action is required. |
| Disadvantages - | • Debt payments made from General Fund at cost of potential ongoing programs or wage settlements.
• Highest interest rates among options.
• Reduce amount available within 5% Cap Limitation based on General Fund revenue.
• Additional certificates cannot be issued later secured by same property, make phase in difficult. |
